Environmental Assessment

Alternative A

Project Map

Date: April 2015 Proj. No: 3200-00 Exhibit: 4.0

Exhibit 4.

Due to file size limitations for posting 508 compliant documents, the 30 detailed aerial photos that show the proposed pipeline from north to south across the refuge are not included here, but are available upon request. A verbal description of the placement of the 30 aerial photos along the Alternative A route is as follows:

1. Aerial photo just north of the refuge at FM 2004 showing proposed bore location and temporary work space to bore under FM 2004 and on to the refuge.
2. Aerial photo just south of FM 2004 showing bore location, pipeline routes and temporary workspace.
3. Aerial photo showing wetlands and Ditch 10 along with work space required for the horizontal directional drill (HDD) under wetlands and Ditch 10 crossing.
4. Aerial photo south of ditch 10 showing HDD location and temporary workspace and wetlands along pipeline corridor.
5. Aerial photo showing CR 208, bore locations, temporary workspace and proposed valve station south of CR 208.
6. Aerial photo south of CR 208 and the northwest corner of Mottled Duck marsh showing pipeline route, temporary work space and wetlands.
7. Aerial photo showing Ditch 11 crossing, pipeline route, temporary work space and wetlands.
8. Aerial photo between Ditch 11 and Ditch 12, showing pipeline route, temporary work space and wetlands.
9. Aerial photo north of Ditch 12 crossing pipeline route, temporary work space and wetlands.
10. Aerial photo just north of Ditch 12 crossing showing pipeline route, temporary work space and wetlands including two streams.
11. Aerial photo showing Ditch 12 crossing and area south showing pipeline route, temporary work space and wetlands.
12. Aerial photo between Ditch 12 and Otter Slough showing north side of HDD for Otter Slough, pipeline route, temporary work space and wetlands.
13. Aerial photo of Otter Slough showing access route around the slough, pipeline route, temporary work space and wetlands.
14. Aerial photo of south end of Otter Slough, showing access route around slough, pipeline route, temporary work space and wetlands, and HDD location on south side of Otter Slough.
15. Aerial photo between the Otter Slough segments showing pipeline route, temporary work space and wetlands.
16. Second aerial photo between the Otter Slough segments showing pipeline route, temporary work space and wetlands.
17. Third aerial photo between the Otter Slough segments showing pipeline route, temporary work space and wetlands.
18. Aerial photo showing second Otter Slough crossing showing HDD on north side of slough, access route, pipeline route, temporary work space and wetlands.

19. South side of second Otter Slough crossing and Service Road showing HDD on south side of slough, access route, pipeline route, temporary work space and wetlands.
20. Aerial photo south of Service Road showing pipeline route, temporary work space and wetlands.
21. Aerial photo north of Ditch 1 crossing showing pipeline route, temporary work space and wetlands.
22. First aerial photo south of Ditch 1 crossing showing pipeline route, temporary work space and wetlands.
23. Second aerial photo south of Ditch 1 crossing showing pipeline route, temporary work space and wetlands.
24. Third aerial photo south of Ditch 1 crossing showing pipeline route, temporary work space and wetlands.
25. Fourth aerial photo south of Ditch 1 crossing showing pipeline route, temporary work space and wetlands.
26. Fifth aerial photo south of Ditch 1 crossing showing pipeline route, temporary work space and wetlands.
27. Sixth aerial photo south of Ditch 1 crossing showing HDD north of Austin Bayou, pipeline route, temporary work space and wetlands.
28. Aerial photo of Austin Bayou showing HDD south of Austin Bayou, pipeline route, temporary work space and wetlands.
29. Aerial photo south of Austin Bayou showing HDD south of Austin Bayou, pipeline route, temporary work space and wetlands.
30. Aerial photo south of Austin Bayou showing end of Alternative A.
