AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register
Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

List of Public Laws

This is a continuing numerical listing of public bills which have become law, together with the law number, the title, the date of approval, and the U.S. Statutes citation. The list is kept current in the FEDERAL REGISTER and copies of the laws may be obtained from the U.S. Government Printing Office.

S. 391..... Pub. Law 94–377
Federal Coal Leasing Amendments Act of 1975
(Passed over Presidential veto Aug. 4, 1976; 90 Stat. 1083)

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY OFFICE

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Special Set-Aside Procedures for Middle Distillates

BACKGROUND AND PROPOSED AMENDMENT

On July 9, 1976 the Federal Energy Administration (which, effective July 31, 1976, became the Federal Energy Office and is hereinafter referred to as the "FEO") issued a notice of proposed rulemaking and public hearing (41 FR 28797; July 13, 1976) as to the adoption of Special Rule No. 3 for Subpart A of Part 211 (the "Special Rule"). The Special Rule as proposed provided for a special set-aside procedure for middle distillates administered by FEO's Regional Offices for the transitional period following the exemption of middle distillates from the Mandatory Price and Allocation Regulations on July 1, 1976.

As indicated in the notice, the special set-aside procedures derive from FEO's discussions with members of Congress regarding the middle distillate exemption proposals. In response to Congressional concerns, FEO committed that it would take certain actions following the effectiveness of the exemption to assure first that no unwarranted price increases would occur once controls were removed and secondly that marketers would be protected during the transitional period following removal of controls as to their ability to obtain supplies, which latter commitment is fulfilled by the issuance hereby of the Special Rule. With respect to the safeguards against price increases, FEO informed the Congress that FEO would institute a monitoring system for middle distillate prices, which was proposed by FEO on July 20, 1976 (41 FR 30281, July 22, 1976).

The Special Rule as proposed provided for the establishment of a set-aside program administered by FEO's Regional Offices for the period August 1976 through March 1977, which would operate to insure that no marketer would lose its supply source without adequate time to secure a new supplier. The proposal permitted marketers who have made diligent unsuccessful efforts to obtain supplies to be assigned as much as their previously authorized base period use from the special set-aside. These assignments could be made for periods of up to 90 days if required to permit the marketers to make their own supply arrangements or for longer if required to preclude hardships to consumers. The proposal also allowed assignments to be made directly to consumers under the same hardship criteria that existed previously for middle distillates in the state set-aside program. As proposed, the set-aside for each prime supplier constituted four percent of the estimated portion of its total supply of middle distillates for the particular month to be sold into the distribution system of a state for consumption therein.

Because the FEO regionally administered set-aside program could not be implemented before August 1976, FEO adopted an interim rule (Special Rule No. 2) on July 1, 1976 which continued the operation of the state set-aside program in a modified form for the month of July to assure that no marketer would lose its source of supply during that month.

Written comments were invited on the proposal through July 23, 1976 and the public hearing was held on July 22, 1976. Forty-eight written and oral comments were received. Among those offering comments were suppliers, including major integrated refining companies and large and small independent refining companies, potential recipients of relief, including resellers and marketer associations, and also State Offices which administer the state set-aside program. Most of the comments did not oppose the establishment of a transitional set-aside program for middle distillates. However, many of those commenting, including states, resellers, and the marketer associations, contended that the special set-aside should be administered by the State Offices, as was previously the case, rather than by the FEO Regional Offices.

SPECIAL SET-ASIDE PROCEDURES ADOPTED

FEO has carefully considered the comments of all persons who participated in this rulemaking and has concluded that the proposed set-aside procedures should be adopted, with certain modifications described below that reflect comments received and further analysis by FEO.

Administration by State Offices. FEO has first concluded that the State Offices should administer the special set-aside for middle distillates. During the administration of the state set-aside since its inception, the State Offices have accumulated valuable experience and expertise in dealing with the hardship requests of end-users and wholesale purchaser-consumers in a timely manner, and the procedures that the State Offices already have in place to handle set-aside requests will facilitate their processing of applications of eligible wholesale purchaser-resellers, as well as hardship requests of end-users and wholesale purchaser-consumers during this period. Inasmuch as the State Offices are continuing to administer the state set-aside for motor gasoline and propane, confusion will be avoided by permitting them to operate the special set-aside for middle distillates during the relatively short period it will be in effect.

With respect to whether the states themselves wish to manage the special set-aside, FEO has been apprised that at least forty wish to do so. In those cases where a state does not wish to operate the middle distillate set-aside, a provision has been included in the Special Rule whereby a state may elect to have the special set-aside for middle distillates administered by the appropriate FEO Regional Office that has jurisdiction over the state involved.

Guidelines. To assure uniform treatment to applicants and as an aid in administering the special set-aside procedures, FEO will issue guidelines for administration of the Special Rule to the State and Regional Offices. Among the criteria to be included is the requirement that a new supplier will not be assigned to an applicant merely because the current supplier has higher product prices. FEO does not anticipate that there will be any significant price increases for middle distillates as a result of decontrol, but different prices may continue to exist as among different suppliers following decontrol.

Supplier's Responsibilities. With respect to the obligations of a supplier after an assignment has been made, to prevent any pricing practice or other action which would have the effect of circumventing the objectives and purposes of the Special Rule, a provision has been added which makes it clear that the requirements of paragraph (b) of 10 CFR 210.62 prohibiting any form of discrimination among purchasers continue to apply.

State Representative. Under the proposal each supplier was required to designate as a representative within each state in which it is a prime supplier a firm doing business within the state. Some of the comments received indicated that various suppliers either have no personnel in one or more states or have personnel such as sales representatives, who may not be knowledgeable with respect to the firm's middle distillate distribution system for that state. Certain suppliers distribute their product on a regional (as opposed to a state-by-state) basis, and therefore the most knowledgeable representative of a supplier may be outside the particular state in which the applicant is located. For these reasons, in the final rule FEO is permitting the prime supplier to designate a state representative for the state, not necessarily within the state.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended by Pub. L. 94-163; E.O. 11930, July 30, 1976)

In consideration of the foregoing, Part 211, Chapter II of Title 10, Code of Federal Regulations, is hereby amended as set forth below, effective immediately.

Issued in Washington, D.C., August 5, 1976.

MICHAEL F. BUTLER,
General Counsel.

The Appendix to Subpart A of Part 211 is amended by the addition of a Special Rule No. 3 to read as follows:

SPECIAL RULE NO. 3

1. *Scope.* This Special Rule provides for a set-aside program for middle distillates for the months of August 1976 through March 1977, as provided below, notwithstanding the exemption of middle distillates from the Mandatory Petroleum Allocation and Price Regulations effective July 1, 1976.

2. *Provision for middle distillate set-aside.* Notwithstanding the provisions of paragraphs (b) and (c) of § 210.35 and of paragraphs (b) (5) and (6) of § 211.1, a set-aside is hereby established for the months August 1976 through March 1977 for middle distillates for assignment by State Offices in accordance with the provisions of this Special Rule.

3. *Set-aside volume.* A prime supplier shall inform each appropriate State Office monthly of the estimated volume of middle distillates to be sold into a state for consumption within that state. The set-aside volume available in a state to a State Office for a particular month shall be the sum of the amounts calculated by multiplying four (4) percent by each prime supplier's estimated portion of its total supply for that month which will be sold into that state's distribution system for consumption within the state. The set-aside for a particular month cannot be accumulated or deferred; it shall be made available from stocks of prime suppliers whether directly or through their wholesale purchaser-resellers.

4. *State representative.* Each supplier shall designate a representative for each state in which the supplier is a prime supplier to act for and on behalf of the prime supplier with respect to set-aside petitions and assignments from the set-aside to be supplied by that prime supplier. Each prime supplier for a state shall designate its representative for that state and shall notify in writing the appropriate State and FEO Regional Offices of such designation within 10 days after the effective date of this Special Rule. The State Office shall to the maximum extent possible consult with a prime supplier's representative prior to issuing any authorizing document affecting set-aside volumes to be provided by the prime supplier.

5. *Eligible recipients of set-aside volumes.* The set-aside provided for by this Special Rule shall be utilized by the State Offices to meet hardship and emergency requirements of all wholesale purchaser-consumers and end users and to meet the supply needs of a wholesale purchaser-reseller in cases where the wholesale purchaser-reseller has demonstrated that it will not be able to obtain with diligent efforts in a particular month a volume of middle distillates equal to its base period use of middle distillates for that month as determined under this subpart and Subpart G of this part. To facilitate relief of the hardship and emergency requirements of wholesale purchaser-consumers and end-users, the State Office may also direct that a wholesale purchaser-reseller be supplied from the set-aside in order that the wholesale purchaser-reseller can supply the wholesale purchaser-consumers and end-users experiencing the hardship or emergency.

6. *Term of assignments.* Assignments to eligible wholesale purchaser-resellers under section 5 of this Special Rule by a State Office shall not be made for a period in excess of 90 days. Assignments for additional periods shall not be made to a firm unless necessary to preclude hardship and provide emergency requirements to ultimate consumers. No assignments to eligible recipients under section 5 of this Special Rule shall relate to any period subsequent to March 31, 1977.

7. *Application for assignment.* All applications for assignment under this Special Rule shall be made to the appropriate State Office, which Office has jurisdiction over the state in which the applicant conducts its business operations, in accordance with the procedures set forth in §§ 205.211-218 of Subpart Q of Part 205 of this chapter with respect to the state set-aside, except as otherwise provided in this Special Rule and except that all applications by wholesale purchaser-resellers must be in writing.

8. *Transfer of functions to FEO Regional Office.* Any state may elect irrevocably at any time to transfer administration of the middle distillate set-aside established by this Special Rule from its State Office to the FEO Regional Office which has jurisdiction over said state, and will inform the FEO Regional Office in writing of such election. In the event of an election described in the preceding sentence by a particular state, all applications by applicants conducting business within that state shall be made to the appropriate FEO Regional Office. With respect to applications made to an FEO Regional Office under this section all references to a State Office in this Special Rule and Subpart Q of Part 205 of this chapter shall be deemed to refer to the appropriate FEO Regional Office.

9. *Approval of application.* If a State Office approves an application for assignment, it shall assign a prime supplier and amount from the set-aside to the applicant. To determine an appropriate prime supplier, the State Office may coordinate with the state representatives of the prime suppliers.

10. *Authorizing document.* The State Office shall issue to an applicant granted an assignment a document authorizing such assignment. A copy of the authorizing document (or a summary) shall also be provided by the State Office to the designated state representative of the prime supplier assigned to the applicant. An authorizing document not presented to either the prime supplier or a designated local distributor of the prime supplier within ten (10) days of issuance shall expire after that time.

11. *Supplier's responsibilities.* When presented with an authorizing document, suppliers shall provide the assigned amount of middle distillates to an applicant. The authorizing document shall entitle the applicant to receive product from any convenient local distributor of the prime supplier from which the set-aside assignment has been made. Wholesale purchaser-resellers of prime suppliers shall, as non-prime suppliers, honor such authorizing documents upon presentation, and shall not delay deliveries required by the authorizing document while confirming such deliveries with the prime supplier. Any non-prime supplier which provides middle distillates pursuant to an authorizing document shall in turn receive from its prime supplier an equivalent volume of the product. The requirements of paragraph (b) of § 210.62 of this chapter continue to apply to suppliers to whom an authorizing document is presented pursuant to this Special Rule to prohibit any form of discrimination (including price discrimination) which has the effect of circumventing, frustrating, or impairing the objectives, purposes and intent of this Special Rule.

12. *Prime suppliers.* All prime suppliers shall supply middle distillates from their set-aside volume each month, as directed by the State Offices, not to exceed the total set-aside volume for middle distillates for that month for the state concerned.

13. *Release of set-aside.* At any time during the month, a State Office may order the release of part or all of a prime supplier's set-aside volume through the prime supplier's normal distribution system in the state.

14. *Orders issued by State Offices.* Authorizing documents and other orders issued pursuant to this Special Rule shall be in writing and effective immediately upon presentation to the prime supplier's designated state representative. Authorizing documents shall represent a call on the prime supplier's set-aside volumes for the month of issuance irrespective of the fact that delivery cannot be made until the following month. Any order issued by a State Office pursuant to this Special Rule may be appealed to the FEO Regional Office that has jurisdiction over the state involved, in acordance with the procedures set forth in Subpart H of Part 205 of this chapter. Any appeal from such an order shall be filed within ten (10) days of service of the order from which the appeal is taken. If a State Office fails to take action on an application within ten (10) days of filing, the applicant may treat the application as having been denied in all respects and may appeal therefrom as provided in this section.

15. *Products included within term middle distillates.* For purposes of this Special Rule the term middle distillates includes the following, all as defined in § 212.31 of this chapter: No. 1 heating oil, No. 1-D diesel fuel, No. 2 heating oil, No. 2-D diesel fuel and kerosene.

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Orgotein for Injection

Correction

In FR Doc. 76-22532 appearing on page 32583 in the issue of Wednesday, August 4, 1976, the effective date in the first and last paragraphs of the document reading "September 3, 1976" should read "August 4, 1976".

PART 555—CHLORAMPHENICOL DRUGS FOR ANIMAL USE

Chloramphenicol Tablets

Correction

In FR Doc. 76-22533 appearing on page 32583 in the issue of Wednesday, August 4, 1976, the effective date in the first and last paragraph of the document reading "September 3, 1976" should read "August 4, 1976".

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20368; FCC 76-748]

OFFSHORE RADIO TELECOMMUNICATIONS SERVICE

Creation

By the Commission: [1]

In the matter of amendment of Parts 2 and 21 [2] of the Commission's Rules to provide for the creation of an Offshore Radio Telecommunications Service (ORTS).

1. On February 26, 1975, the Commission, in response to a petition (RM-1985) filed June 7, 1972, by the Offshore Telephone Company (Offshore), issued a Notice of Proposed Rule Making (NPRM) and Notice of Inquiry (NOI) to amend parts 2 and 21 of the Rules and Regulations. The NPRM/NOI was published in the FEDERAL REGISTER on March 20, 1975 (40 FR 12678). The petition proposed the allocation of frequency spectrum and the promulgation of regulations necessary to permit the establishment of comprehensive common carrier radio services in the Outer Continental Shelf region of the Southern Louisiana Gulf Coast.[3] Petitioner suggested that the new service be called the Offshore Radio Telecommunications Service (ORTS).

2. Comments were filed by the Offshore Telephone Company (Offshore), the Association of Maximum Service Telecasters, Inc. (AMST), the Central Committee on Telecommunications of the American Petroleum Institute (API), ITT World Communications, Inc. (ITT), the Radio Broadcasting Company and Radio Dispatch Co. (Radio), the GTE Service Corporation (GTESC), the American Telephone and Telegraph Company (AT&T), the Mobile Marine Radio, Inc. (MMR), the Continental Oil Company (Continental), the CNG Producing Company (CNG), and the Placid Oil Company (Placid). Reply comments were filed by the Offshore Telephone Company, the Association for Maximum Service Telecasters, Inc., the Central Committee on Telecommunications of the American Petroleum Institute, and the American Telephone and Telegraph Company.

3. After careful review of all comments and reply comments, the Commission remains convinced that the establishment of an ORTS, essentially as proposed, would be in the public interest. In brief, we have decided that the use of television channel 17 on a shared basis by stations located offshore in the Gulf of Mexico will satisfy a confirmed need for additional common carrier radio communication in this area in a manner consistent with the most efficient use of the spectrum. However, as noted infra, we have decided to limit the allocation for ORTS to 4 MHz, and allocate the remaining 2 MHz for private use in the Industrial Services. Also, we have reduced the frequency separation for channel-pairs from 5 MHz to 3 MHz for the reasons noted in paragraph 11. The comments raised several issues which we deal with in the following paragraphs.

4. There was considerable difference of opinion regarding the need for the new communication service. AMST and AT&T maintained that no need has been demonstrated. On the other hand, API and Offshore offered several examples of what they perceive to be unfulfilled communication requirements in the Gulf. We are persuaded that the matter was correctly stated in the NPRM/NOI. Radio communication requirements are currently being met in a rather fragmentary manner by the common carrier Rural Radio Service and the Industrial Radio Services. There is an apparent need for a more flexible communication system of greater capacity and versatility. In addition to voice communication, the system must be capable of transmitting facsimile, teletype, telemetry and control data.

5. The comments reflected general agreement among potential subscribers that some level of common carrier radio communication is required in the offshore area of the Gulf. In addition to API, as a representative of the oil industry, statements of need were received from individual companies. Continental stated that it would expect to subscribe to such service where it was cost effective and satisfied reliability requirements. Placid emphasized the handicap imposed by their inability to communicate directly with their service companies due to the fact that the Commission Rules governing presently available services do not provide for interservice communication. CNG noted, that as a smaller company it would prefer, for economic reasons, to obtain its communication services from a common carrier.

6. Offshore stated, and we concur, that it is not possible to obtain firm quantitative information on unfulfilled requirements for common carrier communication services in the Gulf area at this time. The actual number of potential subscribers cannot be ascertained until the service is established. While it is Commission policy not to allocate spectrum to a new service unless it appears likely that the service will find public acceptance, we recognize that there can be no absolute guarantee of such acceptance. In this case, we are satisfied that sufficient evidence of need exists to make it highly probable that a viable common carrier service will emerge, if given the opportunity to develop.

7. Finally, we note that the only radio channels now authorized for common carrier service in the offshore area of the Gulf are available to the Rural Radio Service on a secondary basis. Priority is given to the Domestic Public Land Mobile Radio Service in the use of these frequencies. The Commission has recently authorized land mobile facilities near the Gulf area which may have an impact on the future use of the same frequencies on a secondary basis offshore. It is clear, therefore, that an allocation of spectrum for use by common carriers in the offshore area is warranted.

8. In its comments and reply comments API endorsed the shared use of television channel 17 in the Gulf, but questioned the allocation of the entire band of spectrum (6 MHz) for exclusive common carrier use. API submitted an alternate plan that both modified and extended the proposal contained in the NPRM/NOI. In brief, this plan would include television channels 16 and 18 as well as 17; extend shared use over a larger area of the Gulf; reduce separation of the duplex channels from 5 MHz to 3 MHz; space channels at 12.5 kHz; and allocate this spectrum for use by Industrial Radio Services as well as common carrier.

9. Those elements of the API proposal that would include Television Channels 16 and 18, and extend the geographic area of operation, are considered to be beyond the scope of this proceeding. As such, they will not be addressed in this rule making.

10. We have reviewed the status of radio channels available for private systems in the area of the Gulf under consideration, and find that the channels are highly congested and also restricted in their operational use. This condition is particularly acute in the case of fixed communications links. Present operational fixed assignments are made in the 72–76, 150–170, and 450–470 MHz frequency bands. Microwave systems are also extensively used. The VHF/UHF fixed systems are used to extend telephone type service from the multichannel microwave systems, allow platform-to-platform communications, and the many point-to-point telemetry and supervisory control requirements. It was found that the use of the 72–76 MHz band was restricted by protection requirements of nearby TV Channels 4 and 5. There are only five "splinter frequencies" in the 150–170 MHz band, all of which are heavily used and because of their narrow bandwidth are not suitable for voice operation. Frequencies in the 450–470 MHz band for fixed station use are subject to geographical restrictions by the Rules. Microwave systems operating in the Gulf area are severely congested in all frequency bands up to 6 GHz. We also find that the need for the wideband simplex channels as proposed in the NPRM/NOI for common carrier use is questionable. As a result of both findings, we have determined that the two (2) MHz of spectrum initially proposed for wideband simplex channels should instead be allocated for private use in the Industrial Radio Service.

11. We have reviewed the economic and technical implication of 3 MHz ver-

[1] Separate opinions of Commissioners Lee, Hooks and Quello filed as part of the original document.

[2] The original Notice of Proposed Rule Making was concerned with amendment of Parts 2 and 21 only. After review of comments received, it was determined by the Commission that Part 91 should also be amended.

[3] This zone is bounded by the coordinate lines 94°00' west longitude and 87°45' west longitude and by the three-mile limit along the Gulf Coast on the north and the outer continental shelf on the south.

sus 5 MHz separation of paired channels for voice duplex operation and have decided that 3 MHz separation is both feasible, and preferable from a spectrum management viewpoint. We recognize that there are economic, space and weight penalties associated with the equipment required for the smaller separation. However, our information indicates that these penalties are not exorbitant; and, as a matter of public interest, are an acceptable cost relative to the increased flexibility of spectrum use that is gained.

12. We do not agree that 12.5 kHz channel spacing is feasible. The API recommendation is appartently based on the assumption that only fixed operation is to be authorized. However, we have decided to accommodate mobile as well as fixed operation. Accordingly, it is not possible to ensure the distance separation between stations that would be required to permit 12.5 kHz channel spacing.

13. Several alternatives to the establishment of the ORTS and/or the shared use of television channel 17 were suggested in the comments. MMR asserted that the communication deficiencies could be eliminated by an increase in the number of radio channels allocated to the Maritime Service in the medium and high frequency portion of the spectrum (2–22 MHz); together with a change in the rules for operation of maritime coastal stations for point-to-point communication. As noted in the NPRM/NOI, frequencies below 100 MHz have been determined to be unsuitable for the ORTS because of the effect of sky-wave propagation on communication reliability. In addition, a sufficient number of channels of the required bandwidth could not be made available in this part of the spectrum.

14. AMST proposed as an alternative to the ORTS that more intensive use be made of the frequencies allocated to the Industrial Radio Services, particularly in the 450–470 MHz band. Our information shows that these channels are very heavily used by the land mobile service in the coastal areas of the Gulf. Also, much of the ORTS traffic can be expected to occur in the near shore area. Therefore, to preclude interference, any spectrum allocation for ORTS in the 450–470 MHz band could not be used by land mobile onshore. As stated in paragraph 17, the primary virtue of sharing TV channel 17 is that the spectrum can be allocated for use in the Gulf by ORTS without preventing planned use of the same frequencies by another radio service.

15. Communication via satellite was also suggested as an alternate means of satisfying the communication requirements that have resulted in the ORTS proposal. We agree that there may be instances where satellite communication will find application in the Gulf area. Further, there is nothing in this rule making that precludes the use of such communication. We do not agree, that all requirements can be satisfied by this mode of communication. Satellite earth terminals are not feasible for much of the mobile equipment, and are too expensive for general application even at the fixed locations.

16. The remaining alternative to the shared use of television channel 17 (488–494 MHz) is to allocate frequencies in the 900 MHz region of the spectrum. Our analysis shows that such a solution, although workable, has disadvantages at this time. To achieve equivalent service reliability, greater power would be required. Also, equipment at 900 MHz is still in a developmental stage, whereas equipment at 490 MHz is available essentially 'off the shelf.' However, we wish to emphasize our interest in encouraging the use of 900 MHz. We recognize that as technology develops, the disadvantages noted should diminish. Thus, for future requirements of this type strong consideration should be given to the use of the 900 MHz region.

17. From the standpoint of spectrum management, the essential issue is not simply whether an allocation at 900 MHz is a feasible alternative, but whether it would also result in the most efficient use of the spectrum. We are convinced that it would not. Frequencies allocated to ORTS if the Gulf of Mexico will be rendered unuseable by other services for some distance inland along the Gulf coast. Consequently, an allocation of spectrum at 900 MHz for ORTS would foreclose future use of these frequencies by the land mobile or other services in the Gulf coastal region. On the other hand, existing television assignments near the Gulf coast preclude other uses of channel 17 within most of the inland areas because of potential interference. However, under proper restrictions this same channel can be used effectively in offshore areas which are separated from existing television assignments. The proposed ORTS therefore represents additional value which can be derived from channel 17 with virtually no impact on possible future onshore services. We conclude, therefore, that shared use of TV channel 17 as proposed for the ORTS is preferable to an allocation at 900 MHz.

18. AMST expressed concern that offshore operation on television channel 17 frequencies would result in interference to reception of the television signal of WMAU located at Bude, Mississippi. We have reviewed the protection criteria contained in the NPRM/NOI and have concluded from this analysis that the separation distances specified for co-channel operation provide an adequate margin of interference protection. The separation distances specified in the NPRM/NOI were based on the procedure developed in Docket 18261 to permit sharing of television channels 14–20 with the land mobile services. In this procedure, a desired-to-undesired signal ratio of 50db at the television station Grade B Contour was specified and the separation distances determined from propagation curves in FCC Report No. R–6602. These curves have since been incorporated in the FCC Rules and Regulations. For application to offshore operation, the interfering signal was assumed to be 15db greater than that used in R–6602 to account for propagation conditions in the Gulf area. Subsequent to publication of the NPRM/NOI, the Commission determined the separation distances using NBS Technical Note #101 and a computer model contained in ESSA Technical Report ERL 79–ITS:67. The results of this analysis agree very closely with the protection requirements specified in the NPRM/NOI. The fact that the Commission's results differ from those derived by AMST is due to the difference in assumption of the "Climate" input to the analysis. We recognize that there is a degree of uncertainty in predicting the level of the interference fields, or the percentage of time a given level will exist. However, this is offset by factors which make the protection ratio greater than indicated; viz., receiving antenna front-to-back ratio, cross polarization discrimination, and the fact that 50db is a greater signal ratio than required for the average receiver, or for interfering signals removed from either the visual or color subcarrier frequencies.

19. While our analysis confirmed the co-channel protection contained in the NPRM/NOI, it also indicated that the separation distances for adjacent channel protection should be increased slightly. These changes are included in Table C, Part 21, of the Appendix.

20. Both MMR and AMST have noted that the implementation of an ORTS as proposed would require the installation of radio equipment that would have no application outside the zone to be served in the Gulf of Mexico. They contend that this would place an unnecessary burden on operators of ships and aircraft who provide support services to the oil industry in this area. The Commission in this instance is proposing to satisfy a specific requirement for radio communication in a very limited geographic area with a minimum diversion of scarce spectrum from other uses. We recognize that this entails the procurement of radio equipment that has restricted application. However, we believe this to be a necessary compromise in order to achieve most efficient use of the spectrum and is in the overall public interest. We must assume that each private entity concerned will elect to subscribe to the ORTS only if it is in its economic interest to do so.

21. Several of the respondents commented on the merit of offshore sharing of television-channels in other coastal areas. The comments reflected divided opinion relative to the opportunity for such sharing, and contained only general information. In this specific case the Commission has concluded that sharing of UHF television Channel 17 is in the public interest. We are concerned, however, about the potential adverse impact of additional sharing in future development of UHF television services. For this reason, the Commission is initating a formal staff investigation of the future spectrum requirements of UHF television, and pending completion of that investigation, no additional sharing of UHF television channels for offshore

telecommunications will be considered. Therefore, in the foreseeable future any expansion of this service will be accommodated in frequencies other than those allocated to UHF television.

22. Definitions proposed for § 21.1 of the Rules and Regulations have been amended to incorporate the changes suggested by Offshore.

23. In summary then, we have reviewed all comments and investigated all issues raised in response to our NPRM/NOI, and have concluded that:

(a) There are unfulfilled communication requirements in the Gulf of Mexico.

(b) These unfulfilled requirements create a need for additional spectrum for private systems as well as for common carrier services.

(c) The shared use of television channel 17 results in the most efficient allocation of spectrum to satisfy this requirement.

(d) Television channel 17 can be shared without interference to established broadcasting stations or adversely affecting the future growth of television service in the Gulf area.

24. In its comments, API proposed changes to the Rules that would modify operation by the Industrial Radio Services in the 450–470 MHz band. Consideration of such changes is deemed to be beyond the scope of this proceeding. We do note however, that the portion of the request pertaining to the Business Radio Service was granted by the proceeding in Docket 19478.

25. In consideration of the foregoing the Commission finds that amendment of the Rules to establish a new common carrier radio service in the prescribed area of the Gulf of Mexico, and the allocation of spectrum in the form of shared use of the 488–494 MHz band of frequencies in this prescribed area, is in the public interest. Authority for these rule amendments is contained in section 4(i), 303(c), and 303(r) of the Communications Act of 1934, as amended.

26. Accordingly, it is ordered, that effective September 17, 1976, Parts 1, 2, 21, and 91 of the Commission's rules are amended as set forth below. It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Adopted: July 30, 1976.

Released: August 9, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

Parts 1, 2, 21, and 91 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

PART 1—PRACTICE AND PROCEDURE

1. Section 1.1113(f) is amended to read as follows:

§ 1.1113 Schedule of fees for Common Carrier Services.

* * * * *

(f) Offshore Radio Communications Service:

	Application fee
Application for an initial construction permit or for relocation of Offshore Central or Relay Facilities [4]	$120
Application for other than initial construction permit and for modification of construction permit or license for Offshore Central or Relay Facilities [4]	45
Application for initial construction permit or for relocation of fixed subscriber facilities [4]	75
Application for other than initial construction permit and for modification of construction permit or license for fixed subscriber facilities	30
Application for license for operation of stations at temporary-fixed locations	90
Application for renewal of license of Offshore Central or Relay Facilities	75
Application for renewal of license of fixed subscriber station	15
Application for license, modification of license or renewal of license for individually licensed mobile stations:	
One unit per application	15
Each additional mobile unit per application	9

* * * * *

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

1. The Table of Frequency Allocations is amended by adding a new footnote designator, NG 114, to the band 470–512 MHz and by adding in proper numerical sequence the text of footnote NG 114 following the Table as shown below:

§ 2.106 Table of Frequency Allocations.

Band (megahertz) (7)	Service (8)	Class of station (9)	Frequency (megahertz) (10)	Nature of services of stations (11)
* * *				
470–512	Broadcasting, land mobile, (NG 66), (NG 114).	Television broadcasting, land mobile, base.		Broadcasting, public safety, industrial, land transportation, domestic public.
* * *				

* * * * *

NG 114 In the offshore Louisiana Gulf Coast area, the band 488–494 MHz (TV Channel 17) is allocated to the Domestic Public and Industrial Radio Services in accordance with the regulation set forth in Parts 21 and 91, respectively.

* * * * *

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

1. Subpart B of the Table of Contents is amended to read as follows:

* * * * *

Subpart B—Applications and Licenses

GENERAL FILING REQUIREMENTS

21.9 Standard application forms for Domestic Public Land Mobile Radio, Rural Radio and Offshore Radio Telecommunications Services.

* * * * *

2. Section 21.0(a) is amended to read as follows:

§ 21.0 Scope and authority.

(a) The purpose of the rules and regulations in this part is to prescribe the manner in which portions of the radio spectrum may be more available for the use of radio for domestic communication common carrier operations which require transmitting facilities on land or in specified offshore coastal areas within the continental shelf.

* * * * *

3. Section 21.2 is amended to add or change definitions as follows:

§ 21.2 Definitions.

As used in this part:

Airborne station. A mobile station in the Domestic Public Land Mobile Radio Service or in the Offshore Radio Telecommunications Service aboard an aircraft.

* * * * *

Offshore central station. A fixed station in the Offshore Radio Telecommunications Service with facilities for interconnection with public correspondence circuits.

* * * * *

Offshore mobile station. A station in the Offshore Radio Telecommunications Service intended to be used while in motion or during halts at unspecified points.

Offshore private line service. A service whereby facilities for communications between an offshore subscriber station and an offshore central station are set aside for exclusive use or availability for use by a particular customer or group of customers and authorized users during stated periods of time.

Offshore radio telecommunications service. A public communications service for hire between stations located in the offshore coastal waters of the United States or its possessions.

Offshore repeater station. A fixed station used for the reception and automatic retransmission of the signals of another station or stations in offshore radio telecommunications service.

Offshore subscriber station. A fixed, temporary fixed or mobile station in the Offshore Radio Telecommunications

Service used by a subscriber for communication with an offshore central station.

* * * * *

Temporary fixed offshore subscriber station. A station in the Offshore Radio Telecommunications Service which operates from various fixed locations for periods not exceeding six months.

§ 21.9 [Amended]

4. In § 21.9 the headnote is amended to read as follows:

21.9 Standard application forms for Domestic Public Land Mobile Radio, Rural Radio and Offshore Radio Telecommunications Services.

* * * * *

5. Section 21.15 is amended to add new paragraph (1) as follows:

§ 21.15 Technical content of applications.

* * * * *

(1) Each application for construction permit for an offshore central station or a fixed subscriber station in the Offshore Radio Telecommunications Service which proposes a new station or changes in the frequency, operating power or antenna height of a station already authorized shall be accompanied by technical engineering information with respect to:

(1) Type of antenna polarization used.

(2) Type of antenna used, including type number and manufacturer thereof.

(3) Antenna power gain expressed in decibels.

(4) Antenna radiation pattern (on letter size polar coordinate paper) showing the antenna power gain distribution in the horizontal plane expressed in decibels.

(5) Orientation of directional antenna array, expressed in degrees of azimuth with respect to True North.

(6) Antenna height above mean sea level.

(7) Antenna transmission line type, length and radio frequency power transmission losses, together with a description and power loss of all other devices in addition to the transmission line, between the output of the transmitter and the antenna radiating system expressed in decibels.

(8) Suitable maps or charts showing thereon the exact station location.

(9) Effective radiated power.

6. Section 21.43(b) is amended to read as follows:

§ 21.43 Period of construction.

* * * * *

(b) For stations in the Point-to-Point Microwave Radio and Offshore Radio Telecommunication Services, and except as may be limited by § 21.45(b), the construction permit issued by the Commission will specify the date of grant as the earliest date of commencement of construction and a maximum of 18 months thereafter as the time within which construction shall be completed and the station be ready for operation, unless otherwise determined by the Commission upon proper showing in any particular use.

7. Section 21.45, pararaph (a) is amended to read as follows:

§ 21.45 License period.

(a) Licenses for stations in the Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, Local Television Transmission, Multipoint Distribution and Offshore Radio Telecommunications Services will be issued for a period not to exceed 5 years; in the case of common carrier Television STL and Television Pickup stations to which are assigned frequencies allocated to the broadcast services, the authorization to use such frequencies shall, in any event, terminate simultaneously with the expiration of the authorization for the broadcast station to which such service is rendered except that licenses for developmental stations will be issued for a period not to exceed one year. Unless otherwise specified by the Commission, the expiration of regular licenses shall be on the following date in the year of expiration:

Domestic public land mobile radio service (miscellaneous carriers).	Apr. 1.
Domestic public land mobile radio service (telephone carriers).	July 1.
Domestic public land mobile radio service (all authorization pursuant to section 21.521—air and ground).	Sept. 1.
Rural radio service	Nov. 1.
Point-to-point microwave radio service.	Feb. 1.
Local television transmission service.	Do.
Multipoint distribution service	May 1.
Offshore radio telecommunications service.	Aug. 1.

The expiration date of developmental licenses shall be one year from the date of the grant thereof. When a license is granted subsequent to the last renewal date of the class of license involved, the license shall be issued only for the unexpired period of the current license term of such class; *Provided however*, That the license for land and airborne mobile units issued in the Domestic Public Land Mobile Radio Service in the name of the person who is not the licensee of the base station with which the mobile unit will be associated shall be issued for a full five-year term from the date of grant thereof.

* * * * *

8. Section 21.108(a) and (b) is amended to read as follows:

§ 21.108 Directional antennas.

(a) Unless otherwise authorized upon specific request by the applicant, each station authorized under the rules of this part, other than base, mobile and auxiliary test stations operating in the Domestic Public Land Mobile Service and all classes of stations in the Offshore Radio Telecommunications Service, shall employ a directional antenna adjusted with the center of the major lobe of radiation in the horizontal plane directed toward the receiving station with which it communicates: *Provided, however*, Where a station communicates with more than one point, a multi- or omni-directional antenna may be authorized if necessary. New periscope antenna systems will not, under ordinary circumstances, be authorized.

(b) Stations operating below 2500 MHz (other than base mobile and auxiliary test stations in the Domestic Public Land Mobile Radio Service, stations in the Multipoint Distribution Service and all classes of stations in the Offshore Radio Telecommunications Service) which are required to use directional antennas shall employ antennas meeting the standards indicated below. (Maximum beamwidth is for the major lobe of radiation at the half power points. Suppression is the minimum attenuation required for any secondary lobe signal and is referenced to the maximum signal in the main lobe).

Frequency range	Maximum beamwidth (degrees)	Suppression
Below 512 MHz	80	10 dB
512 to 1000 MHz	20	13 dB
1500 to 2500 MHz	12	13 dB

* * * * *

9. Sections 21.110(a), (b) and (c) are amended to read as follows:

§ 21.110 Antenna polarization.

(a) Stations operating in the 72–76 MHz band, each base, mobile dispatch and auxiliary test station operating in the Domestic Public Land Mobile Radio Service and all classes of stations in the Offshore Radio Telecommunications Service shall employ an antenna which radiates a signal, the electrical component of which is vertically polarized.

(b) Unless otherwise authorized, each station operating on frequency below 512 MHz (other than base, mobile, dispatch, and auxiliary test stations in the Domestic, all classes of stations in the Offshore Radio Telecommunications Service, and stations operating in the 72–76 MHz band) shall employ an antenna which radiates a signal, the electrical component of which is horizontally polarized: *Provided, however*, That rural subscriber stations communicating with base stations may employ vertical polarization.

(c) Upon a satisfactory showing in each case that improved transmission will result and potentially harmful interference to other radio installations would be reduced, the Commission may authorize a station operating on frequencies below 512 MHz (other than base, mobile and auxiliary test stations in the Domestic Public Land Mobile Radio Service, all class of stations in the Offshore Radio Telecommunications Service, and stations in the 72–76 MHz band) to employ an antenna which radiates a signal, the electrical component of which is circularly or otherwise polarized.

* * * * *

10. Section 21.213 is amended by adding new paragraph (b)(4) as follows:

§ 21.213 Station identification.

* * * * *

(b) * * *

* * * * *

(4) A subscriber station in the Offshore Radio Telecommunications Service may identify itself by the special station designation assigned by the licensee or its assigned telephone number, provided adequate records are maintained by the licensee to permit ready identification of the subscriber station.

* * * * *

11. A new subpart L is added to read as follows:

Subpart L—Offshore Radio Telecommunications Service

Sec.

21.1000 Eligibility.
21.1001 Frequencies.
21.1002 Power limitations.
21.1003 Bandwidth and emission limitations.
21.1004 Modulation requirements.
21.1005 Permissible communication.
21.1006 Station at temporary locations.
21.1007 Modification of station operation at temporary locations.

Subpart L—Offshore Radio Telecommunications Service

§ 21.1000 Eligibility.

Authorizations for stations to be operated in this service will be issued to existing and proposed communications common carriers. Authorizations for subscriber stations will be issued to communication common carriers or to individual users of the service. Applications will be granted only in cases where it is shown that (a) the applicant is legally, financially, technically and otherwise qualified to render the proposed service and (b) there are frequencies available to enable applicant to render a satisfactory service and (c) the public interest, convenience or necessity would be served by a grant thereof.

§ 21.1001 Frequencies.

(a) On a shared basis with television broadcasting channel 17, the following frequencies are for assignment to stations of communication common carriers in the zone specified in Table A below together with the classes of station(s) to which they are normally assigned and the specific limitations, which are enumerated in paragraph (b) of this section:

Offshore central station frequencies (megahertz)	Offshore subscriber frequencies (megahertz)	Limitations
488.025	491.025	1
488.050	491.050	1
488.075	491.075	1
488.100	491.100	1
488.125	491.125	1
488.150	491.150	1
488.175	491.175	1
488.200	491.200	1
488.225	491.225	1
488.250	491.250	1
488.275	491.275	1
488.300	491.300	1
488.325	491.325	1
488.350	491.350	1
488.375	491.375	1
488.400	491.400	1
488.425	491.425	1, 2
488.450	491.450	1, 2
488.475	491.475	1, 2
488.500	491.500	1, 2
488.525	491.525	1, 2
488.550	491.550	1, 2
488.575	491.575	1, 2
488.600	491.600	1, 2
488.625	491.625	1, 2
488.650	491.650	1, 2
488.675	491.675	1, 2
488.700	491.700	1, 2
488.725	491.725	4
488.750	491.750	4
488.775	491.775	4
488.800	491.800	4
488.825	491.825	3
488.850	491.850	3
488.875	491.875	3
488.900	491.900	3
488.950	491.950	5
489.000	492.000	6
489.025	492.025	6
489.050	492.050	6
489.075	492.075	6
489.100	492.100	6
489.125	492.125	6
489.150	492.150	6

489.425	492.425	2
489.450	492.450	2
489.475	492.475	2
489.500	492.500	2
489.525	492.525	2
489.550	492.550	2
489.575	492.575	2
489.600	492.600	2
489.625	492.625	2
489.650	492.650	2
489.675	492.675	2
489.700	492.700	2
489.725	492.725	2
489.750	492.750	2
489.775	492.775	2
489.800	492.800	2
489.825	492.825	2
489.850	492.850	2
489.875	492.875	2
489.900	492.900	2
489.925	492.925	2
489.950	492.950	2
489.975	492.975	2
490.000	493.000	2

(b) Explanation of assignment limitations appearing in the frequency list of this section:

(1) These frequencies will be assigned for voice grade general communications.

(2) These frequencies may be assigned for private line service.

(3) These frequencies are available for emergency communication involving protecting of life property.

(4) These frequencies may be assigned to radio relay stations upon a satisfactory showing as to why it is impracticable to achieve the requisite communication without the use of radio relay stations operating on such frequencies.

(5) These frequencies shall be used only for emergency auto alarm and voice transmission pertaining to emergency conditions.

(6) These frequencies may be used for emergency shut-off remote control telemetry, environmental Data Acquisition and Dissemination, or facsimile transmissions.

(c) All frequencies listed in this section are subject to the following conditions:

(1) No fixed or temporary-fixed stations shall be located and no mobile stations shall be operated outside the limits of the zone specified in Table A.

(2) All classes of stations in the Offshore Radio Telecommunications Service shall afford protection to co-channel television stations in accordance with the values set out in Table B below.

(3) All classes of stations in the Offshore Radio Telecommunications Service shall afford protection to adjacent channel television stations in accordance with the values set out in Table C below.

(4) No airborne subscriber station shall be operated with an effective radiated power in excess of 1 watt or at heights in excess of 1000 feet above mean sea level and shall not be operated outside the limits of the zone specified in Table A. Further, to provide adjacent channel protection to TV channel 18, no airborne subscriber station shall operate within an 80 mile radial distance to Lake Charles, Louisiana.

(5) Antenna heights in excess of 200 feet above mean sea level will not be authorized, except that, surface mobile stations will be limited to a height of 30 feet above the waterline.

