

Wapato Lake

National Wildlife Refuge Hunting Regulations 2022–2023

Welcome:

Wapato Lake National Wildlife Refuge was officially established in 2013 as part of the Tualatin River National Wildlife Refuge Complex. With over 900 acres of continuous protected area, Wapato Lake National Wildlife Refuge is a fantastic place for a variety of wildlife, including the many migratory waterfowl that stop-over in the winter. The refuge is amazing year-round though; the changing seasons are reflected in the fluctuations of landscape and the wildlife who inhabit it.
