

Charter, Mitigation Review Team (MRT)

Purpose

The team is formed to develop recommendations for the Directors in R1, R6, and R8 that will improve the Service's ability to review Greater sage-grouse mitigation programs seeking Service approval. The recommendations should improve range-wide consistency of review and evaluation of sufficiency for Greater sage-grouse conservation.

The team will:

- Identify policy considerations and develop briefing materials for pre-listing mitigation issues
- Develop recommendations for minimum standards necessary for Service approval of pre-listing mitigation programs
- Develop recommendations for a Pre-Listing Mitigation Program Review Process
- Provide the technical review of mitigation programs seeking Service approval
- Coordinate with BLM on GRSG Mitigation reviews

Team Membership:

Name	Role	Reg.	Title	Email	Phone
Shauna Ginger	Co-lead	1	Ecosystem Services Biologist	shauna_ginger@fws.gov	503-231-6949