(6) Mobile stations shall not operate with effective radiated power in excess of 25 watts within 20 miles of the 3 mile limit. In all other areas, the effective radiated power shall not exceed 100 watts.

(7) On its regularly assigned frequency, an offshore central station may be used to perform the added functions of a repeater station when means are provided whereby the license of the radio system is able to turn the station on and off at will irrespective of the transmissions of subscriber units on the mobile frequency associated therewith.

TABLE A.—*Frequency availability for offshore radio telecommunications service use*

Offshore zone	Boundaries of zone	Frequencies (megahertz)
Southern Louisiana Zone.	From long. 87°45′ on the east to long. 94°00′ on the west and from the 3-mi limit along the Gulf of Mexico shoreline on the north to the limit of the Outer Continental Shelf on the south.	Channel 17, 488–490, 491–493.

TABLE C.—*Protection of adjacent channel television stations by stations in the offshore radio telecommunications service* [1]

[0 db protection]

Distance beyond the 3-mi limit	Antenna height above sea level	
	100 ft ERP	200 ft ERP
Miles	*Watts*	*Watts*
4	25	6
5	40	10
6	65	15
7	100	25
8	150	35
9	215	50
10	295	70
11	400	100
12	530	130
13	685	170
14	870	215
15	1,000	270
16	1,000	415
17	1,000	505
18	1,000	610
19	1,000	730
20	1,000	865
21	1,000	1,000

[1] Table C applies only within an 80-mi radial distance of adjacent TV stations.

§ 21.1002 Power limitations.

Stations in this service will not be permitted to exceed 1000 watts effective radiated power and shall not be authorized to use transmitters which have a rated power output in excess of the limits set forth in Section 21.107(b): *Provided, however,* That the effective radiated power of mobile stations operating within 20 miles of the 3 mile limit shall be 25 watts or less. In all other areas mobile stations may operate with effective radiated power of 100 watts. The effective radiated power of airborne stations is limited to 1 watt.

§ 21.1003 Bandwidth and emission limitations.

(a) Stations in this service normally will be authorized to use only type F3 emission for radiotelephony. The authorization to use type F3 emission will be construed include the use of tone signals or signaling devices the sole function of which is to establish and maintain communication.

TABLE B.—*Protection of co-channel te'evision stations by stations in the offshore radio telecommunications service—maximum effective radiated power (watts)*

[65 dB protection]

Distance from transmitter to TV channel 17, Bude, Miss.	Antenna height above sea level		
	100 ft	150 ft	200 ft
Miles	*Watts*	*Watts*	*Watts*
210	1,000	1,000	1,000
205	1,000	900	800
200	800	710	630
195	590	520	450
190	450	400	330
185	320	280	240
180	250	210	175
175	175	150	130
170	130	110	100
165	95	80	70
160	65	55	50
155	50	40	35
150	35	30	25

NOTE: To determine the maximum permissible effective radiated power:

(1) Using the method specified in § 73.611, determine the distance between the proposed station and the protected cochannel television station. If the exact mileage does not appear in Table B, the next lower mileage separation figure is to be used.

(2) Entering the table at the mileage figure found in (1) above find opposite, a selection of powers that may be used for antenna height for the proposed station does not appear in Table B, use the power figure above the next greater antenna height.

(3) If the power found to be permitted following this procedure is lower than that determined hereafter from Table C, this lower figure is the maximum power that may be employed at the proposed station.

(b) Other types of emission may be authorized upon a satisfactory showing of need therefor. An application requesting such authorization shall fully describe the emission desired, shall indicate the bandwidth required for satisfactory communication, and shall state the purpose for which such emission is required.

(c) The maximum authorized bandwidth of emission and maximum authorized frequency deviation shall be as follows:

Type of emission	Authorized bandwidth (kilohertz)	Frequency deviation (kilohertz)
F3	20	5

(d) Other types of emission of bandwidths in excess of that specified in paragraph (c) of this section may be authorized upon an adequate showing of need therefor. An application requesting such authorization shall fully describe the modulation, emission and bandwidth desired, shall specify the bandwidth to be occupied and shall state the reasons why such emission or bandwidth is required.

§ 21.1004 Modulation requirements.

(a) The use of modulating frequencies higher than 3000 hertz for single channel radiotelephony or tone signaling is not authorized.

(b) The frequency deviation arising from modulation shall not exceed 5 kHz.

(c) Each transmitter, which has more than 1 watt power output employing type F3 emission shall be equipped with a device which will automatically prevent greater than normal audio level from modulating in excess of the limits specified in paragraph (b) of this section.

(d) Each transmitter, which employs type F3 emission, shall be equipped with a modulation limiter in accordance with the provisions of paragraph (c) of this section and also shall be equipped with a low pass audio filter installed between the modulation limiter and the modulated stage. At audio frequencies between 3 kHz and 20 kHz the filter shall have an attenuation greater than the antenuation at 1 kHz by at least:

$$60 \log_{10} (f/3) \text{ decibels.}$$

Where "f" is the audio frequency in kilohertz. At audio frequencies above 20 kHz, the attenuation shall be at least 50 decibels greater than the attenuation at 1 kHz.

§ 21.1005 Permissible communications.

(a) Offshore Central Station shall communicate only with subscriber stations (fixed, temporary-fixed, mobile and airborne).

(b) Subscriber station normally are authorized to communicate with and through Offshore Central.

(c) The foregoing paragraphs of this section shall not be construed to prohibit stations in this service from communicating through radio relay stations authorized pursuant to the provisions of § 21.1001(b).

§ 21.1006 Station at temporary-fixed locations.

Authorizations may be issued upon proper application for the use of frequencies listed in § 21.1001(a) by stations in the Offshore Telecommunications Service for rendition of temporary service to subscribers under the following conditions:

(a) When a fixed station is to remain at a single location for less than 6 months and the location is considered to be temporary.

(b) When a fixed station, authorized to operate at temporary locations, is to remain at a single location for more than six months, applications (FCC Forms 401 and 403) for a station authorization designating that single location as a permanent location shall be filed at least thirty days prior to the expiration of the six-month period.

(c) The station shall be used only for rendition of communication service at points where regular facilities are not available or for restoration of communication service disrupted by storms or other emergencies.

(d) The antenna structure height employed at any location shall not exceed the criteria set forth in § 17.7 of this chapter unless, in each instance, authorization for use of a specific maximum antenna structure height has been obtained from the Commission prior to erection of the antenna. Request for such authorization shall be accompanied by FCC Form 714 and a sketch of the proposed antenna structure.

(e) Applications for authorizations to operate stations at temporary locations under the provisions of this Section shall be made upon FCC Form 401, and may be accompanied by completed 403 for simultaneous consideration provided the equipment to be used is of packaged design. Blanket applications may be submitted for the required number of transmitters.

§ 21.1007 Notification of station operation at temporary locations.

(a) The licensee of stations which are authorized pursuant to the provisions of § 21.1006 shall notify the Commission, its Engineer in Charge of the radio district wherein operation is to be conducted, of each period of operation at least two days prior to installation of the facilities. This notification shall include:

(1) The call sign and specific location of the transmitter.

(2) The location of the transmitter control point.

(3) The identity and location of the station with which it will communicate.

(4) The exact frequency or frequencies to be used.

(5) The commencement and anticipated termination dates of operation from each location. In the event the actual termination date differs from the previous notification, written notice thereof promptly shall be given to the Commission and its Engineer in Charge.

(b) Less than 2 days advance notice may be given when circumstances require shorter notice provided such notice is promptly given and the reasons in support of such notice are stated.

(c) A copy of the foregoing notification shall be posted with the station license (see § 21.114).

PART 91—INDUSTRIAL RADIO SERVICES

1. Section 91.115 is added to read as follows:

§ 91.115 Special provisions governing use of frequencies in the 488–494 MHz band (TV Channel 17) in the Southern Louisiana Offshore Zone.

The following special criteria shall govern the authorization and use of frequencies in the 488–494 MHz band within the Southern Louisiana Offshore Zone.

(a) The frequency bands from 490–491 and 493–494 MHz will be available for assignment to stations governed by this part within the Southern Louisiana Offshore Zone. The boundaries of the Southern Louisiana Offshore Zone are from longitude 87°45′ on the east to longitude 94°00′ on the west, and from the three mile limit along the Gulf of Mexico shoreline on the north to the limit of the outer continental shelf on the south. These frequencies may also be assigned to fixed stations located on shore designed to provide communications service within the zone.

(b) Offshore Base/Mobile, and offshore and shore fixed stations may be authorized.

(c) F2, F3, F4, F9, and A2, A3, A4, A9 emissions may be authorized.

(d) Offshore stations shall afford co-channel protection to TV Channel 17, Bude, Mississippi. Station operating parameters shall be in accordance with the values given in Table I.

TABLE I.—*Protection of co-channel television stations by offshore stations operating in the Southern Louisiana Zone—maximum effective radiated power (ERP)*

[65 dB protection]

Distance from transmitter to TV channel 17, Bude, Miss.	Antenna height above sea level		
	100 ft	150 ft	200 ft
Miles	*Watts*	*Watts*	*Watts*
210	1,000	1,000	1,000
205	1,000	900	800
200	800	710	630
195	590	520	450
190	450	400	330
185	320	280	240
180	250	210	175
175	175	150	130
170	130	110	100
165	95	80	70
160	65	55	50
155	50	40	35
150	35	30	25

NOTE: To determine the maximum permissible effective radiated power:

(1) As specified in § 73.611 determine the distance between the proposed station and Channel 17, Bude, Miss. If the exact mileage does not appear in Table 1, the next lower milage separation is to be used.

(2) Opposite this milage figure ERPs are given that may be used for antenna heights of 100, 150 or 200 feet ASL. If the exact antenna height is not shown, the ERP allowed will be that shown for the next higher antenna height.

(e) Shore stations communicating point-to-point with offshore stations will be permitted at least the same ERP as the offshore station, but only in the direction of the offshore station. A directional antenna shall be used and the rearward radiated power from the antenna in a sector ±22½° from the line joining the shore antenna to Bude, Miss. shall not exceed those shown in Table 2.

TABLE 2.—*Maximum rearward effective radiated power allowed for shore stations in the Southern Louisiana Zone*

[Rearward effective radiated power from shore antenna in a sector ±22½° from the line joining the shore antenna to Bude, Miss.]

Distance from transmitter to TV channel 17 Bude, Miss.	Antenna height above ground					
	100 ft	150 ft	200 ft	300 ft	500 ft	750 ft
Miles	*Watts*	*Watts*	*Watts*	*Watts*	*Watts*	*Watts*
185	320	280	240	190	125	90
180	250	210	175	125	100	60
175	175	150	130	100	70	50
170	130	110	100	75	40	35
165	95	82	70	50	35	25
160	65	55	50	40	25	20
155	50	40	35	30	20	15
150	35	30	25	20	15	10
145	25	20	18	15	10	7
140	18	15	13	10	7	5
135	13	10	9	7	5	3
130	10	8	6	5	3	2
125	7	6	5	4	3	2
120	5	4	3	3	2	1

NOTE: As an example of the use of Tables 1 and 2, assume an offshore station located 180 miles from Bude, Miss. with an antenna height of 100 feet. Table 1 allows this station to operate with 250 watts ERP. Now assume the shore station communicating with the offshore station is 30 miles from the offshore station and 150 miles from Bude, Miss. The shore station antenna height is 500 feet above ground. The shore station will be allowed the same ERP as the offshore station (250 watts) in the direction of the offshore station. Table 2 indicates that the effective radiated power in a sector ±22½° from the line joining the shore antenna to Bude, Miss. can only be 15 watts. Consequently, a directional antenna must be used whose minimum front-to-back ratio over this 45° sector must be at least 12.2 dB. (250 watts forward power to 15 watts rearward power is a power ratio of 16.6 or 12.2 dB.)

(f) To provide co-channel protection to TV Channel 17, no shore station will be allowed closer than 120 miles from Bude, Miss., coordinates 31°22′19″ N and 90°45′05″ W.

(g) To provide adjacent channel protection to TV Channel 18 in Lake Charles, Louisiana, no shore or offshore stations shall be allowed within an 80 mile distance of Lake Charles, Louisiana, whose coordinates are 30°13′45″ N and 93°12′52″ W.

(h) Surface mobile stations shall not operate with an effective radiated power in excess of 25 watts within 20 miles of the three mile limit. In all other areas, the effective radiated power shall not exceed 100 watts with 30 foot maximum antenna height.

(i) No airborne station shall be operated with an effective radiated power in excess of 1 watt or at heights in excess of 1000 feet above mean sea level and shall not be operated outside the limits of the zone specified in Table A. However, to provide adjacent channel protection to TV channel 18, no airborne subscriber station shall operate within an 80 mile radial distance of Lake Charles, Louisiana.

(j) The following frequencies are available for assignment in all services for use in the Southern Louisiana Zone as defined in paragraph (a) of this section.

PAIRED FREQUENCIES (MEGAHERTZ)

Transmit (or receive)	*Receive (or transmit)*
490.025 to 490.975.	493.025 to 493.975.

Only the first and last assignable frequencies are shown. Frequencies shall be assigned in pairs with 3 MHz spacing between transmit and receive frequencies. Assignable frequency pairs shall occur in increments of 25 kHz.

(k) Fixed stations operating point-to-point shall be assigned frequencies beginning with 490.025/493.025 MHz and progressing upwards utilizing available frequencies towards the end of the band. Offshore base/mobile stations shall be assigned frequencies beginning at 490.975/493.975 MHz and progressing downwards utilizing available frequencies towards the beginning of the band. All frequency assignments are subject to the conditions specified in § 91.8.

(l) Bandwidths other than 25 kHz may be authorized upon an adequate showing of need. An application requesting such authorization shall fully describe the modulation, emission and bandwidth desired, the bandwidth to be occupied, and justification for the request.

[FR Doc.76-23199 Filed 8-10-76;8:45 am]

[FCC 76-719; Docket No. 19905]

DOMESTIC PUBLIC RADIO SERVICES

Application Policies and Procedures, Etc.

In the matter of amendment of Parts 1 and 21 of the Commission's rules and regulations applicable to the Domestic Public Radio Services (other than Maritime Mobile).

1. This proceeding was initiated by issuance of a *Notice of Proposed Rulemaking*, 44 F.C.C. 2d 556, 39 FR 1064 (January 4, 1974), for the purpose of clarifying and modifying various procedural rules in Parts 1 and 21 of the Commission's Rules and Regulations. The more important of the proposed changes related to the common carrier radio consolidation or "cut-off" rule, the redefinition of major amendments, and the establishment of new procedures for the legal processing of common carrier radio applications, both microwave and mobile.

2. In manner of background, this proceeding is intended to be the first of a series of rulemakings to "re-regulate" common carrier radio services in order to expedite the processing of applications and to remove obsolete substantive requirements. With this general objective, the Commission released another Notice of Proposed Rulemaking in Docket No. 20490, 55 F.C.C. 2d 36 (1975), intended to implement the use of new application forms and procedures to clarify application requirements, and to lay the basis for automatic data processing of common carrier radio applications.[1] Although they are obviously interrelated (particularly with regard to the definition of major amendments), both of these proceedings focus upon different functional steps involved in the processing of applications.

3. Comments were filed February 21, 1974, by fifteen parties: Aircall New York Corporation (Aircall), and it subsidiaries, Page Boy Inc. and Mobile Radio Message Service, Inc.; Airsignal International, Inc. (Airsignal) and its subsidiaries, Mobile Radio Telephone Service, Inc., Airsignal of California, Inc., Airsignal International of Pittsburgh, Pennsylvania, Inc., Airsignal International of Philadelphia, Inc., and WUI/TAS of Las Vegas, Nevada, Inc.; American Telephone and Telegraph Company (AT&T); American Satellite Corporation; Peter A. Bakal (Bakal) filing individually and for Capital Telephone Company, Inc.; Digital Paging Systems, Inc. (Digital); Eastern Microwave, Inc. (Eastern); Mobilfone, Inc. (Mobilfone); GTE Service Corporation (GTE); Daryal A. Myse, Esquire (Myse); National Association of Radiotelephone Systems (NARS); Stambler & Shrinsky, P.C.; United Video, Inc. (United Video); Vegas Instant Page, Inc. (VIP); and Western Union Telegraph Company (WU). Reply comments were filed by Airsignal, NARS, United Video and VIP.

4. In general, the comments supported the proposed rules, but some questions were raised concerning the contents of public notices; the common carrier "cut-off" rule; the definition of major amendments; the determination of mutually exclusive status; exceptions to the "cut-off" rule; and our proposed comparative evaluation procedure. However, Myse opposed the proposed rules, contending in general that Section 309 of the Communications Act [47 U.S.C. § 309—hereinafter cited as the "Act"] clearly sets forth the only legal processing procedures which may be followed. Instead of defining major amendments, NARS suggested a new processing procedure which would severely limit the discretionary amendment process. These questions, and other issues believed to be of greater significance, are discussed below. In addition, we have considered numerous other suggestions and proposals involving matters of a less substantial nature, but rather than specifically discussing them here, we have modified the rules as considered appropriate.

Procedural Concepts

5. Our major amendment proposals generally involved two procedural requirements—the statutory public notice period and the administrative "cut-off" rule—whose relationship appears to be the cause of some confusion as evidenced in the comments. The concepts are related by the fact that the same definition of a major amendment requires issuance of a statutory public notice which, in turn, causes both the statutory thirty day public notice period and the application of our administrative "cut-off" rule. Although the common carrier radio rules have not clearly distinguished these requirements, they have different origins and purposes which should be briefly noted. The origin of the public notice period is Section 309(b) of the Act which declares that no application (including applications for modification of a construction permit) in the case of a station in the broadcasting or common carrier services shall be granted by the Commission earlier than thirty days following issuance of a public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereof. This provision is designed specifically to give interested parties a thirty day opportunity to learn of an application or substantial amendment and to file a petition to deny prior to a grant as provided for by Section 309(d).[2] Exempted under Section 309(c) from the thirty day waiting period requirement are certain situations where the matters considered are of minor concern, and where the thirty day waiting period and the filing of a petition to deny would serve no useful purpose. Among these exceptions are "any minor amendment of an application" [§ 309(c)(1)] and any application for "a minor change in the facilities of an authorized station." [§ 309(c)(2)(A)]. Rather than precisely define these exceptions, Congress authorized the Commission under Section 309(g) "to adopt reasonable classifications of applications and amendments in order to effectuate the purposes of this section."

6. In contrast, the three branches of what is commonly called our "cut-off" rule originated in our need for an orderly administrative procedure to control the disposition of our caseload. See 47 U.S.C. § 154(j). First, to provide early consolidation of competing applications and to prevent processing disruption by late filings, we require an application for a frequency, previously applied for, to be filed within a certain date. Applications for Common Carrier Facilities, 13 F.C.C. 2d 415 (1968); see, *Ranger et. al.* (*Radio Cabrillo*) v. *F.C.C.*, 294 F. 2d 240 (D.C. Cir. 1961). Competing applications filed after this date are considered to be "cut-off" from comparative consideration. Secondly, to afford ample opportunity to file objections prior to a grant, and yet prevent the processing interruption caused by a late filed petition, we require petitions to deny to be filed within thirty days of the announcement of acceptance for filing of an application or substantial amendment thereto. 47 U.S.C. § 309(d)(1). Finally, we consider an application which is amended by a major amendment to be so changed as to be the equivalent of a newly filed application. Such an amended application is "cut-off" from immediate processing in order to avoid prejudicial surprise to other parties, to allow consideration of competing applications, to discourage the continual reprocessing of substantially changed applications, and to otherwise prevent unnecessary disruption of our processing. Applications for Common Carrier Facilities, supra.[3] In particular, we should note in this regard that the statutory requirement of a public notice for substantial amendments prevents processing of an application for at least thirty days in order to permit an opportunity for protests which themselves may further delay a grant or designation.[4] See, e.g., Western Union Telegraph Co., 25 Pike & Fischer Rad. Regs. 271, 276 (Adm. L. J. 1963).

Contents of Public Notices

7. These distinctions should be first borne in mind when considering the contents of public notices. AT&T and WU wished all amendments, particularly those associated with the technical parameters of a major amendment, to appear on public notice to allow updating of their data bases and the checking of prior service claims and frequency coordination requests. Minor amendments, they suggest, should be exempted from the thirty day public notice period. In our judgment, this suggestion appears to confuse changes which might affect fre-

[1] Among other things, the First Report and Order in Docket No. 20490, 55 F.C.C. 2d 774 (1975), revised Section 21.20 ("Defective applications"). Although this rule was originally proposed in Docket No. 19905, the Commission decided subsequently that it should include more specific examples of common patent defects and be subject to further comment in Docket No. 20490.

[2] H.R. REP. No. 1800, 86th Cong., 2d Sess. 11 (1960); see, S. REP. No. 690, 86th Cong., 1st Sess. 2-5 (1959).

[3] This procedural treatment of substantially amended applications originated in Rule 55 of the Federal Radio Commission (1931).

[4] For similar reasons we are clarifying our definitions of substantial amendments to include those amendments which would convert a proposal into a "major action" under § 1.1305. See, Report and Order in Docket No. 19555, 49 F.C.C. 2d 1313 (1974).

quency coordination with substantial changes which require a statutory public notice. Regardless of possible statutory classification of a change, a point-to-point microwave applicant is required under § 21.100(d) of our rules to coordinate prior to filing any change which could reasonably have an adverse impact on another user. If the problem cannot be resolved, and the objecting carrier deems the matter to be of sufficient importance, it may, of course, file a petition to deny or an informal objection. See, Report and Order in Docket No. 18920, 29 F.C.C. 2d 870, 930–31 (1971). In contrast, the Act requires public notice only of the acceptance for filing of a "substantial amendment", the definitions of which are the subject of this rulemaking. Consequently, we do not think that the public notice requirement of the Act requires us to anticipate all conceivable arguments or objections and then to undertake the substantial administrative burden of publishing the complete technical details contained in an application and any change thereto. We do recognize, however, the desirability of making more readily available to the public all of the technical parameters of proposals in the microwave services. Consequently, we are pursuing this goal in connection with the implementation of new automatic data processing procedures.

THE COMMON CARRIER RADIO "CUT-OFF" RULE

8. One of the aims of this proceeding was to clarify the common carrier radio consolidation or "cut-off" rule for mutually exclusive applications. None of the comments objected to the basic approach of our proposals. Accordingly, we are revising the consolidation or "cut-off" rule in a new § 21.31 only to clarify the four requirements for an application seeking comparative consideration. These requirements are, first, that the application must be factually mutually exclusive as defined in § 21.31(a). Secondly, the application must be in a condition acceptable for filing, a revised requirement which we believe is, in light of case interpretation and past policy, less ambiguous than the present requirement of "substantial completeness." The present terminology has caused some processing confusion because it has been construed as establishing different standards for defective applications such that it is possible for a "skeleton" application to be otherwise unacceptable for filing and yet be "substantially complete" enough to be entitled to comparative consideration with a competing application.[6] In this regard, § 21.20 ("Defective applications") has been revised in Docket No. 20490 to clarify the necessity of substantial compliance with the Commission's Rules. First Report and Order in Docket No. 20490 55 F.C.C. 2d 744 (1975). Thirdly, the application must be in an acceptable condition as of the so called "cut-off" date. The present §§ 1.227(b)(3) and 21.30(b) imply that an application must be in acceptable condition when it is tendered.[6] We are eliminating this ambiguity. Finally, the application must be filed as of the consolidation "cut-off" date. As before, this requirement in § 21.30(b) is worded in the alternative—sixty days, or the day before final action is taken on the first filed application, whichever date comes first. We are clarifying this requirement, however, to stress that the sixty day period is no guarantee of comparative consideration to potential competitors.[7] The sixty day filing period is a conditional right because we will not delay the grant of an application beyond its statutory public notice period, if it is ready for action, in order to anticipate the possible filing of a competing application.

DEFINITION OF MAJOR AMENDMENTS

9. We proposed to revise substantially the definition of "major amendments" to specify common examples in each radio service and to equate more clearly the term "major amendment" as used in our Rules with the term "substantial amendment" as used in section 309(b) of the Act. By allowing reference to the public notice philosophy of section 309, we suggested that this clarification would permit a policy test flexible enough to meet unanticipated factual situations caused by changing technology, yet firm enough to offer guidance and to avoid needless interlocutory conflicts on the classification of amendments. All of the comments appeared to endorse this general approach. However, NARS suggested an alternative procedure, numerous parties suggested alternative definitions of major amendments, and most desired an exception to the "cut-off" rule for major amendments reflecting a substantial change in ownership of existing facilities.[8] In connection with amendment of mutually exclusive applications, NARS suggested that, rather than define major amendments, the Commission should designate applications for hearing immediately upon expiration of a thirty day grace period. This period would be the only time discretionary amendments would be permitted in the absence of a demonstration that the amendment was necessitated by events which could not have been reasonably foreseen or controlled. Although we recognize the problem this proposal is designed to eliminate, we believe that NARS's procedure would only complicate our applications backlog and impose a severe administrative burden. Consequently, we think that reform of our existing procedure, with the definitional changes and "cut-off" rule exceptions discussed below, is more appropriate at this time.

ENGINEERING MAJOR AMENDMENTS

10. Although not meant to anticipate all of the possible engineering changes which could be considered to require a statutory public notice, the Commission did propose for each radio service specific examples of common engineering changes which would be considered major amendments. With respect to the Point-to-Point Microwave Service, we will briefly discuss the following alternative suggestions:

(a) Although AT&T and WU recommended measuring 3 dB power increases in terms of effective radiated power, we have retained the transmitter output power measurement because it is capable of being easily ascertained. In contrast, effective radiated power must be calculated not only in terms of the transmitter output, but also to include line loss and comparative antenna gain characteristics at various angles from the main lobe.

(b) With respect to increases in bandwidth. AT&T suggested that all increases in authorized bandwidth be considered major. However, for the reasons outlined in paragraph 7 above we do not believe increases of less than 10 percent necessitates classification as major, except where such a change would exceed the maximum specified in the rules.

(c) Although we believe that our allowance of a ten second change in coordinates allows reasonable flexibility for small site changes, some carriers were concerned about such a change causing a major azimuth change over a short path. However, in such circumstances the change in azimuth will constitute, in itself, a major amendment even if the change in coordinates does not.

(d) AT&T notes that a change of two degrees in azimuth on standard high performance antennas operating in the frequency range of 4 to 11 GHz can result in a 15 to 25 dB change in gain. However, this change would be restricted to the horizontal arc segment located along the main beam only and would, therefore, not be as much of a problem as it would otherwise appear. Nonetheless, we have decided to tighten this requirement somewhat by applying a one degree criteria.

(e) AT&T also suggested inclusion of "any change or correction which increases the antenna height above ground level in excess of 20 feet" because such a change could result in a loss of path shielding and increase interference possibilities. This appears to be a reasonable request and therefore we are adopting this suggestion.

11. To better meet the requirements of the Multipoint Distribution Service (MDS), we have created a separate subparagraph to define common MDS major engineering changes. Because of the close location of many MDS stations and the current lack of prior frequency coordination requirements, these examples re-

[5] *James River Broadcasting Co.* v. *FCC*, 399 F. 2d 581, 583 (D.C. Cir. 1968).

[6] Id.

[7] *Century Broadcasting Corp.* v. *FCC*, 310 F. 2d 864 (D. C. Cir. 1962); *see, Ridge Radio Corp.* v. *FCC*, 292 F. 2d 770, 773 (D. C. Cir. 1961).

[8] To avoid semantic confusion, most of the comments favored discontinuance of the term "major amendment" in favor of the statutory term "substantial amendment." While this suggestion has considerable merit, we have decided upon the continued use of the term "major amendment" because it is used elsewhere in our rules and will be more clearly equated by this rulemaking with its statutory equivalent.

flect a somewhat more restrictive policy than in point-to-point microwave. Digital urged us to consider a service contour standard for MDS based upon area and population. While this approach has considerable merit, we do not believe that this proceeding is an appropriate vehicle for its implementation. Consequently, we believe that easily calculated, straight forward engineering definitions are more appropriate at this time for this developing service.

12. Our proposed examples of common engineering major amendments in the mobile radio services were generally criticized as being incomplete, ambiguous and restrictive. At GTE's suggestion, we have incorporated rules to deal with changes in transmitting antenna heights and effective radiated power. We have also incorporated AT&T's proposal to permit changes in geographical coordinates of 5 seconds of latitude or longitude, or both. As recommended by NARS, we have deleted ambiguous or unnecessary proposals concerning a number of points of communication and operating characteristics of a station. NARS also suggested that engineering changes be considered substantial only if they should change the land area within the service contour by twenty percent or more, or they change by ten percent or more the population encompassed within the original contour. Upon reflection, we agree that our proposed examples of common engineering changes were somewhat ambiguous. But we do not think that a general proportion of area or population test is a better approach since it would involve possibly disputed measurements, difficult economic assumptions, and would not adequately inform the public of the identity of significant technical changes. As a compromise approach, we have chosen as proposed to specify common major engineering changes, but we have incorporated for some of them a general engineering test which should better define the intent of the rules. Under this approach, some changes—changes in the height or geographic coordinates of a transmitting antenna and increases in effective radiated power or locations served—which might enlarge a station's service contour will be considered to be prima facie major amendments. But to better guide applicants as to what is intended by an "increase in the reliable service contour" we are specifying a standard engineering test which applicants can use should they wish to assume the burden of demonstrating that a proposed change is actually of a minor nature. Taken together, this approach and these modified rules should meet the varied requests of the parties to this proceeding. They should significantly decrease unnecessary interlocutory conflicts concerning the classification of common carrier radio engineering amendments and allow applicants for base stations a degree of flexibility in amending their applications.

OWNERSHIP MAJOR AMENDMENTS

13. The Commission proposed to recognize more explicitly as a major amendment a substantial change in ownership or control of an applicant, or the substitution of one applicant for another. Except for those of Airsignal, the many comments engendered by this proposal appeared to agree in principle that ownership changes to applications for new stations were public notice events which should elicit the "cut-off" rule to discourage "trafficking" in applications. However, the comments also urged an exemption for ownership changes to applications to modify the facilities of existing stations, although they differed as to whether an application for new frequencies should fall within this category.[9] NARS argued that applications for new frequencies or other facility modifications should "run with" the acquisition of an existing station because the public was notified, and the buyer found qualified to be a licensee, incidental to Commission approval of the assignment or transfer application. Otherwise, NARS contends that the value of common carrier properties would be diminished because a buyer does not know in advance whether long pending applications for new frequencies or facility improvements may be protested or dismissed prior to consummation of an assignment or transfer. On the other hand, NARS claims that the acquisition of an application for a new station which is not purchased incidental to the sale of an authorized station should be subject to public notice and the "cut-off" rule since a buyer could not claim that the public had had the opportunity to comment on his qualifications in connection with an assignment application, and the acquisition could result in "trafficking." Although basically agreeing with NARS, VIP distinguished an application for facility modification, which should run with an acquired station, from an application for an additional frequency which VIP considered to be equivalent to an application for a new station. However, Airsignal argued that ownership changes should not be major amendments because they bear no relationship to a determination of mutual exclusivity, restrict the business options of a licensee to assign his stations, and discourage new entrants who could be deprived of long pending guard band applications.

14. We believe that these comments on substantial ownership changes to pending applications should be evaluated in light of our administrative policy towards an unintended side effect of our common carrier "cut-off" rule which appears to have encouraged processing delays. Under this rule, a radio application is protected from the filing of a mutually exclusive application after sixty days from the date of the public notice listing it (or the first application with which it is in conflict) as acceptable for filing.[10] Since this precludes another applicant from filing for the frequency after that date, the only way he could claim the frequency would be to acquire the protected application. The longer such an application remains pending, the more valuable it becomes as other carriers discover a need for additional spectrum through normal business growth. Since delay is potentially rewarded, this situation appears to contribute to the backlog by encouraging the filing of: "skeleton" applications meeting only the minimal requirements for acceptance; unnecessary applications intended to "warehouse" frequencies; and numerous amendments or petitions as strategic devices to delay final action. Although we have attempted to police our procedures, the problem has been exacerbated by the lack of explicit common carrier radio rules, comparable to Rule § 1.525, to deal with "strike" applications or unreasonable agreements to amend or dismiss applications or pleadings. Nevertheless, we are also mindful that a broad prohibition against settlements or ownership changes to pending applications would not be in the public interest since it could prevent a common carrier applicant from resolving unnecessary disputes, from strengthening his financial position, or from acquiring facility improvement applications incidental to the purchase of an existing station.

15. Accordingly, we have sought by a compromise approach to weigh our statutory duty to inform the public and to protect our administrative process, against an obvious public interest in permitting applicants reasonable business flexibility to offer the rendition of the best public service. First, we reaffirm our opinion that a substantial change in the ownership or control of an applicant (other than in the case of a pro forma change), or the substitution of one applicant for another, is an event which changes the identity of the applicant and requires a statutory public notice and a thirty day opportunity for public comment. Furthermore, we believe that the definition of such a change should be by reference to Section 310(d) of the Act since this will allow reference to considerable case law on the subject and will avoid restrictive rule language which could not possibly anticipate all variations of ownership or control changes.

---

[9] NARS and Stambler & Shrinsky recommended old § 1.571(j)(2) as the definition of substantial ownership changes. This section has been recently revised in a manner similar to our proposal in this proceeding. See, Report and Order in Docket No. 20205, 53 F.C.C. 2d 1089 (1975).

[10] Compare § 21.30(b) with §§ 1.564(c), 1.571(c), and 1.227(b)(1). In contrast, the broadcast "cut-off" date under § 1.227(b) is generally the close of business on the day preceding that date (not less than thirty days after publication) designated by a second public notice (§ 1.571(c)) as the date an application will be considered ready for processing. In the interim period between a public notice announcing acceptance for filing (§ 1.564(c)) and designation of a processing date, a broadcast application has relatively little value as a claim upon the frequency since a competing applicant can file his own application rather than acquire a previously filed application.

16. In this regard, however, we do not believe that a statutory public notice is required for the adoption of applications for minor changes to (or modifications of) facilities which are acquired incidental to the transfer or assignment of an authorized station. Since section 309 (c) (2) (A) of the Act does not require a public notice of the acceptance of such applications, we think that the public is adequately informed by the notice listing the acceptance for filing of the authorized station's transfer or assignment application. What constitutes an appropriate application for modification of existing facilities will be determined by reference to the rules of the specific radio service involved. This recognition, however, does not mean that we agree with NARS that applications for new stations or frequencies which appeared initially on public notice should be transferable without public announcement. The grant of a transfer or assignment application should not be construed as a blanket finding that a buyer is necessarily qualified to construct and operate new stations since, as an obvious example, the management ability to operate an existing, profitable business may differ from the substantial capital and engineering needed to construct new stations. Moreover, to accept NARS' argument would be to invite petitions to deny transfer or assignment applications for reasons which may be relevant only to a single construction permit application for a new station.

17. Secondly, we have decided that this is an appropriate time to make more explicit our policy towards settlement agreements as well as the applicability of the "cut-off" rule to ownership amendments to applications for new stations. Although other public interest questions may be involved in such situations, we believe that our policy should be clearly understood as a general procedural rule to focus upon the reasonableness of any consideration promised or received since this would concern the common financial incentives to delay grants or to unreasonably profit from our administrative process. However, while the "cut-off" rule is generally applicable to any major amendment which disrupts processing for the statutory thirty day public notice period, we believe an administrative exception would be justified for appropriate ownership or control changes which tend to reflect changes in business or financial factors overlaying the technical proposal. Relative to these factors, an application's technical proposal due to its engineering nature must be a stable basis for the presentation of the business proposal. Major engineering changes modify the basis of the application and may result in further processing delays caused by, for example, new electrical conflicts. See, e.g., Western Union Telegraph Co., supra. An applicant's business or financial proposal, on the other hand, is based generally upon changing service demands and economic conditions. Since an applicant's reaction to these changes may substantially enhance his ability to render public utility service, we think that it is reasonable to make an exception to the "cut-off" rule for appropriate ownership or control amendments which reflect such changes. If protests should result from the statutory public notice of such amendments, they should be considered prior to grant or to designation for hearing of the amended application.

18. Therefore, to implement this compromise approach we are adopting the procedures outlined in a new § 21.29. In general, these procedures are those of proposed § 21.28(d) expanded to make plain our policy towards not only withdrawal agreements between mutually exclusive applicants, but also ownership amendments and agreements to amend, or to dismiss, applications or pleadings. Under this new procedure, these actions will be generally permitted if the agreement (or understanding) involved is found to be in the public interest, and the consideration promised or paid reimburses only those legitimate and prudent costs directly assignable to the engineering, preparation, filing and advocacy of the withdrawn, dismissed, or amended application, amendment, or pleading.[11] As we proposed, direct "in-house" costs will be permitted, but indirect or overhead costs would be excluded. Where they exceed one thousand dollars, allowable direct costs would have to be verified by an itemized accounting. Finally, in response to suggestions, we have included a ten day period to notify initially the Commission of agreements, and allowed thirty days for the filing of a joint request for approval of agreements.

19. Although broadly written, § 21.29 does contain notable exceptions to its applicability which require some comment. First, its provisions are not applicable to the unilateral actions of an applicant or party, i.e., those actions which are not the result of an explicit agreement or understanding with another applicant or party. Secondly, not all agreements are subject—only those which result in a substantial change in ownership or control, allow grant of a mutually exclusive application, or settle an alleged substantial and material question of fact which would normally necessitate a hearing. In particular, § 21.29 is not applicable to strictly engineering agreements (such as may occur under prior frequency coordination) which resolve frequency conflicts and do not involve any consideration beyond the mutual benefit resulting from a settlement of an electrical conflict. And finally, this section is intended to encourage settlements by clarifying our policy and procedure. As explicitly recognized in paragraph (e), the Commission believes that appropriate settlement of conflicts in common carrier radio services is decidedly in the public interest because it expedites rendition of often essential public communications service and avoids unnecessary legal expenses which may be ultimately borne by the carrier's subscribers. Accordingly, the purpose of this section is to make clear that we will not encourage financial incentives for "strike" application or pleadings, unreasonable "buy-outs" of competitors, or any other procedural actions by persons primarily intending to delay grants or to unreasonably profit from our administrative processes. In short, we believe that this approach will encourage settlements, discourage processing abuses, allow applicants reasonable business flexibility, and yet assure the public of an opportunity to comment on ownership changes as they specifically relate to individual applications for new stations.

[11] We wish to emphasize that the term "legitimate and prudent" are intended to include only those costs that are reasonable and necessary in the preparation and filing of an application. It is not intended to include market surveys or other analyses intended for management decision making purposes, unless such a product is required by the Commission in connection with the application.

Mutually Exclusive Status

20. Both NARS and Myse objected to the ambiguity of our definition of mutually exclusive status. NARS recommended a definition which specified electrical mutual exclusivity, and Myse contended that, in cases of "fringe" electrical interference or economic impact, a substantial and material question of fact is presented which would require in first instance a hearing to determine whether the applications were mutually exclusive so to be entitled to a further comparative hearing. Although we recognize that harmful electrical interference must be determined on a case-by-case basis, we have codified as a rebuttable presumption present Commission policy as to what constitutes mutually exclusive status.[12] To clarify this matter further, we may initiate a series of rulemakings for each radio service in order to establish and distinguish "permissable" and "negotiable" levels of electrical interference from that "harmful" interference which results in actual mutual exclusivity. In the interim, this approach will speed up our processing by guiding applicants and petitioners in cases of so called "fringe" mutual exclusivity, as well as make more explicit our insistence upon good faith cooperation or prior coordination to maximize spectrum utilization and to avoid unnecessary electrical conflicts. See, *F.C.C. v. WJR, The Goodwill Station, Inc.*, 337 US 265 (1949).

21. Although it has been Commission policy for some time,[13] AT&T, GTE, Myse, NARS and United Video objected strongly to our proposal to recognize

[12] Alleged "economic" mutual exclusivity will continue to be dealt with on a case to case basis or by rulemaking. See, Notice of Proposed Rulemaking in Docket No. 20870, FCC76-646 (July 7, 1976); Collier Electric Co., 14 Pike & Fischer Rad. Regs. 848 (1956). Also, we have recognized that mutual exclusivity can result from other practical situations, such as unnecessarily duplicative service to the same customers. Such situations will continue to be judged on a case by case basis as in the past.

[13] Applications for Common Carrier Facilities, 13 F.C.C. 2d 415, 416 (1968).

more explicitly the applicability of the "cut-off" rule to applications which are "chain-reaction" mutually exclusive. In addition to equitable considerations, AT&T and GTE argued that this rule would prevent consideration of two proposals which, in combination, may be superior to a third proposal with which they were mutually exclusive. Although this argument has some merit, it implies an indefinite "chain reaction" which could create the serious procedural problems our rule was designed to prevent. See, *Ranger et al. (Radio Cabrillo)* v. *F.C.C.*, 294 F. 2d 240, 243 (D.C. Cir. 1961); *Ridge Radio Corp.* v. *FCC*, 292 F. 2d 770 (D.C. Cir. 1961). However, we will consider appropriate waivers to this rule where an applicant can demonstrate both good cause for his failure to timely file, and public interest reasons for late acceptance of his application.[14]

"CUT-OFF" RULE EXCEPTIONS

22. Although it is not generally Commission policy to grant waivers or allow exceptions to the consolidation "cut-off" rule, we proposed certain exceptions which were a balance between our need for an orderly administrative process and a recognition of compelling equitable, procedural, and public interest factors. The comments supported this proposal, suggesting only additional exceptions for substantial ownership changes and for site changes or other occurrences beyond the control of an applicant. Upon consideration, we have adopted in § 21.31(e) these suggestions as well as the following other exceptions. Paragraph (e) (1) is intended to reconcile the present § 21.30 (b) with the present § 21.23(b), and to end the effects of the "cut-off" rule at the discretion of the presiding officer when applications are designated for hearing or comparative evaluation. See, Empire Communications Co., 39 F.C.C. 2d 143 (Rev. Bd. 1973). Paragraph (e) (2) is a clarification of the exception now contained in the present § 21.30(b) and is intended to recognize engineering settlements which expedite processing by removing conflicts which would otherwise require resolution in a hearing. Similarly Paragraph (e) (4) is intended to encourage compromises between competing applications. And Paragraph (e) (6) is in in the public interest. Paragraph (e) (3) is for substantial ownership amendments found to be in the public interest. Paragraph (e) (5) is intended to allow for the correction of typographical, transcription, or similar clerical errors whose discovery could not justfy the disruption of reopening a freqency to competing applications where such compromises are tended to recognize engineering changes necessitated by unforeseen events or technological obsolescence of equipment which would have to be considered later in a needless application for modification of facilities. Nevertheless, we stress that these exceptions will be strictly construed and do not represent a basic change in our policy of permitting very limited waivers of the consolidation "cut-off" rule.

