## *Course Description*

### Airboat Module (ABM) Refresher Online Course

SAF4A02R

#### Target Audience

Airboat operators who are approaching the 5 year refresher date.

#### Summary and Objectives

As per DOI 485 DM 22 Watercraft Safety Policy, the MOCC Airboat Module (ABM) Refresher Certification is required every 5 years and consists of educational and practical proficiency components. All operators of DOI Watercraft must also maintain their MOCC Certification by completing refresher requirements every 5 years.

MOCC Refresher recertification is separate from the Airboat Module refresher requirement.

Upon completion of this course, participants will be able to:

- Understand the operating principles of an airboat;
- Understand the control panel and purpose of each gauge;
- Identify and describe each part of an airboat;
- Perform a pre-trip safety inspection;
- Demonstrate how to start, stop, and turn in both shallow and deep water;
- Operate an airboat at minimum and optimal cruising speeds; and
- Demonstrate docking, beaching, and loading/unloading an airboat.

#### Curriculum Category

Safety and Emergency Response

#### Course Type

Online Self Study

#### Tuition

\$0

#### Instructional Hours

2

#### Credits/ CEUs

0.0

#### College Credits
