## Maintenance and Infrastructure Fellows Program - Summer 2023!

### PAID CAREER OPPORTUNITY

If you're looking for career pathway opportunities with the U.S. Fish & Wildlife Service, this PAID Maintenance and Infrastructure Fellows Program is what you're looking for!

#### Work on mission-critical projects:

- maintenance
- engineering
- architecture
- facility operations
- data analysis
- climate change adaptation planning
- hydrology
- geomorphology

The fellowships are paid, include benefits, and are typically 26-52 weeks.

### BENEFITS

- Hands on learning/training
- Paid orientation with travel
- Mentorship/professional development
- Living allowance (\$650 - \$850 per week)
- Monthly housing (\$1500)
- Relocation assistance
- Health insurance option
- Non-competitive hiring eligibility (with successful completion of fellowship)

### ELIGIBILITY

- Available to serve 6-12 months
- High school diploma/GED
- 17 - 30 years old (veterans up to age 35).
- U.S. citizen or permanent resident.

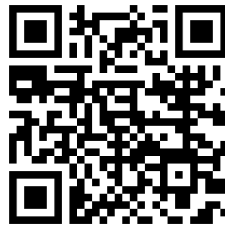

### COHORTS

- Maintenance
- Engineering/architecture
- Facility operations/data analysis
- Climate change adaptation
- Hydrology/geomorphology