COMPARATIVE EVALUATION PROCEDURE

23. Comments to our proposed new comparative evaluation procedure varied from complete opposition by AT&T, VIP, Myse and Stambler and Shrinsky, to largely unenthusiastic support by Aircall, Bakal, Mobilefone, NARS, Eastern and United Video. The oppositions generally contended that our proposal was premature or of doubtful utility since few applicants woud agree to a waiver of hearing rights. The supporters offered a few editorial suggestions (some of which we have incorporated), and a request by United Video that comments not be accepted from affiliated customers, that replies be accepted, and that applicants be required to waive their appellate rights also. Although the initial response to our proposal has not proved as promising as we would have hoped, we have nonetheless decided to adopt the procedure with minor changes and provision for acceptance of reply comments. While it may not be widely used, we believe that it will have some value in cases where applicants find they are not able to bear the expense or delay of a comparative hearing. And the experience it could provide may be helpful in developing future procedural changes concerning "paper hearings."

24. In addition to the items above, we have made numerous small editorial changes to remove ambiguities and have renumbered some rule sections to allow for other rulemakings. We appreciate that a change in organization can be inconvenient at first. To facilitate the transition and aid in cross-reference, we have included in attached Appendix I a table which indicates generally the derivation of the various rule sections. The text of the adopted rules is contained in Appendix II, attached hereto.

25. Accordingly, it is hereby ordered, That pursuant to the authority contained in Sections 4(i), 4(j) and 303 of the Communications Act of 1934 [47 U.S.C. Sections 154(i), 154(j), 303], Parts 1 and 21 of the Commission's Rules and Regulations are revised, as set forth below, effective September 17, 1976.

26. It is further ordered, That the proceedings in Docket No. 19905 are terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Adopted: July 27, 1976.

Released: August 10, 1976.

FEDERAL COMMUNCATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

APPENDIX I

For informational purposes, the following is the general derivation of the amendments to Part 1 and Part 21 of the Commission's Rules:

Amendment Section:	*Derivation*
1.227(b)(3).	New—Substantive revision of old § 1.227(b)(3).
21.23(a)	New—Editorial revision of old § 21.23(a) to cross reference §§ 21.29 and 21.35.
21.23(b)	New—Editorial revision of old § 21.23(b).
21.23(c)	New—Substantive revision of old § 21.23 (c) and (d).
21.23(d)	New—Codification of policy announced by Public Notice dated October 16, 1972.
21.23(e)	Second sentence of old § 21.23(a).
21.23(f)	New—Revision of old § 0.291(k).
21.23(g)	First sentence of old §21.24.
21.24	Old § 21.24 deleted and section number reserved.
21.25	Editorial revision of old § 21.25.
21.26(c)	Deleted.
21.27(a)	New—Editorial revision of old § 21.26(c) to include information public notices and notices required by environmental rules of part 1.
21.27(b)	New—Editorial revision of old § 21.27(b).
21.27(c)	New—Editorial revision of old § 21.27(a) to cross reference new § 21.27(a) and 21.23.
21.28(a)	New—Editorial revision of § 21.28(a) and (c) to cross reference §§ 21.29 and 21.35.
21.28(b)	New—editorial revision of old § 21.28(b) to cross reference §§ 21.29 and 21.35.
21.28(c)	New—editorial revision of last sentence of old § 21.28(c) to cross reference §§ 21.29 and 21.35.
21.29	New—substantive elaboration on last sentence of present § 21.28(b) and codification of current policy and procedure modeled after § 1.525.
21.30(a)	New—editorial revision of old § 21.27(c).
21.30(b)	New—editorial revision of old § 21.27(c) and § 21.30(c).
21.30(c)	New—substantive revision of old § 21.30(c).
21.31(a) and (b)	New—substantive revision of old § 21.30(b).
21.31(c)	New—codification of policy announced in "Applications for Common Carrier Facilities," 13 F.C.C. 2d 415 (1968).
21.31(d)	New—editorial combination of old § 21.28(d) and § 21.30(b).
21.31(e)	New—substantive revision of old § 21.30(b).
21.32(a)	New—47 U.S.C. § 309(a).

[14] Among the public interest arguments which may be made, for example, is a demonstration of the existence of a substantial and material question of transmitter site coverage which late acceptance of an application would raise as an issue in a comparative proceeding.

Section:	Amendment	Deviation
21.32(b)		New—editorial combination of old § 21.27(e) and § 21.30(e).
21.32(c)		New—editorial combination of old § 21.27(f) and § 21.30(d).
21.32(d)		New—editorial revision of old § 21.20.
21.32(e)		New—editorial revision of old § 21.27(c).
21.32(f)		New—editorial revision of old § 21.27(f).
21.32(g)		New—editorial revision of old § 21.31.
21.32(h)		New.
21.33		Reserved.
21.34		Reserved.
21.35		New—Comparative evaluation procedure.
21.36		Reserved.
21.37		Reserved.
21.38		Reserved.
21.39(a),(b) and (c).		New—substantive revision of old § 21.32 to reflect 47 U.S.C. § 310(d).
21.39(d)		New—codification of current procedure modeled after § 1.541.
21.40(a),(b) and (c).		New.
21.41		Reserved.
21.42		Reserved.
21.43		Redesignation of old § 21.-33.
21.44		Redesignation of old § 21.-34.
21.45		Redesignation of old § 21.-35.

Parts 1 and 21 of Chapter I of Title 47 of the Code of Federal Regulations are amended to read as follows:

PART 1—PRACTICE AND PROCEDURE

1. § 1.227(b)(3) is revised to read as follows:

§ 1.227 Consolidations.

* * * * *

(b) * * *

(3) In common carrier cases (except for those involving either Public Coast stations in the Maritime Mobile Service, or stations in the Domestic Public Radio Services), any application that is mutually exclusive with another previously filed application will be considered with such prior filed application only if the later filed application is received by the Commission in a condition acceptable for filing prior to the close of business on the day preceding the day the earlier filed application is either designated for hearing or granted. Consolidation of cases involving Public Coast stations in the Maritime Mobile Services is provided for in paragraph (b)(4) of this section. In the Domestic Public Radio Services, no application will be entitled to comparative consideration with one or more conflicting applications unless such application, or such application as amended by a major amendment (as defined by § 21.23 of this chapter), meets the requirements of § 21.31 of this chapter.

* * * * *

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

2. Subpart B of the Table of Contents to Part 21 is amended to read as follows:

Subpart B—Applications and Licenses

GENERAL FILING REQUIREMENTS

Sec.
21.3 Station authorization required.
21.4 Eligibility for station license.
21.5 Formal and informal applications.
21.6 Filing of applications, fees, and number of copies.
21.7 Standard application forms for Point-to-Point Microwave Radio, Local Television Transmission and Multipoint Distribution Services.
21.8 [Reserved].
21.9 Standard application forms for Domestic Public Land Mobile Radio and Rural Radio services.
21.10 Special application requirements for the Domestic Public Land Mobile Radio and Rural Radio services.
21.11 Miscellaneous forms shared by all Domestic Public Radio services.
21.12 [Reserved].
21.13 General application requirements.
21.14 [Reserved].
21.15 Technical content of applications.
21.16 [Reserved].
21.17 Demonstration of financial qualifications.
21.18 [Reserved].
21.19 [Reserved].
21.20 Defective applications.
21.21 Inconsistent or conflicting applications.
21.22 Repetitious applications.
21.23 Amendment of applications.
21.24 [Reserved].
21.25 Application for temporary authorizations.

PROCESSING OF APPLICATIONS

21.26 Receipt of application.
21.27 Public notice period.
21.28 Dismissal and return of applications.
21.29 Ownership amendments and agreements to amend or to dismiss applications or pleadings.
21.30 Opposition to applications.
21.31 Mutually exclusive applications.
21.32 Consideration of applications.
21.33 [Reserved].
21.34 [Reserved].
21.35 Comparative evaluation of mutually exclusive applications.
21.36 [Reserved].
21.37 [Reserved].
21.38 [Reserved].
21.39 Transfer of control or assignment of station authorization.
21.40 Considerations involving transfer or assignment applications.
21.41 [Reserved].
21.42 [Reserved].
21.43 Period of construction.
21.44 Forfeiture of station authorizations.
21.45 License period.

* * * * *

3. § 21.23 is revised to read as follows:

§ 21.23 Amendment of applications.

(a) Any pending application may be amended as a matter of right if the application has not been designated either for hearing, or for comparative evaluation pursuant to § 21.35, *Provided however*, that amendments shall comply with the provisions of § 21.29 as appropriate.

(b) The Commission or the presiding officer may grant requests to amend an application designated for hearing or comparative evaluation only if a written petition demonstrating good cause is submitted and properly served upon the parties of record.

(c) The Commission will classify amendments on a case-by-case basis. Whenever previous amendments have been filed, the most recent amendment will be classified by reference to how the information in question stood as of the latest Public Notice issued which concerned the application. An amendment will be deemed to be a major amendment subject to § 21.27 and § 21.31 under any of the following circumstances:

(1) If in the Point-to-Point Microwave Radio Service and Local Television Transmission Service, the amendment results in a substantial modification of the engineering proposal such as (but not necessarily limited to):

(i) A change in, or an addition of, a radio frequency;

(ii) A change in polarization of the transmitted signal;

(iii) An increase in the transmitter output power of three (3) dB or more;

(iv) A change in type of transmitter emission or an increase in emission bandwidth of more than ten (10) percent;

(v) A change in the geographic coordinates of a station's transmitting antenna of more than ten (10) seconds of latitude or longitude, or both;

(vi) A change of more than one (1) degree in the azimuth of the center of the main lobe of radiation of a point-to-point station's transmitting antenna (including any deflections by repeating devices);

(vii) Any change which increases the antenna height by twenty (20) feet or more; or

(viii) Any changes or combination of changes which would cause harmful electrical interference to an authorized facility or result in a mutually exclusive conflict with another pending application.

(2) If in the Multipoint Distribution Service, the amendment results in a substantial modification of the engineering proposal such as (but not necessarily limited to):

(i) A change in, or addition of, a radio frequency channel;

(ii) A change in polarization of the transmitted signal;

(iii) A change in type of transmitter emission or an increase in emission bandwidth of more than ten (10) percent;

(iv) A change in the geographic coordinates of a station's transmitting antenna of more than ten (10) seconds of latitude or longitude, or both;

(v) Any change which increases the antenna height by ten (10) feet or more;

(vi) Any technical change which would increase the effective radiated power in any direction by more than one and one-half (1.5) dB; or

(vii) Any changes or combination of changes which would cause harmful electrical interference to an authorized facility or result in a mutually exclusive conflict with another pending application.

(3) If in the Domestic Public Land Mobile Radio Service and Rural Radio Service, the amendment results in a substantial modification of the engineering proposal such as (but not necessarily limited to):

(i) A change in, or an addition of, a radio frequency;

(ii) A change in the class of station (e.g., from control to base);

(iii) A change in the type of emission of a transmitter; or

(iv) The following modifications of base station facilities, unless a complete engineering showing can demonstrate that the resultant increase in the reliable service area contour (as defined by § 21.504) is less than ten (10) percent or one (1) mile as measured in miles along any of eight radials spaced every forty five (45) degrees from zero degree True North:

(A) A change in geographic coordinates of a station's transmitting antenna of more than five (5) seconds of latitude or longitude, or both;

(B) An increase in effective radiated power in any direction which would enlarge the service contour;

(C) A change in the height, or position of a transmitting antenna which would enlarge the service contour;

(D) An increase in the number of transmitter locations on the same frequency.

(4) If the amendment would convert a proposal into a major action under § 1.1305.

(5) If the amendment results in a substantial and material alteration of the proposed service.

(6) If the amendment specifies a substantial change in beneficial ownership or control (de jure or de facto) of an applicant such that the change would require, in the case of an authorized station, the filing of a prior assignment or transfer of control application under § 310(d) of the Communications Act of 1934 [47 U.S.C. § 310(d)]. *Provided however*, Such a change would not be considered major where it merely amends an application for modification of an authorized station to reflect a change in ownership or control of such station as previously approved by the Commission.

(7) If the amendment, or the cumulative effect of the amendment, is determined by the Commission otherwise to be substantial pursuant to § 309 of the Communications Act of 1934.

(d) In the Point-to-Point Microwave Radio Service and Local Television Transmission Service, a pending application may be amended by a major amendment to reflect the relocation of a proposed station site and a new application will not be required if:

(1) The geographic coordinates of the new station site are within twenty (20) miles of the coordinates of the original site; and,

(2) The relocated station would serve essentially the same purpose in the system as originally proposed.

(e) If a petition to deny (or other formal objection) has been filed, or if the Commission has published a notice that the application appears to be mutually exclusive with another application (or applications), any amendment (or other written communications) shall be served on the petitioner and on any such mutually exclusive applicant (or applicants), unless waiver of this requirement is granted pursuant to paragraph (f) of this section.

(f) The Commission may waive the service requirements of paragraph (e) of this section and prescribe such alternative procedures as may be appropriate under the circumstances to protect petitioners' interests and to avoid undue delay in a proceeding, if an applicant submits a request for waiver which demonstrates that the service requirement is unreasonably burdensome. Requests for waiver shall be served on petitioners. Oppositions to the petition may be filed within five (5) days after the petition is filed and shall be served on the applicant. Replies to oppositions will not be entertained.

(g) Any amendment to an application shall be signed and shall be submitted in the same manner, and with the same number of copies, as was the original application. Amendments may be made in letter form if they comply in all other respects with the requirements of this Chapter.

§ 21.24 [Reserved]

4. § 21.24 is deleted and marked reserved.

§ 21.25 [Amended]

5. In § 21.25(a) change reference from § 21.12 to § 21.5 and in § 21.25(b) change reference from § 21.27(c) to § 21.27(b).

§ 21.26 [Amended]

6. § 21.26(c) is deleted.

7. § 21.27 headnote and text are revised to read as follows:

§ 21.27 Public notice period.

(a) At regular intervals, the Commission will issue a public notice listing:

(1) The acceptance for filing of all applications and major amendments thereto;

(2) Significant Commission actions concerning applications listed as acceptable for filing;

(3) Information which the Commission in its discretion believes of public significance; and

(4) Special environmental considerations as required by Part I of this Chapter.

(b) The Commission will not grant any application until expiration of a period of thirty (30) days following the issuance date of a public notice listing the application, or any major amendment thereto, as acceptable for filing.

(c) As an exception to paragraphs (a)(1), (a)(2) and (b) of this section, the public notice provisions are not applicable to applications:

(1) For authorization of a minor technical change in the facilities of an authorized station where such a change would not be classified as a major amendment (as defined by § 21.23) were such a change to be submitted as an amendment to a pending application;

(2) For issuance of a license subsequent to a construction permit or, pending application for a grant of such license, any special or temporary authorization to permit interim operation to facilitate completion of authorized construction or to provide substantially the same service as would be authorized by such license;

(3) For extension of time to complete construction of authorized facilities;

(4) For temporary authorization pursuant to § 21.25(b);

(5) For authorization of facilities for remote pickup, temporary studio links and similar facilities which service a broadcast station;

(6) For an authorization under any of the proviso clauses of section 308(a) of the Communications Act of 1934 [47 U.S.C. 308(a)];

(7) For consent to an involuntary assignment or transfer of control of a radio authorization; or

(8) For consent to a voluntary assignment or transfer of control of a radio authorization, where the assignment or transfer does not involve a substantial change in ownership or control.

8. § 21.28 is revised to read as follows:

§ 21.28 Dismissal and return of applications.

(a) Except as provided under § 21.29, any application may be dismissed without prejudice as a matter of right if the applicant requests its dismissal either prior to designation for hearing, or prior to selection of the comparative evaluation procedure of § 21.35. An applicant's request for the return of his application after it has been accepted for filing will be considered to be a request for dismissal without prejudice. Requests for dismissal shall comply with the provisions of § 21.29 as appropriate.

(b) A request to dismiss an application without prejudice will be considered either after designation for hearing, or after selection of the comparative evaluation procedure of § 21.35, only if:

(1) A written petition is submitted to the Commission and is properly served upon all parties of record;

(2) The petition is submitted before the issuance date of a public notice of Commission action denying the application; and

(3) The petition complies with the provisions of § 21.29 (whenever applicable) and demonstrates good cause.

(c) The Commission will dismiss an application for failure to prosecute or for failure to respond substantially within a specified time period to official correspondence or requests for additional information. Dismissal will be without prejudice prior to designation for hearing or selection of the comparative evaluation procedure of § 21.35, but may be made with prejudice for unsatisfactory compliance with § 21.29, or after designation for hearing or selection of the comparative evaluation procedure.

9. The present § 21.29 is revoked and a new headnote and text are added to read as follows:

§ 21.29 Ownership changes and agreements to amend or to dismiss applications or pleadings.

(a) Except as provided in paragraph (b) of this section, applicants or any

other parties in interest to pending applications shall comply with the provisions of this section whenever:

(1) They participate in any agreement (or understanding) which involves any consideration promised or received, directly or indirectly, including any agreement (or understanding) for merger of interests or the reciprocal withdrawal of applications; and

(2) The agreement (or understanding) may result in either:

(i) A proposed change in the ownership of an applicant which would be classified as a major amendment under § 21.23, and for which an exemption under § 21.31(e) from the "cut-off" rule would be requested; or,

(ii) A proposed withdrawal, amendment or dismissal of any application(s), amendment(s), petition(s), pleading(s), or any combination thereof, which would thereby permit the grant without hearing of an application previously in contested status.

(b) The provisions of this section shall not be applicable to any engineering agreement (or understanding) which:

(1) Resolves frequency conflicts with authorized stations or other pending applications without the creation of new or increased frequency conflicts; and

(2) Does not involve any consideration promised or received, directly or indirectly (including any merger of interests or reciprocal withdrawal of applications), other than the mutual benefit of resolving the engineering conflict.

(c) For any agreement subject to this section, the applicant of an application which would remain pending pursuant to such an agreement will be considered responsible for the compliance by all parties with the procedures of this section. Failure of the parties to comply with the procedures of this section shall constitute a defect in those applications which are involved in the agreement and remain in a pending status.

(d) The principals to any agreement or understanding subject to this section shall comply with the standards of paragraph (e) of this section in accordance with the following procedure:

(1) Within ten (10) days after entering into the agreement, the parties thereto shall jointly notify the Commission in writing of the existence and general terms of such agreement, the identity of all of the participants and the applications involved;

(2) Within thirty (30) days after entering into the agreement, the parties thereto shall file any proposed application amendments, motions, or requests together with a copy of the agreement which clearly sets forth all terms and provisions, and such other facts and information as necessary to satisfy the standards of paragraph (e) of this section. Such submission shall be accompanied by the certification by affidavit of each principal to the agreement declaring that the statements made are true, complete, and correct to the best of their knowledge and belief, and are made in good faith.

(3) The Commission may request any further information which in its judgment it believes is necessary for a determination under paragraph (e) of this section.

(e) The Commission will grant an application (or applications) involved in the agreement (or understanding) only if it finds upon examination of the information submitted, and upon consideration of such other matters as may be officially noticed, that the agreement is consistent with the public interest, and the amount of any monetary consideration and the cash value of any other consideration promised or received is not in excess of those legitimate and prudent costs directly assignable to the engineering, preparation, filing, and advocacy of the withdrawn, dismissed, or amended application(s), amendment(s), petition(s), pleading(s), or any combination thereof. Where such costs represent the applicant's in-house efforts, these costs shall include only directly assignable costs and shall exclude the application of general overhead expenses. [The treatment to be accorded such consideration for interstate rate making purposes will be determined at such time as the question may arise in an appropriate rate proceeding.] An itemized accounting shall be submitted to support the amount of consideration involved except where such consideration (including the fair market value of any non-cash consideration) promised or received does not exceed one thousand dollars ($1,000.00). Where consideration involves a sale of facilities or merger of interests, the accounting shall clearly identify that portion of the consideration allocated for such facilities or interests and a detailed description thereof, including estimated fair market value. The Commission will not presume an agreement (or understanding) to be *prima facie* contrary to the public interest solely because it incorporates a mutual agreement to withdraw pending application(s), amendment(s), petition(s), pleading(s), or any combination thereof.

10. § 21.30 headnote and text are revised to read as follows:

§ 21.30 Opposition to applications.

(a) Petitions to deny (including petitions for other forms of relief) and responsive pleadings for Commission consideration must:

(1) Identify the application or applications (including applicant's name, station location, Commission file numbers and radio service involved) with which it is concerned;

(2) Be filed in accordance with the pleading limitations, filing periods, and other applicable provisions of §§ 1.41 through 1.52;

(3) Contain specific allegations of fact (except for those of which official notice may be taken), which shall be supported by affidavit of a person or persons with personal knowledge thereof, and which shall be sufficient to demonstrate that the petitioner (or respondent) is a party in interest and that a grant of, or other Commission action regarding, the application would be prima facie inconsistent with the public interest;

(4) Be filed within thirty (30) days after the date of public notice announcing the acceptance for filing of any such application or major amendment thereto (unless the Commission otherwise extends the filing deadline); and

(5) Contains a certificate of service showing that it has been mailed to the applicant no later than the date of filing thereof with the Commission.

(b) The Commission will classify as informal objections:

(1) Any petition to deny not filed in accordance with paragraph (a) of this section;

(2) Any petition to deny (or for another forms of relief) an application to which the thirty (30) day public notice period of § 21.27(b) does not apply; or

(3) Any comments on, or objections to, the grant of an application (other than the issuance of a license pursuant to a construction permit) where the comments or objections do not conform to either paragraph (a) of this section or other Commission rules and requirements.

(c) The Commission will consider informal objections, but will not necessarily discuss them specifically in a formal opinion if:

(1) The informal objection is filed at least one day before Commission action on the application; and

(2) The informal objection is signed by the submitting person (or his representative) and discloses his interest.

11. The present § 21.31 is revoked and a new headnote and text are added to read as follows:

§ 21.31 Mutually exclusive applications.

(a) The Commission will consider applications to be mutually exclusive if their conflicts are such that the grant of one application would effectively preclude by reason of harmful electrical interference, or other practical reason, the grant of one or more of the other applications. The Commission will presume "harmful electrical interference" to mean interference which would result in a material impairment to service rendered to the public despite full cooperation in good faith by all applicants or parties to achieve reasonable technical adjustments which would avoid electrical conflict.

(b) An application will be entitled to comparative consideration with one or more conflicting applications only if:

(1) The application is mutually exclusive with the other application; and

(2) The application is received by the Commission in a condition acceptable for filing by whichever "cut-off" date is earlier:

(i) Sixty (60) days after the date of the public notice listing the first of the conflicting applications as accepted for filing; or

(ii) One (1) business day preceding the day on which the Commission takes final action on the previously filed application (should the Commission act upon such application in the interval between thirty (30) and sixty (60) days after the date of its public notice).

(c) Whenever three or more applications are mutually exclusive, but not uni-

formly so, the earliest filed application establishes the date prescribed in paragraph (b)(2) of this section, regardless of whether or not subsequently filed applications are directly mutually exclusive with the first filed application. [For example, applications A, B, and C are filed in that order. A and B are directly mutually exclusive, B and C are directly mutually exclusive. In order to be considered comparatively with B, C must be filed within the "cut-off" period established by A even though C is not directly mutually exclusive with A.]

(d) An application otherwise mutually exclusive with one or more previously filed applications, but filed after the appropriate date prescribed in paragraph (b)(2) of this section, will be returned without prejudice and will be eligible for refiling only after final action is taken by the Commission with respect to the previously filed application (or applications).

(e) For the purposes of this section, any application (whether mutually exclusive or not) will be considered to be a newly filed application if it is amended by a major amendment (as defined by § 21.23), except under the following circumstances:

(1) The application has been designed for comparative hearing, or for comparative evaluation (pursuant to § 21.35), and the Commission or the presiding officer accepts the amendment pursuant to § 21.23(b);

(2) The amendment resolves frequency conflicts with authorized stations or other pending applications but does not create new or increased frequency conflicts;

(3) The amendment reflects only a change in ownership or control pursuant to an agreement (or understanding) which is found by the Commission to be in the public interest under § 21.29 and from which a requested exemption from the "cut-off" requirements of this section is granted;

(4) The amendment reflects only a change in ownership or control which results from an agreement under § 21.29 whereby two or more applicants entitled to comparative consideration of their applications join in one (or more) of the existing applications and request dismissal of their other application (or applications) to avoid the delay and cost of comparative consideration;

(5) The amendment corrects typographical, transcription, or similar clerical errors which are clearly demonstrated to be mistakes by reference to other parts of the application, and whose discovery does not create new or increased frequency conflicts; or

(6) The amendment does not create new or increased frequency conflicts, and is demonstrably necessitated by events which the applicant could not have reasonably foreseen at the time of filing, such as, for example:

(i) The loss of a transmitter or receiver site by condemnation, natural causes, or loss of lease or option;

(ii) Obstruction of a proposed transmission path caused by the erection of a new building or other structure; or

(iii) The discontinuance or substantial technological obsolescence of specified equipment, whenever the application has been pending before the Commission for two or more years from the date of its filing.

12. The present § 21.32 is revoked and a new headnote and text are added to read as follows:

§ 21.32 Consideration of applications.

(a) Applications for an instrument of authorization will be granted if, upon examination of the application and upon consideration of such other matters as it may officially notice, the Commission finds that the grant will serve the public interest, convenience, and necessity.

(b) The grant shall be without a formal hearing if, upon consideration of the application, any pleadings or objections filed, or other matters which may be officially noticed, the Commission finds that:

(1) The application is acceptable for filing, and is in accordance with the Commission's rules, regulations, and other requirements;

(2) The application is not subject to comparative consideration (pursuant to § 21.31) with another application (or applications), except where the competing applicants have chosen the comparative evaluation procedure of § 21.35 and a grant is appropriate under that procedure;

(3) A grant of the application would not cause harmful electrical interference to an authorized station;

(4) There are no substantial and material questions of fact presented; and

(5) The applicant is legally, technically, financially and otherwise qualified, and a grant of the application would serve the public interest.

(c) If the Commission should grant without a formal hearing an application for an instrument of authorization which is subject to a petition to deny filed in accordance with § 21.30, the Commission will deny the petition by the issuance of a Memorandum Opinion and Order which will concisely report the reasons for the denial and dispose of all substantial issues raised by the petition.

(d) Whenever the Commission, without a formal hearing, grants any application in part, or subject to any terms or conditions other than those normally applied to applications of the same type, it shall inform the applicant of the reasons therefor, and the grant shall be considered final unless the Commission should revise its action (either by granting the application as originally requested, or by designating the application for a formal evidentiary hearing) in response to a petition for reconsideration which:

(1) Is filed by the applicant within thirty (30) days from the date of the letter or order giving the reasons for the partial or conditioned grant;

(2) Rejects the grant as made and explains the reasons why the application should be granted as originally requested; and,

(3) Returns the instrument of authorization.

(e) The Commission will designate an application for a formal hearing, specifying with particularity the matters and things in issue, if, upon consideration of the application, any pleadings or objections filed, or other matters which may be officially noticed, the Commission determines that:

(1) A substantial and material question of fact is presented;

(2) The Commission is unable for any reason to make the findings specified in paragraph (a) of this section and the application is acceptable for filing, complete, and in accordance with the Commission's rules, regulations, and other requirements;

(3) The application is entitled to comparative consideration (under § 21.31) with another application (or applications); or

(4) The application is entitled to comparative consideration (pursuant to § 21.31) and the applicants have chosen the comparative evaluation procedure of § 21.35 but the Commission deems such procedure to be inappropriate.

(f) The Commission may grant, deny, or take other action with respect to an application designated for a formal hearing pursuant to paragraph (e) of this section after an appropriate hearing conducted in accordance with the provisions of § 21.35 or Part 1 of this chapter.

(g) Whenever the public interest would be served thereby the Commission may grant one or more mutually exclusive applications expressly conditioned upon final action on the applications, and then either designate all of the mutually exclusive applications for a formal evidentiary hearing or (whenever so requested) follow the comparative evaluation procedures of § 21.35, as appropriate, if it appears:

(1) That some or all of the applications were not filed in good faith, but were filed for the purpose of delaying or hindering the grant of another application;

(2) That the public interest requires the prompt establishment of radio service in a particular community or area;

(3) That a delay in making a grant to any applicant until after the conclusion of a hearing on all applications might jeopardize the rights of the United States under the provisions of a international agreement to the use of the frequency in question; or

(4) That a grant of one application would be in the public interest in that it appears from an examination of the remaining applications that they cannot be granted because they are in violation of provisions of the Communications Act, other statutes, or of the provisions of this chapter.

(h) Reconsideration or review of any final action taken by the Commission will be in accordance with subpart A of Part 1 of this chapter.

13. The present § 21.33, "Period of construction", and the present § 21.34 "Forfeiture and termination of station authorization", are redesignated as §§ 21.43

and 21.44, respectively, and §§ 21.33 and 21.34 are reserved.

14. The present § 21.35, "License period," is redesignated § 21.45 and a new § 21.35 is added to read as follows:

§ 21.35 Comparative evaluation of mutually exclusive applications.

(a) In order to expedite action on mutually exclusive applications, the applicants may request the Commission to consider their applications without a formal hearing in accordance with the summary procedure outlined in paragraph (b) of this section, if:

(1) The applications are entitled to comparative consideration pursuant to § 21.31;

(2) The applications have not been designated for formal evidentiary hearing; and

(3) The Commission determines, initially or at any time during the procedure outlined in paragraph (b) of this section, that such procedure is appropriate, and that, from the information submitted and consideration of such other matters as may be officially noticed, there are no substantial and material questions of fact presented (other than those relating to the comparative merits of the applications which would preclude a grant under paragraphs (a) and (b) of § 21.32.

(b) Provided that the conditions of paragraph (a) of this section are satisfied, applicants may request the Commission to act upon their mutually exclusive applications without a formal hearing pursuant to the summary procedure outlined below:

(1) To initiate the procedure, each applicant will submit to the Commission a written statement containing:

(i) A waiver of his right to a formal hearing;

(ii) A request and agreement that, in order to avoid the delay and expense of a comparative formal hearing, the Commission should exercise its judgment to select from among the mutually exclusive applications that proposal (or proposals) which would best serve the public interest; and

(iii) The signature of a principal (and his attorney if so represented).

(2) After receipt of the written requests of all of the applicants the Commission (if it deems this procedure appropriate) will issue a notice designating the comparative criteria upon which the applications are to be evaluated and will request each applicant to submit, within a specified period of time, additional information concerning his proposal relative to the comparative criteria.

(3) Within thirty (30) days following the due date for filing this information, the Commission will accept concise and factual argument on the competing proposals from the rival applicants, potential customers, and other knowledgeable parties in interest.

(4) Within fifteen (15) days following the due date for the filing of comments, the Commission will accept concise and factual replies from the rival applicants.

(5) From time to time during the course of this procedure the Commission may request additional information from the applicants and hold informal conferences at which all competing applicants shall have the right to be represented.

(6) Upon evaluation of the applications, the information submitted, and such other matters as may be officially noticed the Commission will issue a decision granting one (or more) of the proposals which it concludes would best serve the public interest, convenience and necessity. The decision will report briefly and concisely the reasons for the Commission's selection and will deny the other application(s). This decision shall be considered final.

§§ 21.36–21.38 [Reserved]

15. Sections 21.36, 21.37 and 21.38 are [Reserved].

16. A new § 21.39 is added to read as follows:

§ 21.39 Transfer of control or assignment of station authorizations.

(a) No construction permit or station license, or any rights thereunder, shall be transferred, assigned, or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any corporation holding such permit or license, to any person except upon application to the Commission and upon finding by the Commission that the public interest, convenience, and necessity will be served thereby. The treatment to be accorded acquisition or disposition costs for interstate rate making purposes will be determined at such time as the question may arise in a rate proceeding.

(b) Requests for transfer of control or assignment authority shall be submitted on the application forms prescribed by § 21.11 of this chapter; shall be accompanied by the applicable showings required by §§ 21.13, 21.15, 21.17 and 21.40 of this chapter.

(c) In acting upon applications for transfer and assignment authority the Commission will not consider whether the public interest, convenience, and necessity might be served by the transfer, assignment, or disposal of the permit or license to a person other than the proposed transferee or assignee.

(d) The Commission shall be notified in writing promptly of the death or legal disability of an individual permittee or licensee, a member of a partnership, or a person directly or indirectly in control of a corporation which is a permittee or licensee. Within thirty (30) days after the occurrence of such death or legal disability, an application in accordance with the provisions of paragraph (b) of this section shall be filed requesting consent to involuntary assignment of such permit or license or for involuntary transfer of control of such corporation to a person or entity legally qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved.

17. A new § 21.40 is added to read as follows:

§ 21.40 Considerations involving transfer or assignment applications.

(a) The Commission will review a proposed transaction to determine if the circumstances indicate "trafficking" in licenses or construction permits whenever applications (except those involving a pro forma assignment or transfer of control) for consent to assignment of a common carrier construction permit or license, or for transfer of control of a corporate permittee or licensee, involve facilities which have been operated for less than two years by the proposed assignor or transferor. At its discretion, the Commission may require the submission of an affirmative, factual showing (supported by affidavits of a person or persons with personal knowledge thereof) to demonstrate that the proposed assignor or transferor has not acquired an authorization or operated a station for the principal purpose of profitable sale rather than public service. This showing may include, for example, a demonstration that the proposed assignment or transfer is due to changed circumstances (described in detail) affecting the licensee or permittee subsequent to the acquisition of the permit or license, or that the proposed transfer of radio facilities is incidental to a sale of other facilities or merger of interests.

(b) If a proposed transfer of radio facilities is incidental to a sale of other facilities or merger of interests, any showing requested under paragraph (a) of this section shall include an additional exhibit which:

(1) Discloses complete details as to the sale of facilities or merger of interests;

(2) Segregates clearly by an itemized accounting, the amount of consideration involved in the sale of facilities or merger of interests; and

(3) Demonstrates that the amount of consideration assignable to the facilities or business interests involved represents their fair market value at the time of the transaction.

(c) For the purposes of this section, the two year period is calculated using the following dates (as appropriate):

(1) The initial date of grant of the construction permit, excluding subsequent modifications;

(2) The date of consummation of an assignment or transfer, if the station is acquired as the result of an assignment of construction permit or license, or transfer of control of a corporate permittee or licensee; or

(3) The median date of the applicable commencement dates (determined pursuant to paragraphs (c) (1) and (2) of this section) if the transaction involves a system (such as a Point-to-Point Microwave System) of two or more stations. (The median date is that date so selected such that fifty percent of the commencement dates of the total number of stations, when arranged in chronological order, lie below it and fifty percent lie above it. When the number of stations is an even number, the median date will be a value half way between the two dates closest to the theoretical median).

§§ 21.41–21.42 [Reserved]

18. §§ 21.41 and 21.42 are reserved.

[FR Doc.76-23352 Filed 8-10-76;8:45 am]

[Docket No. 20665, RM-2324; FCC 76-715]

PUBLIC, INDUSTRIAL AND LAND TRANSPORTATION RADIO SERVICES

Elimination of Required Annual Measurement of Transmitter Power, Frequency and Modulation and Specification of Transmitter Power in Terms of Output Power

In the matter of amendment of Parts 89, 91, and 93 of the Commission's rules and regulations to eliminate the required annual measurement of transmitter power, frequency and modulation, and to specify transmitter power in terms of output power.

1. On November 7, 1975, the Commission released a Notice of Proposed Rule Making (40 FR 52857) in the above-entitled matter which was published in the FEDERAL REGISTER on November 13, 1975. The Rule Making was issued in response to a petition from HT&B Electronics (HTB) requesting elimination of the annual transmitter power measurement currently required by the rules [1] and the specification of radio frequency output power as the preferred method of transmitter power measurement. In keeping with its policy of attempting to eliminate nonessential operating requirements, the Commission expanded the scope of the HTB petition and proposed elimination of the presently required annual measurement of transmitter frequency and modulation.[2]

2. A list of parties filing comments and reply comments is given in Appendix A. Subsequent to the reply comment deadline of February 14, 1976, the Commission received three filings intended as reply comments and 70 letters from individuals and concerns having an interest in this proceeding. While we were unable to include these showings with the official comments, we wish to assure these parties that their respective observations and concerns were substantially reflected in those comments filed in a timely manner.

ANNUAL MEASUREMENT OF TRANSMITTER POWER, FREQUENCY AND MODULATION

3. The Association of American Railroads (AAR), the American Automobile Association (AAA) and the Land Mobile Communications Council (LMCC) expressed general support for our proposal to eliminate the required annual measurement of transmitter power, frequency and modulation. The Special Industrial Radio Service Association (SIRSA) and the California Public Safety Radio Association, Inc. (CPSRA) also concurred with our proposal and expressed particular support for our policy of encouraging on-the-air measurement techniques. The GTE Service Corporation, the Forest Industries Telecommunications (FIT), the American Trucking Association (ATA), the International Taxicab Association (ITA) and Yellow Cab of California also expressed their support of our proposal, citing the increased flexibility in maintenance policy which would result from the proposed de-regulation.

4. The Utilities Telecommunications Council (UTC) also concurred with our proposal, provided that the Commission require that measurements of transmitter power, frequency, and modulation, and the methods used to perform these measurements, be entered into the station records irrespective of the frequency or circumstances surrounding the measurements.[3] The Arizona Department of Public Safety also expressed its approval of our proposal, but recommended that this matter be reviewed in two years in order to assess its overall impact, particularly with respect to any noted increase in the number of interference incidents. The Associated Public Safety Communications Officers (APCO) expressed opinions similar to those of the Arizona Department of Public Safety. APCO cautioned, however, that in many solid state transmitters, a reduction in output power due to the deterioration of certain discreet components could result in an increase in spurious radiation, and thus a consequent increase in the interference potential.

5. The National Association of Manufacturers (NAM) was less optimistic and expressed the belief that with the ever increasing channel congestion, the complete and immediate elimination of periodic mandatory checks of transmitter performance could be unwise. Therefore, NAM suggested that the Commission limit its proposed de-regulation to the Chicago Region and evaluate the results at a later date, or else amend the rules to stipulate a measurement interval of 18 or 24 months.

6. Ratelco, Inc., also viewed the proposed de-regulation with disapproval. They stated their biggest problem is in convincing customers to make their mobiles available for routine preventive maintenance. Ratelco also expressed reservations about the use of on-the-air measurement techniques noting that a high percentage of required service is to correct receiver problems, dirty contacts, and intermittent transmit conditions caused by broken microphone cords and other physical problems. These statements were echoed in the numerous comments filed by other service organizations after the reply comment deadline.

7. The Land Mobile Section of the Communication Division of the Electronic Industries Association (EIA) also expressed the belief that the requirements for annual measurements and on-site inspection are in the best public interest and should be retained. EIA argued tha the existing rules help to assure the system integrity necessary for efficient spectrum utilization. "It is well accepted in the industry", states EIA, "that as a transmitter or receiver crystal ages it gradually changes frequency. This drift can cause the transmitter to be outside the Commission's tolerances and poses a potential interference problem for the users. The inevitable results of off-frenquency operation are interference to other users and a loss of effective radiating power from the drifting transmitter. Both require the system operator to increase his air time to repeat transmissions". Concluding, EIA pointed out that there is a large market for used equipment, much of which, while reconditioned, is nevertheless constructed to past (tube and crystal oven) technology.[4] The National Association of Business and Educational Radio (NABER) while expressing general support for the Commission's de-regulation policy, expressed in its comments many of the reservations voiced by the EIA.

8. In reply comments, Bell Communications of Helena, Arkansas, stated that in its experience, approximately 40 percent of the licensees in the Business Radio Service use system degradation as the motivating factor to have their equipment returned to the applicable technical standards.

9. After weighing the arguments we have concluded for the reasons listed below that it would be in the public interest to eliminate the annual measurement requirements as proposed. We are, however, as suggested by the Arizona Department of Public Safety, going to review this matter in the future in order to assess its overall impact on land mobile radio operations.

10. By proposing to delete these requirements it was not our intention to encourage laxity on the part of licensees with respect to system maintenance. It is emphasized that the deletion of these requirements does not in any way relieve the licensee of his responsibility to take appropriate measures to insure that the radio equipment is at all times operated in accordance with the applicable technical standards. The rules have and will continue to require licensees to operate their transmitters within the specified technical parameters. We point out, however, that in the case of the older tube type transmitters, it may be necessary to make measurements every few months to meet the technical standards in the rules, while longer intervals may suffice for the more modern solid state equipment. Eliminating these annual measurement requirements merely increases the licensee's flexibility in transmitter maintenance policy and procedure.

11. Also, it was not our intention to suggest that on-the-air measurements alone as noted in several of the comments, would suffice to safeguard system performance. In a time of even increasing frequency congestion, it is necessary

[1] §§ 89.115(b)(3), 91.108(b)(3) and 93.108(b)(3).

[2] §§ 89.115 (a)(3) and (c)(3), 91.108 (a)(3) and (c)(3) and 93.108 (a)(3) and (c)(3.

[3] This information, however, is presently required by §§ 89.175, 91.160 and 93.160.

[4] Information received from service organizations indicates that approximately 30 percent of the equipment presently in use is of tube design.

that each licensee take effective measures to insure the integrity of his communications system. These measurements should include an evaluation of receiver performance in order that undue air time not be consumed in repeating messages lost due to poor effective receiver sensitivity. Receiver and antenna performance optimization, as well as the repair of damage resulting from rugged use, allows no alternative to regular on-site transceiver evaluation.

OUTPUT POWER VS. INPUT POWER

12. Our proposal to specify the use of transmitter output power in lieu of DC input power to the final radio frequency stage as the preferred method of transmitter power measurement received the support of all parties filing comments. Therefore, except for several minor changes as discussed below we are adopting this part of the item as proposed.

13. UTC, for example, recommended that we amend our definition of output power to read:

> The radio frequency output power of the transmitter's final stage as measured at the output terminals which terminate into a dummy or artificial load.

