

Room 4249, Washington, DC 20410-5000.

FOR FURTHER INFORMATION CONTACT: Mildred M. Hamman, (202) 708-0614, extension 4128. (This is not a toll-free number).

SUPPLEMENTARY INFORMATION: The Department will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Public Housing Reform-Admission and Occupancy Requirements for Residency Preferences, Community Services, Individual Savings Accounts for Residents, FSS Action Plan, Over-Income Small PHAs.

OMB Control Number: 2577-0230.

Description of the need for the information and proposed use: Public Housing Agencies (PHAs) will submit to HUD information on admission and occupancy requirements to ensure statute mandates are implemented. The Act allows PHAs to establish their own system for making dwelling units or Section 8 assistance available to families having certain characteristics. For public housing, the 1998 Act created optional deductions for PHAs to use to promote self-sufficiency; permissive deductions must be described in the agency's written policies. PHAs may establish and maintain individual savings accounts for public housing residents who pay income-based rents. The PHA's Annual Plan (2577-0226) must include a description of the community service and self-sufficiency requirements (8 hours per month).

Agency form numbers, if applicable: None.

Members of affected public: State, or Local Government.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of responses:

3,400 respondents, annually, 50 average hours per response, 169,300 total reporting burden.

Status of the proposed information collection: Extension of a currently approved collection, without change.

Authority: Section 3506 of the paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: December 27, 2002.

William Russell,

Deputy Assistant Secretary for Public Housing and Voucher Programs.

Notice of Availability of the Final Sonora Tiger Salamander Recovery Plan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability

SUMMARY: The U.S. Fish and Wildlife Service announces the availability of the final Recovery Plan for the Sonora tiger salamander (*Ambystoma tigrinum stebbinsi*). The species occurs on lands managed by the U.S. Forest Service, Coronado National Forest; U.S. Department of the Army, Fort Huachuca, Arizona State Parks, and private lands in the San Rafael Valley and adjacent portions of the Huachuca and Patagonia mountains in southeastern Santa Cruz and southwestern Cochise counties, Arizona.

ADDRESSES: Persons wishing to obtain a copy of the Recovery Plan may contact Jim Rorabaugh, Arizona Ecological Services Field Office, U.S. Fish and Wildlife Service, 2321 West Royal Palm Road, Suite 103, Phoenix, Arizona, 85021-4951 (602/640-2720 x238, Jim_Rorabaugh@fws.gov). The Plan is also available at <http://arizonaes.fws.gov>. The complete administrative record supporting the development of the Recovery Plan is available on request for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Jim Rorabaugh (see ADDRESSES).

SUPPLEMENTARY INFORMATION:

Background

Restoring an endangered or threatened animal or plant species to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the Service's endangered species program. To help guide the recovery effort, the Service prepares recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for conservation of the species, establish criteria for the

recovery levels for downlisting or delisting them, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1531 *et seq.*), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. On June 16, 2000, the Service published a notice of document availability in the **Federal Register** announcing the availability for public review of the draft Recovery Plan for the Sonora tiger salamander. Public comments were accepted through August 15, 2000. Three letters of comment were received during the comment period. The draft recovery plan was revised and finalized based on this input.

The Sonora tiger salamander Recovery Plan describes the status, current management, recovery objectives and criteria, and specific actions needed to reclassify the Sonora tiger salamander from endangered to threatened, and to ultimately delist it. The Recovery Plan was developed by Dr. James P. Collins and Jonathan Snyder, Arizona State University, Tempe, Arizona, in coordination with the Service and a team of stakeholders (the Participation Team), which included ranchers, land owners and managers, agency and organization representatives, and herpetologists. The salamander currently only breeds in livestock watering tanks in the San Rafael Valley of southeastern Arizona. Its natural breeding habitats are no longer present or are now unsuitable. The salamander is threatened by loss of natural habitats; predation by nonnative fish, bullfrogs, and crayfish; genetic swamping by nonnative barred tiger salamanders; disease; low genetic diversity; and collection for bait or translocation by anglers. Actions needed to recover the salamander include maintenance and enhancements of habitats, control of nonnative organisms, control of collection and transport of tiger salamanders, actions to reduce spread of disease, monitoring, research, public education and information, and adaptive management. The Recovery Plan includes a Participation Plan, prepared by the Participation Team, which details how the plan should be implemented to minimize social and economic impacts while still providing for the prompt recovery of the salamander. The Service worked with

Dr. Collins and the Participation Team to address comments received on the draft Plan during the comment period.

Authority

The authority for this action is Section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: September 24, 2002.

H. Dale Hall,

Regional Director.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability of an Environmental Assessment/Habitat Conservation Plan and Receipt of Application for Incidental Take by the Leander Rehabilitation PUD

SUMMARY: Fleur Land, Ltd., c/o Stone Haven Partners (Applicant) has applied to the U.S. Fish and Wildlife Service (Service) for an incidental take permit pursuant to section 10(a) of the Endangered Species Act (Act). The Applicant has been assigned permit number TE-065323-0. The requested permit, which is for a period of 30 years, would authorize the incidental take of the endangered golden-cheeked warbler (*Dendroica chrysoparia*). The proposed take would occur as a result of the construction and operation of commercial and multi-use development on 209 acres of the Leander Rehabilitation PUD, Cedar Park, Williamson County, Texas.

The Service has prepared the Environmental Assessment/Habitat Conservation Plan (EA/HCP) for the incidental take application. A determination of jeopardy to the species or a Finding of No Significant Impact (FONSI) will not be made until at least 60 days from the date of publication of this notice. This notice is provided pursuant to section 10(c) of the Act and National Environmental Policy Act regulations (40 CFR 1506.6).

DATES: Written comments on the application should be received within 60 days of the date of this publication.

ADDRESSES: Persons wishing to review the application may obtain a copy by writing to the Regional Director, U.S. Fish and Wildlife Service, PO Box 1306, Room 4012, Albuquerque, New Mexico 87103. Persons wishing to review the EA/HCP may obtain a copy by written or telephone request to Sybil Vosler, U.S. Fish and Wildlife Service, Ecological Services Office, 10711 Burnet Road, Suite 200, Austin, Texas 78758

(512 490-0057). Documents will be available for public inspection by written request or by appointment only during normal business hours (8 a.m. to 4:30 p.m.) at the U.S. Fish and Wildlife Service Office, Austin, Texas. Data or comments concerning the application and EA/HCP should be submitted in writing to the Field Supervisor, U.S. Fish and Wildlife Service Office, Austin, Texas at the above address. Please refer to permit number TE-065323-0 when submitting comments.

FOR FURTHER INFORMATION CONTACT:

Sybil Vosler at the above U.S. Fish and Wildlife Service Office, Austin, Texas.

SUPPLEMENTARY INFORMATION: Section 9 of the Act prohibits the "taking" of endangered species such as the golden-cheeked warbler. However, the Service, under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22.

Applicant: Fleur Land Ltd., c/o Stone Haven Partners, plans to construct and operate commercial and multi-use development on 209 acres of the Leander Rehabilitation PUD, Cedar Park, Williamson County, Texas. This action would eliminate approximately 165.8 acres of habitat resulting in take of the golden-cheeked warbler. The Applicant proposes to compensate for this incidental take of the golden-cheeked warbler by purchasing mitigation credits for 96.8 acres in a conservation bank which will be managed in perpetuity for the benefit of the golden-cheeked warbler.

Susan MacMullin,

Acting Regional Director, Region 2, Albuquerque, New Mexico.
