

Wood bison

threatened

Wood bison were once found in much of Alaska. Their population declined and today there is only one reintroduced herd in the state. Male wood bison can weigh up to 2,000 pounds while females weigh up to 1,000 pounds. It is the largest land mammal native to North America! Have you ever seen a wood bison? They have a triangle-shaped head, a thin beard and throat mane, horns, and a shoulder hump.

Protected by the U.S. Endangered Species Act