We agree that a refinement of our originally proposed definition could be advantageous. However, we feel that a provision should be made for output power measurement under radiating conditions. Accordingly, we have amended the Appendix to refine output power as:

> The radio frequency output power of a transmitter's final radio frequency stage as measured at the output terminal while connected to a load of the impedance recommended by the manufacturer.

14. UTC, in reviewing our proposed Appendix, also pointed out that:

> The last phrase in § 91.102(b) provides that "* * * the power of a transmitter shall be the maximum rated output power as specified by the manufacturer". However, § 91.106(c) provides that "The output power shall not exceed by more than 20 percent, the output power shown in the Radio Equipment List * * *". "* * * for purposes of uniformity and consistency in the rules, it is recommended that the phrase "shown in the Radio Equipment List" be substituted for the phrase "as specified by the manufacturer" in § 91.102(b).

We agree, and have so amended the Appendix.[*]

15. SIRSA, in its comments, objected to our conversion factor of .75 for transmitters below 25 MHz and .60 for transmitters above 25 MHz for converting transmitter final stage input power to output power stating that:

> It has been the experience of several of SIRSA's members that under current state-of-the-art conditions in the band 25–100 MHz, a transmitter with 500 watts input power is capable of producing 330 watts output power and, in fact, some of the newer base stations are capable of producing 350 watts output power. Similarly, new base stations operating in the band 100–215 MHz with 600 watts input power have a normal output of 375 watts.

16. We recognize that there are a few transmitters with final stage efficiencies greater than our specified value of .60 (for frequencies above 25 MHz). However, after further reviewing the data submitted by manufacturers for type acceptance, we have concluded that our value of .60 is well above the average. Moreover, as we indicated in the Notice of Proposed Rule Making, we are relaxing the output power tolerance from 10 to 20 percent in order to accommodate the relatively small number of units with exceptional efficiency. Accordingly, we do not feel that further adjustment to our efficiency factor is warranted.

17. In other comments, the United States Independent Telephone Association and the GTE Service Corporation pointed out that the 350 watt output power limit specified in §§ 89.111, 91.106 and 93.106 did not agree with the result of 360 watts obtained by using the procedure described in paragraph 6 of the Notice. We are aware of this slight discrepancy. Our motive in specifying the power as 350 watts was simply to suggest a figure which, in view of the other power limits specified, might be more easily remembered. Since no arguments were advanced demonstrative of the need for 360 watts output power, and since the decible difference resulting from the 10 watt reduction is insignicant, we have decided to retain the originally suggested value of 350 watts.

18. The Arizona Department of Public Safety has, in its comments requested that the Commission specify that transmitter output power be measured at the input to the antenna system, since such a measurement would then reflect the losses due to ancillary equipment such as duplexers and cavities. While this proposal would, at first glance, appear attractive, it poses a number of practical and administrative difficulties. For maximum accuracy, it would be necessary to measure the power actually delivered to the antenna in order to take into account normal transmission line losses. Needless to say, it would be difficult and impractical to climb the antenna tower each time a measurement is desired. The preferable approach would be to measure the transmitter output power and subtract the line losses. Secondly, output power has traditionally been interpreted to mean either the transmitter output power or the effective radiated power (ERP). Since ERP is not conveniently measured, it should be apparent that when we refer to the measurement of output power, unless otherwise specified, we mean the transmitter output power.

19. Moreover, it is our practice when enforcing the rules relating to transmitter power, to compare the measured transmitter output power with the value specified for that particular transmitter in the Commission publication, "Radio Equipment List—Equipment Acceptable for Licensing." Since transmitters have been type accepted for the output powers appearing in this list, it would be inappropriate to attempt to increase the transmitter power to the level necessary to compensate for ancillary equipment or line loss. While a number of conservatively designed transmitters are available which are capable of producing substantially more than their rated output power, it has been noted that tuning for such maximum power often results in the generaiton of undesired harmonic or spurious emissions.

20. In view of the fact that losses resulting from the use of particular cables, duplexers, cavities and the like are readily available from technical information supplied by the manufacturers, and can easily be summed in order to determine the overall transmission line loss, we believe that the measurement of actual antenna input power is unnecessary and that the authorization of this parameter would be largely without advantage. Therefore, for the sake of convenience and simplicity, we reaffirm our original proposal and specify that output power be measured at the transmitter output terminals while connected to a load of the impedance recommended by the manufacturer.

21. In concurrence with the foregoing, the Commission has determined that the public interest, convenience and necessity will be best served by the elimination of the requirement for annual measurement of transmitter power, frequency and modulation and by amending Parts 89, 91, and 93 of the Rules to specify the use of radio frequency output power as the preferred method of transmitter power measurement.

22. Accordingly, pursuant to the authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended, it is ordered, That effective September 9, 1976, Parts 89, 91 and 93 of the Commission's Rules and Regulations are amended as shown below. It is further ordered, that this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

APPENDIX A

National Association of Manufacturers
Ratelco, Inc.
Special Industrial Radio Service Association, Inc.
United States Independent Telephone Association

[*] Because of their identical content, we have similarly amended §§ 89.103(b) and 93.102(b).

Comments were filed by—Continued
Utilities Telecommunications Council
Yellow Cab Company of California

Reply Comments were filed by:
Bell Communications of Helena, Arkansas

Parts 89, 91, and 93 of the Commission's Rules and Regulations are amended as follows:

PART 89—PUBLIC SAFETY RADIO SERVICES

1. Section 89.3(b) is amended to add a new definition in alphabetical sequence to read as follows:

§ 89.3 Definitions.

* * * * *

(b) * * *

Output power. The radio frequency output power of a transmitter's final radio frequency stage as measured at the output terminal while connected to a load of the impedance recommended by the manufacturer.

* * * * *

2. Section 89.15(a)(2) is amended as follows:

§ 89.15 Frequency coordination procedures.

(a) * * *

* * * * *

(2) Requests to change existing facilities by increasing the unauthorized output, or raising the authorized height of the antenna or moving the authorized station location (including the antenna), or by adding a base station within the licensee's existing area of operation.

* * * * *

3. Section 89.61(c)(10) is amended as follows:

§ 89.61 Request for special temporary authority.

* * * * *

(c) * * *

(10) Output power of the transmitter.

* * * * *

4. Section 89.101(d)(1) & par (p) are armended to read as follows:

§ 89.101 Frequencies.

* * * * *

(d) * * *

(1) Notwithstanding the rule provisions relating to permissible communications, points of communication and emissions in the applicable subpart of this part, the frequencies 27.235, 27.245, 27.255, 27.265, and 27.275 MHz may be used to accomplish any radio communication requirement which is necessary to the licensee's activity: Provided, That all operations are otherwise in accordance with the rules in this chapter; that the bandwidth of emission does not exceed 8 kHz; and that output power is limited to no more than 20 watts.

* * * * *

(p) The following frequencies may be assigned to fixed stations in the Public Safety Radio Services on a secondary, non-interference basis to land mobile operations in the Industrial (except Business) and Land Transportation Radio Services. All such use of these frequencies for fixed systems is limited to locations 100 or more miles from the center of any urbanized area of 200,000 or more population, except that the distance may be 75 miles if the output power does not exceed 20 watts. All such fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two-frequency systems the separation between transmit-receive frequencies is 5 MHz. The centers of urbanized areas of 200,000 or more populations are determined from the Appendix, page 226, of the U.S. Commerce Publication "Air Line Distance Between Cities in the United States." Urbanized areas of 200,000 or more population are defined in the U.S. Census of Population, 1960, Vol. 1, Table 23, page 1–50.

* * * * *

5. Section 89.103 is amended as follows:

§ 89.103 Frequency stability.

(a) * * *

Frequency range (megahertz)	All fixed and base stations	Over 2 W	All mobile stations 2 W or less
	Percent	*Percent*	*Percent*
Below 25	0.01	0.01	0.02
25 to 50	.002	.002	.005
50 to 450	[1].0005	.0005	.005
450 to 470	[4].00025	.0005	.0005
470 to 512	[4].00025	.0005	.0005
806 t. 821	[4].00015	.00025	.00025
851 to 866	.00015	.00 25	.00025
1427 to 435	[4].03	.03	.03
Above 1435	([3] [5])	([2] [5])	([2] [5])

[1] Stations authorized for operation on or before Dec. 1, 1961, in the frequency band 72–74.6 MHz may operate with a frequency tolerance of 0.005 pct.

[4] Operational fixed stations controlling mobile relay stations, through use of the associated mobile frequency, may operate with a frequency tolerance of 0.0005 pct.

[5] For control stations the frequency stability is 0.00025 pct.

[4] For fixed stations with power output above 120 Ws, the frequency tolerance is 0.01 pct if the necessary bandwidth of the emission does not exceed 3 kHz. For fixed station transmitters with a power of 120 W or less and using time division multiplex, the frequency tolerance may be increased to 0.05 pct.

[3] Radiolocation equipment using pulse modulation shall meet the following frequency tolerance. The frequency at which maximum emission occurs shall be within the authorized frequency band and shall not be closer than 1.5/T MHz to the upper and lower limits of the authorized frequency band where tetsa is the pulse duration in microseconds. For other radiolocation equipment, tolerances will be specified in the station authorization. See also sec. 89.121.

[2] The frequency tolerance for base and mobile stations will be specified in the station authorization.

(b) For the purpose of determining the frequency tolerance applicable to a particular transmitter in accordance with the foregoing provisions of this section, the power of a transmitter shall be the maximum rated output power as specified in the Commission's "Radio Equipment List".

6. Section 89.109(c) is amended as follows:

§ 89.109 Modulation requirements.

* * * * *

(c) Each transmitter shall be equipped with a device which automatically prevents modulation in excess of that specified in this subpart which may be caused by greater than normal audio level: *Provided, however,* That this requirement shall not be applicable to transmitters authorized to operate as mobile stations with a maximum output power of 2 watts or less.

* * * * *

7. Section 89.111(b) and (c) are amended to read as follows:

§ 89.111 Power and antenna height.

* * * * *

(b) Except where the maximum power that may be used on a particular frequency is specifically designated in connection with the use of such frequency, the maximum power that will be authorized is shown in the following tabulation:

Frequency range (megahertz)	Maximum output power	Maximum effective radiated power
	Watts	*Watts*
1.3 to 3	1,500	*
3 to 25	750	*
25 to 100	300	*
100 to 470	350	*
470 to 512	*	1,000
806 to 821	([1])	([1])
851 to 866	([2])	([1])
2450 to 2500	5	*
2500 to 10, 550	([3])	*
10,550 to 10,680	3	*
Above 10,680	([2])	*

[1] For power limitations see sec. 89.651.

[2] The output power of a transmitter on any authorized frequency in this service shall not exceed 2,000 W (33 dBW).

[3] To be specified in the station authorization.

(c) The output power shall not exceed by more than 20 percent the output power shown in the Radio Equipment List for transmitters included in this list, or the output power for the particular transmitter specifically listed on the station authorization.

8. Section 89.115 (a), (b), (b)(2) & (c) are amended; par (a) (3) & (4), (b)(3) & (c)(3) are deleted to read as follows:

§ 89.115 Transmitter measurement.

(a) The licensee of each station shall employ a suitable procedure to determine that the carrier frequency of each transmitter authorized to operate with an output power in excess of 2 watts, is maintained within the tolerance prescribed in this part. This determination shall be made, and the results thereof entered in the station records, in accordance with the following:

* * * * *

(b) The licensee of each station shall employ a suitable procedure to determine that the transmitter output power of each transmitter authorized to operate with an output power in excess of two watts does not exceed the maximum figure specified on the current station authorization. On authorizations stating only the input power to the final radio frequency stage, the maximum permissible output power is 75 percent for frequencies below 25 MHz and 60 percent of the input power for frequencies above 25 MHz. If a non-DC final radio frequency stage is utilized, then the output power shall not exceed 75 percent of the input power. This determination shall

be made, and the results thereof entered into the station records, in accordance with the following:

* * * * *

(2) When any change is made in the transmitter which may affect the transmitter power output.

(c) The licensee of each station shall employ a suitable procedure to determine that the modulation of each transmitter authorized to operate with an output power in excess of 2 watts, does not exceed the limits specified in this part. This determination shall be made and the results thereof entered in the station records, in accordance with the following:

* * * * *

9. Section 89.126(h) is amended to read as follows:

§ 89.126 Secondary alarm and signalling operations.

* * * * *

(h) The output power shall not exceed 30 watts (at the remote site).

* * * * *

10. Section 89.259(g)(6) is amended as follows:

§ 89.259 Frequencies available to the Local Government Radio Service.

(g) * * *

(6) Available for assignment: *Provided*, That the output power of any transmitter authorized to operate on this frequency shall not exceed 2 watts.

* * * * *

11. Section 89.309(h) (9), (13), (14), (15) and (17) are amended as follows:

§ 89.309 Frequencies available to the Police Radio Service.

* * * * *

(h) * * *

(9) This frequency is available for assignment to zone and interzone stations in the Police Radio Service for use with A1 emission only and an output power of 750 watts.

* * * * *

(13) Subject to the restrictions contained in Section 89.111(a), base stations operating on this frequency and rendering service to state police mobile units may be authorized to use a maximum output power in excess of the maximum indicated in Section 89.111(b) but not in excess of 7500 watts: Provided, That such operation will cause no harmful interference to the service of other stations.

(14) This frequency may be assigned to fixed stations in the Police Radio Service in Alaska for point-to-point radiotelephone communications, using type A3 emission and an output power of 750 watts.

(15) This frequency may be assigned to fixed stations in the Police Radio Service in Alaska for point-to-point radiotelephone communications, using type A3 emission with output power of 750 watts, subject to the condition that no harmful interference is caused to the service of any police station employing type A1 emission on this frequency including any operations conducted in accordance with outstanding regional agreements and further subject to the condition that no harmful interference is caused to the service of any station, which in the discretion of the Commission may have priority on the frequency with which interference results.

* * * * *

(17) The maximum output power of any transmitter authorized to operate on this frequency, after June 1, 1956, shall not exceed 2 watts. Licensees holding a valid authorization as of June 1, 1956, for base or mobile station operations on this frequency, with a power in excess of 2 watts, may continue to be authorized for such operation without regard to this power limitation.

* * * * *

12. Section 89.359(g)(6) is amended as follows:

§ 89.359 Frequencies available to the Fire Radio Service.

(g) * * *

(6) The output power of any transmitter authorized to operate on this frequency shall not exceed 2 watts.

* * * * *

PART 91—INDUSTRIAL RADIO SERVICES

13. Section 91.3 is amended to add a new definition in alphabetical sequence to read as follows:

§ 91.3 Definitions.

* * * * *

Output Power. The radio frequency output power of a transmitter's final radio frequency stage as measured at the output terminal while connected to a load of the impedance recommended by the manufacturer.

* * * * *

14. Section 91.7(b)(7) and (e)(4) are amended to read as follows:

§ 91.7 Relay and control stations.

* * * * *

(b) * * *

(7) A mobile station associated with one or more mobile relay stations may be authorized to operate only on a mobile service frequency above 25 MHz which is available for assignment to mobile stations. In the Business Radio Service any low-power frequency below 450 MHz may be authorized for that purpose when such stations are limited to a maximum output power of 1 watt or less.

* * * * *

(e) * * *

(4) Notwithstanding paragraph (e)(1) and (3) of this Section, in the Business and Special Industrial Radio Services in the frequency bands below 450 MHz only low power frequencies (2 watts or less output power) may be assigned for the purposes described in paragraph (e)(1) and (2) of this section.

15. Section 91.8(a) is amended as follows:

§ 91.8 Policy governing the assignment of frequencies.

(a) The frequencies which normally may be assigned to stations in any one of the several Industrial Radio Services are listed in the applicable subpart of this part. All licensees of stations in these services shall cooperate in the use of the frequencies assigned in order to minimize interference, and thereby obtain the most effective use of the authorized facilities. Each frequency or band of frequencies listed in this part is available on a shared basis only and will not be assigned for the exclusive use of any one licensee. The use of any frequency may be restricted as to specified geographical areas, maximum power, or such other operating conditions contained in this part or in the station authorization. Except for applications listed in paragraph (9)(1) of this section, each application for assignment of a new frequency or to change existing facilities by increasing the authorized output power, or raising the height of the antenna, or moving the authorized station location (including the location of the antenna), or by adding a base station within the licensee's existing area of operation shall be accompanied by evidence of frequency coordination in the form set forth either in paragraph (2) or (3) of this paragraph:

* * * * *

16. Section 91.53(c)(10) is amended as follows:

§ 91.53 Procedure for obtaining special temporary authority.

* * * * *

(c) * * *

(10) Output power of the transmitter.

* * * * *

17. Section 91.102 is amended as follows:

§ 91.102 Frequency stability.

(a) * * *

Frequency range (megahertz)	Transmitter output power			
	Fixed and base stations		Mobile stations	
	Over 200 W	200 W or less	Over 2 W	2 W or less
	Percent	*Percent*	*Percent*	*Percent*
Below 25 [1]	0.005	0.01	0.01	0.02
25 to 50	.002	.002	.002	.005
50 to 450	[2] .0005	.0005	.0005	.005
450 to 470	[3] .00025	[3] .00025	.0005	[4] .0005
470 to 512	[3] .00025	.00025		
806 to 821	[5] .00015	[5] .00015	.00025	.00025
851 to 866	.00015	.00015	.00025	.00025
1427 to 1435	[6] .03	[6] .03	.03	.03
Above 1435	([7])	([7])	([7])	([7])

[1] Industrial Radiolocation Service stations operating in the frequency bands 70–90 kHz and 110–130 kHz will be required to maintain the carrier frequency of each authorized transmitter within 0.01 pct of the assigned frequency. Industrial Radiolocation Service stations operating in frequency bands above 130 kHz must comply with the tolerance requirements indicated in the column for fixed and base stations in this table.

[2] Stations authorized for operation on or before Dec. 1, 1961, in the frequency band 73–74.6 MHz may operate with a frequency tolerance of 0.005 pct.

[3] Operational fixed stations controlling mobile relay stations, through use of the associated mobile frequency, may operate with a frequency tolerance of 0.0005 pct.

[4] The frequency tolerance for base and mobile stations authorized to operate in these bands will be specified in the station authorizations.

[5] For control stations, the frequency stability is 0.00025 pct.

[6] For fixed stations with a output power above 120 W, the frequency tolerance is 0.01 pct if the necessary bandwidth of the emission does not exceed 3 kHz. For fixed station transmitters with a power of 120 W or less and using time division multiplex the frequency tolerance may be increased to 0.05 pct.

[7] Radar stations in the Industrial Radiolocation Service using pulse modulation shall meet the following frequency tolerances. The frequency at which maximum emission occurs shall be within the authorized frequency band and shall not be closer than 1.5/T MHz to the upper and lower limits of the authorized frequency band where tesis is the pulse duration in microseconds. For other equipment, tolerances will be specified in the station authorization.

(b) For the purpose of determining the frequency tolerance applicable to a particular transmitter in accordance with the foregoing provisions of this Section, the power of a transmitter shall be the maximum rated output power as specified in the Commission's "Radio Equipment List".

18. Section 91.105(c) is amended as follows:

§ 91.105 Modulation requirements.

* * * * *

(c) Each transmitter first authorized or installed after July 1, 1950, shall be provided with a device which automatically will prevent modulation in excess of that specified in this subpart which may be caused by greater than normal audio level: *Provided, however,* That this requirement shall not be applicable to transmitters authorized to operate as mobile stations with a maximum output power of 2 watts or less.

* * * * *

19. Section 91.106 (b) and (c) are amended to read as follows:

§ 91.106 Power and antenna height.

* * * * *

(b) * * *

Frequency range (megahertz)	Output power	Maximum effective radiated power
	Watts	*Watts*
1.6 to 6	1,500	
25 to 100	300	
100 to 216	350	
216 to 220	([1])	([1])
220 to 470	350	
470 to 512		1,000
806 to 821	([2])	([2])
851 to 866	([3])	([3])
2450 to 2500	5	
2500 to 10,550	([1])	
10,550 to 10,680	3	
Above 10,680	([1])	

[1] To be specified in the station authorization.

[2] For power limitations, see sec. 89.651.

[3] The output power of a transmitter on any authorized frequency in this service shall not exceed 2,000 W (33 BW).

(c) The output power shall not exceed by more than 20 percent the output power shown in the Radio Equipment List for transmitters included in this list, or the output power for the particular transmitter specifically listed on the station authorization.

20. Section 91.108 (a), (b), (b)(2) and (c) are amended; and par (a) (3) & (4), (b)(3) and (c)(3) are deleted to read as follows:

§ 91.108 Transmitter measurements.

(a) The licensee of each station shall employ a suitable procedure to determine that the carrier frequency of each transmitter authorized to operate with an output power in excess of 2 watts, is maintained within the tolerance prescribed in this part. This determination shall be made, and the results thereof entered in the station records, in accordance with the following:

* * * * *

(b) The licensee of each station shall employ a suitable procedure to determine that the transmitter output power of each transmitter authorized to operate with an output power in excess of two watts does not exceed the maximum figure specified on the current station authorization. On authorizations stating only the input power to the final radio frequency stage, the maximum permissible output power is 75 percent for frequencies below 25 MHz and 60 percent of the input power for frequencies above 25 MHz. If a non-DC final radio frequency stage is utilized, then the output power shall not exceed 75 percent of the input power. This determination shall be made, and the results thereof entered into the station records, in accordance with the following:

* * * * *

(2) When any change is made in the transmitter which may affect the transmitter output power.

(c) The licensee of each station shall employ a suitable procedure to determine that the modulation of each transmitter authorized to operate with an output power in excess of 2 watts, does not exceed the limits specified in this part. This determination shall be made and the results thereof entered in the station records, in accordance with the following:

* * * * *

21. Section 91.254(b) (8) and (26) are amended to read as follows:

§ 91.254 Frequencies available.

(b) * * *

(8) Other provisions of this part notwithstanding, this frequency may be authorized for use with any type of emission which does not exceed an occupied bandwidth of 8 kHz for intermittent transmissions; further, authorizations may be issued to permit operation on this frequency by self-actuating or other electrical or mechanical means not under the direct control of any individual. All operations on this frequency are limited to a maximum output power of 20 watts.

* * * * *

(26) This frequency may be assigned to fixed stations on a secondary non-interference basis to land mobile stations in the Public Safety and Land Transportation Radio Services. All use of these frequencies by fixed stations is limited to locations 100 or more miles from the center of any urbanized area of 200,000 or more population, except that the distance may be 75 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two-frequency systems separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 200,000 or more population are defined in the U.S. Census of Population, 1960, vol. 1, table 23, pages 1–50. The centers of urbanized areas are determined from the appendix, Page 226, of the U.S. Commerce publication "Air Line Distance Between Cities in the United States."

* * * * *

22. Section 91.304(b)(6) & (29) are amended to read as follows:

§ 91.304 Frequencies available.

(b) * * *

(6) Other provisions of this part notwithstanding, this frequency may be authorized for use with any type of emission which does not exceed in an occupied bandwidth of 8 kHz, for intermittent transmissions; further, authorizations may be issued to permit operation on this frequency by self-actuating or other electrical or mechanical means not under the direct control of any individual. All operations on this frequency are limited to a maximum output power of 20 watts.

* * * * *

(29) This frequency may be assigned to fixed stations on a secondary non-

interference basis to land mobile stations in the Public Safety and Land Transportation Radio Services. All use of these frequencies by fixed stations is limited to locations 100 or more miles from the center of any urbanized area of 200,000 or more population, except that the distance may be 75 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15dB. For two-frequency systems separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 200,000 or more population are defined in the U.S. Census of population, 1960, vol. 1, table 23, page 1–50. The centers of urbanized areas are determined from the appendix, page 226, of the U.S. Commerce publication "Air Line Distance Between Cities in the United States."

* * * * *

23. Section 91.354(b)(6), (10) and (29) are amended to read as follows:

§ 91.354 Frequencies available.

(b) * * *

(6) Other provisions of this part notwithstanding, this frequency may be authorized for use with any type of emission which does not exceed an occupied bandwidth of 8 kHz, for intermittent transmissions; further, authorizations may be issued to permit operation on this frequency by self-actuating or other electrical or mechanical means not under the direct control of any individual. All operations on this frequency are limited to a maximum output power of 20 watts.

* * * * *

(10) Authorizations to operate on this frequency will be issued for A2 or F2 emission for tone signalling or for a combination of such emission with A3 or F3 emission with a maximum bandwidth of 20 kHz. The output power shall not exceed 2 watts. The maximum distance between any transmitter and the center of the radiating portion of its antenna shall not exceed 25 feet. Operation on this frequency is subject to the condition that no harmful interference is caused to stations operating in the Business Radio Service.

* * * * *

(29) This frequency may be assigned to fixed stations on a secondary non-interference basis to land mobile stations in the Public Safety and Land Transportation Radio Services. All use of these frequencies by fixed stations is limited to locations 100 or more miles from the center of any urbanized area of 200,000 or more population except that the distance may be 75 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two-frequency systems separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 200,000 or more population are defined in the U.S. Census of Population, 1960, Vol. 1, Table 23, page 1–50. The centers of urbanized areas are determined from the appendix, page 226, of the U.S. Commerce publication "Air Line Distance Between Cities in the United States."

* * * * *

24. Section 91.404(b)(5) is amended to read as follows:

§ 91.404 Frequencies available.

(b) * * *

(5) Other provisions of this part notwithstanding, this frequency may be authorized for use with any type of emission which does not exceed an occupied bandwidth of 8 kHz, for intermittent transmission; further, authorizations may be issued to permit operation on this frequency by self-actuating or other electrical or mechanical means not under the direct control of any individual. All operations on this frequency are limited to a maximum output power of 20 watts.

* * * * *

25. Section 91.454(b)(2) is amended to read as follows:

§ 91.454 Frequencies available.

(b) * * *

(2) Other provisions of this part notwithstanding, this frequency may be authorized for use with any type of emission which does not exceed an occupied bandwidth of 8 kHz, for intermittent transmission; further, authorizations may be issued to permit operation on this frequency by self-actuating or other electrical or mechanical means not under the direct control of any individual. All operations on this frequency are limited to a maximum output power of 20 watts.

* * * * *

26. Section 91.504(b)(8), (14), (26) and (33) are amended to read as follows:

§ 91.504 Frequencies available.

(b) * * *

(8) Other rule provisions of this part notwithstanding, this frequency may be authorized for use with any type of emission which does not exceed an occupied bandwidth of 8 kHz, for intermittent transmission; further, authorizations may be issued to permit operation on this frequency by self-actuating or other electrical or mechanical means not under the direct control of any individual. All operations on this frequency are limited to a maximum output power of 20 watts.

* * * * *

(14) This frequency is limited to a maximum output power of 2 watts; and each station authorized hereon will be classified and licensed as a mobile station. Any units of such a station, however, may be used to provide the operational functions of a base or fixed station; *Provided* no harmful interference is caused to mobile service operations and *Provided further*, That the separation between the control point and the center of the radiating portion of the antenna of any units so used shall not exceed

* * * * *

(26) This frequency may be assigned to fixed stations on a secondary non-interference basis to land mobile stations in the Public Safety and Land Transportation Radio Services. All use of these frequencies by fixed stations is limited to locations 100 or more miles from the center of any urbanized area of 200,000 or more population, except that the distance may be 75 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two frequency systems separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 200,000 or more population are defined in U.S. Census of Population, 1960, Vol. 1, table 23, page 1–50. The centers of urbanized areas are determined from the appendix, page 226, of the U.S. Commerce publication "Air Line Distance Between Cities in the United States."

* * * * *

(33) The maximum transmitter output power that will be authorized is 1 watt; and each station authorized will be classified and licensed as a mobile station. Any units of such a station, however, may be used to provide the operational functions of a base or fixed station. The antennas of transmitters operating on this frequency must be directly mounted or installed upon the transmitting unit: Provided, however, that when permanently installed aboard a vehicle, antenna and transmitter may be separated as required for convenience in mounting. Horizontal polarization will not be allowed; and the gain of antennas employed shall not exceed that of a half wave dipole. The maximum bandwidth that will be authorized is 20 kHz. This frequency is available for voice or tone control transmission, and subject to the condition that interference will not be caused to the reception of television channels 4 or 5. No protection from television interference will be afforded licensees operating on this frequency.

* * * * *

27. Section 91.553(a) is amended as follows:

§ 91.553 Station limitations.

(a) Mobile relay stations will not be be authorized in the Business Radio Service within the continental limits of the United States, except when (1) such stations and all associated control and mobile stations are to be operated exclusively on frequencies above 450 MHz, or (2) when such stations are to be operated on frequencies designated for low power operation and are limited to a maximum output power of 1 watt with the mobile relay antenna system no more than 40 feet above the ground.

* * * * *

28. Section 91.554(b)(8), (10), (13), (17), (20), (26), (27), (37), (38), (39), & (47) and par. (c) are amended to read as follows:

§ 91.554 Frequencies available.

* * * * *

(b) * * *

(8) Other provisions of this part notwithstanding, this frequency may be au-

thorized for use with any type of emission which does not exceed an occupied bandwidth of 8 kHz, for intermittent transmission; further, authorizations may be issued to permit operation on this frequency by self-actuating or other electrical or mechanical means not under the direct control of any individual. All operations on this frequency are limited to a maximum output power of 20 watts.

* * * * *

(10) Operation on this frequency is limited to a maximum output power of 110 watts.

* * * * *

(13) This frequency is limited to a maximum output power of 2 watts and each station authorized hereon will be classified and licensed as a mobile station. Any units of such a station, however, may be used to provide the operational functions of a base or fixed station, provided no harmful interference is caused to mobile service operations and further provided, that the separation between the control point and the center of the radiating portion of the antenna of any units so used shall not exceed 25 feet.

* * * * *

(17) Operation on this frequency is limited to a maximum output power of 35 watts.

* * * * *

(20) This frequency is limited to a maximum output power of 1 watt and each station authorized hereon will be classified and licensed as a mobile station. Any units of such a station, however, may be used to provide the operational functions of a base or fixed station, provided no harmful interference is caused to mobile service operations and further provided, that the separation between the control point and the center of the radiating portion of the antenna of any units so used shall not exceed 25 feet.

* * * * *

(26) Operation on this frequency is limited to an output power of 75 watts.

* * * * *

(27) Operation on this frequency is limited to an output power of 20 watts.

* * * * *

(37) This frequency is available for assignment to stations in the Business Radio Service for use at locations removed by 75 or more miles from the boundaries of airports in urbanized areas of 200,000 or more population, U.S. Census of Population, 1960, Vol. 1 Table 23 page 1–50. Maximum permissible output power is 110 watts.

(38) This frequency may be assigned to fixed stations in the Business Radio Service. All use of these frequencies by fixed stations is limited to locations 100 or more miles from the center of any urbanized area of 200,000 or more population, except that the distance may be 75 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two frequency systems separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 200,000 or more population are defined in the U.S. Census of Population, 1960, Vol. 1 Table 23, page 1–50. The centers of urbanized areas are determined from the Appendix page 226, of the U.S. Commerce publication "Air Line Distance Between Cities in the United States."

(39) This frequency will be assigned only to stations operated with local control. Maximum output power may not exceed 110 watts. Overall height of antenna above ground may not exceed 100 feet. Control point location to be within one-half air mile of the transmitter location.

* * * * *

(47) This frequency will be assigned only for the specific purpose of one-way tone or voice paging. The output power shall not exceed 20 watts.

* * * * *

(c) Except for frequencies separated by 12.5 kHz from regularly assigned frequencies in the bands 460.650–460.875 MHz and 465.650–465.875 MHz, low power mobile stations of 2 watts or less output power may be assigned any frequency separated by 12.5 kHz from any mobile frequency in the band 450–470 MHz listed in paragraph (a) of this section. Such station may be used to provide any function of a base, mobile relay, or mobile station: *Provided*, That all operation is limited to the confines of an industrial complex. When used as a base station or mobile relay, the height of the antenna shall not exceed 20 ft. above ground. All operation is subject to the condition that harmful interference is not caused to adjacent mobile operations.

* * * * *

29. Section 91.555 is amended as follows:

§ 91.555 Exemption from technical standards.

Transmitters licensed in this Service which have an output power not exceeding 120 milliwatts are exempt from the technical requirements set out in Subpart C of this part: *Provided, however*, That the sum of the bandwidth occupied by the emitted signal plus the bandwidth required for frequency tolerance shall be so adjusted that any emission appearing on a frequency 40 kHz or more removed from the assigned frequency is attenuated at least 30 dB below the unmodulated carrier. Such transmitters may operate in the continuous carrier transmit mode.

30. Section 91.604(b)(9) is amended to read as follows:

§ 91.604 Frequencies available.

(b) * * *

(9) Station assignments on frequencies in this band will be made subject to the conditions that the maximum output power shall not exceed 375 watts and the maximum authorized bandwidth shall not exceed 2 kHz.

* * * * *

31. Section 91.730(b)(1), (3), (8) & (14) are amended to read as follows:

§ 91.730 Frequencies available.

* * * * *

(b) * * *

(1) This frequency is shared with the Forest Products and Petroleum Radio Services. The output power of all transmitters operating on this frequency shall not exceed 110 watts.

* * * * *

(3) Other provisions of this part notwithstanding, this frequency may be authorized for use with any type of emission which does not exceed an occupied bandwidth of 8 kHz, for intermittent transmission; further; authorizations may be issued to permit operation on this frequency by self-actuating or other electrical or mechanical means not under the direct control of any individual. All operations on this frequency are limited to a maximum output power of 20 watts.

* * * * *

(8) The maximum transmitter output power that will be authorized is 1 watt; and each station authorized will be classified and licensed as a mobile station. Any units of such a station, however, may be used to provide the operational functions of a base or fixed station. The antennas of transmitters operating on this frequency must be directly mounted or installed upon the transmitting unit: *Provided, however*, That when permanently installed aboard a vehicle, antenna and transmitter may be separated as required for convenience in mounting. Horizontal polarization will not be allowed; and the gain of antennas employed shall not exceed that of a half wave dipole. The maximum bandwidth that will be authorized is 20 kHz. This frequency is available for voice or tone control transmissions, and subject to the condition that interference will not be caused to the reception of television channels 4 or 5. No protection from television interference will be afforded licensees operating on this frequency.

* * * * *

(14) This frequency may be assigned to fixed stations on a secondary non-interference basis to land mobile stations in the Public Safety and Land Transportation Radio Services. All use of these frequencies by fixed stations is limited to locations 100 or more miles from the center of any urbanized area of 200,000 or more population, except that the distance may be 75 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two frequency systems separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 200,000 or more population are defined in U.S. Census of Population, 1960, Vol. 1 Table 23 page 1–50. The centers of urbanized areas are determined from the appendix, page 226, of the U.S. Commerce publication "Air Line Dis-

tance Between Cities in the United States."

* * * * *

32. Section 91.754(b) (3) and (10) are amended to read as follows:

§ 91.754 Frequencies available.

(b) * * *

(3) Other provisions of this part notwithstanding, this frequency may be authorized for use with any type of emission which does not exceed an occupied bandwidth of 8 kHz, for intermittent transmission; further, authorizations may be issued to permit operation on this frequency by self-actuating or other electrical or mechanical means not under the direct control of any individual. All operations on this frequency are limited to a maximum output power of 20 watts.

* * * * *

(10) This frequency may be assigned to fixed stations on a secondary non-interference basis to land mobile stations in the Public Safety and Land Transportation Radio Services. All use of these frequencies by fixed stations is limited to locations 100 or more miles from the center of any urbanized area of 200,000 or more population, except that the distance may be 75 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two frequency systems separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 200,000 or more population are defined in U.S. Census of Population, 1960, Vol. 1, Table 23, pages 1–50. The centers of urbanized areas are determined from the appendix, page 226, of the U.S. Commerce publication "Air Line Distance Between Cities in the United States."

* * * * *

PART 93—LAND TRANSPORTATION RADIO SERVICES

33. Section 93.7(b) is amended to add a definition in alphabetical sequence to read as follows:

§ 93.7 Definitions.

* * * * *

(b) * * *

Output power. The radio frequency output power of a transmitter's final radio frequency stage as measured at the output terminal while connected to a load of the impedance recommended by the manufacturer.

* * * * *

34. Section 93.9(a) is amended as follows:

§ 93.9 Frequency coordination.

(a) Except for applications listed in paragraph (a)(1) of this section, each application for assignment of a new frequency, or to change existing facilities by increasing the authorized output power or raising the height of the station antenna, or moving the authorized station location (including the location of the antenna), or by adding a base station within the licensee's existing area of operation shall be accompanied by evidence that the applicant is aware of and has complied with the requirement that he cooperate with other licensees in the selection of a frequency. Evidence of frequency coordination may be submitted in the form set forth either in paragraph (a) (2) or (3) of this section. In no instance will an application be granted where the proposed station is located less than 7 miles from an adjacent-channel station 15 kHz removed.

* * * * *

35. Section 93.53(c)(10) is amended as follows:

§ 93.53 Special temporary authority.

* * * * *

(c) * * *

(10) Output power of the transmitter.

* * * * *

36. Section 93.101(b) is amended to read as follows:

§ 93.101 Frequencies.

* * * * *

(b) The following frequencies may be assigned to fixed stations in the Land Transportation Radio Service on a secondary non-interference basis to Land Mobile Stations in the Public Safety and Industrial Radio Services. All such use of these frequencies for fixed stations is limited to locations 100 or more miles from the center of any urbanized area of 200,000 or more population except that the distance may be 75 miles if the output power does not exceed 20 watts. All such fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two-frequency operation the separation between transit and receive frequencies is 5 MHz. The center of urbanized areas of 200,000 or more population are determined from the Appendix, page 226 of the U.S. Commerce publication, "Air Line distance Between Cities in the United States."

* * * * *

37. Section 93.102(a) is amended to read as follows:

§ 93.102 Frequency stability.

(a) * * *

Frequency range (megahertz)	All fixed and base stations	All mobile stations	
		Over 2 W	2 W or less
	Percent	*Percent*	*Percent*
Below 25	0.01	0.01	0.02
25 to 50	.002	.002	.005
50 to 450	[1] .0005	.0005	.005
450 to 470	[2] [3] .00025	.0005	[2] .0005
470 to 512	[3] .00025	.0005	.0005
806 to 821	[4] .00015	.00025	.00025
851 to 866	.00015	.00025	.00025
1427 to 1435	[5] .03	.03	.03
Above 1435	([6] [7])	([6] [7])	([6] [7])

[1] Stations authorized for operation on or before Dec. 1, 1961, in the frequency band 73–74.6 MHz may operate with a frequency tolerance of 0.005 pct.

[2] A frequency tolerance of 0.0005 pct is permitted in the Railroad Radio Service for base stations operating on the frequencies 452.925, 452.950, 457.925, and 457.950 MHz used for remote control purposes in railroad yard and terminal areas.

[3] Operational fixed stations controlling mobile relay stations, through use of the associated mobile frequency, may operate with a frequency tolerance of 0.0005 pct.

[4] For control stations, the frequency stability is 0.00025 pct.

[5] For fixed stations with a output power above 120 W, the frequency tolerance is 0.01 pct if the necessary bandwidth of the emission does not exceed 3 kHz. For fixed station transmitters with a power of 120 W or less and using time division multiplex the frequency tolerance may be increased to 0.05 pct.

[6] Radiolocation equipment using pulse modulation shall meet the following frequency tolerance: The frequency at which maximum emission occurs shall not be closer than $1.5/\tau$ MHz to the upper and lower limits of the authorized frequency band where tesla is the pulse duration in microseconds. For other radiolocation equipment tolerances will be specified in the station authorization. See also sec. 93.111.

[7] The frequency tolerance for base and mobile stations will be specified in the station authorization.

(b) For the purpose of determining the frequency tolerance applicable to a particular transmitter in accordance with the foregoing provisions of this section, the power of a transmitter shall be the maximum rated output power, as specified in the Commission's "Radio Equipment List".

38. Section 93.105(c) is amended as follows:

§ 93.105 Modulation requirements.

* * * * *

(c) Each transmitter first authorized or installed after July 1, 1950, shall be provided with a device which automatically will prevent modulation in excess of that specified in this subpart which may be caused by greater than normal audio level: *Provided, however,* That this requirement shall not be applicable to transmitters authorized to operate as mobile stations with a maximum output power of 2 watts or less.

* * * * *

39. Section 93.106(b) and (c) amended to read as follows:

§ 93.106 Power and antenna height.

* * * * *

(b) * * *

Frequency range (megahertz)	Maximum output power	Maximum effective radiated power
	Watts	*Watts*
30 to 100	300	
100 to 470	[1] 75	
470 to 512		1,000
806 to 821		[3]
851 to 866	[4]	[3]
2450 to 2500	5	
2500 to 10,550	[5]	
10,550 to 10,680	3	
Above 10,680	[5]	

[1] In the frequency band 450–470 MHz maximum output power in excess of 75 W but not in excess of 360 W may be authorized in accordance with the provision of subpt. E of this part, upon submission of the required showings.
[2] [Reserved].
[3] For power limitations see sec. 89.651.
[4] The output power of a transmitter on any authorized frequency in this service shall not exceed 2,000 W (33 dBW).
[5] To be specified in the station authorization.

(c) The output power shall not exceed by more than 20 percent the output power shown in the Radio Equipment List for transmitters included in this list, or the output power for the particular transmitter specifically listed on the station authorization.

40. Section 93.108 (a), (b), (b)(2) & (c) are amended; and pars (a)(3), (a)(4), (b)(3) and (c)(3) deleted to read as follows:

§ 93.108 Transmitter measurements.

(a) The licensee of each station shall employ a suitable procedure to determine that the carrier frequency of each transmitter authorized to operate with an output power in excess of 2 watts, is maintained within the tolerance prescribed in this part. This determination shall be made, and the results thereof entered in the station records, in accordance with the following:

* * * * *

(b) The licensee of each station shall employ a suitable procedure to determine that the transmitter output power of each transmitter authorized to operate with an output power in excess of two watts does not exceed the maximum figure specified on the current station authorization. On authorization stating only the input power to the final radio frequency stage, the maximum permissible output power is 75 percent for frequencies below 25 MHz and 60 percent of the input power for frequencies above 25 MHz. If a non-DC final radio frequency stage is utilized, then the output power shall not exceed 75 percent of the input power. This determination shall be made, and the results thereof entered into the station records, in accordance with the following:

* * * * *

(2) When any change is made in the transmitter which may affect the transmitter output power.

