

SOTS Presentation Guidelines for Students

General

- Individuals can submit multiple abstracts; the organizers will accommodate as many presenters as possible.
- SOTS is a virtual event. Detailed information and instructions on presentations will be available to presenters in advance of the meeting.
- Presenters are required to meet with the SOTS planning team, in advance of the meeting, to test audio/computer connections and review presentation content.

Science Briefs

- Science briefs will have 4 minutes total with a group question-and-answer session available at the end of the entire session of science brief presentations.
- Guidelines for slides and other presentation materials will be provided to speakers after abstracts have been selected.
- Presentations will be broadcast and recorded.
- Presenters are responsible for ensuring they have sufficient technological capacity to provide a clear transmission, and should be prepared for at least one advance test with the SOTS planning team to check on audio and computer connections.
