Hi Lara - we don't have those GIS data here. Adam - would it be possible for you to send Lara lek location data for MT (or for her to retrieve it from an FTP site, etc.)? It's for sage-grouse management analysis purposes. Thanks!

Hi Jody and Jeff,

I may have more questions for you as this analysis progresses, but in order to decide how to proceed initially, how quickly can you provide me either with lek points for MT, or with leks buffered already by the 6/10s of a mile?