(c) The licensee of each station shall employ a suitable procedure to determine that the modulation of each transmitter authorized to operate with an output power in excess of 2 watts, does not exceed the limits specified in this part. This determination shall be made and the results thereof entered in the station records, in accordance with the following:

* * * * *

41. Section 93.254(a) is amended to read as follows:

§ 93.254 Frequencies below 952 MHz available for base, mobile and operational fixed stations.

(a) The following frequencies are available for assignment to base, mobile, or operational fixed stations in the Motor Carrier Radio Service, on a shared basis with stations in the same service and other services, subject to no protection from interference due to the operation of industrial, scientific, or medical devices on the frequency 27.12 MHz, and limited to the use of transmitters having not more than 20 watts output power.

FREQUENCIES (MHz)

27.235	27.265
27.245	27.275
27.255	

* * * * *

42. Section 93.352(b)(4) is amended as follows:

§ 93.352 Frequencies below 952 MHz available for base and mobile stations.

* * * * *

(b) * * *

(4) The maximum transmitter power that will be authorized is 1 watt; and each station authorized will be classified and licensed as a mobile station. Any units of such a station, however, may be used to provide the operational functions of a base or fixed station. The antennas of transmitters operating on this frequency must be directly mounted or installed upon the transmitting unit: *Provided, however,* That when permanently installed aboard a vehicle antenna and transmitter may be separated as required for convenience in mounting. Horizontal polarization will not be allowed; and the gain of antennas employed shall not exceed that of a half wave dipole. The maximum bandwidth that will be authorized is 20 kHz. This frequency is available for voice or tone control transmissions and subject to the condition that interference will not be caused to the reception of television channels 4 or 5. No protection from television interference will be afforded licensees operating on this frequency.

* * * * *

43. Section 93.355(c) (2) and (3) are amended to read as follows:

§ 93.355 Relay and repeater stations.

* * * * *

(c) * * *

(2) A mobile repeater station may be used only for the purpose of extending the transmitting and receiving range of pack-carried or hand-carried units of mobile stations. Such pack-carried or hand-carried units shall be operated only on a frequency or freqencies above 150 MHz and the output power shall not exceed 6 watts. The frequency and maximum power of the pack-carried or hand-carried transmitters which may be associated with a mobile repeater station shall be specified in the station authorization.

(3) The output power of a mobile repeater station, when transmitting as a repeater station on the frequency used for communication with its associated pack-carried or hand-carried units, shall not exceed 6 watts except when the same frequency is also used by the same station for direct communication with vehicular mobile units or with one or more base stations.

* * * * *

44. Section 93.356(a) is amended as follows:

§ 93.356 Frequencies below 952 MHz available for base mobile, and operational fixed stations.

(a) The following frequencies are available for assignment to base, mobile, or operational fixed stations in the Railroad Radio Service, on a shared basis with stations in the same service and other services, subject to no protection from interference due to the operation of industrial, scientific, or medical devices on the frequency 27.12 MHz, and limited to the use of transmitters having not more than 20 watts output power:

FREQUENCIES (MHz)

27.235	27.265
27.245	27.275
27.255	

* * * * *

45. Section 93.357(c)(3)(i) is amended as follows:

§ 93.357 Scope of service.

* * * * *

(c) * * *

(3) * * *

(i) The output power shall not exceed 30 watts.

* * * * *

46. Section 93.404(a) is amended as follows:

§ 93.404 Frequencies below 952 MHz available for base, mobile, and operational fixed stations.

(a) The following frequencies are available for assignment to base, mobile, or operational fixed stations in the Taxicab Radio Service, on a shared basis with stations in the same service and other services, subject to no protection from interference due to the operation of industrial, scientific, or medical devices on the frequency 27.12 MHz, and limited to the use of transmitters having not more than 20 watts output power:

FREQUENCIES (MHz)

27.235	27.265
27.245	27.275
27.255	

* * * * *

47. Section 93.504(a) is amended as follows:

§ 93.504 **Frequencies below 952 MHz available for base, mobile, and operational fixed stations.**

(a) The following frequencies are available for assignment to base, mobile, or operational fixed stations in the Automobile Emergency Radio Service on a shared basis with stations in the same service and other services, subject to no protection from interference due to the operation of industrial, scientific, or medical devices on the frequency 27.12 MHz, and limited to the use of transmitters having not more than 20 watts output power.

FREQUENCIES (MHz)	
27.235	27.265
27.245	27.275
27.255	

* * * * *

Title 50—Wildlife and Fisheries

CHAPTER I—FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Ravalli National Wildlife Refuge, Montana

The following special regulations are issued and are effective August 11, 1976.

§ 32.12 **Special regulations; migratory game birds.**

MONTANA

RAVALLI NATIONAL WILDLIFE REFUGE

The hunting of ducks, geese, coot and mergansers will be permitted on portions of the Ravalli National Wildlife Refuge during the regular migratory bird hunting season and in accordance with the following additional special conditions:

1. All hunters must enter public hunting through appropriate check station.

2. All hunters must set blind selection pointer to "taken" upon selecting a blind, and return blind selection pointer to "open" upon leaving hunting area.

3. Placing blind selection pointer to "taken" determines occupant of blind.

4. During periods of high hunter demand, as determined by the Refuge Manager, hunters will be limited to one period only during a day: Period #1; Start of shooting hours to 12 Noon. Period #2; 1 p.m. until close of shooting hours.

5. Hunters must be within ten feet of designated blind sites while attempting to take and taking of waterfowl game birds.

6. Blind sites will be limited to five hunters each.

7. A designated area will be open to the taking of ducks, geese, coot and mergansers by means of falconry from the opening of the migratory waterfowl season through November 28. No firearms may be carried in this area.

8. The public hunting area will be closed to entry from one hour after sunset until one and one-half hour before sunrise.

9. No fishing equipment of any type will be permitted on the public hunting area.

10. Boats are not permitted.

The hunting area is designated by signs and delineated on maps available at Refuge Headquarters, No. 5 Third Street, Stevensville, Montana, and from the Area Manager, U.S. Fish and Wildlife Service, Room 3035, Federal Building, 316 No. 26th Street, Billings, Montana.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1977.

AUGUST 2, 1976.

R. C. TWIST,
Refuge Manager, Ravalli National Wildlife Refuge, Stevensville, Montana.

[FR Doc.76-23285 Filed 8-10-76;8:45 am]

PART 32—HUNTING

Ravalli National Wildlife Refuge, Montana

The following special regulations are issued and are effective August 11, 1976.

§ 32.32 **Special regulations; big game; for individual wildlife refuge areas.**

MONTANA

RAVALLI NATIONAL WILDLIFE REFUGE

The taking of white-tailed deer by bow and arrow will be permitted on designated areas of Ravalli National Wildlife Refuge by means of archery only from September 4 through October 10 and from October 24 through October 31, either sex deer, and from November 1 through November 28, antlered bucks only, in accordance with State regulations, and with the following additional special conditions:

1. All hunters must check in and out at checking stations.

2. No firearms may be carried in this area.

3. The public hunting area will be closed to entry from one hour after sunset until one and one-half hour before sunrise.

This hunting area will be designated by signs and delineated on maps available at Refuge Headquarters, No. 5 Third Street, Stevensville, Montana, and from the Area Manager, U.S. Fish and Wildlife Service, Room 3035, Federal Building, 316 No. 26th Street, Billings, Montana.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1977.

R. C. TWIST,
Refuge Manager, Ravalli National Wildlife Refuge, Stevensville, Montana.

AUGUST 2, 1976.

[FR Doc.76-23286 Filed 8-10-76;8:45 am]

Title 24—Housing and Urban Development

Subtitle A—Office of the Secretary, Department of Housing and Urban Development

[Docket No. R-76-397]

PART 10—RULEMAKING: POLICY AND PROCEDURES

Public Property, Loans, Grants, Benefits or Contracts

On June 4, 1976, the Department proposed a revision of 24 CFR Part 10, entitled Rule Making-Policy and Procedures (41 FR 22583). The proposal would update and clarify references made in Part 10 as it was first published on March 4, 1971, and would also prescribe certain rulemaking procedures provided under 5 U.S.C. 553, but not included in the original rule. Interested persons were invited to comment on the proposal no later than July 8, 1976.

In response, the Department received only one comment. The commenter, while agreeing that the proposal substantially improves the original rule, nevertheless criticized the definition of "rule" and the explanation of public procedure as arbitrary and vague. In particular, the comment inquired about the relationship between rules and HUD issuances such as handbooks, circulars and guides. As the preamble to the proposal pointed out, HUD's Unified Issuance System no longer includes circulars and guides (see also HUD Handbook 2130.1, available from the HUD Public Information Center, 451 7th Street, S.W., Washington, D.C. 20410). Handbooks are now the medium for disseminating instructions and advice to HUD personnel and program participants when such instructions and advice are not regulatory in nature. Neither handbooks nor notices, which are intermediate issuances complementing handbooks and periodically assimilated by them, are published in the FEDERAL REGISTER, although such regulatory provisions as they may contain may be promulgated separately by rule.

We recognize that the definition of Rule contained in § 10.2(a) is broad; however, this definition has been adopted from the conforming statute, 5 USC 551(4), with changes made only to meet HUD's particular program responsibility. We also consider the proposal to be sufficiently clear that public procedure includes the filing of written comments and, at the Secretary's discretion, oral presentation. See §§ 10.10 and 10.12. No further description of the term is needed.

The Department is not making any changes of its own to the proposal which is hereby adopted as published on June 4, 1976, 41 FR 22583, and set forth hereinafter.

Findings of inapplicability with respect to environmental and economic impact were prepared for the proposed rule and copies made available in the Office of the Rules Docket Clerk, Room 10141, 451 7th Street, SW., Washington, D.C. Since the Department has previously determined that adoption of this rule will not affect the quality of human environment or the

national economy and since no change has been made in the substance of this rule, no further environmental or economic determination is being made at this time.

Effective date: This regulation shall be effective on August 11, 1976.

CARLA A. HILLS,
Secretary of Housing, and Urban Development.

Subpart A—General

Sec.
10.1 Policy.
10.2 Definitions.
10.3 Applicability.
10.4 Rules docket.

Subpart B—Procedures

10.6 Initiation of rule making.
10.8 Notice of proposed rule making.
10.10 Participation by interested persons.
10.12 Additional rule making proceedings.
10.14 Hearings.
10.16 Adoption of final rule.
10.18 Petitions for reconsideration.
10.20 Petitions for rule making.

AUTHORITY: The provisions of this Part 10 issued under Sec. 7(d) of the Department of Housing and Urban Development Act, 79 Stat. 670 (42 U.S.C. 3535(d)).

Subpart A—General

§ 10.1 Policy.

It is the policy of the Department of Housing and Urban Development to comply with rule making provisions of 5 U.S.C. 553 with respect to all HUD programs and functions, including matters that relate to public property, loans, grants, benefits, or contracts even though such matters are not subject to rule making under the statute. The Department therefore publishes general notices of proposed rulemaking in the FEDERAL REGISTER and gives interested persons an opportunity to participate in the rule making through submission of written data, views, and arguments with or without opportunity for oral presentation. Unless required by statute, notice and public procedure will be omitted if the Department determines in a particular case or class of cases that notice and public procedure are impracticable, unnecessary or contrary to the general interest. In a particular case, the reasons for the determination shall be stated in the rule making document. Notice and public procedure may also be omitted with respect to statements of policy, interpretative rules, rules governing the Department's organization or its own internal practices or procedures, or if a statute expressly so authorizes. A substantive rule will be published not less than 30 days before its effective date, unless it grants or recognizes an exemption or relieves a restriction or unless the rule itself states good cause for taking effect upon publication or less than 30 days thereafter. Statements of policy and interpretative rules will usually be made effective on the date of publication.

§ 10.2 Definitions.

(a) "Rule" means the whole or a part of a Departmental statement of general or particular applicability and future effect (1) designed to implement, interpret, or prescribe law or policy, or (2) describing the Department's organization, or its procedure or practice requirements.

(b) "Rule making" means the Departmental process for formulating, amending, or repealing a rule.

(c) "Secretary" means the Secretary or the Under Secretary of Housing and Urban Development, or any of the following heads of offices to whom the Secretary has expressly delegated authority to issue rules:

(1) Each Assistant Secretary of the Department and Deputy Assistant Secretary;

(2) The President of the Government National Mortgage Association;

(3) The Federal Insurance Administrator; or

(4) The Federal Disaster Assistance Administrator.

§ 10.3 Applicability.

(a) This part prescribes general rule making procedures for the issuance, amendment, or repeal of rules of the Secretary in which participation by interested persons is required by 5 U.S.C or by Department policy.

(b) The authority to issue rules, delegated by the Secretary, may not be redelegated unless expressly permitted.

§ 10.4 Rules docket.

(a) All documents relating to rule making procedures, including but not limited to advance notices of proposed rule making, notices of proposed rule making, written comments received in response to notices, withdrawals or terminations of proposed rule making, petitions for rule making, requests for oral argument in public participation cases, requests for extension of time, grants or denials of petitions or requests, transcripts or minutes of informal hearings, final rules and general notices are maintained in the Rules Docket Room, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

(b) Documents relating to rule making proceedings are public records. After a docket is established, any person may examine docketed material at any time during regular business hours, and may obtain a copy of any docketed material upon payment of the prescribed fee. (See Part 15 of this subtitle).

Subpart B—Procedures

§ 10.6 Initiation of rule making.

Rue making proceedings may be initiated on the Secretary's motion, or on the recommendation of a Federal State or local government or government agency, or on the petition of any interested person.

§ 10.8 Notice of proposed rule making.

Each notice of proposed rule making required by statute or by § 10.1 of this part is published in the Federal Register and includes—

(a) The substance or terms of the proposed rule or a description of the subject matter and issues involved;

(b) A statement of how and to what extent interested persons may participate in the proceeding;

(c) Where participation is limited to written comments, a statement of the time within which such comments must be submitted; and

(d) A reference to the legal authority under which the proposal is issued.

§ 10.10 Participation by interested persons.

(a) Unless the notice otherwise provides, any interested person may participate in rule making proceedings by submitting written data, views or arguments within the comment time stated in the notice. In addition, the Secretary may permit the filing of comments in response to original comments.

(b) In appropriate cases, the Secretary may provide for oral presentation of views in additional proceedings described in § 10.12.

§ 10.12 Additional rule making proceedings.

The Secretary may invite interested persons to present oral arguments, appear at informal hearings, or participate in any other procedure affording opportunity for oral presentation of views. The transcript or minutes of such meetings, as appropriate, will be kept and filed in the Rules Docket.

§ 10.14 Hearings.

(a) The provisions of 5 U.S.C. 556 and 557, which govern formal hearings in adjudicatory proceedings, do not apply to informal rule making proceedings described in this part. When opportunity is afforded for oral presentation, such informal "hearing" is a nonadversary, fact-finding proceeding. Any rule issued in a proceeding under this part in which a hearing is held is not based exclusively on the "record" of such hearing.

(b) When a hearing is provided, the Secretary will designate a representative to conduct the hearing, and if the presence of a legal officer is desirable, the General Counsel will designate a staff attorney to serve as the officer.

§ 10.16 Adoption of final rule.

All timely comments are considered in taking final action on a proposed rule. Each preamble to a final rule will contain a short analysis and evaluation of the significant issues set forth in the comments submitted, and a clear concise statement of the basis and purpose of the rule. Only relevant comments will be considered.

§ 10.18 Petitions for reconsideration.

Petitions for reconsideration of a final rule will not be considered. Such petitions, if filed, will be proposed as petitions for rule making in accordance with § 10.20.

§ 10.20 Petitions for rule making.

(a) Any interested person may petition the Secretary for the issuance, amendment, or repeal of a rule. Each petition shall—

(1) Be submitted to the Rules Docket Clerk, Room 10141, Department of Hous-

ing and Urban Development, Washington, D.C. 20410;

(2) Set forth the text or substance of the rule or amendment proposed or specify the rule sought to be repealed;

(3) Explain the interest of the petitioner in the action sought; and

(4) Set forth all data and arguments available to the petitioner in support of the action sought.

(b) No public procedures will be held directly on the petition before its disposition. If the Secretary finds that the petition contains adequate justification, a rule making proceeding will be initiated or a final rule will be issued as appropriate. If the Secretary finds that the petition does not contain adequate justification, the petition will be denied by letter or other notice, with a brief statement of the ground for denial. The Secretary may consider new evidence at any time; however, repetitious petitions for rule making will not be considered.

[FR Doc.76-23380 Filed 8-10-76;8:45 am]

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-2245]

PART 1915—IDENTIFICATION AND MAPPING OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

• The purpose of this notice is the identification of communities with areas of special flood or mudslide or erosion hazards in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001–4128). The identification of such areas is to provide guidance so that communities may adopt appropriate flood plain management measures to minimize damage caused by flood losses and to guide future construction, where practicable, away from locations which are threatened by flood hazards. •

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by a Federally regulated, insured, supervised or approved bank prior to March 1, 1976, to finance the acquisition of a previously occupied residential dwelling.

The effective date of identification shall be September 10, 1976, or the date which appears in this notice, whichever is later.

This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin September 10, 1976 or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under Section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin September 10, 1976 or the effective date of the Flood Hazard Boundary Map, whichever is later.

Where several dates appear in the column set forth below marked Effective Date of Identification, the first date is the date of initial identification, and all other dates represent modification by additions or deletions to identified areas with special hazards.

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas (FHBM's in effect).

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Changes Made in Determinations of City of Las Cruces, New Mexico

On June 25, 1976, at 41 FR 26415, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Las Cruces, New Mexico.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in the City of Las Cruces, New Mexico. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448) 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 355332A, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mr. Harold R. Yungmeyer, City Manager, City of Las Cruces, P.O. Box 760, Las Cruces, New Mexico 88001.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the Las Cruces, New Mexico Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Las Cruces, New Mexico map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: July 22, 1976.

H. B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI–2134]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Changes Made in Determinations of City of Alcoa, Tennessee, Base Flood Elevations

On June 25, 1976, at 41 FR 26415, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Alcoa, Tennessee.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in the City of Alcoa, Tennessee. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448) 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 475421A, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Honorable Andrew Knox, Mayor, City of Alcoa, Municipal Building, Alcoa, Tennessee 37701.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the Alcoa, Tennessee Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the City of Alcoa, Tennessee map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 F.R. 2680, February 27, 1969, as amended by 39 F.R. 2787, January 24, 1974)

Issued: July 23, 1976.

H. B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI–784]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Final Flood Elevation Determinations for City of Corpus Christi, Texas

On November 14, 1975, at 40 FR 53009, the Federal Insurance Administrator published a notification of modification of the base (100-year) flood elevations in Corpus Christi, Texas. Since that date, ninety days have elapsed, and the Federal Insurance Administrator has evaluated requests for changes in the base flood elevations, and after consultation with the Chief Executive Officer of the community, has determined no changes are necessary. Therefore, the modified flood elevations are effective as of October 31, 1975 and amend the Flood Insurance Rate Map which was in effect prior to that date.

The modifications are pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90–448) 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 485464 B and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for

the second layer of insurance on existing buildings and contents.

The numerous changes made in the base flood elevations on the Corpus Christi Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Corpus Christi map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 F.R. 17804, November 29, 1968), as amended; (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 F.R. 2680, February 27, 1969, as amended by 39 F.R. 2787, January 24, 1974)

Issued: June 15, 1976.

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Final Flood Elevation Determinations for City of Richwood, Texas

On February 2, 1976, at 41 FR 4824, the Federal Insurance Administrator published a notification of modification of the base (100-year) flood elevations in the City of Richwood, Texas. Since that date, ninety days have elapsed, and the Federal Insurance Administrator has evaluated requests for changes in the base flood elevations, and after consultation with the Chief Executive Officer of the community, has determined no changes are necessary. Therefore, the modified flood elevations are effective as of January 16, 1976 and amend the Flood Insurance Rate Map which was in effect prior to that date.

The modifications are pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90–448) 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 485502 D and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The numerous changes made in the base flood elevations on the City of Richwood, Texas Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Richwood map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 F.R. 17804, November 29, 1968), as amended; (42 U.S.C. 4001–4128); and Secretary's delegation of authority to Federal Insurance Administrator 34 F.R. 2680, February 27, 1969, as amended by 39 F.R. 2787, January 24, 1974)

Issued: June 15, 1976.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Parts 17 and 222]

HAWAIIAN MONK SEAL

Proposed "Endangered" Status

CROSS REFERENCE: For a document issued jointly by the Department of Interior's U.S. Fish and Wildlife Service, and the Department of Commerce, National Oceanic and Atmospheric Administration, on the subject of the Hawaiian Monk Seal as a proposed "Endangered" Status, see FR Doc. 76-23275, appearing in the proposed rules section of this issue under the Department of Commerce, National Oceanic and Atmospheric Administration.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 910]

HANDLING OF LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

Proposed Approval of Expenses and Fixing of Rate of Assessment for 1976-77 Fiscal Year

This notice invites written comment relative to the proposed expenses of $378,000 and rate of assessment of $0.0315 per carton on lemons to support the activities of the Lemon Administrative Committee for the 1976-77 fiscal year under Marketing Order No. 910.

Consideration is being given to the following proposals submitted by the Lemon Administrative Committee, established pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in the State of Arizona and that part of the State of California south of a line drawn due east and west through the post office in Turlock, California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), as the agency to administer the terms and provisions thereof:

(1) That expenses that are reasonable and likely to be incurred by the Lemon Administrative Committee during the period August 1, 1976, through July 31, 1977, will amount to $378,000.

(2) That the rate of assessment for said period, payable by each handler in accordance with § 910.41, be fixed at $0.0315 per carton of lemons.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than August 31, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 6, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FmHA Instruction 104.1]

AVAILABILITY OF INFORMATION

Release of Credit Reports

Notice is hereby given that the Farmers Home Administration (FmHA) has under consideration the amendment of § 1813.7(d) (2) and (3) of Part 1813, Title 7, Code of Federal Regulations (40 FR 21696). The purpose of this amendment is to implement provisions of the Privacy Act of 1974 which provide for the release of credit reports to the subject of the report in response to the subject's request.

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed amendments to the Chief, Directives Management Branch, Farmers Home Administration, United States Department of Agriculture, Room 6316, South Building, Washington, DC 20250, within 30 days from date of publication in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Chief, Directives Management Branch, during regular business hours (8:15 am to 4:45 pm).

As proposed § 1813.7(d) (2) and (3) will read as follows:

§ 1813.7 Availability of identifiable material.

* * * * *

(d) * * *

* * * * *

(2) FmHA will release credit reports from a credit reporting company to the subject of the report at the subject's request.

(3) Persons furnishing a credit reference from outside the Government can be promised confidentiality under the exemption made available by 5 U.S.C. 552a(k)(5) and implemented in 7 CFR 1.123 for Credit Report File, USDA/FmHA. The promise of confidentiality must be made in good faith, for good reasons, and only if confidentiality is requested by the source.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Parts 17 and 222]

HAWAIIAN MONK SEAL

Proposed "Endangered" Status

The Director, National Marine Fisheries Service, and the Director, U.S. Fish and Wildlife Service, hereby issue a notice of proposed rulemaking that would list the Hawaiian monk seal (*Monachus schauinslandi*) as an endangered species throughout its range, pursuant to section 4 of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.) (hereinafter the Act). This proposed rulemaking would add this species to the List of Endangered and Threatened Wildlife found in 50 CFR 17.11 and and would reference such listing in 50 CFR 222.23. This proposed listing is based on a preliminary determination by the Director, National Marine Fisheries Service (hereinafter the Director and the NMFS, respectively), that the Hawaiian monk seal is an endangered species. The Hawaiian monk seal is found throughout the Hawaiian Archipelago, but is known to breed only on the islands of the Leeward Chain, including French Frigate Shoals, Laysan Island, Lisianski Island, Pearl and Hermes Reef, Midway Atoll, and Kure Atoll.

BACKGROUND

Section 4(a) of the Act states:

General.—The Secretary shall by regulation determine whether any species is an endangered or a threatened species because of any of the following factors:

(1) The present or threatened destruction, modification or curtailment of its habitat or range;

(2) Overutilization for commercial, sporting, scientific or educational purposes;

(3) Disease or predation;

(4) The inadequacy of existing regulatory mechanisms; or

(5) Other natural or man-made factors affecting its continued existence.

With the exception of enforcement responsibilities for certain plants, the Act defines "Secretary" to mean either the Secretary of the Interior or the Secretary of Commerce (as program responsibilities are vested pursuant to the provisions of Reorganization Plan Numbered 4 of 1970). Most marine species, including seals, are the sole responsibility of the Secretary of Commerce. The authority of the Secretary of Commerce has been delegated to the Director, NMFS.

In June 1975, a status review of the Hawaiian monk seal was completed within NMFS. This status review reported a rarity of the species, a high mortality in pups, a very low recruitment rate, and indications of population decline and harassment. The status review proposed that the species be classified as depleted under the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361–1407).

NMFS then sought the advice of the Marine Mammal Commission and its Committee of Scientific Advisors, providing them a copy of the NMFS status review. After reviewing available scientific information, the Commission on December 24, 1975, concurred with the NMFS assessment, supporting designation as depleted. In addition, the Commission recommended that the species be listed as an endangered species under the Endangered Species Act of 1973.

NMFS designated the Hawaiian monk seal as a depleted species (see 41 FR 30120, July 22, 1976). Although the moratorium on taking imposed by the Marine Mammal Protection Act of 1972 already applies to this species, the designation as depleted provides additional by prohibiting the issuance of permits to take for other than scientific research purposes.

Since December 1975, NMFS has conducted research efforts, in cooperation with the U.S. Fish and Wildlife Service, to supplement available data concerning the status and trends of the Hawaiian monk seal population. As a result of this research, the Northwest Fisheries Center, NMFS, released in May 1976, a preliminary document which reports the count of recent shipboard and beach surveys of this species. NMFS research on the species is continuing.

On May 26, 1976, the Marine Mammal Commission again recommended to NMFS the designation of the Hawaiian monk seal as an endangered species and in so doing transmitted on April 7, 1976, letter from the U.S. Coast Guard to the Commission (concerning Hawaiian monk seals on Kure Atoll and French Frigate Shoals) and the Commission's May 26, 1976 response thereto. This correspondence provided additional information and encouragement for protecting Hawaiian monk seals.

After preliminary consultation with officials of the State of Hawaii, the Director believes that the information now available to him clearly indicates the Hawaiian monk seal is presently in danger of extinction and supports the listing of this species as endangered.

Summary of Factors Affecting the Species

The findings in support of the Director's proposal are summarized herein and described under each of the five criteria of Section 4(a) of the Act.

(1) The present or threatened destruction, modification, or curtailment of its habitat or range. Beach areas formerly used by the Hawaiian monk seal as rookeries are now being used for man's activities. Successful rookery areas have been adandoned by the monk seal, a sensitive breeder easily frightened by man's activities and harassment by dogs. This curtailment of habitat is evidenced by a shift in rookeries from vegetative areas to non-vegetative, isolated, exposed sand pits. This is believed to be the cause of the severe decrease in reproductive success at Midway, and perhaps other areas, once considered major rookeries. The curtailment of habitat, and the shift from preferred to marginal rookeries, with the accompanying loss in recruitment, is the major factor threatening the species.

(2) Overutilization for commercial, sporting, scientific, or educational purposes. This factor is not applicable to the Hawaiian monk seal.

(3) Disease or predation. Shark predation, particularly on weaned pups, is an important cause of reduction in the already low population level of the Hawaiian monk seal. The number of sharks in waters surrounding the Hawaiian Islands may be increasing as a result of the cessation of the commercial shark fishery and shark control program in these waters. Disease is not known to be a factor in reduced population levels of this seal.

(4) The inadequacy of existing regulatory mechanisms. The Hawaiian monk seals in the Hawaiian Islands National Wildlife Refuge are subject to Federal jurisdiction under the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd), which prohibits most activities and strictly controls others by express authorization. While this law affords protection to all wildlife found within the refuge, not all islands of concern are included in the refuge. The Marine Mammal Protection Act of 1972, as amended, affords protection in all areas by imposing a moratorium on the taking of the Hawaiian monk seal; however, exceptions are provided for research and public display purposes. While no permits have been issued for the removal of living animals from the wild, several permits have been issued for field research and collection of specimen materials from dead animals. Additional protection, including protection for habitat, could be gained by listing the species as endangered under the Act.

(5) Other natural or man-made factors affecting its continued existence. Boat navigation and recreational activities in waters where the Hawaiian monk seal occurs may also deleteriously affect the species.

Effect of this Rulemaking

Section 9(a) of the Act sets forth a series of general prohibitions which apply to all endangered species of fish and wildlife.

With respect to any endangered species listed pursuant to section 4 of the Act, it is unlawful for any person subject to the jurisdiction of the United States to:

(1) Import any such species into, or export any such species from, the United States;

(2) Take any such species within the United States or the territorial sea of the United States;

(3) Take any such species upon the high seas;

(4) Possess, sell, deliver, carry, transport, or ship, by means whatsoever, any such species taken in violation of (2) and (3) above;

(5) Deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of a commercial activity, any such species;

(6) Sell or offer for sale in interstate or foreign commerce any such species; or

(7) Violate any regulation pertaining to such species and promulgated by the Secretary pursuant to authority provided by the Act.

The term "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct.

The Act further provides certain limited exceptions to those general prohibitions. These exceptions include: a grandfather clause for species held in captivity or a controlled environment on December 28, 1973, and not for commercial purposes (section 9(b) of the Act); a one-year limited exemption to minimize undue economic hardship tied to a previous contract commitment (section 10(b) of the Act); and permits for scientific purposes or enhancement of propagation or survival of the species (section 10(a) of the Act).

In addition, NMFS regulations published in Parts 217–222 and Part 225 of Title 50 of the Code of Federal Regulations, set forth rules and procedures which apply to all endangered species under the jurisdiction of the Secretary of Commerce. These regulations provide for general provisions, civil procedures, seizure and forfeiture procedures, importation and exportation at designated ports, general and specific permit provisions, and Federal/State cooperation and financial assistance. In the event that the Hawaiian monk seal is listed as an endangered species, these regulations would be applicable to the species.

Interagency Cooperation

The listing herein proposed would make available the protection afforded by section 7 of the Act. That section reads as follows:

Section 7. The Secretary shall review other programs administered by him and utilize

such programs in furtherance of the purposes of this Act. All other Federal departments and agencies shall in consultation with and with the assistance of the Secretary, utilize their authorities in furtherance of the purposes of this Act by carrying out programs for the conservation of endangered species and threatened species listed pursuant to Section 4 of this Act and by taking such action necessary to insure that actions authorized, funded, or carried out by them do not jeopardize the continued existence of such endangered species and threatened species or result in the destruction or modification of habitat of such species which is determined by the Secretary, after consultation as appropriate with the affected States, to be critical.

No "critical habitat" has yet been determined by MMFS for the Hawaiian monk seal. However, the other provisions of section 7 would be applicable.

No critical habitat is presently proposed for the Hawaiian monk seal. However, the Director recognizes that loss of habitat is the principal threat faced by this species and will propose critical habitat in the future, as appropriate. NMFS will actively consider any and all written information, including maps, submitted on the matter of delineating critical habitat for the Hawaiian monk seal. The concept of critical habitat was discussed in the FEDERAL REGISTER on April 22, 1975 (40 FR 17764–17765).

PUBLIC COMMENTS SOLICITED

Pursuant to section 4(b) of the Act, the Director is notifying the Governor of the State of Hawaii and various interested Federal agencies with respect to this proposal and requests any comments and recommendations before making a final determination on listing.

The Director intends that the rules finally adopted be as accurate and effective as possible in the conservation of any endangered or threatened species. Therefore, any written comments or suggestions from the public, other concerned governmental agencies, the scientific community, industry, private interests or any other interested party concerning any aspect of this proposed rulemaking are solicited. Comments are particularly sought concerning:

1. The existence of any other living members of this species;

2. Biological or other relevant data concerning any threat (or the lack thereof) to the Hawaiian monk seal;

3. The location of and reasons why any habitat of the Hawaiian monk seal should be determined to be "critical habitat" as provided for by section 7 of the Act; and

4. Additional information concerning the range and distribution of the Hawaiian monk seal.

Written comments, views, and other documents should be submitted, preferably in duplicate, to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235. All comments and other documents received no later than October 12, 1976, will be considered. The Director will consider requests for a public hearing, provided such requests are received by September 27, 1976. The holding of a public hearing is at the discretion of the Director.

The Director has determined that the proposed designation of the Hawaiian monk seal as an endangered species is not a major Federal action which would significantly affect the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. Accordingly, the preparation of an environmental impact statement on the proposed action is not required. The Declaration setting forth this determination is available for inspection in the Marine Mammals and Endangered Species Division, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C. Comments and other documents received pertaining to the proposed listing are available for public review in the Marine Mammals and Endangered Species Division, at the above address, or may be obtained by writing the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

PART 17—ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Accordingly, it is proposed to amend Part 17, Subchapter B of Chapter I, Title 50 of the Code of Federal Regulations by adding to § 17.11(i) under the class entitled "Mammals" and immediately before "Seal, Mediterranean Monk" the following:

§ 17.11 Endangered and threatened wildlife.

* * * * *

Species			Range				
Common name	Scientific name	Population	Known distribution	Portion of range where threatened or endangered	Status	When listed	Special rules
*	*	*	*	*	*		*
Seal, Hawaiian Monk	*Monachus schauinslandi*	NA	Hawaiian archipelago	Entire	E	15	NA
*	*	*	*	*	*		*

PART 222—ENDANGERED FISH OR WILDLIFE

§ 222.23 [Amended]

In addition, it is proposed to amend § 222.23(a) of Subpart C, Part 222 of Chapter II, Title 50 of the Code of Federal Regulations by adding "Hawaiian monk seal (*Monachus schauinslandi*)" immediately before "Mediterranean monk seal (*Monachus monachus*)" in the second sentence.

Dated: August 5, 1976.

ROBERT W. SCHONING,
Director,
National Marine Fisheries Service.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

[29 CFR Part 1601]

706 AGENCIES

Proposed Designation

Pursuant to § 1601.12 (i), Title 29 Chaptr 14 to the Code of Federal Regulations as revised and published in the FEDERAL REGISTER, 40 FR 3210M, January 20, 1975, the Equal Employment Opportunity Commission (hereinafter referred to as the Commission) proposes that the agencies listed below be designated as "706 Agencies" (§ 1601.12(c)). There are three (3) purposes for such designation: First, that the agencies receive charges deferred by the Commission pursuant to section 706 (c) and (d) of Title VII of the Civil Rights Act of 1964, as amended; second, that the Commission accord "substantial weight" to the final findings and orders of those agencies pursuant to § 1601.19B(e); and third, to commence the 15-day period within which any person or organization may file written comments as provided for under § 1601.12(i)(1). At the expiration of the 15-day period, the Commission may effect designation of each of the agencies by publishing the list of them as an amendment to § 1601.12(m). Additions to the list may be made by the Commission by similar notice and publication.

The proposed "706 Agency" is as follows:

SOUTH CAROLINA HUMAN AFFAIRS COMMISSION

Written comments pursuant to this notice must be filed with the Commission on or before August 24, 1976.

Signed at Washington, D.C. this 6th day of August 1976.

ETHEL BENT WALSH,
Vice Chairman, Equal Employment Opportunity Commission.

ADVERTISING OF OPHTHALMIC GOODS AND SERVICES

Additional Hearings on Proposed Trade Regulation Rule

On April 2, 1976, the Presiding Officer published in the FEDERAL REGISTER (41 FR 14194) Final Notice of a proposed trade regulation rule proceeding concerning the Advertising of Ophthalmic Goods and Services. The notice included a schedule of dates and places of public hearings to be held in that proceeding. By a subsequent notice published in the FEDERAL REGISTER on April 16, 1976 (41 FR 16183) the date for the commencement of the public hearings in New York City was changed to July 19, 1976.

Commission attorneys and representatives of interested groups have informally requested that the Presiding Officer schedule an additional Washington, D.C. public hearing date for the purpose of allowing certain witnesses to present testimony concerning the proposed rule. The Commission attorneys and group representatives consider the testimony of these witnesses to be of particular importance to this proceeding. The witnesses were unable to participate in the hearings held previously in Washington, D.C. because there was insufficient time for the Commission staff and group representatives to prepare adequately for cross-examination of them.

In view of the above, the Presiding Officer has scheduled additional public hearings to be held commencing at 9:30 a.m., September 8, 1976, in Room 532 of the Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street, NW., Washington, D.C. and will confine the hearings to the testimony of those witnesses.

Prepared statements of witnesses at the mentioned public hearings will be made available for inspection in the office of Ann Stahl Guler, Room 421, of the Federal Trade Commission Building, in Washington, D.C. at the above address; Telephone No. (202) 523-3435, on and after August 20, 1976.

Issued: August 5, 1976.

HENRY B. CABELL,
Presiding Officer.

Redelegation of Authority

Section I. Pursuant to the authority delegated to me by (i) Delegation of Authority No. 38 from the Administrator of A.I.D. dated April 10, 1964, as amended, and (ii) Delegation of Authority No. 99 from the Administrator of A.I.D. dated April 27, 1973, I hereby delegate to:

(a) The A.I.D. Representative in Uruguay,

(b) The A.I.D. Affairs Officer in Costa Rica, in Barbados, and in Jamaica;

(c) The Director of the United States A.I.D. Mission in all other countries in the Latin American Region of A.I.D.,

the following authorities with respect to the implementation of approved programs of A.I.D. for the country to which such official is assigned:

1. To sign project agreements, trust fund agreements, and grant agreements with foreign governments, foreign government agencies, and international organizations having a membership consisting primarily of such foreign governments,

2. To approve country contracts for capital projects financed in whole or in part by an A.I.D. grant, and

3. To sign Project Implementation Orders—Technical Services (PIO/T).

Section II. The authorities delegated in Section I are subject to all applicable provisions of law, and shall be exercised in conformity with all restrictions, regulations, manual orders and directives which are now in effect or which may be issued hereafter governing the operations of A.I.D. programs.

Section III. The authorities delegated in Section I may be exercised by persons who are serving in an acting capacity, and may be redelegated by the specified officials to their principal deputy.

Section IV. The redelegation of authority previously issued by me on October 1, 1973, is hereby rescinded as of this date. This deleagtion shall be deemed effective as of this date and shall continue in effect until rescinded by me.

Dated: July 9, 1976.

HERMAN KLEINE,
Assistant Administrator for Latin America.

SECRETARY OF STATE'S ADVISORY COMMITTEE ON PRIVATE INTERNATIONAL LAW

Meeting

A meeting of the Secretary of State's Advisory Committee on Private International Law will be held at 10 a.m. on Friday, September 17, 1976, in room 5519 of the Department of State. Members of the general public may attend and participate in the discussion subject to instructions of the Chairman.

The principal purpose of the meeting is to review draft conventions on conflict of laws relating to agency, marriage, and matrimonial property and to recommend positions which the United States might take on those drafts at the Thirteenth Session of the Hague Conference on Private International Law in October.

Members of the general public who desire to attend the meeting will be admitted up to the limits of the capacity of the meeting room. Entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. It is requested that prior to September 17, 1976, members of the general public who plan to attend the meeting inform their name, affiliation and address to Mr. Robert E. Dalton, Office of the Legal Adviser, Department of State; the telephone number is area code 202, 632-2107. All non-government attendees at the meeting should use the C Street entrance.

Dated: August 2, 1976.

ROBERT E. DALTON,
Executive Director.

SHORELINE EROSION ADVISORY PANEL

Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act (Pub. L. 92-463) notice is hereby given of a meeting of the Shoreline Erosion Advisory Panel on August 30-31, 1976.

The meeting will be held in the meeting room (Brent I), Old Town Holiday Inn, 480 King Street, Alexandria, Virginia, from 0830 hours to 1630 hours on August 30, 1976 and from 0830 hours to 1230 hours on August 31, 1976.

The meeting will be devoted to presentations by the public and manufacturers of shore protection devices and methods; action to be taken by the Panel on recommended sites on the Atlantic, Gulf, Pacific, and Great Lakes Coasts, and Delaware Bay; and action on recommended devices for the recommended sites.

Participation by the public is scheduled on the agenda at 1130 to 1200 hours on August 31, 1976.

The meeting will be open to the public subject to the following:

1. Since seating capacity of the meeting room at the Old Town Holiday Inn limits public participation to not more than 30 people, advance notice of intent to attend, although not required, is requested in order to assure adequate arrangements for those wishing to attend.

2. Oral participation by public attendees is encouraged during those times scheduled on the agenda. Written statements may be submitted prior to the meeting or up to 30 days after the meeting.

Inquiries, notices of intent to attend the meeting, written statements for consideration of the Panel may be addressed to Colonel John H. Cousins, Executive Secretary, Shoreline Erosion Advisory Panel, Kingman Building, Fort Belvoir, VA 22060, Telephone (202) 325-7518.

Dated: August 5, 1976.

By authority of the Secretary of the Army.

R. S. SEEBERG,
LTC, U.S. Army, Acting Director, Administrative Management, TAGCEN.

DOD ADVISORY GROUP ON ELECTRON DEVICES

Advisory Committee Meeting

Working Group C (Mainly Imaging and Display) of the DoD Advisory Group on Electron Devices (AGED) will meet in closed session at 201 Varick Street, New York, NY 10014, on September 2, 1976.

The purpose of the Advisory Group is to provide the Director of Defense Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group C meeting will be limited to review of research and development programs which the Military Departments proposed to initiate with industry, universities or in their laboratories. This special device area includes such programs as Infrared and Night Vision Sensors. The review will include classified program details throughout.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

AUGUST 5, 1976.

WAGE COMMITTEE

Closed Meetings

Pursuant to the provisions of section 10 of Pub. L. 92-463, the Federal Advisory Committee Act, effective January 5, 1973, notice is hereby given that a meeting of the Department of Defense Wage Committee will be held on Tuesday, October 5, 1976; Tuesday, October 12, 1976; Tuesday, October 19, 1976; and Tuesday, October 26, 1976 at 9:45 a.m. in Room 1E801, The Pentagon, Washington, D.C.

The Committee's primary responsibility is to consider and submit recommendations to the Assistant Secretary of Defense (Manpower and Reserve Affairs) concerning all matters involved in the development and authorization of wage schedules for Federal prevailing rate employees pursuant to Pub. L. 92-392. At this meeting, the Committee will consider wage survey specifications, wage survey data, local wage survey committee reports and recommendations, and wage schedules derived therefrom.

