LAYER ID	DATA LAYER NAME
1	GRSG Management Zones
2	GRSG Current Occupied Range
3	Wind Potential
4	BLM Livestock Grazing Pastures and Allotments, Billed for Grazing in the 2013 Billing Year
5	Bi-State DPS and Canadian Range
6	BLM Livestock Grazing Allotments, Not Meeting Land Health Standards for Habitat with Grazing as a Causal Factor, 1998-2012
7	BLM Livestock Grazing Allotments, In-Term Authorizations, October 2014
8	GRSG Historic Range
9	GRSG Populations
10	GRSG Strongholds
11	Priority Areas for Conservation(PAC)
12	Important Priority Areas (IPA)
13	ADPP Alternative - Oil and Gas
14	No Action - Oil and Gas

15 ADPP Alternative - Habitat Designations

16 No Action - Habitat Designations

- * **Data Layer** = Numbered list for data layers. This number will I
- * **Data Layer Name** = Name/label used in the map legend
- * **Description** = Short description that explains what the data
- * **Source** = Source/s or publisher of the data
- * **ScienceBase Link** = Link to where data is stored in the "Sage C

LAYER DESCRIPTION

This data set identifies Management Zones to be used in work for the USFWS 2015 Status Review for the greater sage-grouse. Management Zone boundaries in this data set were slightly adjusted from the 2006 WAFWA Management Zone data set.

This data set represents Greater Sage-Grouse Current Range to be used in work for the USFWS 2015 Status Review for the Greater Sage-Grouse. Current Range is defined as areas believed to be currently occupied. Therefore this data set represents occupied habitat for Greater Sage-Grouse.

NREL wind resource potential. Areas of Wind Power Class (WPC) of 3 or more were extracted from the NREL data. Pastures and Allotments billed for livestock grazing in the 2013 fee year. Based on an Export from the BLM's Range Administration System in October of 2014 , and delivered to the FWS as part of the 2014 data call.

BLM Allotments Not Meeting Land Health Standards for Habitat Quality with Grazing as a Causal Factor, 1998-2012. From BLM internal Data Call, and delivered to the FWS as part of the 2014 data call.

BLM Allotments authorized for grazing, in term authorizations, October, 2014. Based on an Export from the BLM's Range Administration System in October of 2014, and delivered to the FWS as part of the 2014 data call.
