Difficulty Level: Average

About this Position

Monomoy National Wildlife Refuge is looking for volunteers to staff either our visitor center or the Friends of Monomoy Fred's Shed. Our visitor center is air conditioned and has a small kitchen. Along with this, we have a lovely oceanfront view and access to our Morris Island trails.

You would be providing a great help to the refuge by providing information to visitors about Monomoy, the work we do and explain how to access the trails. This work includes visitor engagement, understanding the area and knowledge of Monomoy National Wildlife Refuge, being stationed either inside the visitor center or outside at Fred's Shed kiosk, and making sure all of the exhibits are clean. Training will be provided to educate about Monomoy National Wildlife Refuge and visitor center operations.

Our visitor center is looking for volunteers to cover 3 hour shifts any day of the week but primarily on weekends from 10:00 AM to 1:00 PM or 1:00 PM to 4:00 PM.

After that, we are looking for volunteers to be able to staff the visitor center until the winter season daily from 10-4. For more information contact our Refuge Manager, Rick Nye, at richard_nye@fws.gov.