Under the provisions of section 10(d) of Pub. L. 92-463, the Federal Advisory Committee Act, meetings may be closed to the public when they are "concerned with matters listed in section 552(b) of Title 5, United States Code." Two of the matters so listed are those "related solely to the internal personnel rules and practices of an agency," (5 U.S.C. 552(b)(2)), and those involving "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (5 U.S.C. 552(b)(4)).

Accordingly, the Deputy Assistant Secretary of Defense (Civilian Personnel Policy) hereby determines that this meeting will be closed to the public because the matters considered are related to the internal rules and practices of the Department of Defense (5 U.S.C. 552(b)(2)), and the detailed wage data considered by the Committee during its meetings have been obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552(b)(4)).

However, members of the public who may wish to do so are invited to submit material in writing to the Chairman concerning matters believed to be deserving of the Committee's attention. Additional information concerning this meeting may be obtained by contacting the Chairman, Department of Defense Wage Committee, Room 3D281, The Pentagon, Washington, D.C.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Power Projects 821 and 1577]

ALASKA

Restoration of Lands in Power Withdrawals

AUGUST 3, 1976.

1. In an order issued February 23, 1973 FR Doc. 73-3893, 38 FR 5685), the Federal Power Commission vacated the land withdrawals created by the filing of applications for licenses for Power Projects 821 and 1577, involving the following described lands:

(a) Power Project No. 821

CASCADE AND ROSA CREEKS, GRAVINA ISLAND, ALASKA

A parcel of land on the northeast side of Gravina Island, approximately 4 miles northwest of Ketchikan, as more particularly described in the above-referenced order. Containing approximately 81 acres.

(b) Power Project No. 1577

KODIAK ISLAND, ALASKA

A parcel of land near the west shore of Chip Cove, Moser Bay, an arm of Alitak Bay located within T. 36 S., R. 31 W., Seward Meridian, sections 23, 25, and 26, as more particularly described in the above-referenced order. Containing approximately 36.5 acres.

2. The lands described in paragraph 1 are hereby restored to operation of the applicable public land laws, subject to valid existing rights and the provisions of existing withdrawals. Those lands described in paragraph 1 that are within the Tongass National Forest are open to such disposition as may by law be made of national forest lands.

3. Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

CLAIR M. WHITLOCK,
Acting State Director.

[AA-8332]

ALASKA

Restoration of Lands in Power Withdrawals

AUGUST 3, 1976.

1. In two orders issued February 28, 1973 (FR Doc. 73-4290 and FR Doc. 73-4289, 38 FR 6227, 6228), the Federal Power Commission vacated in their entirety the withdrawals of land pursuant to the applications for Power Projects 160, 162, 383, 689, 951, 1222, 1232, 2001, 2178, and 2505. The lands involved are briefly described below. More detailed descriptions are contained in the above-referenced orders.

(1) Power Project No. 160. Vicinity of Orca Inlet, Prince William Sound, Chugach National Forest, Alaska. All lands within one-quarter mile of Power Creek for 2 miles of its length beginning at and extending upstream from Eyak Lake.

(2) Power Project No. 162. Same lands as Project No. 160 (see item 1 above).

(3) Power project No. 383. Located approximately 8 miles southwest of Hyder, Alaska, in the Tongass National Forest in the vicinity of Soule Glacier River.

(4) Power Project No. 689. Located along the Soule Glacier River near Hyder, Alaska.

(5) Power Project No. 951. Located on Chichagof Island in the Tongass National Forest in the vicinity of Rust Lake and Sister Lake.

(6) Power Project No. 1222. Located on Ward Creek, Revillagigedo Island, about 3 miles northwest of Ketchikan, Alaska.

(7) Power Project No. 1232. Located near Port Walter, Baranof Island, in the Tongass National Forest.

(8) Power Project No. 2001. Located near Port Walter, Baranof Island, in the Tongass National Forest.

(9) Power Project No. 2178. Same lands as Project No. 160 (see item 1 above).

(10) Power Project No. 2505. Located along Power Creek near Cordova, Alaska.

2. The lands described in paragraph 1 are within the Chugach and Tongass National Forests. The lands are hereby opened to such disposition as may by law be made of national forest lands.

3. Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

CLAIR M. WHITLOCK,
Acting State Director.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation Number A360]

TEXAS

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in the following Texas Counties as a result of a severe hailstorm May 25, 1976, in Baylor County; hail and heavy rains May 25, 1976, in Bosque County; a hailstorm May 25, 1976, in Foard County; hail, damaging winds, and excessive rainfall May 25, 1976, in Somervell County; a serve thunderstorm with very high winds and hail May 31, 1976, in Starr County; hailstorms May 23 and May 25, 1976, in Swisher County; and excessive rainfall, a hailstorm, and excessive straight winds May 25, 1976, in Young County.

Therefore, the Secretary has designated this area as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 94-68, and the provisions of 7 CFR 1832.-3(b) including the recommendation of Governor Dolph Briscoe that such designation be made.

Applications for emergency loans must be received by this Department no later than September 29, 1976, for physical losses and May 3, 1977, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, DC, this 5th day of August 1976.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

TETON WILDERNESS ADDITION PROPOSAL

Public Hearing

Notice is hereby given in accordance with provisions of the Act of September 3, 1964 (78 Stat. 890, 16 U.S.C. 1131-1132) that a public hearing will be held, beginning at 2 p.m. on September 30, 1976, in the Teton County Courthouse, Jackson, Wyoming, on a proposal for an addition to the Teton Wilderness comprised of approximately 28,318 acres contiguous to the Teton Wilderness. The proposed addition to the Teton Wilderness is located in the Bridger-Teton National Forest in the County of Teton in the State of Wyoming.

A brochure containing a map and information about the proposed Wilderness may be obtained from the Forest Supervisor, Bridger-Teton National Forest, Forest Service Building, Jackson, Wyoming 83001.

Individuals and organizations may express their views by appearing at the hearing, or may submit written comments for inclusion in the official record to Forest Supervisor, Bridger-Teton National Forest, Forest Service Building, Jackson, Wyoming 83001. Written comments must be received within 30 days following the hearing dates to be included in the official record.

EXPORTERS' TEXTILE ADVISORY COMMITTEE

Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974) notice is hereby given that a meeting of the Exporters' Textile Advisory Committee will be held at 10 a.m., on September 28, 1976, in Room 3817, Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

The Committee which is comprised of 28 members involved in textile and apparel exporting, advises Department officials concerning ways of increasing U.S. exports of textile and apparel products.

The agenda for the meeting is as follows:

1. Review of Export Data.
2. Report on Conditions in the Export Market.
3. Recent Foreign Restrictions Affecting Textiles.
4. Other Business.

A limited number of seats will be available to the public on a first come basis. The public may file written statements with the Committee before or after the meeting. Oral statements may be presented at the end of the meeting to the extent time is available.

Copies of the minutes of the meeting will be made available on written request addressed to the DIBA Freedom of Information Officer, Freedom of Information Control Desk, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-5078.

Dated: August 5, 1976.

NATIONAL ADVISORY COUNCIL ON DRUG ABUSE

Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act

(5 U.S.C. Appendix I), announcement is made of the following National Advisory body scheduled to assemble during the month of September 1976:

NATIONAL ADVISORY COUNCIL OF DRUG ABUSE

SEPTEMBER 27; 9:30 A.M., AND SEPTEMBER 28; 9:00 A.M.

Conference Room 873, Rockwall Building, Rockville, Maryland.

Open—September 27, 1:00–5:00 p.m., September 28.

Closed—September 27, 9:30 a.m. to 12:00 noon.

Contact Ms. Pamela Thurber, Rockwall Building, Room 840, 11400 Rockville Pike, Rockville, Md. 20852, 301–443–6618.

Purpose: The National Advisory Council on Drug Abuse advises and makes recommendations to the Secretary, Department of Health, Education, and Welfare, the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, and the Director, National Institute on Drug Abuse, on the development of new initiatives and priorities and the efficient administration of drug abuse research, training, demonstration, prevention and community services programs. The Council also gives advice on policies and priorities for drug abuse grants and contracts and reviews and make recommendations on grant applications.

Agenda: From 9:30 a.m. to 12:00 noon on September 27, the Council will conduct a final review of grant applications for Federal assistance and this session will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of sections 552(b)(5) and 552(b)(6), Title 5 U.S. Code and Section 10(d) of Public Law 92–463 (5 U.S.C. Appendix I).

The remainder of the meeting from 1:00 p.m. on September 27 until 5:00 p.m. on September 28 will be devoted to a discussion of issues in the field of drug abuse, orientation to the programs of the Institute, development of priorities for action by the Council, and administrative announcements and will be open.

Agenda items are subject to change as priorities dictate.

Substantive program information, summaries of the meeting and rosters of the Council members can be obtained from the contact person listed above.

Dated: August 4, 1976.

CAROLYN T. EVANS,
Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

Food and Drug Administration

[Docket No. 75G–0336]

DEAN FOODS CO.

Filing of Petition for Affirmation of GRAS Status

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 (21 U.S.C. 321(s), 348, 371 (a))) and the regulations for affirmation of GRAS status (21 CFR 121.40), published in the FEDERAL REGISTER of December 2, 1972 (37 FR 25705), notice is given that a petition (GRASP 6G0065) has been filed by Dean Foods Co., 1126 Kilburn Ave., Rockford, IL 61101 and placed on public display at the office of the Hearing Clerk, Food and Drug Administration, proposing affirmation that modified whey, modified whey-demineralized, and modified whey-demineralized-delactosed are generally recognized as safe (GRAS) for use in human food.

Any petition which meets the format requirements outlined in 21 CFR 121.40 is filed by the Food and Drug Administration. There is no prefiling review of the adequacy of data to support a GRAS conclusion. Thus the filing of a petition for GRAS affirmation should not be interpreted as a preliminary indication of suitability for affirmation.

Interested persons may, on or before October 12, 1976, review the petition and/or file comments (preferably in quintuplicate) with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852. Comments should include any available information that would be helpful in determining whether the substance is, or is not, generally recognized as safe. A copy of the petition and received comments may be seen in the office of the Hearing Clerk, address given above, during working hours, Monday through Friday.

Dated: August 3, 1976.

[Docket No. 75G–0336]

LAND O'LAKES, INC.

Filing of Petition for Affirmation of GRAS Status

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 (21 U.S.C. 321(s), 348, 371 (a))) and the regulations for affirmation of GRAS status (21 CFR 121.40), published in the FEDERAL REGISTER of December 2, 1972 (37 FR 25705), notice is given that a petition (GRASP 6G0075) has been filed by Land O'Lakes, Inc., P.O. Box 116, Minneapolis, MN 55440, and placed on public display at the office of the Hearing Clerk, Food and Drug Administration, proposing affirmation that modified whey-partially delactosed and partially demineralized are generally recognized as safe (GRAS) for use in human food.

Any petition which meets the format requirements outlined in 21 CFR 121.40 is filed by the Food and Drug Administration. There is no prefiling review of the adequacy of data to support a GRAS conclusion. Thus the filing of a petition for GRAS affirmation should not be interpreted as a preliminary indication of suitability for affirmation.

Interested persons may, on or before October 12, 1976, review the petition and/or file comments (preferably in quintuplicate) with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852. Comments should include any available information that would be helpful in determining whether the substance is, or is not, generally recognized as safe. A copy of the petition and received comments may be seen in the office of the Hearing Clerk, address given above, during working hours, Monday through Friday.

Dated: August 3, 1976.

Health Services Administration

GRANTS FOR COMPREHENSIVE HEMOPHILIA DIAGNOSTIC AND TREATMENT CENTERS

Availability of Application

Section 606 of Pub. L. 94–63 amended Title XI of the Public Health Service Act by adding a new section 1131 thereto. The new section 1131 gives the Secretary authority to make grants to public and nonprofit private entities for projects for the establishment of comprehensive hemophilia diagnostic and treatment centers.

It is anticipated that regulations implementing section 1131 will be published shortly; grants will not be made under the section until they are published. However, in order to facilitate the development of applications for viable projects under section 1131 prior to the expiration of the fiscal year 1976 funds appropriated for that purpose, the Secretary has concluded that he should provide potential applicants with preliminary information and guidance in developing such projects and applications therefor. Accordingly, notice is hereby given that preliminary information and guidance on developing applications for funds under section 1131 may be obtained by writing the Office for Maternal and Child Health, Bureau of Community Health Services, 5600 Fishers Lane, Room 7–15, Rockville, Maryland 20852. All information and guidance so obtained is provided subject to the understanding that it reflects preliminary policies only and that subsequent policy changes, as contained in the regulations, may require appropriate alterations in project applications and design.

Dated: August 2, 1976.

JOHN H. KELSO,
Deputy Administrator, Health Services Administration.

Notice is hereby given that pursuant to section 1162(b) of the Social Security Act (the Act) [42 U.S.C. 1320c–11(b)], nominations are being accepted

for public membership positions on the Missouri Statewide Professional Standards Review Council (Statewide Council). Section 1162(a) of the Act mandates that a Council shall be established in each State where there are located three or more Professional Standards Review Organizations (PSROs). As there are located three conditional PSROs in Missouri, the Missouri Statewide Council is being formed.

The PSRO program is established under Title XI, Part B of the Act, enacted by the 1972 Amendments to the Act (Pub. L. 92-603) to provide for physician-directed review of the utilization and quality of medical care services paid for by the Medicare, Medicaid, and Maternal and Child Health and Crippled Children Services programs. The Statewide Council component of the PSRO program will perform a number of functions, including: (1) Coordinating activities of PSROs and disseminating information and data among PSROs in the State under section 1162(c) of the Act; (2) reviewing PSRO reconsiderations under section 1159(a) of the Act; (3) reviewing PSRO sanction reports under section 1157 of the Act; (4) using its influence to assure that practitioners and providers comply with the obligations of the legislation under section 1160(c) of the Act; (5) assisting the Secretary of Health, Education, and Welfare in developing uniform data gathering and operating procedures among PSROs in the State, in evaluating PSRO performance, and, should it become necessary, in developing and arranging for a qualified replacement for a PSRO under section 1162(c) of the Act.

There will be four public representatives on the Statewide Council. Persons or organizations wishing to submit nominations for public members are advised that each nominee will be considered by the Secretary on the basis of whether such nominee is:

(1) Knowlegeable about health care in Missouri as provided under the Maternal and Child Health and Crippled Children Services, Medicare and Medicaid programs (Titles V, XVIII, XIX of the Social Security Act respectively),

(2) Willing and able to represent the interests of the public; and

(3) Willing and able to discharge the responsibilities of membership in the Statewide Council.

Special consideration will be given to qualified representatives of organizations and groups which are not otherwise included on the Statewide Council (PSRO representatives or physician representatives) or on the Statewide Council Advisory Group (nonphysician health care practitioners, hospitals, and other health care facilities). Since nominees for public member positions on the Statewide Council should represent a broad segment of public interest, involvement in community activities should be outlined in the curriculum vitae submitted with the nomination.

After due consideration of all nominees, including nominees of the Governor of Missouri, the Secretary of Health, Education, and Welfare will appoint four public representatives, at least two of whom shall have been recommended by the Governor under section 1162(b)(3) of the Act.

All nominations from the general public for public member positions on the Statewide Council, together with a curriculum vitae, should be sent to Holman R. Wherritt, M.D., Regional Health Administrator at Department of Health, Education, and Welfare, Region VII Office, 601 East 12th Street, Kansas City, Missouri 64106. To ensure consideration, nominations should be received on or before October 12, 1976. Further information concerning the nature and function of the Statewide Council and the role of public members in Council activities may be obtained by contacting the Office of the Regional Health Administrator at (816) 374-3291.

Dated: July 27, 1976.

JOHN H. KELSO,
Deputy Administrator,
Health Service Administration.

RUTGERS COMMUNITY HEALTH PLAN

Qualified Health Maintenance Organizations

Notice is hereby given, pursuant to 42 CFR 110.605, that in the month of July 1976 the following entity has been determined to be a qualified health maintenance organization under section 1310(d) of the Public Health Service Act (42 U.S.C. 300e-9(d)).

QUALIFIED HEALTH MAINTENANCE ORGANIZATION

Name, address, service area, and date of qualification. (Pre-operational qualified health maintenance organization: 42 CFR 110.603(c).)

1. Rutgers Community Health Plan, 88 College Avenue, New Brunswick, New Jersey 08903. Service area: Communities within a 15 mile radius of New Brunswick which includes all of Middlesex County and parts of Somerset, Union, Mercer, Monmouth and Morris Counties. Date of Qualification: July 1, 1976.

Files containing detailed information regarding this qualified health maintenance organization will be available for public inspection between the hours of 8:30 a.m. and 5 p.m., Monday through Friday, at the Office of the Administrator, Health Services Administration, Department of Health, Education, and Welfare, Room 14A-27, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852.

Questions about the review process or requests for information about qualified health maintenance organizations should be sent to the same office.

Dated: August 2, 1976.

JOHN H. KELSO,
Deputy Administrator,
Health Services Administration.

Office of Education

TEACHER CORPS PROJECTS

Proposed Criteria for Selection of Applications

Pursuant to the authority contained in Part B-1 of the Education Professions Development Act of 1965, as amended (79 Stat. 1255-1258, as amended, 20 U.S.C. 1101-1107a), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue the criteria set forth below as the basis on which applications submitted for Teacher Corps projects will be judged. Assistance under this program will be subject to Part 100a of Title 45 of the Code of Federal Regulations.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed criteria to the Teacher Corps, U.S. Office of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Comments received in response to this notice will be available for public inspection Mondays through Fridays between 8:30 a.m. and 4:30 p.m. at the Teacher Corps office, Room 1700 of the Donohoe Building, 400 Sixth Street, S.W., Washington, D.C.

All comments, suggestions, or objections to be considered must be received not later than September 27, 1976.

(Catalog of Federal Domestic Assistance Program No. 13.489, Teacher Corps—Operation and Training.)

Dated: June 23, 1976.

T. H. BELL,
Commissioner of Education.

Approved: August 4, 1976.

DAVID MATHEWS,
Secretary of Health,
Education, and Welfare.

I. CRITERIA FOR THE SELECTION OF TEACHER CORPS PROJECT APPLICATIONS

In addition to the criteria set forth in 45 CFR 100a.26(b), the following criteria will also be used as a basis for approving applications for Teacher Corps projects and in determining the amount of the award under approved applications:

(A) *Instructional Program.* The extent to which the proposed instruction program provides:

(i) Training options designed to enable Teacher Corps interns, teacher aids, and experienced teachers to provide individualized classroom instruction;

(ii) Adequate means for evaluating their competencies; and

(iii) Training to prepare these persons to serve in schools in areas having concentrations of low income families.

These low income areas are determined in accordance with Section 103 of Title I of the Elementary and Secondary Act of 1965, as amended. The training will relate to such matters as identifying children with learning and behavioral problems, diagnosing their special needs, and prescribing learning activities to meet those needs.

(20 U.S.C. 1101, 1103)

(B) *Community Based Education.* The extent to which the application sets forth opportunities for involvement of parents of children to be served by the proposed project in decision-making, planning, development, implementation, and evaluation of the project. There must be evidence that this participation has occurred during the development of the application and that provision is made for developing the capabilities of parents, residents in the community, and secondary education and college students to serve as part-time tutors or full-time instructional assistants in the project (including, where appropriate, provision for university courses). There must be procedure for adequate dissemination of program plans and evaluation to parents and the public.

(20 U.S.C. 1101, 1103, 1231d)

(C) *Institutional Adoption.* The extent to which the project is designed so that the successful elements of the project can be incorporated into the overall instructional program of the applicant institution or agency.

(20 U.S.C. 1101, 1103)

(D) *Needs Analysis.* Whether the retraining of experienced teachers and teacher aides, and the training of teacher interns, will be based on an analysis of the learning needs of children from low income families.

(20 U.S.C. 1101, 1103)

(E) *Multi-Cultural Consideration.* The extent to which the application supports activities that are responsive to the diverse cultures represented by the proposed project's target populations, and relates to the needs of the communities and students to be served by the Teacher Corps project. In applications for projects in areas where the target population is predominantly from one culture, there must be an indication of the extent to which the project will increase the children's knowledge of their own culture and other cultures as well.

(20 U.S.C. 1101, 1103)

(F) *Diagnostic-Prescriptive Teaching.* The extent to which the application contains provisions for training in:

(i) Skills needed to identify special learning problems;

(ii) Skills needed to diagnose particular learning needs; and

(iii) Skills needed to prescribe programs to meet these learning problems and needs.

The application must show how these skills can be applied to all children to be served by the project, and to improve the educational opportunities in the regular classroom for children with learning and behavioral problems. This must be an integral part of the program design for all projects.

(20 U.S.C. 1101, 1103)

(G) *School-Staff Focus.* The extent to which the proposed retraining of experienced teachers and teacher aides will be available to the entire educational staff of each school receiving a Teacher Corps intern team.

(20 U.S.C. 1101, 1103)

(H) *Field Based Instruction.* The extent to which appropriate aspects of the instruction for experienced teachers and teacher aides, teacher interns, or community volunteers, will be carried out in the school served by the project and the local community rather than at the participating college or university.

(20 U.S.C. 1101, 1103)

(I) *Collaborative Decision-Making.* The extent to which the application indicates that a school-community council for each participating school exists or will be developed to respond to the needs and wishes of those directly involved with the project (such as Teacher Corps members, staff, trainees, school administrators, and members of the community) and to those less directly involved (such as teacher unions, State Educational Agencies and other organizations which may influence or be affected by the project).

(20 U.S.C. 1101, 1103).

(J) *Intern Teams.* The extent to which the application sets forth a team organization which will be able to operate effectively in carrying out the purposes of the project. An intern team (except as otherwise determined by the Commissioner) consists of 4 interns led by an experienced teacher who is the team leader. There is one team for each Teacher Corps project.

(20 U.S.C. 1103)

(K) *Local Needs.* The extent to which the project has special characteristics which take account of local conditions (such as population density, housing patterns, etc.).

(20 U.S.C. 1101, 1103)

(L) *Equitable Geographical Distribution.* The extent to which approval of the project would further the equitable geographical distribution of projects, including proportional representation among urban and rural areas.

(20 U.S.C. 1101, 1103)

(M) *Management and Evaluation Plans.* The extent to which plans for program organization, management, and evaluation are set forth. Data collection procedures must be described based on program goals, performance criteria, and regular program review.

(20 U.S.C. 1101, 1103)

II. Demonstration Requirements

Collectively, Teacher Corps projects should represent a coherent effort to demonstrate to all local educational agencies and communities the potential for training and retraining approaches. Therefore, each application for a Teacher Corps project must combine:

(i) The meeting of local educational needs and concerns, with

(ii) A demonstration project for the training of teacher interns and the retraining of experienced teachers and teacher aides that could have wider applicability than the local project.

To achieve this coherence and broader impact, the demonstration project must adopt one of the following broadly defined strategies:

(A) *The Training Complex.* This strategy is designed to provide training and retraining of educational personnel at a site located within or near the schools, and where a school program for children is to be conducted. The institution of higher education and the local educational agency establish the training complex where teacher interns and experienced teachers and teacher aides are to be trained and retrained. This is intended to become a permanent structure for training and retraining educational personnel for the local educational agency. Applications may show wide diversity in the features of a training complex, but they must describe plans for the direct involvement of training personnel from the institution of higher education at the training complex with school officials and the trainees, and a wide use of community and local educational agency resources for the development and delivery of both training and retraining.

(20 U.S.C. 1101, 1103)

(B) *Competency-Based Teacher Education.* This strategy specifies in advance what effective teachers should be able to do when the training is completed. It then measures their achievements by observing their work with children in a school. The training for experienced teachers, teacher interns, teacher aides, and community volunteers is delivered through sequential modules based on increasing their levels of competencies. Applications must describe how the proposed project will:

(i) Objectively define the needed competencies based on analysis of training and retraining needs;

(ii) Develop systematic management processes so that persons in training or retraining can evaluate their own learning needs and achievements;

(iii) Provide alternative modes of instruction to help trainees achieve the needed competencies relating to the improvement of educating students; and

(iv) Direct the use of university and other program resources towards meeting the needs of teacher interns, experienced teachers, teacher aides, and community volunteers within the local educational agencies served by the project.

(20 U.S.C. 1101, 1103)

(C) *Training for Implementing Alternative School Designs.* In local educational agencies where alternative school designs are planned, this strategy may be chosen to demonstrate, through a Teacher Corps project, a program of training teacher interns and retraining experienced teachers and teacher aides for implementing such an innovation. Applications must:

(i) Contain assurances that the local educational agency is already committed

to an alternative design and that the institution of higher education involved in the Teacher Corps project will be able to demonstrate appropriate training and retraining activities;

(ii) Limit Teacher Corps resources to training and retraining, and provide evidence that locally controlled resources are committed to supporting other aspects of the project; and

(iii) Demonstrate a viable alternative strategy for improving the education of low income children by improving both the skills of educational personnel and the conditions under which education takes place.

(20 U.S.C. 1101, 1103)

(D) *Interdisciplinary Training Approaches.* This strategy should be chosen by those applicants who wish to demonstrate a training program for teacher interns and the retraining of experienced teachers and teacher aides that involves the participation in teacher education of representatives from various academic disciplines (such as the liberal and fine arts, physical and natural sciences, social sciences, and humanities). The approach selected must be aimed at increasing the educational opportunities of low income children by enriching and reorganizing the base of knowledge and experience for planning and managing learning activities. Applications must emphasize that there has been collaborative planning by representatives of diverse disciplines and that the proposed training and retraining is responsive to the cultural and community values of the families of the children to be served. Applications must also emphasize how and to what extent interrelationships among educational agencies and institutions (such as universities and local educational agencies) and other community institutions are to be improved by their choice of this strategy.

(20 U.S.C. 1101, 1103).

(E) *Training for the Systematic Adaption of Research Findings.* There is presently available, in immediately usable form, a substantial body of research results which has proven effective and is relevant to learning and educational processes for schools serving low income populations. This research represents a vast potential resource which, as yet, has not been organized into systemic or overall program demonstrations. These research findings can be incorporated into the design of Teacher Corps programs for the training of teacher interns and the retraining of experienced teachers and teacher aides by identifying training objectives, selecting approaches to training and evaluation, creating instructional materials and activities or adapting existing materials to new situations. Applications selecting this strategy must:

(i) Identify and describe the validated research findings that will be incorporated into a demonstration program of teacher intern training and the retraining of experienced teachers and teacher aides, and show the relationship of these research findings to the educational problems addressed by the application;

(ii) Indicate a plan for the systematic application of these findings to activities of practicing educational personnel; and

(iii) Show how the proposed program, based on these findings, will have applicability to other local educational agencies, and to educational groups, as a demonstration project.

(20 U.S.C. 1101, 1103)

Office of the Secretary

PRIVACY ACT OF 1974

Systems of Records and Notice of Proposed Routine Uses Therefor

Pursuant to the Privacy Act of 1974 (Pub. L. 93-579) as prescribed in 5 U.S.C. 552a(e)(4), the following modified notices of systems of records that are maintained by the Department of Health, Education, and Welfare are published as set forth below. These systems are currently ongoing and the changed and/or additional information in the notices are indicated by italics.

Prior to the final adoption of the proposed additional/modified routine uses of these notices, consideration in accordance with the requirements of 5 U.S.C. 552a(e)(11) will be given to comments which are submitted in writing on or before September 10, 1976. Comments should be addressed to the Director, Fair Information Practice Staff, Department of Health, Education, and Welfare, 200 Independence Avenue, S.W., Washington, D.C. 20201. Comments received will be available for inspection in Room 526E, South Portal Building, at the above address.

Due to a format error the system notice on "Workers Exposed to Benzidine—(Bladder Cancer)—HEW/CDC/NIOSH" published in the FEDERAL REGISTER on June 29, 1976 was inadvertently published twice on pp. 26735 and 26736 with some of the changed and/or additional information in each system notice. In order to clarify the situation for the reader, this notice numbered CDC NIOSH 0024.01 is published again with all of the changed and/or additional information in one listing of the notice. The .01 part of the number 0024.01 indicates that this is the first set of modifications to that notice.

Dated: August 4, 1976.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

OS ASAM PT *05.02*

System name:

Employee Alcoholism, Drug Abuse and Emotional Problem Counselling and Referral Records HEW/OS/ASAM/PT.

Security classification:

None.

System location:

Personnel offices shown in Applicants for Employment Records, HEW System OS-ASAM-PT-1, Appendix 1 *or* designated offices performing counselling functions for employees in organizational units serviced by those personnel offices, *including the Public Health Employee Assistance Program offices listed in Appendix 1 of this notice.*

Categories of individuals covered by the system:

Department employees who have been counselled for work adjustment, personal or emotional health problems *and/or the abuse* of alcohol or drugs.

Categories of records in the system:

This system contains records *of employees who have been referred but not counseled; records of employees who have been counseled for work adjustment, personal or emotional problems, and/or alcohol or drug abuse; and records of members of employees' families who have been counselled.* Examples of information which may be found in this record system include the employee's name, SSN, date of birth, grade, job series, job title, leave record, service computation date, home address, home phone number, supervisor's name, name and address of the individual's personal physicans, social history, educational background, and performance appraisals. Other documents which may be found in the counsel's file *are notes made by the counselor,* copies of admonishments and reprimands received by the employee and a record of the supervisor's referral (if the employee was referred by the supervisor).

Authority for maintenance of the system: *44 U.S.C. 3101, 42 U.S.C. 4561, 21 U.S.C. 1180, and 5 U.S.C 7901.*

Routine uses of records maintained in the systems, including categories of users and the proposes of such uses:

In unusal circumstances, it may be appropriate to disclose information from this system of records: (1) in accordance with Appendix B Departmental Regulations (45 CFR Part 5b), Items 9, 101, 102; (2) To the Department of Justice or other appropriate Federal agencies in defending claims against the United States when the claim is based upon an individual's mental or physical condition and is alleged to have arisen because of activities of components of the Department in connection with such individual. Such disclosures will be restrictively made; in particular, disclosures of information pertaining to an individual with a history of alcohol or drug abuse will be limited in compliance with the restrictions of the Confidentiality of Alcohol and Drug Abuse Patient Records regulations, 42 CFR Part 2.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Employee records are maintained in file folders and on index cards.

Retrievability:

Records are *filed* by name or by case number cross indexed with the employee's name. The records are used by counsellors to document the *nature of the individual's problem and progress and when necessary to refer individuals to appropriate community or private resources for treatment or rehabilitation. Anonymous information* from these records may also be used to produce summary descriptive statistics and analytical studies in support of the functions for which the records are collected and maintained.

Safeguards:

During the employment of the individual, records are maintained in confidential files separate from the Official Personnel Folder and are located in lockable metal containers or in secured rooms with access limited to those whose official duties require access. *Disclosure of the contents of records which pertain to an individual's alcohol or drug abuse is restricted under the provisions of the Confidentiality of Alcohol and Drug Abuse Patient Records regulations, 42 CFR, Part 2, as authorized by 21 U.S.C. 1175 and 42 U.S.C. 4582, as amended by P.L. 93-282. To the extent possible, identical restrictions will be applied to the disclosure of the contents of records pertaining to individuals with other problems who are participating in the Public Health Employee Assistance Program.*

Retention and disposal:

Counselling records may be maintained for as long as the employee continues to visit the counsellor. The records are destroyed upon separation or transfer of the employee or when the employee has ceased contact with the counsellor for two years.

System manager(s) and address:

For records of individuals participating in the Public Health Employee Assistance Program conducted by the Public Health Service: The responsible Administrator shown in Appendix 1 below. For other individuals' records: The Personnel Officer servicing the installation in which counseling was provided, as shown in Applicants for Employment Records, HEW System OS-ASAM-PT-1, Personnel Appendix 1.

Notification procedure:

Inquiries should be addressed to the system manager at the office where counseling was provided. Individual should provide name, grade, organization in which employed date of birth *and location and approximate date of counseling. When applicable, the special procedures for access to medical records will be followed (see 45 CFR 5b.6 in 40 Federal Register 47411). When the records pertain to an individual's alcohol or drug abuse, the procedures in 42 CFR 2.40 will also be followed.*

Record access procedures:

Same as above.

Contesting record procedures:

Requests for correction or amendment of records should be addressed to the appropriate system manager.

Record source categories:

Information in this system of records is: (1) supplied directly by the individual, or (2) supplied by a member of the individual's family, or (3) derived from information supplied by the individual, or (4) supplied by sources to whom the employee has been referred for assistance, or (5) supplied by Department officials, *or (6) supplied by program counselors.*

Administrator, Public Health Employee Assistance Program, Office of Occupational Health, National Institutes of Health, Bethesda, Maryland 20010.
Administrator, Public Health Employee Assistance Program, Office of the Assistant Secretary for Health, 330 Independence Avenue SW., Washington, D.C. 20201.

OS ASAM PT *12.04*

System name:

Pay, Leave and Attendance Records. HEW/OS/ASAM/PT.

Security classification:

None.

System location:

Division of Central Payroll, Department of Health, Education, and Welfare, 330 Independence Avenue, S.W., Washington, D.C. 20201.

Payroll Liaison Representatives. See Personnel Appendix 1. Timekeepers in organizational units serviced by Payroll Liaison Representatives shown in Personnel Appendix 1. *Personnel offices shown in HEW System OS-ASAM-PT-1, Applicants for Employment Records, Appendix 1.*

Categories of individuals covered by the system:

All paid employees of the Department of Health, Education, and Welfare including PHS Commissioned Corps Personnel.

Categories of records in the system:

This system consists of a variety of records relating to pay and leave determinations made about each employee of the Department of Health, Education, and Welfare. In addition to the name of the employee, the system includes information such as the employee's date of birth, social security number, home address, grade or rank, employing organization, timekeeper number, salary, Civil Service Commission retirement fund contributions, pay plan, number of hours worked, annual and sick leave accrual rate and usage, annual and sick leave balance, FICA withholdings, Federal, state and city tax withholdings, Federal Employees Government Life Insurance withholdings, Federal Employees Health Benefits withholdings, garnishment documents, savings allotments, union and management association dues withholdings allotments, savings bonds allotments, and combined Federal Campaign allotments; for Commissioned Corps personnel information such as the following is included: years of service, payroll number, base pay, incentive pay, hazardous pay, allowances and Servicemen's Group Life Insurance.

Authority for maintenance of the system:

5 U.S.C. 5501 et. seq., 5525 et. seq., 6301 et. seq.; 42 U.S.C. 201 et. seq.; and P.L. 90-83.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Information in this system of records is used or may be used:

a. To prepare W-2 Forms to submit to the Internal Revenue Service, *and to disclose to state and local government agencies having taxing authority pertinent records relating to employees, including name, home address, social security number (in accordance with Section 7 of Public Law 93-579), earned income, and amount of taxes withheld.*

b. In accordance with Appendix B Departmental Regulations (45 CFR Part 5b) Items 01, 3, 4, 5, 6, 7, 8, 9.

c. By the Civil Service Commission in the performance of its functions.

d. By the Department of Labor to make compensation determination in connection with a claim filed by the employee for compensation on account of a job-connected injury or disease.

e. To respond to court orders for garnishment of an employee's pay for alimony or child support.

f. To respond to orders from IRS for garnishment of an employee's pay for Federal income tax purposes.

g. To the Department of Treasury for the purposes of preparing and issuing employee salary and compensation checks and U.S. Savings Bonds.

h. By state offices of unemployment compensation in connection with claims filed by former DHEW employees for unemployment compensation.

i. When an individual to whom a record pertains dies, to disclose information in the individual's record to heirs, executors and legal representatives of beneficiaries.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Magnetic tape, microfilm, punch cards and forms.

Retrievability:

Records are maintained by pay period and are retrievable by name, SSN and Timekeeper number within each pay period. They are used to insure that each employee receives the proper pay and allowances; that proper deductions and authorized allotments are made from the employee's salary; that the employee is credited and charged with the proper amount of sick and annual leave. Records are also used to produce summary descriptive statistics and analytical studies in support of the functions for which the records are collected and maintained and for related personnel management functions or pay studies, and for other purposes compatible with the intent for which the records system was created.

Safeguards:

Access to and use of these records are limited to personnel whose official duties require such access. Personnel screening is employed to prevent unauthorized disclosure.

Retention and disposal:

A record (continuously updated) is maintained on the data disc for as long as employed. Source document microfilm records are kept 4 years then destroyed. Time card microfilm is kept 5 years then destroyed. Data file microfilm is kept 6 years then destroyed.

System manager(s) and address:

Director, Division of Central Payroll, P.O. Box 1825, Washington, D.C. 20013.

Notification procedure:

Same as System Manager. Also may contact, *as appropriate,* Payroll Liaison Representatives in Personnel Appendix 1 *or Personnel Officers shown in HEW System OS–ASAM–PT–1, Applicants for Employment Records, Appendix 1.* Provide name, social security number, timekeeper number and pay period about which inquiring.

Records access proedures:

Same as above.

Contesting record procedures:

Same as above.

Record source categories:

In formation in this system of records is (1) supplied directly by the individual, or (2) derived from information supplied by the individual, or (3) supplied by timekeepers and other Department officials.

Systems exempted from certain provisions of the act:

None.

OASH OAM 0007.02

System name:

PHS Commissioned Corps General Personal Files and Records. HEW/OASH/OAM.

Security classification:

None.

System location:

Office of the Director, Commissioned Personnel Operations Division, Office of Personnel Management/OAM/PHS, Room 4A–15, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852.

Categories of individuals covered by the system:

Commissioned Officers, former Commissioned Officers, applicants to the Commissioned Corps of the Public Health Service.

Categories of records in the system:

Official Personnel Folders; Service Records Cards (summarizing personnel actions); Commissioned Officer leave records; file records of non-appointed applicants; Commissioned Officer Residency Deferment Program (CORD) files containing application forms and related documents; Selection Systems applications; identification and privilege card records; recommendations regarding payment of leprosy duty pay; and correspondence relating to the above.

Authority for maintenance of the system:

Public Health Service Act Section 201 et seq. (42 U.S.C. 202 et seq.).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Limited information provided prospective employers upon inquiry. Employment confirmations provided FHA and financial institutions. DOD may obtain access in event of national emergency. VA may obtain information in event of past employment claim. Bureau of Prisons (Department of Justice), Coast Guard (Department of Transportation), and Environmental Protection Agency may obtain copies of personnel documents relating to Commissioned Officers on assignment to those agencies. *Records may be disclosed to individuals and organizations deemed qualified by the Secretary to carry out specific research solely for the purpose of carrying out such research (45 CFR, Part 5b, Appendix B, Item 101).*

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Records kept in secured area. Derogatory information kept in locked safe.

Retrievability:

Alphabetically indexed by name of person and SSN. (Permission has been requested from the Department for the continued use in this system of the SSN as a use within Sec. 7(a)(2)(B) of the Privacy Act.) Used by HEW officials who conduct personnel operations for the Commissioned Corps.

Safeguards:

Secured area, safes, and building guard force.

Retention and disposal:

Applicant files destroyed after two years if not used; leave records destroyed five years after separation; other files retained indefinitely. Identification and privilege cards and records disposed of when officer is no longer entitled to use.

System manager(s) and address:

Director, Commissioned Personnel Operations Division. (See System Location above.).

Notification procedure:

Write only System Manager.

Record access procedures:

Contact the System Manager shown above.

Contesting record procedures:

Contact System Manager.

Record source categories:

Information furnished by subject, references, reports of supervisors and other officials; personal actions; and doctors.

Systems exempted from certain provisions of the act:

None.

SSA HI CAR 0175.03

System name:

Carrier Medicare Claims Records HEW SSA.

Security class (If none, so state):

None.

System location:

Carriers, under contract to Social Security Administration (See Appendix C, section 4).

Categories of individuals covered by the system:

Recipients of Part B (Supplementary Medical) Medicare benefits.

Categories of records in the system:

Request for Payment; Provider Billing for Patient Services by Physician; Prepayment Plan for Group Medicare Practices Dealing through a Carrier; Request for Claim Number Verification; Payment Record Transmittal; Statement of Person Regarding Medicare Payment for Medical Services Furnished Deceased Patient; Report of Prior Period of Entitlement; itemized bills and other similar documents from beneficiaries required to support payments to physicians and other suppliers of Part B Medicare services.

Authority for maintenance of the system:

Sections 1842 and 1874 of title XVIII of the Social Security Act.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Routine uses for disclosure may be to:

a. Claimants, other than the data subject, their authorized representatives or representative payees to the extent necessary to pursue claims made under title XVIII of the Social Security Act (Medicare).

b. Third-party contacts by the Social Security Administration (without the consent of the individual to whom the information pertains) in situations where the party to be contacted has, or is expected to have, information relating to the individual's capability to manage his affairs or his eligibility for or entitlement to benefits under the Medicare program when:

(1) The individual is unable to provide the information being sought (an individual is considered to be unable to provide certain types of information when any of the following conditions exist: individual is incapable or of questionable mental capability, cannot read or write, cannot afford the cost of obtaining the information, a language barrier exists, or the custodian of the information will not, as a matter of policy, provide it to the individual), or

(2) The data are needed to establish the validity of evidence or to verify the accuracy of information presented by the individual, and it concerns one or more of the following: the individual's eligibility to benefits under the Medicare program; the amount of reimbursement; any case in which the evidence is being reviewed as a result of suspected abuse or fraud, concern for program integrity, or for quality appraisal, or evaluation and measurement system activities.

c. Third-party contacts by the Social Security Administration where necessary to establish or verify information provided by representative payees or payee applicants.

d. The Treasury Department for investigating alleged theft, forgery, or unlawful negotiation of Medicare reimbursement checks.

e. The United States Postal Service for investigating alleged forgery or theft of social security checks.

f. The Department of Justice for investigating and prosecuting violations of the Social Security Act to which criminal penalties attach, for representing the Secretary and for investigating issues of fraud by agency officers or employees, or violation of civil rights.

g. The Railroad Retirement Board for administering provisions of the Railroad Retirement and Social Security Acts relating to railroad employment.

h. Professional Standards Review Organizations (PSRO) for utilization review.

i. State Licensing Boards for review of unethical practices or nonprofessional conduct.

j. Providers and suppliers of services directly or dealing through fiscal intermediaries or carriers for administration of provisions of title XVIII.

k. Contractors under contract to the Social Security Administration for the performance of research and statistical activities directly relating to the Social Security Act.

l. State welfare departments pursuant to agreements with the Social Security Administration for administration of State supplementation payments for determinations of eligibility of Medicaid per Section 1634 of the Social Security Act.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Records maintained on paper.

