

Mentored Hunt Units

UNIT	Primary Deer species	Habitat types	Approx. Distance from parking to beginning of unit	Suggested footwear (under normal conditions)	General comments
X1	Sika/WT	Forest	0	Knee boots	Generally easy walking on trails; Although after rains, water can be deep on trails. Woods are thick in many places.
X2	Sika/WT	Forest	0	Knee boots	Generally easy walking on trails; woods are thick in most places. Do not hunt within 150 yards of the public parking area.
X3	Sika/WT	Forest	750 yards	Knee boots	Generally easy walking on trails; woods are thick in most places
S1	Sika	50% forest/ 50% marsh	0	Knee boots/Hip waders near marsh	Woods are generally dry, marsh is primarily phragmites.
S2	Sika	Mostly marsh, small forested island	1 mile	Hip waders	Ditches on sides of road are deep! Bridge on right will lead to stand in marsh. Marsh primarily phragmites.
S3	Sika	50% marsh/50% forest	1.25 miles	Knee boots on island only /hip waders	Large island generally dry and woods open. Ditches are deep.
S4	Sika	25% forest/75% marsh	1.75 miles	Knee boots on islands only/Hip waders	Several small "islands" within marsh with pines/oaks. Ditches are deep. Not available for January hunts due to eagle nest.
M1	Sika/WT	Mostly forested	0	Knee boots/hip waders around creek	Parking on side of road at old gate. Mixed open and thick woods.
M2	Sika/WT	Mostly forested	0	Knee boots/hip waders around creek	Mostly thicker woods. Unmapped trail to stand is flagged from east side of parking area. Do not hunt on Tubman Trail because other hunters may be using for access.
M3	Sika/WT	Mostly forested	200 yards	Knee boots/hip waders around creek and marsh	Mostly a mix of open and thicker woods. Some marsh edge. Do not hunt on Tubman Trail because other hunters may be using for access.
M4	Sika	30% forested, 70% marsh	0.6 miles	Hip boots except in southeastern portion	Access from Tubman Trail parking area (Public hunt unit M2 parking lot could be used but longer walk).
T1	Sika/WT	30% forest/60% marsh, some fields	0	Knee boots except in marsh	Trail provides good access. Sika will likely be closer to marsh. Note, no hunting northeast of parking area due to houses.
T2	Sika/WT	30% forest/60% marsh, some fields	0	Knee boots except in marsh	Trail provides good access. Sika will likely be closer to marsh.
