Subject: GRSG: BLM plan review

I understand that many of you are seeing the BLM plans again through the cooperating agency review process and several of you have asked about expectations regarding further review.

If you, or your staff, completed the reviews previously to account for and document changes from the guidance or lingering concerns, then we do not expect further review and reporting. If, in your belief, there remain fundamental flaws, please raise these issues through your leadership. Please call your regional coordinator if you have additional questions.
