These data are the result of running the shapefile "GrSG_BLM_SMA_20150505_with_states_OccRange_UnitName" (modified version of layer supplied by BLM on April 7, 2015) through the Population Index Summary tool (developed by FWS R6 Bismarck Field Office and run by him on May 22, 2015) and summarizing on the "MZ" and "Agency" field

NOTE: the "UND" (undetermined) designation was used by BLM in most cases to indicate open water areas. The CA (MZ V) where many of the (presumed) Private lands were designated "UND" because the agency had not made determination of the land ownership.