Retrievability:

System is indexed by health insurance claim number. The record is prepared by the beneficiary and is used by the carriers to determine amount of and entitlement to Part B benefits. The bills are retained by the carriers. The record is also used to update the Part B Physician/Supplier 25,000 listing. Disclosures of physician's customary charge data are made to state audit agencies in order to ascertain the correctness of Title XIX charges and payments.

Safeguards (access controls):

Unauthorized personnel are denied access to the records area. Disclosure is limited.

Retention and disposal:

Close out at the end of the calendar year in which paid, two additional years, transferred to Federal Records Center and destroy after another six years.

System manager(s) and address (include zip code):

Director, Bureau of Health Insurance, 6401 Security Boulevard, Baltimore, Maryland 21235.

Notification procedure:

Inquiries and requests for system records should be addressed to the most convenient social security office or to Social Security Administration, Bureau of Health Insurance, Health Insurance Inquiries Branch, Baltimore, Maryland 21235. The individual should furnish his or her health insurance claim number and name as shown on social security records.

Record access procedures:

The individual can obtain information on the procedures for gaining access to and contesting records from the most convenient social security office or from Social Security Administration, Bureau of Health Insurance, Health Insurance Inquiries Branch, Baltimore, Maryland 21235.

Contesting record procedures:

Same.

Record source categories:

The data contained in these records is furnished by the individual. In most cases, the identifying information is provided to the physician by the individual. The physician then adds the medical information and submits the bill to the carrier for payment.

Systems exempted from certain provisions of the act (if none, so state):

None.

SSA PO RSI 0175.02

System name:

Claims Folders and Post-Adjudicative Records of Applicants and Beneficiaries for Social Security Administration Benefits HEW SSA.

Security class (if none, so state):

None.

System location:

Retirement and Survivors Insurance Claims; Claims folders are maintained primarily in the Retirement and Survivors Insurance Program Centers and the *Division of International Operations (see Appendix A). Disability Insurance Claims;* Bureau of Disability Insurance (see Appendix B) or Division of International Operations (see Appendix A.) Black Lung Claims: Bureau of Disability Insurance (see Appendix B). Supplemental Security Income Claims: Claims for benefits based on age—Retirement and Survivors Insurance Program centers (see Appendix A). Claims for Disability or Blind: Benefits—Bureau of Disability Insurance (see Appendix B). In addition, claims folders are transferred to numerous other locations throughout the Social Security Administration, and infrequently may be temporarily transferred to other Federal agencies (Department of Justice, or Office of the General Counsel, Department of Health, Education, and Welfare). The disability claims folders are also transferred to State agencies for disability and vocational rehabilitation determinations (see Appendix B). The claims folders are generally set up in district or branch offices when claims for benefits are filed. They are retained there until all development has been completed, then are transferred to the appropriate reviewing offices as set out above. Supplemental security income claims folders are held in district or branch offices pending establishment of a payment record, or until the appeal period, in a denied claim situation, has expired. The folders are then transferred to the reviewing office. For district or branch office information, see Appendix F.

Categories of individuals covered by the system:

Claimants for retirement, survivors, disability, health insurance, or black lung benefits or supplemental security income payments.

Categories of records in the system:

The claims folder is established when a claim for benefits is filed. It contains applications for benefits, earnings record information established and maintained by the Social Security Administration, documents supporting factors of entitlement and continuing eligibility, payment documentation, and correspondence to and from claimants and/or representatives. It may also contain data collected as a result of inquiries or complaints; and evaluation and measurement study of effectiveness of claims policies. Separate files may be maintained of certain actions which are entered directly into the computer processes. These relate to report of changes of address, work status, and other post-adjudicative reports.

Authority for maintenance of the system:

Payment of benefits is directed by the following sections: Sections 202 (a)–(i), 223, 226, 228, and 1611 of the Social Security Act and Section 411 of the Federal Coal Mine and Health Safety Act.

Routine uses of record maintained in the system, including categories of users and the purposes of such uses:

Routine uses for disclosure may be to:

a. Third party contacts by the Social Security Administration (without the consent of the individual to whom the information pertains) in situations where the party to be contacted has, or is expected to have, information relating to the individual's capability to manage his affairs or his eligibility for or entitlement to benefits under the social security program when:

(1) The individual is unable to provide the information being sought (an individual is considered to be unable to provide certain types of information when any of the following conditions exist: individual is incapable or of questionable mental capability, cannot read or write, cannot afford the cost of obtaining the information, a language barrier exists, or the custodian of the information will not, as a matter of policy, provide it to the individual), or

(2) The data are needed to establish the validity of evidence or to verify the accuracy of information presented by the individual, and it concerns one or more of the following: the individual's eligibility to benefits under a social security program; the amount of a benefit payment; any case in which the evidence is being reviewed as a result of suspected abuse or fraud, concern for program integrity, or for quality appraisal, or evaluation and measurement system activities.

b. Third party contacts by the Social Security Administration where necessary to establish or verify information provided by representative payees or payee applicants.

c. A person (or persons) on the rolls when a claim is filed by an individual which is adverse to the person on the rolls; that is:

(1) An award of benefits to a new claimant precludes an award to a prior claimant; or

(2) An award of benefits to a new claimant will reduce the benefit payments to the individual(s) on the rolls; but only for information concerning the facts relevant to the interests of each party in a claim.

d. Employers or former employers for correcting or reconstructing earnings records and for social security tax purposes only.

e. The Treasury Department for collecting social security taxes or as otherwise pertinent to tax and benefit payment provisions of the Social Security Act, (including social security number vertification services), for investigating alleged theft, forgery, or unlawful negotiation of social security checks, *and for purposes of garnishment to provide child support or alimony in accordance with a properly executed garnishment action in accordance with 47 U.S.C. 659.*

f. The United States Postal Service for investigating alleged forgery or theft of social security checks.

g. The Department of Justice for investigating and prosecuting violations of the Social Security Act to which criminal penalties attach, for representing the Secretary, and for investigating issues of fraud by agency officers or employees, or violation of civil rights.

h. The Department of State and the Veterans' Administration Regional Office Philippines for administering provisions of the Social Security Act in foreign countries through facilities and services of those agencies.

i. The Railroad Retirement Board for administering provisions of the Railroad Retirement and Social Security Act relating to railroad employment.

j. The Veterans' Administration for the purpose of administering 38 U.S.C. 412 (special payments to certain survivors of uninsured persons who die after 1956 while on active duty, active duty for training, or inactive duty training, or who die after 1956 due to a service-connected disability incurred after September 15, 1940).

k. The Department of Labor for administering provisions of Title IV of the Federal Coal Mine Health and Safety Act.

l. The Bureau of Census when it performs as a collecting agent or data processor for research and statistical purposes directly relating to the Social Security Act.

m. The Department of the Treasury, Office of Tax Analysis, for studying the effects of income taxes and taxes on earnings.

n. The Civil Service Commission for study of the relationship of civil service annuities to minimum social security benefits, and the effects on the trust fund.

o. State social security administrators for administration of agreements pursuant to section 218 (State and local).

p. State Welfare Departments for administering Sections 205(c)(2)(B)(i)(II) and 402(a)(25) of the Social Security Act requiring information about assigned social security numbers for Aid to Families with Dependent Children program purposes only.

q. State Welfare Department pursuant to agreements with the Social Security Administration for administration of State supplementation payments, for determinations of eligibility for Medicaid per section 1634, for enrollment of welfare recipients for medical insurance under Section 1843 of the Social Security Act, *and for conducting independent quality assurance reviews of supplemental security income recipient records,*

provided that the agreement for Federal administration of the supplementation provides for such an independent review.

r. State Vocational Rehabilitation agencies for rehabilitation services.

s. State audit agencies for auditing State supplementation payments and Medicaid eligibility considerations.

t. Professional Standards Review Organizations (PSRO) and State Licensing Boards for review of unethical practices or nonprofessional conduct as provided in section 1165.

u. Providers and suppliers of services directly or dealing through fiscal intermediaries or carriers for administration of provisions of title XVIII.

v. Private medical and vocational consultants for use in making preparation for, or evaluating the results of, consultative medical examinations or vocational assessments which they were engaged to perform by the Social Security Administration or a State agency acting in accord with sections 221 or 1633.

w. Energy Resources Development Administration for their study of the long-term effects of low-level radiation exposure.

x. Specified business and other community members and Federal, State, and local agencies for verification of eligibility for benefits under section 1631(e).

y. Institutions or facilities approved for treatment of drug addicts or alcoholics as a condition of the individual's eligibility for payment under section 1611e and as authorized by regulations issued by the Special Action Office for Drug Abuse Prevention.

z. Contractors under contract to the Social Security Administration for the performance of research and statistical activities directly relating to the Social Security Act.

aa. Applicants, claimants, prospective applicants or claimants, other than the data subject, their authorized representaives or representative payees to the extent necessary to pursue social security claims and receive and account for benefit payments.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Claims folders are maintained in file cabinets by service area as set out in Location above.

Retrievability:

Filed in numerical sequence by social security number. The folders are used throughout the Social Security Administration for the purposes of determining, organizing, and maintaining documents for making normal determination as to eligibility to benefits, the amount of benefits, revewing continuing eligibility, holding hearings or administrative review processes, and to ensure that proper adjustments are made based on events affecting entitlement. The folder may be referred to State Disability Determination Sections or Vocational Rehabilitation Agencies in disability cases. They may also be used for quality review, evaluation, and measurement studies, and other statistical and research purposes.

The claims folder constitutes the basic record for payments and determinations under the Social Security Act and the Federal Coal Mine Health and Safety Act (black lung). Data are used to produce and maintain the master beneficiary record system (see Systems Notice) which is the automated payment system for retirement, survivors, and disability benefits; the supplemental security income automated system for the aged, blind, and disabled payments; the black lung payment process for black lung claims; and the Health Insurance and Billing and Collection Master record system for Hospital and supplementary medical (medicare) insurance benefits.

This paper file is controlled by the Social Security Administration Claims Control System while the claim is pending development for adjudication in the district or branch office, and by the Case Control System once the folder has been transferred to the reviewing office (program centers, Division of International Operations, or the Bureau of Disability Insurance).

Safeguards (access controls):

Claims folders are protected through limited access to Social Security Administration records, limited employee access to need to know. All employees are instructed in Social Security Administration confidentiality rules as a part of their initial orientation training.

Retention and disposal:

The claims folder is maintained in the reviewing office until the social security number becomes inactive (no one is entitled to benefits). It is then transferred for storage to the Federal Archives and Records Center to await destruction based on predetermined destruction dates; 5-year retention-no record of surviving potential beneficiaries; 20-year retention-withdrawn claims, claims disallowed or lump-sum death payments only; and 55-year retention-potential future claimants indicated in the file. When a subsequent claim is filed on the social security number the claim is recalled from the Records Center. Similarly, the claims files may be recalled from the Records Center at any time by the Social Security Administration as necessary in the administration of the social security programs.

System manager(s) and address (include zip code):

Director, Bureau of Retirement and Survivors Insurance, 6401 Security Boulevard, Baltimore, Maryland 21235.

Director, Bureau of Supplemental Security Income, 6401 Security Boulevard, Baltimore, Maryland 21235.

Director, Bureau of Disability Insurance, 6401 Security Boulevard, Baltimore, Maryland 21235.

Director, Bureau of Health Insurance, 6401 Security Boulevard, Baltimore, Maryland 21235.

Notification procedure:

Contact the most convenient social security office (see Appendix F for address and telephone information).

Record access procedures:

In order to find out if this system contains information about him, an individual may contact the most convenient social security office in person or in writing. The inquirer should provide his name, social security number, identify the type of claim he filed (retirement, survivors, disability, health insurance, black lung, special minimum payments, or supplemental security income) (if more than one claim was filed, each should be identified); whether he is or has been receiving benefits; whether payments are being received under his own social security number, and if not, the name and social security number under which received; if benefits has not been received, the approximate date and place the claim was filed; and his return address or his telephone number.

Contesting record procedures:

If upon review of the record, the individual wishes to contest any part of it, he may do so at the same offices where he accessed the record.

Record source categories:

This information is obtained from the claimants, accumulated by the Social Security Administration from reports of employers or self-employed individuals, various local, State, and Federal agencies, claimant representatives and other sources to support factors of entitlement and continuing eligibilities.

Systems exempted from certain provisions of the act (if none, so state):

None.

CDC NIOSH 0024.01

System name:

Workers Exposed to Benzidine—(Bladder Cancer)—HEW/CDC/NIOSH.

Security classification:

None.

System location:

Division of Field Studies and Clinical Investigations, NIOSH, U.S. Post Office & Courthouse, Cincinnati, Ohio 45202.

Southwest Ohio Regional Computer Center, Medical Sciences Building, University of Cincinnati, Cincinnati, Ohio 45202.

Johns Hopkins University, School of Hygiene and Public Health, 618 N. Wolfe Street, Baltimore, MD 21205.

Categories of individuals covered by the system:

Employees at Selected Plants Using Benzidine. *A list of selected plant sites will be made available to the public upon request to the system manager.*

Categories of records in the system:

Occupational History, Demographic Data.

Authority for maintenance of the system:

Occupational Safety and Health Act Section 20 (29 U.S.C. 669).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Information from studies will be used by Johns Hopkins epidemiologists to conduct a medical screening program for early detection of possible bladder cancer in this group of workers. Also, see Appendix B of HEW Regulation (45 CFR, part 5b), item 100.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Computer Tape, Microfilm, Microfiche, Computer Printouts.

Retrievability:

The purpose of this system is to determine the cause and prevention of disease of industrial origin. There is no transfer of this information outside NIOSH. Name is the index used to retrieve records from this system.

Safeguards:

24-hour guard service in building, Locked building; locked rooms, Personnel screening, Locked computer room and computer tape vaults, Locked file cabinets, Computer tapes are password protected.

Retention and disposal:

Records are retained indefinitely. Disposal methods include erasing computer tapes and burning or shredding printouts.

System manager(s) and address:

Director, National Institute for Occupational Safety and Health, 5600 Fishers Lane, Park Bldg., Room 3-82, Rockville, Maryland 20852.

Notification procedure:

To determine if a file exists, write the Privacy Act Coordinator, Management Analysis Office, Center for Disease Control, Atlanta, GA 30333, and provide the following information: (1) approximate date(s) and place of treatment or questionnaire administration; (2) name of study if known; (3) an individual who requests notification of or access to a medical record shall, at the time the request is made, designate a responsible representative in writing who will be willing to review the record and inform the subject individual of its contents at the representative's discretion (these notification and access procedures are requirements of the Department regulations, 45 CFR, Part 5b.6, Federal Register, October 8, 1975, page 47411).

Record access procedures:

Same as notification procedures. Requesters should also reasonably specify the record contents being sought.

Contesting record procedures:

Write the Privacy Act Coordinator, Management Analysis Office, Center for Disease Control, Atlanta, GA 30333. Reasonably identify the record and specify the information to be contested in accordance with Department regulations, Federal Register, October 8, 1975, page 47411 (45 CFR Part 5b.7).

Record source categories:

Information is obtained from employer records. Vital status information is obtained from Federal, State and Local governments and other available sources. Information is obtained from the individual and employer records.

Systems exempted from certain provisions of the act:

None.

REVIEW PANEL ON NEW DRUG REGULATION

Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the Review Panel on New Drug Regulation, established pursuant to 42 U.S.C. 217 a. by the Secretary of Health, Education, and Welfare, on February 21, 1975, will meet on Monday, August 30, 1976, at 9:15 a.m. and on Tuesday, August 31, 1976, at 8:30 a.m. in Room 5051 of the Department of Health, Education, and Welfare's North Building, 330 Independence Avenue, SW., Washington, D.C. The Review Panel will consider matters pertaining to its study of existing policies and procedures for the regulation of new drugs by the Food and Drug Administration. The meeting is open to the public.

Further information on the Review Panel may be obtained from Vida H. Beaven, Ph. D., Executive Secretary, Review Panel on New Drug Regulation, Room 3510, HEW North Building, 330 Independence Avenue, SW., Washington, D.C. 20201, telephone (202) 472-3002.

VIDA H. BEAVEN,
Executive Secretary, Review Panel on New Drug Regulation.

AUGUST 3, 1976.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Interstate Land Sales Registration

[Docket No. N-76-576; OILSR No. 0-2844-02-588; LSED 76-71-IS]

HAULAPAI HIGHLANDS

Order of Suspension

Notice is hereby given that: On March 19, 1976, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, attempted to serve upon Carl Hanauer, President, Phase II Properties, Inc., 3443 North Central Avenue, Phoenix, Arizona 85012, a Notice of Proceedings and Opportunity for Hearing by certified mail and service of process was not possible since the addressee could not be located. On May 11, 1976 the Department published the Notice of Proceedings and Opportunity for Hearing in the FEDERAL REGISTER (41 FR 19247) pursuant to 44 U.S.C. 1508. The Developer has failed to answer or to request a hearing pursuant to 1720.160 within 15 days of the service by publication of the said Notice of Proceedings and Opportunity for Hearing. Accordingly, an Order of Suspension is being issued pursuant to 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), as follows:

ORDER OF SUSPENSION

1. The Developer, having filed a Statement of Record for the above captioned subdivision pursuant to the provisions of the Interstate Land Sales Full Disclosure Act, 15 U.S.C. 1701 et seq. and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, had its Statement of Record become effective pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. As authorized 15 U.S.C. 1715, the authority and responsibility for administration of the Interstate Land Sales Full Disclosure Act has been delegated to the Assistant Secretary for Consumer Affairs and Regulatory Functions (41 FR 19365, May 12, 1976).

3. Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), if it appears to the Assistant Secretary for Consumer Affairs and Regulatory Functions at any time that a Statement of Record, which is in effect, includes any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the Statement therein not misleading, the Assistant Secretary may, after notice, and after an opportunity for a hearing requested within 15 days of receipt of such notice, issue an order suspending the Statement of Record.

4. On March 19, 1976, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, attempted to serve upon Carl Hanauer, President, Phase II Properties, Inc., 3443 North Central Avenue, Phoenix, Arizona 85012, a Notice of Proceedings and Opportunity for Hearing by certified mail and service of process was not possible since the addressee could not be located. On May 11, 1976 a Notice of Proceeding and Opportunity for Hearing was served upon the Developer by publication in the FEDERAL REGISTER (41 FR 19247). The notice informed the Developer of information obtained by the Office of Interstate Land Sales Registration showing a change occurred affecting a material fact contained in the above-specified Statement of Record and Property Report. The Developer has failed to answer or to request a hearing pursuant to 24 CFR 1720.160 within 15 days of receipt of said Notice of Proceedings and Opportunity for Hearing.

Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1) the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of August 11, 1976. This Order of Suspension

shall remain in full force and effect until the Statement of Record has been properly amended as required by the Interstate Land Sales Full Disclosure Act and the implementing Regulations.

This Order shall be served upon the Respondent by publication in the FEDERAL REGISTER pursuant to 44 U.S.C. 1508.

Any sales or offers to sell made by the Developer or its agents, successors, or assigns while this Order of Suspension is in effect will be in violation of the provisions of said Act.

Issued in Washington, D.C., Aug. 4, 1976.

CONSTANCE B. NEWMAN,
Assistant Secretary for Consumer Affairs and Regulatory Functions.

[FR Doc.76-23295 Filed 8-10-76;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

[FRL 598-1; OPP-42018A]

FLORIDA

Approval of State Plan for Certification of Commercial and Private Applicators of Restricted Use Pecticides

Section 4(a)(2) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), and the implementing regulations of 40 CFR Part 171 require each State desiring to certify applicators to submit a plan for its certification programs. Any State certification program under this section shall be maintained in accordance with the State Plan approved under this section.

On May 13, 1976, notice was published in the FEDERAL REGISTER (41 FR 19755) of the intent of the Regional Administrator, EPA, Region IV, to approve, on a conditional basis, the Florida State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides (Florida State Plan). Conditional approval was requested by the state of Florida pending promulgation and passage of regulations pursuant to Florida Statute 487, Florida Administrative Code, Chapters 5E-2 and 5E-9; Florida Statute 388, Florida Administrative Code, Chapters 10D-54.03, 10D-54.14; Florida Statute 482, Florida Administrative Code, Chapters 10D-55.06, 10D55.40 and 10D-55.42 and implementation of procedures proposed in letter from Department of Health and Rehabilitative Services to Department of Agriculture and Consumer Services dated March 2, 1976. Complete copies of the Florida State Plan were made available for public inspection at the Agency's Region IV office in Atlanta, at the office of the Florida Department of Agriculture and Consumer Services, Tallahassee, Florida, and at the Agency's Technical Services Division, Federal Register Section, Office of Pesticide Programs, EPA Headquarters, Washington, D.C.

There were no comments received concerning the State Plan during the 30 day comment period.

The Florida State Plan will remain available for public inspection at the office of Florida Department of Agriculture and Consumer Services in Tallahassee, Florida.

It has been determined that the Florida State Plan will satisfy the requirements of section 4(a)(2) of the amended FIFRA and 40 CFR Part 171 if proposed rules and regulations are promulgated and passed to augment existing legislation. Also Florida's Structural Pest Control Operators Certification Program has been reviewed and found to meet the Agency's standards for certain specific categories. Those applicators who currently hold such Florida licenses gained by written examination shall be considered fully certified.

Accordingly, the Florida State Plan is approved conditionally upon promulgation and passage of implementing regulations in accordance with and as prescribed in the Florida State Plan.

This conditional approval shall expire one (1) year from its effective date if these terms and conditions are not satisfied by that time. On or before the expiration of the period of conditional approval, a notice shall be published in the FEDERAL REGISTER concerning the extent to which these terms and conditions have been satisfied, and the approval status of the Florida State Plan as a result thereof.

Effective date. Pursuant to section 4(d) of the Administrative Procedure Act, 5 U.S.C. 553(d), the Agency finds that there is good cause for providing that the one year conditional approval granted herein to the Florida State Plan shall be effective immediately. Neither the Florida State Plan itself nor this agency's conditional approval of the plan create any direct or immediate obligations on pesticide applicators or other persons in the state of Florida. Delays in starting the work necessary to implement the Plan, such as may be occasioned by providing some later effective date for this conditional approval, are inconsistent with the public interest. Accordingly, this conditional approval shall become effective immediately.

Dated: June 24, 1976.

JOHN A. LITTLE,
Deputy Regional Administrator, Region IV.

FEDERAL COMMUNICATIONS COMMISSION

DOMINICAN REPUBLIC; ASSIGNMENT OF STANDARD BROADCAST STATIONS

Notification List

Notification of new and changed assignments of standard broadcast stations in the Dominican Republic in accordance with Part III, Section F, Annex 2 of the North American Regional Broadcasting Agreement (Washington, D.C., 1950).

Dominican Republic list No., (1) June 28, 1976

Call letters	Location	Power (kilowatts)	Antenna	Schedule	Class	Antenna height (feet)	Ground system		Proposed date of commencement of operation
							Number of radials	Length (feet)	
		1200 kHz							
HIMR	Azua N. 18°27'00", W. 70°44'00"	1D/0.25N		U					
		1200 kHz							
HIBS	San Pedro de Macoris N. 18°27'00", W. 69°18'03"	1D/0.25N		U					

(1) FCC Note: By letter dated June 28, 1976 from the government of the Dominican Republic, information concerning the above stations was included along with other matters. Although not provided strictly in accordance with the notification procedures, the Commission recognizes this as a valid notification.

WALLACE E. JOHNSON,
Chief, Broadcast Bureau, Federal Communications Commission.

[FR Doc.76-23354 Filed 8-10-76;8:45 am]

[Docket No. 20864, File No. BPH-9439; Docket No. 20865, File No. BPH-9640]

ALLEGAN COUNTY BROADCASTERS, INC. AND ROBERT B. TAYLOR

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Allegan County Broadcasters, Inc., Otsego, Michigan, Requests: 100.9 MHz, Channel No. 265; 3 kW (H&V); 300 feet (H&V); Robert B. Taylor, Plainwell, Michigan, Requests: 100.9 MHz, Channel No. 265; 3 kW (H&V); for construction permits.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it for consideration the above-captioned applications of Allegan County Broadcasters, Inc. [Allegan], licensee of standard broadcast station WAOP, Otsego, Michigan, requesting a construction permit for a new FM broadcast station to serve Osego, Michigan; and Robert B. Taylor [Taylor], licensee of standard broadcast station WBUK, Portage, Michigan, requesting a construction permit for a new FM broadcast station to serve Plainwell, Michigan. Seeking the same channel to serve communities three miles apart, these applications are mutually exclusive.

2. Taylor's application is deficient in that its survey of community leaders fails to comply with the Commission's Primer on the Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971). Taylor has consulted no leaders of students and youth; no representatives of the poor and unemployed, and no representatives of the elderly. Taylor's proposal also suffers from failure to correlate broadcast matter to particular ascertained problems, as required by question and answer 29 of the Primer. Further, the programs proposed do not appear responsive to the problems ascertained. The program "Directions", for example, described as a "religious type program" which "will give moral lessons to the community to help build character in local citizens * * *", is not responsive to any ascertained need for such lessons; in fact, no such need is reported. Similarly, "Agriculture USA" is described as designed to "help solve problems and needs related to farming and agribusiness", none of which were ascertained. For all five other programs proposed, the attempt at correlation is so vague and overly general as to reflect but a token effort to comply with the requirements of the Primer, as in Southeast Arkansas Radio, Inc., 47 FCC 2d 835, 30 RR 2d 769 (1974). For example, "Meet the Newsmaker" is described as follows:

> 'Meet the Newsmaker', produced by ABC News, is an interview with a government official or leader from a particular area of American life. Topics covered will be those of a national nature which also affect local communities such as Plainwell.[1]

[1] Taylor amendment of April 30, 1976, at 4.

Of the seven programs proposed to meet community needs, only "Conference" is locally produced, and its duration is a mere fifteen minutes per week. According to Taylor, however, "[i]n a very direct fashion this program will address itself to the local problems and needs listed in paragraph 'F' above."[2] Paragraph F contains all 32 of the problems and needs ascertained as a result of the applicant's surveys. The Taylor programming proposal is therefore analogous to that in Radio Marion, Inc., 52 FCC 2d 1229, 33 RR 2d 182 (1975), which was questioned because it simply pitted pre-planned or existing programs against ascertained problems and needs. In proposing only 15 minutes of Sunday morning programming per week to deal "very directly" with 32 problems, the Taylor proposal is less adequate than that in Risner Broadcasting, Inc., 32 FCC 2d 75, 23 RR 2d 61 (1971). The applicant in Risner proposed 45 minutes of weekly programming to meet the 18 of 33 needs regarded by it as worthy of attention, ⅔ to be broadcast on Saturday mornings; 14 of the problems were to be met in a 15-minute weekly discussion program like Taylor's "Conference". The Risner plan was held not to be "even a minimally adequate response to ascertained community problems and needs." Risner, supra, at 78.

3. At page 7 of its amendment of May 12, 1976, Allegan states that it selected community leaders so as to include, inter alia, professionals. The list of community leaders beginning at page 9 of the amendment includes one person identified as a member of the Society of American Military Engineers, one "Attorney (General Practice)", and one person affiliated with the American Society of Women Accountants, although her position in that organization is not specified. None of these three is identified as a leader of a professional organization. Membership in an organization or professional status alone do not necessarily qualify a person as a community leader for purposes of community ascertainment. As Allegan has therefore failed to consult leaders of a significant group, its ascertainment showing is defective[3] and a Suburban issue will be specified.[4]

4. The respective proposals, although for different communities, would serve substantial areas in common. Consequently, in addition to determining, pursuant to section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service, a contingent comparative issue will also be specified.

5. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Because they are mutually exclusive they must be designated for hearing in a consolidated proceeding.

6. Accordingly, it is ordered, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary aural (1 mV/m or greater in the case of FM) service from the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine the efforts made by Taylor to ascertain the public's needs and interests, in the following respects:

(a) whether Taylor's showing omits consultations with leaders of significant groups in the community; and

(b) whether the program service proposed by Taylor would meet the needs of the community sought to be served.

3. To determine the efforts made by Allegan to ascertain the public's needs and interests in the following respect:

(a) whether Allegan's showing omits consultations with leaders of significant groups in the community.

4. To determine, in light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service.

5. To determine, in the event it is concluded that a choice between the applications should not be based solely on considerations relating to section 307(b), which of the proposals in the above-captioned applications would, on a comparative basis, better serve the public interest.

6. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

7. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to section 1.221(c) of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and section 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by section 1.594(g) of the rules.

FEDERAL COMMUNICATIONS COMMISSION
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

FEDERAL POWER COMMISSION

[Docket No. ER76-110]

ARKANSAS POWER AND LIGHT CO.

Settlement Conference

AUGUST 4, 1976.

Take notice that on August 13, 1976, a conference of all parties to this proceeding and Commission Staff will be held in Room No. 8402 at the offices of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C., at 10 a.m.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance at the conference will not be deemed to authorize intervention as a party in the proceeding.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed rate increase and any procedural matters preparatory to a full evidentiary hearing or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference.

Letters concerning this conference are being mailed this date to all parties to the proceeding, all of the jurisdictional customers, and all affected state commissions.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23355 Filed 8-10-76;8:45 am]

[Docket No. ER76-822]

BLACK HILL POWER AND LIGHT CO.

Filing

AUGUST 5, 1976.

Take notice that on July 30, 1976, Black Hills Power and Light Company (Black Hills) tendered for filing proposed changes in its electric rate schedules to the Wyoming Cities of Gillette and Upton. The proposed rates would increase revenues from those customers by $124,101 based upon estimated sales for the 12 month period ended September 30, 1977. Black Hills requests an effective date of September 30, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 17, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23371 Filed 8-10-76;8:45 am]

[Docket No. ER76-797]

CLEVELAND ELECTRIC ILLUMINATING CO.

Filing of Interconnection Agreement

AUGUST 4, 1976.

Take notice that on July 21, 1976 the Cleveland Electric Illuminating Company (CEI) submitted for filing with the Commission an interconnection agreement between CEI and the City of Painesville, Ohio (Painesville). The agreement entered into on Jaunary 13, 1975, provides for the synchronous interconnection of CEI's 138 KV transmission system with Painesville's 13.8 KV transmission system. The filing consists of the interconnection agreement and five service schedules covering emergency service, short term service, limited term service, economy interchange, and coordination of scheduled maintenance of generating facilities.

CEI states that, due to the forced outage of Painesville's main boiler with the resulting loss of generation, CEI commenced emergency service to Painesville on July 19, 1976. Accordingly, CEI requests waiver of the notice requirements so that the interconnection agreement may take effect on July 19, 1976.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 13, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23356 Filed 8-10-76;8:45 am]

[Docket No. RP75-8; PGA76-6]

COMMERCIAL PIPELINE CO., INC.

PGA Filing

AUGUST 4, 1976.

Take notice that on July 23, 1976, Commercial Pipeline Company, Inc. (Commercial) tendered for filing Thirteenth Revised Sheets No. 3A reflecting Puchased Gas Adjustments and effective dates as set out below:

Sheet No.	Current adjustments	Cumulative adjustments	Effective date
3A 13th revised.	$0.0045	$0.3111	Aug. 23, 1976

Commercial states that these revisions track precisely similar revisions in the tariff of Cities Service Gas Company, its sole supplier. Commercial requests waiver of notice to the extent required to permit said tariff sheets to become effective as proposed.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 76-23357 Filed 8-10-76;8:45 am]

[Docket No. ER76-807]

CONNECTICUT LIGHT AND POWER CO.

Purchase Agreement

AUGUST 5, 1976.

Take notice that on July 23, 1976, The Connecticut Light and Power Company (CL&P) tendered for filing a proposed Purchase Agreement with Respect to Various Gas Turbine Units (the "Unit Contract"), dated May 15, 1976 between (1) CL&P, The Hartford Electric Light Company (HELCO) and Western Massachusetts Electric Company (WMECO) and (2) Westfield Gas and Electric Department (Westfield).

CL&P states that the Unit Contract provides for a sale to Westfield of a specified percentage of capacity and energy from five gas turbine generating units (SL&P's Norwalk Harbor and Devon units and HELCO's South Meadow 10, Middletown and Torrington Terminal units) during the period from June 1, 1976 to October 31, 1977, and from two gas turbine generating units (WMECO's Doreen and Woodland Road units) during the period from November 1, 1977 to the termination of the Unit Contract, together with related transmission service.

Westfield's request to receive service under the Unit Contract is conditioned upon the Commission's permitting to become effective the following two contracts which have recently been entered into.

1. Resale Service Rate CD-1, Service Agreement between Western Massachusetts Electric Company and City of Westfield, Massachusetts (the "CD-1 Rate") dated as of June 1, 1976.

2. Purchase Agreement with Respect to Middletown Station (the "Purchase Agreement") dated as of June 1, 1976 by and among The Hartford Electric Light Company and Westfield Gas and Electric Department.

CL&P states that the capacity charge rate for the proposed service is a negotiated rate for the period from June 1, 1976 to October 31, 1977, and is a rate

determined on a cost-of-service basis for the period from November 1, 1977 to the termination date. The monthly transmission charge is equal to one-twelfth of the annual average unit cost of transmission service on the Northeast Utilities (NU) system determined in accordance with Section 13.9 of the New England Power Pool (NEPOOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee, multiplied by the number of kilowatts of winter capability which Westfield is entitled to receive. The variable maintenance charge was derived from historical costs and is comparable to the variable maintenance allowance used in New England Power Exchange ("NEPEX") computations.

CL&P states that copies of this rate schedule have been mailed or delivered to CL&P, Hartford, Connecticut, HELCO, Hartford, Connecticut, WMECO, West Springfield, Massachusetts and Westfield, Westfield, Massachusetts.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10).

All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 76-23372 Filed 8-10-76;8:45 am]

[Docket No. RP76-59]

EL PASO NATURAL GAS CO.

Order Denying Petition for Interlocutory Relief

AUGUST 4, 1976.

On June 21, 1976, Southwest Gas Corporation (Petitioner) filed a petition requesting the Commission to issue an order to condition El Paso Natural Gas Company's (El Paso) rates filed in this docket on January 30, 1976, so that if Petitioner's proposed rate design is ultimately determined to be just and reasonable, it would be applied as of August 1, 1976, the date the rates became effective subject to refund. The petition also requests that the Commission place the burden of proof on El Paso to justify its rate design. On July 7, 1976, El Paso filed an answer to the Petitioner's request. For the reasons discussed herein, we shall deny Petitioner's request.

On June 30, 1972, El Paso filed an application for a rate increase which was assigned Docket No. RP72-150. Subsequently, on January 15, 1973, Petitioner filed a complaint against El Paso, at Docket No. RP73-75, alleging that Petitioner was fully qualified to receive gas service pursuant to Rate Schedule G, and that El Paso's refusal to serve Petitioner under that schedule constituted discrimination against Petitioner. Such complaint was subsequently consolidated for disposition with the proceeding at Docket No. RP72-150.

As a result of our approval on February 14, 1974 (as subsequently confirmed on August 26, 1974) of a Settlement Agreement dated May 13, 1973, in Docket Nos. RP69-6, et al., all issues at Docket No. RP72-150, other than the rate design issues, were resolved. The Settlement Agreement reserved for trial in Docket No. RP72-150 the rate design issue raised by Petitioner, and this issue was subsequently consolidated with two additional El Paso rate proceedings, at Docket Nos. RP73-104 and RP74-57. These proceedings, together with El Paso's rate proceeding at Docket No. RP75-39, are currently the subject of settlement discussions between El Paso, the Commision Staff, El Paso's customers and various state commissions.

Petitioner states that it is actively participating in these settlement negotiations to achieve a settlement of the rate design issue that will control the rates that El Paso will place into effect, subject to refund, in this proceeding on August 1, 1976. Petitioner asserts that it has been unable to resolve the rate design issue in accordance with its interests and therefore requests the relief sought herein in order to protect its interests.

On July 7, 1976, El Paso filed a response to the petition, accompanied by a motion for its receipt. We will grant this motion and consider the response. In its answer, El Paso states that Petitioner's position "has no basis in law or Commission policy," and that the proponent of an issue must bear the burden of proof on that issue.[1] As to Petitioner's request to burden El Paso with the financial responsibility for any retroactive period in Docket No. RP76-59, El Paso noted that in Texas Eastern Transmission Corporation, Docket No. RP74-41, the Commission denied a similar request.

We note that the Petitioner is an intervenor in this proceeding and has participated in the settlement conferences held heretofore in relation to El Paso's previous rate filings. The Petitioner has all the rights attendant to its status as an intervenor herein including the right to participate in all settlement negotiations and to submit comments on a settlement agreement and to seek rehearing of the Commission's order on a proposed settlement, if one is filed. Moreover, in the event the rate design issue is reserved for hearing, the Petitioner may submit evidence and cross-examine on that issue and submit briefs prior to final Commission action. The issue cited by the Petitioner more properly should be raised and developed in the hearing established in this proceeding or resolved by the parties through settlement negotiations. Accordingly, the Commission will deny the subject petition. This action is without prejudice to any action the Commission may take upon receipt of a settlement record or a formal hearing record.

The Commission finds: Good cause exists to deny the petition filed on June 21, 1976 by the Southwest Gas Corporation.

The Commission orders: (A) The petition filed on June 21, 1976, by the Southwest Gas Corporation in Docket No. RP76-59 is hereby denied.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[1] Michigan Wisconsin Pipeline Company, 34 FPC 621 (1965); Louisiana Pipe Line Company v. FPC, 344 F.2d 525 (U.S. App. D.C. 1965).

[Docket No. RI76-126]

ENERGY DEVELOPMENT CORP.

Order Setting Matter for Hearing Establishing Procedures and Granting Intervention

AUGUST 4, 1976.

On May 19, 1976, Energy Development Corporation (EDC) filed in Docket No. RI76-126 a petition for special relief seeking a rate higher than the applicable area rate ceiling for sales of natural gas to Consolidated Gas Supply Corporation (Consolidated) from the Sandy River District, Iaeger E. C. Quadrangle, McDowell County, West Virginia.

EDC was issued a small producer certificate in Docket No. CS76-765. The currently effective contract between EDC and Consolidated provides for EDC to collect a price of $1.00 per Mcf, or the national rate, as adjusted, whichever is higher. Presently, there exists a contractual dispute between EDC and Consolidated as to whether an alleged contract amendment allows EDC a rate in excess of the original contract price. If Consolidated is correct in its interpretation of the contract dispute, then EDC's request for special relief must rely upon the Commission's authority under the Sierra-Doctrine[1] to sanction a rate in excess of a contract, if the contract rate can be shown to be so low as to adversely affect the public interest.

Pursuant to The Commission's general rules § 2.56 A(g) EDC seeks a price of $3.78 per Mcf to permit the recovery of its expenses for drilling, refracing, and operating its well No. Mcd-653. EDC based its need for the $3.78 per Mcf rate on the high drilling and completion costs incurred and a low recoverable reserve estimate of 75,000 Mcf.

EDC's petition was noticed on June 8, 1976. On June 14, 1976, the Public Service

[1] FPC v. Sierra Pacific Power Co., 350 U.S. 348 (1956).

Commission Of The State Of New York (PSCNY) filed a Notice of Intervention Requesting A Formal Hearing On The EDC Petition. On June 28, 1976, Consolidated filed a timely petition to intervene requesting that a formal hearing be held.

In light of the factual and legal issues raised by EDC's application, this proceeding should be set for hearing in order to provide EDC and other interested parties an opportunity to present evidence on the issues raised and on any other matters considered to be relevant to the proceeding.

The Commission finds: (1) It is necessary and in the public interest that the above-docketed proceeding be set for hearing.

(2) Good cause exists to grant Consolidated's petition to intervene.

(3) Pursuant to the provisions of § 1.8 (a) (1) of the Commission's rules of practice and procedure, PSCNY is entitled to intervene.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14 and 16 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR Chapter 1), a public hearing shall be held in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, to resolve the issues raised by EDC's petition.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)) shall preside at the hearing in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the sole exception of petitions to intervene, motions to consolidate and sever, and motions to dismiss, as provided for in the Rules of Practice and Procedure).

(C) EDC and all intervenors supporting EDC shall file their direct testimony and evidence on or before August 20, 1976. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to this proceeding.

(D) The Presiding Administrative Law Judge shall preside at a pre-hearing conference to be held on September 2, 1976, at 9:30 a.m. e.s.t., in a hearing room at the address noted in Ordering Paragraph (A).

(E) Consolidated is permitted to intervene in the above-entitled proceeding, subject to the rules and regulations of the Commission; Provided, however, That its participation shall be limited to matters affecting asserted rights and interests specifically set forth in its petition for leave to intervene; and Provided, further, That the admission of Consolidated in the manner provided shall not be construed as recognition by the Commission that it might be aggrived because of any order or orders entered in this proceeding, and that it agrees to accept the record as it now stands.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9446]

GREEN MOUNTAIN POWER CORP.

Filing of Revised Sheets

AUGUST 5, 1976.

Take notice that on July 30, 1976, Green Mountain Power Corporation (Green Mountain) tendered for filing modified copies of Third Revised Sheet Nos. 7 and 9 and Statement O—Fuel Cost Adjustment, pages 1 and 2.

Green Mountain states that by motion filed June 8, 1976, Green Mountain requested Commission approval of a settlement agreement among Green Mountain, the Commission Staff, and all intervenors, in resolution of all issues in the captioned proceeding. That settlement agreement provided. inter alia, for certain revisions to Third Revised Sheet 5 through 9 of Green Mountain's FPC Electric Tariff Original Volume 1, to become effective as of September 16, 1975, and to Green Mountain's Statement O—Fuel Cost Adjustment. Information showing the derivation of the revised rates was included in Green Mountain's motion.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedue. All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23373 Filed 8-10-76;8:45 am]

[Project Nos. 2756 and 2764]

GREEN MOUNTAIN POWER CORP.

Extension of Time

AUGUST 4, 1976.

On July 27, 1976, the Green Mountain Power Corporation, Vermont, filed a motion to extend the time, fixed by notices of applications for preliminary permits issued April 2, 1976 and March 31, 1976, within which a party may file a protest or petition to intervene in the above-designated proceeding. The motion states that the City of Burlington concurs in the request.

