U.S. Fish and Wildlife Service Pacific Southwest Region Migratory Birds Program

Recommended Buffer Zones for Human Activities around Nesting Sites of Bald Eagles in California and Nevada

December 2017

The U.S. Fish and Wildlife Service has national guidelines for management of bald eagles including recommended nodisturbance buffers around bald eagle nests (U.S. Fish and Wildlife Service National Bald Eagle Management Guidelines 2007). Bald eagle nesting sites in California and Nevada may require larger no-disturbance buffer zones than recommended in the national guidelines when local jurisdictions recommend larger buffers, when nests are located in remote or arid areas, or when intensity or duration of human activities are above normal conditions; e.g. when a nest draws high levels of public interest a larger buffer may be appropriate.

Summary of U.S. Fish and Wildlife Service National Bald Eagle Management Guidelines (2007) recommendations for no-disturbance buffer zones around bald eagle nesting sites*

*Please refer to the *National Bald Eagle Management Guidelines* for specifics, further information, and potential conditions under which the maximum buffer may be reduced.

Activity	Maximum Recommended No-Disturbance Buffer	
Category A		
Building construction, 1 or 2 story, with project footprint of $\frac{1}{2}$ acre or less.	660 feet	
Construction of roads, trails, canals, power lines, and other linear utilities.		
Agriculture and aquaculture – new or expanded operations.		
Alteration of shorelines or wetlands.		
Installation of docks or moorings.		
Water impoundment.		
Category B		
Building construction, 3 or more stories.	660 feet	
Building construction, 1 or 2 story, with project footprint of more than $\frac{1}{2}$ acre.		
Installation or expansion of marinas with a capacity of 6 or more boats.		
Mining and associated activities.		
Oil and natural gas drilling and refining and associated activities.		
Category C	660 (
Timber Operations and Forestry Practices	660 feet	
Category D	660 feet	
Off-road vehicle use		
(including snowmobiles)		
Category E	330 feet	
Motorized Watercraft use		
(including jet skis/personal watercraft, but exclusive of airboats)		
Category F		
Non-motorized recreation and human entry	330 feet	
(e.g., hiking, camping, fishing, hunting, birdwatching, kayaking, canoeing)		
Category G	1,000 feet	
Helicopters and fixed-wing aircraft		
Category H	½ mile	
Blasting and other loud, intermittent noises (including fireworks)
