Hi Jody,  
Thanks for the chat today. We are checking with WO to see about the protest letter from MT. It may be easier to ask Tim Baker for it though. J

John. I am trying to pull together what the BLM plans in MT mean to Oil and Gas, Renewables and Infrastructure. The Montana petroleum association has the attached opinion. Do you agree or not? Jeff is out this week and through Monday, so I wanted to get moving on this. Give me a call if you have questions. JB

Hello

Several of you have asked for details of the recent BLM management plans that were released last week. Here are all but the Hi-line plan. Anyone wanting to develop resources on Federal lands in Montana will find this very cumbersome if not impossible to deal with. It will be interesting to learn what impacts a core area wide No Surface Occupancy rule will do to the adjacent private lands.

We are still working through the approach that MPA wants to take on these. Likely join in protests with our regional peers and work via the Governor's office.

I would be interested in your comments and/or ideas.

Best Regards

dave