Upon consideration, notice is hereby given that the time to file a protest or petition to intervene in these proceedings is extended to and including October 1, 1976.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23360 Filed 8-10-76;8:45 am]

[Docket No. ER76-792]

INDIANA & MICHIGAN ELECTRIC CO.

Filing

AUGUST 4, 1976.

Take notice that Indiana & Michigan Electric Company ("I&M") on July 16, 1976 tendered for filing an unsigned agreement with the City of Mishawaka, Indiana ("Mishawaka"), pursuant to the Company's filed FPC Electric Tariff WS, as amended, and filed with the Commission, as amended, on May 28, 1976.

I&M states that the reason for the proposed changes is to place Mishawaka on Tariff WS upon the termination on September 23, 1976 of the existing agreement with Mishawaka. I&M requests an effective date for the filing so made of September 24, 1976.

I&M states that copies of the filing were served upon the City of Mishawaka and upon the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedures (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 13, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-813]

JERSEY CENTRAL POWER & LIGHT CO.

Rate Change

AUGUST 4, 1976.

Take notice that on July 27, 1976 Jersey Central Power & Light Company (Jersey Central) tendered for filing increased tariff rates for all-requirements service to Allegheny Electric Cooperative Inc., and to the Boroughs of Butler Lavallette, Madison, Pemberton and Seaside Heights, New Jersey. Jersey Central states that the increase amounts

to $1,201,462, or 18 percent, based on calendar year 1976. The reason for the increase, according to Jersey Central, is increased costs since the 1972 test year underlying the present rates. The proposed effective date is August 27, 1976.

Jersey Central states that the demand charge would be increased from $3.18 to $3.45 per kw, the energy charge from 9.0 mills to 2.0 cents per kwh, and the untransformed service credit from 28 to 29 cents per kw.

Jersey Central also proposes to "phase in" an increase in the base cost of its fuel adjustment clause to the calendar year 1975 level. The purpose of this procedure, according to Jersey Central, is to recover unbilled fuel costs under the presently effective fuel adjustment clause that would not otherwise be recoverable.

Jersey Central proposes, in addition, (1) to increase the notice period for termination of service from one to three years (2) to lengthen the period of payment of bills from 10 to 30 days and to add a late payment charge of two percent per month and (3) to eliminate a discount for customers not subject to New Jersey Public Utility Gross Receipts and Franchise Taxes since all customers are presently exempt from such taxes and they have not been reflected in the cost of service study underlying the proposed rates. Jersey Central proposes to substitute a surcharge for recovery of the taxes in the event they are reimposed on the customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RI76-139, etc.]

JURISDICTIONAL SALES OF NATURAL GAS

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

AUGUST 4, 1976.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix "A" hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18, CFR, Chapter I], and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

*Unless otherwise stated, the pressure base if 14.73 lb/in²a.
[1] Unless otherwise stated, the rate shown is the total rate, inclusive of any applicable British thermal units adjustment and tax.
[2] Accepted, for filing as of Jan. 1, 1976.
[3] The pressure base if 14.65 lb/in²a.

As indicated in the tabulation the proposed increased rates reflecting the minimum rate established in Opinion No. 749 are accepted. The remaining proposed rate increases are to the rate ceilings established in Opinion No. 749 as of January 1 and July 1, 1976. They are suspended for one day from the proposed effective date pending resolution of the contract issue. The contractual dispute exists between the producers and the buyer over the right of the producers to request redetermination of the contract rate at this time. Dorchester and Helmerich & Payne have indicated that they intend to seek resolution of the contractual dispute in court litigation, and Helmerich & Payne has requested that this matter not be set for formal hearing pending such court litigation.

[Docket No. ER76-810]

KENTUCKY UTILITIES CO.

Rate Change

AUGUST 5, 1976.

Take notice that on July 23, 1976, the Kentucky Utilities Company (K.U. Co.) tendered for filing a change in its Rate Schedule FPC No. 67 which is for service to Berea College.

K.U. Co. states that the proposed Contract provides for delivery at 69,000 volts, billing on Rate Schedule WPS-73 among other things.

Included with the K.U. Co. filing was a Certificate of Concurrence executed by Berea College.

The Company in its filing requested waiver of prior notice requirement under Section 35.11 which will allow earlier implementation of service arrangements under the contract, thereby relieving overloaded facilities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol, Street, NE., Washington, DC 20426, in accordance with § 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 17, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not service to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Seecrtary.

[Docket No. RP76-50]

MICHIGAN WISCONSIN PIPE LINE CO.

Order Granting Motion, Convening a Hearing for the Submission of a Stipulation and Agreement and Evidence Related Thereto and Establishing Procedures

AUGUST 4, 1976.

On December 29, 1975, Michigan-Wisconsin Pipe Line Company (Mich-Wisc) tendered for filing, in Docket No. RP76-50, seven tariff sheets [1] setting forth its proposed curtailment plan to be effective February 1, 1976. Mich-Wisc's filing was made pursuant to the requirement of the Commission order issued October 14, 1975, in Docket No. CP74-157. Notice of the filing was given on January 14, 1976 and protests or petitions to intervene were due on or before January 21, 1976.

By Commission order of January 30, 1976 the tariff sheets referred to above were accepted for filing, suspended and the use thereof deferred until February 2, 1976, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act. On February 10, 1976 Mich-Wisc filed a motion placing the subject tariff sheets into effect.

In response to a request by Mich-Wisc the Commission gave notice on March 30, 1976, that the Staff would preside at a conference of all interested parties on April 13, 1976. At the April 13, 1976 conference certain modifications to the proposed plan were suggested by Staff and the customers.

By motion filed July 2, 1976 Mich-Wisc requests we convene a hearing for the submission of a stipulation and agreement and evidence related thereto. Mich-Wisc states the stipulation and agreement incorporates the modifications suggested at the April 13, 1976 conference. Mich-Wisc further proposes to introduce, at the hearing hereinafter ordered, the final report of the Data Verification Committee, together with explanatory and supporting data.

The Commission finds: Good cause exists for granting Mich-Wisc's motion and convening a hearing for the purposes outlined in the motion and establishing procedures for the hearing as hereinafter ordered.

The Commission orders: (A) The motion filed by Mich-Wisc on July 2, 1976 is granted.

(B) On or before August 6, 1976, Mich-Wisc shall file with the Secretary of this Commission and serve all testimony and exhibits supporting the Stipulation and Agreement upon all parties to this proceeding including the Commission Staff.

(C) Pursuant to the authority of the Natural Gas Act particularly sections 7 and 15 thereof, of the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter 1), a public hearing will be held in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 at 10 a.m. on August 17, 1976 commencing with a prehearing conference concerning the matters involved in and the issues presented by this application.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See delegation of authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the sole exception of petitions to intervene, motions to consolidate and sever, and motions to dismiss, as provided for in the rules of practice and procedure.)

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23364 Filed 8-10-76;8:45 am]

[1] The tariff sheets are designated as Second Revised Sheet No. 26 and Original Sheet Nos. 26A, 26B, 26C, 26D, 26E and 26F to Mich-Wisc's FPC Gas Tariff, Second Revised Volume No. 1.

[Docket No. RP71-16 (PGA 76-5)]

MIDWESTERN GAS TRANSMISSION CO.

Proposed Northern System PGA Rate Adjustment

AUGUST 4, 1976.

Take notice that on July 9, 1976, Midwestern Gas Transmission Company (Midwestern) tendered for filing Substitute Fifteenth Revised Sheet No. 5 in Third Revised Volume No. 1 of its FPC Gas Tariff, to be effective on September 10, 1976.

Midwestern states that the sole purpose of the revised tariff sheet is to reflect a PGA rate adjustment for its Northern System. Midwestern states that the PGA rate increase reflected on Substitute Fifteenth Revised Sheet No. 5 is based upon an increase, effective September 10, 1976, in the price which Midwestern is required to pay for gas to its Northern System supplier, TransCanada Pipe-Lines Limited (TransCanada).

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 12, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH E. PLUMB,
Secretary.

[FR Doc.76-23365 Filed 8-10-76;8:45 am]

[Docket No. CP74-187]

MONTANA POWER CO.

Petition To Amend

AUGUST 5, 1976.

Take notice that on July 19, 1976, The Montana Power Company (Petitioner), 40 East Broadway, Butte, Montana 59701, filed in Docket No. CP74-187 a petition to amend further the Commission's order, issued March 21, 1975, in said docket, as amended, pursuant to

section 3 of the Natural Gas Act by authorizing an increase in the annual volumes of natural gas which Petitioner can import from Canada into the United States at a border point near Aden, Alberta, Canada from 10,000,000 Mcf to 19,892,000 Mcf, effective November 1, 1976, as such volume is set forth in amendments to Canadian-Montana Pipeline Company's (Pipeline Company) export licenses issued by the National Energy Board of Canada (NEB), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that on April 29, 1976, the NEB issued orders authorizing Pipeline Company to export at Aden, Alberta, an additional quantity of gas to be purchased by Petitioner not to exceed 99,460 Mcf per day or 19,892,000 Mcf in any consecutive 12-month period commencing with November 1, 1976. Petitioner further states that it is currently authorized in the subject docket to import up to 99,460 Mcf of gas per day only 10,000,000 Mcf in any 12-month period at Aden. Petioner asserts that it imports from Canada more than 70 percent of the natural gas supply necessary to serve its market and that the ability of Petitioner to meet its market requirements and avoid curtailment of service directly depends on continued importation of natural gas under the authorization granted in the subject docket.

Any person desiring to be heard or to make any protests with reference to said petition to amend should on or before August 23, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rule of practice and procedure (18 CFR 1.8 or 1.10).

All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH E. PLUMB,
Secretary.

[FR Doc.76-23375 Filed 8-10-76;8:45 am]

[Docket No. CP76-448]

NATIONAL FUEL GAS DISTRIBUTION CORP.

Application

AUGUST 5, 1976.

Take notice that on July 19, 1976,[1] National Fuel Gas Distribution Corporation (Applicant), 10 Lafayette Square, Buffalo, New York 14203, filed in Docket No. CP76-448 an application pursuant to section 1(c) of the Natural Gas Act for exemption from the provisions of the Natural Gas Act and the regulations of the Commission pertaining thereto, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it sells natural gas to retail customers within the States of New York and Ohio and the Commonwealth of Pennsylvania and that all gas is purchased from its affiliate National Fuel Gas Supply Corporation at numerous delivery points in New York, Pennsylvania, and Ohio. Applicant further states that its New York division distributes gas in eleven counties within the western part of New York and that its Pennsylvania-Ohio division distributes gas in fourteen counties within the western portion of Pennsylvania and the two counties within Ohio adjacent to the Ohio-Pennsylvania border. It is indicated that all gas received by Applicant from out-of-state sources is consumed within the same state, except a de minimis amount of gas involved in that small portion of Applicant's distribution area which straddles the Pennsylvania-Ohio state line at Sharon, Pennsylvania, and Sharon, Ohio, and that the gas involved in these sales flows through Applicant's facilities in Sharon, Pennsylvania, and then continues across the Pennsylvania-Ohio state line for ultimate sale to Applicant's customers in Sharon, Ohio.

It is asserted that New York, Pennsylvania, and Ohio acting by and through their respective Public Service Commissions exercise jurisdiction over the rates (including rates for sales for resale), service and facilities of Applicant in those respective states.

Accordingly, Applicant requests exemption from Commission jurisdiction pursuant to section 1(c) of the Natural Gas Act since all gas received by it from out of state sources is sold in the state in which received, with the possible exception of considerably less than one percent of Applicant's total sales. Applicant states this amount represents local sales made in a bi-state municipality which are both incidental to Applicant's otherwise exclusively intrastate distribution function and deminimis in relation to Applicant's total sales volumes.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23376 Filed 8-10-76;8:45 am]

[1] The application was tendered for filing July 19, 1976; however, the fee required by § 159.1 of the regulations under the Natural Gas Act (18 CFR 159.1) was not paid until July 30, 1976. Thus, filing was not completed until the latter date.

[Docket No. ER76-811]

PACIFIC GAS AND ELECTRIC CO.

Proposed Changes in Rates and Charges

AUGUST 4, 1976.

Take notice that on July 26, 1976, Pacific Gas and Electric Company (PGandE) tendered for filing a notice of change in rates and charges of certain electric resale rate schedules under its FPC Electric Tariffs, Original Volumes Nos. 1 and 2. Based upon test period (calendar year 1976) conditions, PGandE estimates the change in rates would increase annual revenues from jurisdictional sales and services by approximately $6,388,000. Based on revenues for the period August, 1976 to July, 1977 the new rates will result in an average increase of 12.3%. The proposed effective date for the increased rates is August 25, 1976.

Copies of the filing were served upon PGandE's jurisdictional customers, the Califorinial Public Utilities Commission and the Public Service Commission of Nevada.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, Washington, D.C., 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI76-268]

PHILLIPS PETROLEUM CO.

Notice Cancelling Hearing

AUGUST 4, 1976.

Take notice that the hearing scheduled in the above-docketed proceeding at 10 a.m., Thursday, August 19, 1976, is hereby cancelled, inasmuch as Phillips Petroleum Company has amended the subject application and no longer requests a limited-term certificate.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23367 Filed 8-10-76;8:45 am]

[Docket No. ER76-809]

PUBLIC SERVICE COMPANY OF COLORADO

Filing of Initial Rate Schedule

AUGUST 4, 1976.

Take notice that Public Service Company of Colorado (PSCo) on July 23, 1976 tendered for filing as an initial rate schedule a contract for facilities, interconnections and transmission service between the United States Department of Interior Bureau of Reclamation Colorado River Storage Project, Fryingpan-Arkansas Project and Pick-Sloan Missouri Basin Program (USBR) and PSCo.

The Agreement provides for the accepting and transmitting of power and energy by each party for delivery on the system of the other party. Included in the Agreement is the establishment of the necessary facilities for the transmission of the power and energy.

PSCo states that copies of the filing were served upon all parties and affected state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such protests or petitions should be filed on or before August 13, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23368 Filed 8-10-76;8:45 am]

[Docket No. ER76-814]

PUBLIC SERVICE ELECTRIC AND GAS CO.

Tariff Change

AUGUST 4, 1976.

Take notice that Public Service Electric and Gas Company of New Jersey (Public Service), on July 28, 1976, tendered for filing proposed changes in its FPC Electric Service Tariffs Nos. 53 and 54. The proposed changes would increase revenues from jurisdictional sales and service by $76,797 based on the twelve month period ending December 31, 1975. In addition, the proposed filing also slightly modified Public Service Electric and Gas Company's existing fuel adjustment clauses in the above tariffs to conform to § 35.14 of the Commission's regulations.

Public Service proposes an effective date of August 28, 1976. Public Service states that despite all efforts by it to combat increased costs, the continuing inflationary trend has affected practically all its operations. Due to these increased costs, Public Service states that it is becoming increasingly difficult for it to provide adequate and reliable service for the growing needs of its customers. The Company also contends that the rate increases are necessary to assure continued confidence in its financial integrity to provide earnings which will attract additional capital at reasonable cost to enable the Company to finance its electrical construction program.

Copies of the filing were served upon the public utility's jurisdictional customers, the Boroughs of Milltown and South River, and the New Jersey Board of Public Utility Commissioners.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23369 Filed 8-10-76;8:45 am]

[Docket No. ER76-812]

SOUTHERN CALIFORNIA EDISON CO.

Filing of Initial Rate Schedule and Request for Waiver

AUGUST 5, 1976.

Take notice that on July 26, 1976, Southern California Edison Company (Edison) tendered for filing a September 26, 1976, Agreement with Valley Electric Association Inc. (Valley) representing a change in provisions of Rate Schedule FPC No. 44 whereby Edison serves an isolated load of Valley in exchange for Valley's serving four isolated loads of Edison. Under the new agreement Edison will make up for deficiencies in Valley's ability to continuously serve the Edison loads by scheduling energy to Valley over USBR owned transmission lines. The Edison supplied energy will be credited back to Edison at the time bills are rendered.

Edison states that the arrangement has been in effect on the basis of oral agreements since July of 1975 and that the energy and capacity so scheduled are necessary for continuous service to its isolated customers. For that reason Edison requests that the notice provisions of the Commision's regulations be waived and the filing be permitted to become effective as of July 1, 1975.

Copies of this filing were served upon Valley Electric and the Public Utilities Commission of the State of California.

Any person desiring to be heard or to protest this application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23377 Filed 8-10-76;8:45 am]

[Docket No. RI76-138]

SOUTHERN UNION SUPPLY CO.

Petition for Special Relief

AUGUST 4, 1976.

Take notice that on July 21, 1976, Southern Union Supply Company (Petition), First International Building Dallas, Texas 75270, filed in Docket No. RI76-138 a petition for special relief from the base national rate as adjusted pursuant to § 2.56a(g) of the Commission's general policy and interpretations and § 1.7(b) of the Commission's rules of practice and procedure. Petitioner seeks a rate of approximately $1.13 and 86 cents per Mcf respectively for the sale of natural gas to its parent, Southern Union Company,[1] and El Paso Natural Gas Company [1] from No. 2 Gallagher State Well, Lea County, New Mexico. Petitioner's request includes a raw gas volume shrinkage factor of 20 percent in connection with the gathering, compression, and cleaning of such gas by Phillips Petroleum Company in addition to liquids extracted under contract dated April 30, 1976, performed prior to delivery to El Paso Natural Gas Company [1] for transportation to various points in Arizona, New Mexico and Texas where such gas will be delivered by Petitioner to its parent, Southern Union Company.

Petitioner further requests that the intermediate procedure be omitted and waives oral hearing and opportunity for filing exceptions. Petitioner further requests that a shortened notice period be provided.

Any persons desiring to be heard or to make any protest with reference to said petition should on or before August 20,

[1] Presently pending is Southern Union Supply Company's requested temporary authorizations based upon emergency conditions for sale of natural gas to its parent, Southern Union Company, under contract dated April 13, 1976 (Docket No. CI76-578) an to El Paso Natural Gas Company under contract dated April 30, 1976 (Docket No. CI76-579). Also, pending is El Paso Natural Gas Company certificate request for transportation and delivery of such natural gas under contract dated April 13, 1976 (Docket No. CI76-410).

1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23370 Filed 8-10-76;8:45 am]

[Docket No. ER76-805]

WESTERN MASSACHUSETTS ELECTRIC CO.

Rate Schedule Filing

AUGUST 5, 1976.

Take notice that Western Massachusetts Electric Company (the "Company") on July 23, 1976, tendered for filing a proposed rate schedule governing firm electric service to the City of Westfield, Massachusetts. The proposed rate schedule is a contract demand form of rate, which rate form was agreed upon by the Company, the City of Westfield, and certain other of the Company's wholesale customers as part of the settlement approved by this Commission in Docket No. E-8798.

The Company states that the demand and energy charges in the proposed rate schedule have been designed to achieve the revenue levels found acceptable by this Commission in the settlement of Docket No. E-8798 and no revenue increase is being sought.

The Company proposed a June 1, 1976 effective date for the proposed rate schedule and states that the City of Westfield supports the waiver of the Commission's notice requirements to permit such effective date.

Copies of the filing were served upon the City of Westfield, Massachusetts and the Commonwealth of Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-41; (PGA76-1)]

WESTERN TRANSMISSION CORP.

Proposed Change in Rates Under Purchased Gas Cost Adjustment Clause

AUGUST 5, 1976.

Take notice that Western Transmission Corporation (Western), on July 27, 1976, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1. Western states that the proposed changes would increase the monthly charges for purchased gas to Colorado Interstate Gas Company, Western's sole jurisdictional customer, pursuant to the provisions of Section 18 of Western's FPC Gas Tariff. Original Volume No. 1.

Western's filing is proposed to become effective on September 1, 1976. This increase will compensate Western for increases in its current cost of purchased gas, the Company states.

Copies of this filing have been served upon Colorado Interstate Gas Company, Western states.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 17, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

FEDERAL TRADE COMMISSION

PRIVACY ACT OF 1974

Corrected Notices of Systems of Records

On July 21, 1976, the Commission published certain additions and modifications to its Privacy Act systems of records (41 FR 30087). The following systems were erroneously set out under the heading of "Additions of Systems of Records": FTC-7, Congressionag Correspondence, Office of General Counsel; FTC-28, Investigational, Legal, and Public Records; FTC-33, Preliminary Investigation Files; and FTC-39, Staff Advisory Opinion Records. These are not additional systems; rather they are systems to which modifications have been made, and should have been so listed at 41 FR 30092.

JAMES A. TOBIN,
Acting Secretary.

[FR Doc.76-23351 Filed 8-10-76;8:45 am]

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-27]

CHICORY ROOT—CRUDE AND PREPARED

Memorandum Opinion

PROCEDURAL BACKGROUND

On August 2, 1976, the presiding officer certified to the Commission two motions filed on July 27, 1976, by intervenor parties Wm. B. Reily & Co., Inc., Community Coffee Co., Inc., and American Coffee Co., Inc., that hearings in the above matter be transferred from Washington, D.C., to New Orleans, Louisiana (M 27-2), and that the temporary relief hearing scheduled for August 11, 1976, be continued (M 27-5). On July 29, 1976, the Commission received a submission from complainant opposing a continuation. Notice of the Commission's ordering of the investigation and of the scheduling of the temporary relief hearing, to begin in Washington on August 11, 1976, was published in the FEDERAL REGISTER of July 16, 1976 (41 FR 29496).

ORDER

(1) The motion of intervenor parties Wm. B. Reily & Co., Inc., Community Coffee Co., Inc., and American Coffee Co., Inc. (M 27-2), to transfer all hearings in this proceeding from Washington, D.C., to New Orleans, Louisiana, is denied.

(2) The motion of intervenor parties Wm. B. Reily & Co., Inc., Community Coffee Co., Inc., and American Coffee Co., Inc. (M 27-5), that the hearing set for August 11, 1976, be continued is denied.

OPINION

The Commission considers that requests for temporary relief under section 337 should be acted upon expeditiously. The Commission on July 8, 1976, ordered the present expedited schedule. Intervenor parties Wm. B. Reily & Co., Inc., Community Coffee Co., Inc., and American Coffee Co., Inc., in our judgment, have failed to show good cause why the noticed place of hearings and time of this hearing should be changed, and the Commission accordingly denies their motions.

By order of the Commission.

Issued: August 5, 1976.

KENNETH R. MASON,
Secretary.

[FR Doc.76-23290 Filed 8-10-76;8:45 am]

[Preliminary Investigation No. 603-TA-1]

TELEVISION RECEIVERS FROM JAPAN

Commission Memorandum Opinion

PROCEDURAL BACKGROUND

The Commission instituted this preliminary investigation on March 26, 1976, pursuant to section 603 of the Trade Act of 1974 (19 U.S.C. 2482), to determine whether to institute an investigation under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337). A Notice of Preliminary Investigation was published in the FEDERAL REGISTER on April 8, 1976 (41 F.R. 14949). During the course of the preliminary investigation, the Commission recevied petitions [1] to quash various questionnaires sent by the investigative staff to petitioners.

ORDER

On July 16, 1976, the Commission denied the petitions to quash questionnaires, and also denied the request for oral argument.[2]

OPINION

The Commission, after considering the motions, has determined that the motions and requests for oral argument be denied because the Commission construes the questionnaires to be voluntary rather than mandatory. The Commission has directed its investigative staff to confer with the Matsushita companies and RCA Corporation to review the extent to which these companies are reasonably able and willing to supply, on a voluntary basis, information which is relevant to the preliminary investigation. The Commission wishes to encourage voluntary cooperation of the aforesaid concerns in order to assist the Commission in determining whether facts exist which would warrant the institution of an investigation under section 337 of the Tariff Act of 1930.

The Commission may seek the use of compulsory process in the event that resort to such process is reasonable and justifiable as provided under Commission rules.

Issued: August 6, 1976.

By Order of the Commission:

KENNETH R. MASON,
Secretary.

[FR Doc.76-23414 Filed 8-10-76;8:45 am]

[1] On June 30, 1976, the Commission received a "Petition of Matsushita Electric Industrial Co., Ltd., Matsushita Electric Trading Co., Ltd., Matsushita Electronics Corporation and Matsushita Electric Corporation of America to Quash Questionnaires of Investigative Staff of the United States International Trade Commission and Accompanying Request for Production of Documents." This petition was docketed by the Office of the Secretary as motion docket No. 603-TA-1-2. Also on June 30, 1976, the Commission received a "Petition by RCA Corporation to Quash Questionnaire and Request for the Production of Documents." This petition was docketed by the Office of the Secretary as motion docket No. 603-TA-1-3. On July 6, 1976, the Commission received from counsel for the Matsushita companies a request for oral argument in connection with their petition of June 30, 1976. This request for oral argument was docketed by the Office of the Secretary as motion docket No. 603-TA-1-4.

[2] Commissioner Ablondi did not participate in the Commission action.

INTERSTATE COMMERCE COMMISSION

[Notice No. 114]

ASSIGNMENT OF HEARINGS

AUGUST 6, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 115841 (Sub-No. 506), Colonial Refrigerated Transportation, Inc., now assigned September 13, 1976 at Washington, D.C., has been postponed indefinitely.

MC 82841 (Sub-No. 173), Hunt Transportation, Inc., now being assigned September 9, 1976 (2 days), at Denver, Colorado, in U.S. Court of Appeals Division 2, 4th Floor, Federal Courthouse, 1961 Stout Street.

MC 134323 Sub 80, Jay Lines, Inc., now being assigned for continued hearing, September 30, 1976, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 110328 (Sub-No. 11), Roy A. Leiphart Trucking, Inc., now assigned October 14, 1976, at Washington, D.C. is canceled and application dismissed.

MC 99952 (Sub-No. 2), Eagle Truck Lines, Inc., now assigned August 30, 1976, at Los Angeles, Calif. is canceled and application dismissed.

MC 58923 (Sub-Nos. 33 and 42), Georgia Highway Express, Inc. now being assigned November 8, 1976 (1 week), at Tallahasse, Florida in a hearing room to be later designated.

MC 113678 (Sub-No. 557), Curtis, Inc., Extension, now assigned September 8, 1976 at Denver, Colorado; will be held in the U.S. Court of Appeals, Division 2, 4th Floor Federal Courthouse, 1961 Stout Street.

MC 141966, Gina Marie Express Co., now assigned September 13, 1976 at Denver, Colorado; will be held in the U.S. Court of Appeals, Division 2, 4th Floor Federal Courthouse, 1961 Stout Street.

MC 124692 (Sub-No. 164), Sammons Trucking, now assigned September 14, 1976 at Denver, Colorado; will be held in the U.S. Court of Appeals, Division 2, 4th Floor Federal Courthouse, 1961 Stout Street.

MC 139468 (Sub-No. 15), International Contract Carriers, Inc., now assigned September 16, 1976 at Denver, Colorado; will be held in the U.S. Court of Appeals, Division 2, 4th Floor Federal Courthouse, 1961 Stout Street.

MC-F-12725, Best Refrigerated Express, Inc.—Investigation of Control—Scott Truck Line, Inc., and MC-F-12795, Best Refrigerated Express, Inc.—Control—Scott Truck Line, Inc., now assigned September 20, 1976 at Omaha, Nebraska; will be held in Room 616 Union Pacific Plaza, 110 North 14th Street, 14th & Dodge.

FOURTH SECTION APPLICATION FOR RELIEF

AUGUST 6, 1976.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43207—*Alloys or Metals to Korf, Texas.* Filed by Southwestern Freight Bureau, Agent, (No. B-624), for interested rail carriers. Rates on alloys or metals, in carloads, as described in the application, from points in Ohio, Pennsylvania and West Virginia, to Korf, Texas.

[1] This notice is insert the Sub No.

Grounds for relief—Market competition and rate relationship.

Tariff—Supplement 183 to Southwestern Freight Bureau, Agent, tariff 2–H, I.C.C. No. 5102. Rates are published to become effective on September 5, 1976.

FSA No. 43208—*Iron and Steel Articles to Points in Southern Territory.* Filed by Southwestern Freight Bureau, Agent, (No. B–615), for interested rail carriers. Rates on iron and steel articles, in carloads, as described in the application, from points in southwestern territory, to points in southern territory.

Grounds for relief—Carrier competition.

Tariff—Supplement 214 to Southwestern Freight Bureau, Agent, tariff 301–F, I.C.C. No. 5098. Rates are published to become effective on September 9, 1976.

Lease and Interchange of Vehicles by Motor Carriers

CORRECTED ORDER [1]

At a session of the Interstate Commerce Commission, Motor Carrier Leasing Board, held at its office in Washington, D.C., on the 14th day of July, 1976.

It appearing, That a petition has been filed by Ligon Specialized Hauler, Inc., (MC–119777 and numerous subs) and Cherokee Hauling & Rigging, Inc., (MC–127834 and numerous subs), under temporary common control, and Virginia Hauling Company, (MC–13806 and various subs) and Horne Heavy Hauling, Inc., (MC–35045 and subs 1, 9, 11 and 19), under permanent and temporary common control respectively, by Cherokee Hauling & Rigging Inc., for waiver of paragraphs (a)(3) and (c) of Section 1057.4 of the Lease and Interchange of Vehicles Regulations (49 CFR 1057), concerning equipment leased and interchanged by petitioners.

It further appearing, That petitioners have not advanced sufficient justification upon which to base a grant of relief from the requirements of paragraphs (a)(3) and (c) of Section 1057.4;

It further appearing, That the Bureau of Motor Carrier Safety, Federal Highway Administration, Department of Transportation recommends that the petition be held in abeyance for at least six months so that petitioners may have the opportunity to eliminate current inspection and maintenance deficiencies;

It is ordered, that the petition be, and, it is hereby denied.

By the Commission, Motor Carrier Leasing Boards, Board Members Teeple and Sibbald.

[SEAL] ROBERT L. OSWALD,
Secretary.

SECTION 5b APPLICATION NO. 9

Lower Lakes Coal Demurrage Agreement

AUGUST 3, 1976.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of Section 5b of the Interstate Commerce Act.

Filed May 20, 1976 by: Harry N. Babcock, General Attorney, Law Department, Chessie System, P.O. Box 6419, Cleveland, OH 44101.

Agreement involves: Organization, practices, and procedures between and among rail common carrier members of Lake Coal Demurrage Committee for the joint consideration, initiation, or establishment of demurrage charges, and rules and regulations thereto, governing the detention of railroad cars loaded with coal or certain other commodities when held for unloading into vessels at lower lake points, as named in Agent Doyle's Tariff Nos. 551, ICC H–23 and 552, ICC H–24, supplements thereto and reissues thereof.

The complete application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 30 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the General Rules of Practice of the Commission, persons other than applicants should fully disclose their interest and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application, without further or formal hearing.

ROBERT L. OSWALD,
Secretary.

BASIC EDUCATION OPPORTUNITY GRANT PROGRAM

Notice of Proposed Rulemaking

Pursuant to the authority contained in Subpart 1 of Part A of Title IV of the Higher Education Act of 1965 as amended (20 U.S.C. 1070a) notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue the following amendments to the regulations covering the basis for determining the expected family contribution schedules of both dependent and independent students for academic year 1977–78.

These amendments are being submitted for public comment and review by both Houses of Congress in advance of the February 1 deadline specified in section 411(a) of the Higher Education Act of 1965 as amended (20 U.S.C. 1070a) so that review of the Schedules may be completed earlier than May 1, which is the date listed in the statute. It is the opinion of the Commissioner that the May 1 deadline for Congressional action does not permit students, parents, and educational institutions sufficient time to make effective decisions concerning the packaging of student financial aid resources. The regulations to which these amendments are proposed were previously published on April 4, 1975 (40 FR 15248).

The proposed amendments provide for a 6% increase in the family size offsets used during the 1976–77 academic year. This increase in living allowance is an estimate, and will be changed in accordance with the actual increase in the Consumer Price Index as published by the Bureau of Labor Statistics at the end of the year. The intent of this increase is to take into account inflation of the basic cost of living during the current year.

The proposed regulations further require that in cases where a parent of a dependent applicant whose income and assets are taken into account in determining the annual adjusted family income has remarried, and the student is residing with that parent and that parent's spouse, the income and assets of that parent and that parent's spouse must be reported as available to the applicant, regardless of the family's tax filing status or of the step-parent's legal relationship to the applicant. This clarification assures greater equity of reported family resources for applicants in such circumstances.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed rules to Mr. Peter K. U. Voigt, Director, Division of Basic and State Student Grants, U.S. Office of Education, Room 4717, ROB–3, 400 Maryland Avenue, SW., Washington, D.C. 20202. Comments received in response to this notice will be available for public inspection at the above office Monday through Friday between 8:30 a.m. and 4:30 p.m. All relevant material must be received not later than September 10, 1976.

(Catalog of Federal Domestic Assistance No. 13.539, Basic Educational Opportunity Grant Program.)

Dated: June 21, 1976.

T. H. BELL,
Commissioner of Education.

Approved: August 4, 1976.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Part 190 of Chapter I of Title 45 of the Code of Federal Regulations would be amended as follows:

PART 190—BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM

1. In § 190.32(a), subparagraph (2) would become (2)(i), and subparagraph (a)(2)(ii) would be added to read as follows:

§ 190.32 Special definitions.

(a) * * *

(2)(i) * * *

(ii) In the case of a student whose parents are divorced and the parent whose income is taken into account pursuant to paragraph (a)(2)(i) of this section has remarried and the student is residing with that parent and the parent's spouse, the income of that parent's spouse shall also be considered in determining the annual adjusted family income.

* * * * *

2. In § 190.33, paragraph (c)(1) would be revised to read as follows:

§ 190.33 The expected family contribution for dependent students from parents' and student's effective income.

* * * * *

(c) * * *

(1) *Family size offset.* A family size offset is the amount specified in the following table. Family members include the student, the student's parents and the student's parents' dependents. If the parents are divorced or separated, family members shall include the student and any parent whose income is taken into account for the purpose of computing the annual adjusted family income and that parent's dependents. If the parents are divorced and the parent's spouse's income is taken into account for the purpose of computing the annual adjusted family income, family members shall include the student, that parent and spouse, and any dependents of that parent and/or spouse.

FAMILY SIZE OFFSETS

Family members:	*Dollar amounts*
2	3,850
3	4,650
4	5,950
5	7,000
6	7,950
7	8,800
8	9,700
9	10,600
10	11,500
11	12,400
12	13,300

* * * * *

3. In § 190.35, paragraph (c) would be revised to read as follows:

§ 190.35 Computation of standard expected contribution from parents' assets.

* * * * *

(c)(1) If the student's parents are separated, or divorced and not remarried, only the assets of the parent whose income is taken into account for the purpose of computing annual adjusted family income shall be considered.

(2) In the case of the student whose parents are divorced and the parent whose income is taken into account pursuant to § 190.32(a)(2)(i) has remarried, and the parent's spouse's income is also taken into consideration pursuant to § 190.32(a)(2)(ii), the assets of that parent and that parent's spouse shall also be considered.

4. In § 190.36, paragraph (b) would become (b)(1) and paragraphs (b)(2) through (b)(4) would be added to read as follows:

§ 190.36 Computation of expected contribution from parents' income, student's effective income, and parents' assets, adjusted for number of family members attending institutions of postsecondary education.

(b)(1) * * *

(2) Family members include the student, the student's parents and the student's parents' dependents.

(3) If the student's parents are separated, or divorced and not remarried, family members shall include the student and any parent whose income is taken into account for the purpose of computing annual adjusted family income and that parent's dependents.

(4) In the case of a student whose parents are divorced and the parent's spouse's income is taken into account for the purpose of computing the annual adjusted family income, family members shall include the student, that parent and spouse, and any dependents of that parent and/or spouse.

5. Section 190.43 would be amended by revising paragraph (c)(1) to read as follows:

§ 190.43 The expected family contribution for independent students from annual adjusted family income.

* * * * *

(c) * * *

(1) *Family size offset.* A family size offset is the amount specified in the following table. Family members include the student and his dependents. If the student is divorced or separated, family size shall include any person whose income is taken into account for the purpose of computing the annual adjusted family income and his or her dependents.

FAMILY SIZE OFFSETS

Family members:	*Dollar amounts*
2	3,850
3	4,650
4	5,950
5	7,000
6	7,950
7	8,800
8	9,700
9	10,600
10	11,500
11	12,400
12	13,300

An offset of $1,050 shall be made for the single independent student.

PART III:

FEDERAL ELECTION COMMISSION

■

ADVISORY OPINION REQUESTS

FEDERAL ELECTION COMMISSION

[Notice 1976-37, AOR 1976-48 through 1976-55]

ADVISORY OPINION REQUESTS

Pursuant to 2 U.S.C. § 437f(c) and the procedures reflected in Part 112 of the Commission's Notice of Proposed Rulemaking, published on May 26, 1976 (41 F.R. 21590), advisory opinion requests 1976-48 through 1976-55 have been made public at the Commission. A copy of the original request is available for public inspection and purchase at the Federal Election Commission, Public Records Division, at 1325 K Street, NW., Washington, D.C. 20463.

Interested persons may submit written comments on any advisory opinion request within ten days after the date the request was made public at the Commission. These comments should be directed to the Office of the General Counsel, Advisory Opinion Section, at the Commission. Persons requiring additional time in which to respond to any advisory opinion requests will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered before the Commission issues an advisory opinion. Comments on pending requests should refer to the specific AOR number of the requests, and statutory references should be to the United States Code citations rather than to the Public Law citations.

A descriptive listing of each of the requests recently made public as well as the identification of the requesting party follows hereafter:

AOR 1976-48: Whether the activities of the Missouri Republican Host Committee, Inc., involve corporate or individual contributions or independent expenditures.—Requested by Joseph E. Stevens, Jr., Counsel, Missouri Republican Host Committee, Inc., Kansas City, Missouri.

AOR 1976-49: Transfer of funds from the Austin Campaign Committee to the Austin for Senate Campaign; method of attributing contributions.—Requested by Robert L. Millender, Co-chairman, Austin for Senate Committee, Detroit, Michigan.

AOR 1976-50: Whether an incorporated business may produce campaign shirts, sell them, and forward $1 of their purchase price to a candidate's principal campaign committee without incurring a corporate contribution.—Requested by Gordon K. Durnil, Treasurer, Friends of Dick Lugar Committee, Indianapolis, Indiana.

AOR 1976-51: Whether several individuals who share a policy concern, friendship, and an ethnic heritage and who discuss their common interest in contributing to Federal candidates are regarded as a political committee for purposes of disclosure and contribution limits if their combined expenses exceed $1,000.—Requested by Robert N. Thomson, Counsel, Democratic Senatorial Campaign Committee, Washington, D.C.

AOR 1976-52: Whether a candidate's general election excess campaign funds may be contributed to an unsuccessful 1974 candidate to retire the latter's 1974 campaign debts and applicable limit, if any.—Requested by Congressman Carroll Hubbard, Carroll Hubbard Re-election Campaign, Mayfield, Kentucky.

AOR 1976-53: Whether a candidate's principal campaign commitee may rent from the candidate an office in the candidate's home or pay for the candidate's groceries, heat, lights, mortgage, etc.—Requested by Lois Ann Murray, Treasurer, Iannitti for Congress, Warwick, Rhode Island.

AOR 1976-54: Whether continuing operating expenses incurred by the Harris for President Committee are qualified campaign expenses payment for which the Committee will be eligible to receive Federal matching funds.—Requested by Casey, Lane & Mittendorf for Harris for President Committee, Washington, D.C.

AOR 1976-55: Whether a candidate may transfer campaign funds remaining from a campaign for State office to his Federal campaign committee if the surplus is first regarded as personal income for tax purposes.—Requested by William M. McCaffrey, Treasurer, McCaffrey for Congress Committee, Warwick, Rhode Island.

Dated: July 27, 1976.

VERNON W. THOMSON,
Chairman for the
Federal Election Commission.

PART IV:

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

■

NATIONAL FLOOD INSURANCE PROGRAM

Flood Prone Areas of Communities Subject to Section 202 Prohibition of Federal and Federally Related Assistance

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[Docket No. N–76–376]

NATIONAL FLOOD INSURANCE PROGRAM

Flood-Prone Areas of Communities Subject to Section 202 Prohibition of Federal and Federally Related Assistance

The purpose of this notice is to provide a list of communities that contain areas of special flood hazard potentially subject to the provisions of Section 202 of the Flood Disaster Protection Act of 1973 (PL 93–234) on July 1, 1975, or an appropriate later date, and to provide a convenient reference for interested persons, communities, Federal agencies and instrumentalities, and others involved in assuring compliance with that section. This list supersedes and up-dates the list published in the FEDERAL REGISTER at 41 FR 23092–23142.

Section 202 provides that effective July 1, 1975, Federal agencies and federally supervised, approved, insured, or regulated lending institutions are prohibited from providing financial assistance or making loans for acquisition or construction purposes in areas which (a) have been designated by the Secretary of Housing and Urban Development as Special Flood Hazard Areas for at least one year; and (b) are in communities which are not participaing in the National Flood Insurance Program (42 U.S.C. §§ 4001–4128).

The prohibition does not apply to any loan made by a federally-supervised, approved, insured, or regulated lending institution made prior to March 1, 1976, to finance the acquisition of a previously occupied residential dwelling.

Each of the communities listed below received notice of its designation as flood-prone prior to October 1, 1975, and legal notice was furnished of such designation by publication under Part 1915 of Title 24 of the Code of Federal Regulations in the FEDERAL REGISTER. These communities have failed to provide the Federal Insurance Administrator with sufficient technical or scientific data to rebut their designation as flood prone nor have they as yet qualified for participation in the National Flood Insurance Program. Thus, the sanctions of Section 202 apply as of July 1, 1975, or one year after a community's identification, whichever is later, until the community participates in the program.

In order to continue Federal or federally related assistance or lending in its Special Flood Hazard Area, a community must apply for and be made eligible for participation in the program in accordance with 24 CFR (Parts 1909 to 1920). Communities may receive assistance in applying for participation by contacting the Federal Insurance Administration, 451 Seventh St., S.W., Washington, D.C. 20410 (202) 755–5581, or its toll-free numbers 800–424–8872 or 800–424–8873.

Communities on this list may be made eligible to participate in the program after the date of publication of this list. Such eligibility will be published periodically in the FEDERAL REGISTER under 24 CFR § 1914.4 List of eligible communities. At that time the sanctions of Section 202 will no longer apply to the communities listed below.
