

# National Domestic Listing Workplan FY22 Workplan (March 2022 Version)

**Key to Action Types:** 12M/PLPCH – 12-month finding on a petition to list a species. If listing is warranted, we generally intend to proceed with a concurrent proposed listing rule and proposed critical habitat designation, if critical habitat is prudent and determinable.

Discretionary Status Review/PLPCH – Status review undertaken by discretion of the Service. Results of the review may be to propose listing, make a species a candidate for listing, provide notice of a not warranted candidate assessment, or other action as appropriate.

PLPCH: For species that are already candidates for listing, a proposed listing determination would either propose the species for listing or provide notice of a not warranted finding. We generally intend to propose critical habitat designations concurrent with proposed listing rules, to the extent prudent and determinable.

FLFCH: For species that have already been proposed for listing, the final listing determination would either finalize or withdraw the proposed listing rule. We generally intend to finalize critical habitat designations concurrent with final listing rules, to the extent prudent and determinable.

FL: For species that have already been proposed for listing, the final listing determination would either finalize or withdraw the proposed listing rule.

PCH: For species that are already listed, a proposed critical habitat rule will propose to designate critical habitat for the species, if we find critical habitat is prudent.

rPCH: Revised proposed critical habitat rule.

Reopen: A reopening of the comment period on a proposed rule.

**Bolded entries have court-ordered dates associated with them.**

Package Name	Species Name	Action Type	Lead FWS Legacy Region	Lead DOI Region	Priority Bin Ranking or LPN	Planned FY	Range	Scientific Name
	Columbia oregonian snail	12M/PLPCH	R1	9	5	FY22	OR, WA	<i>Cryptomastix hendersoni</i>
