Moving Forward with Landscape Conservation
2-3 October 2012

Welcome to Memphis

2 Days of ….

Information

Conversation

Discussion

Questions

Arguing and Debate

Designing landscapes that can sustain fish, wildlife, and the natural world.

Design the future together

Mission**S** critical

Not new ….

Late 1990s – Charles Baxter

2004-06 – The NEAT years

SHC – FWS business model

Science – weak link

Compelling Climate Change

LCCs

Focus

All the critters ….

…….

…….

…….

subset of critters

DRAFT Guidance on Selecting Species for Design of Landscape-scale Conservation

- tool

- resource

7 SHC Workshops

Magic!

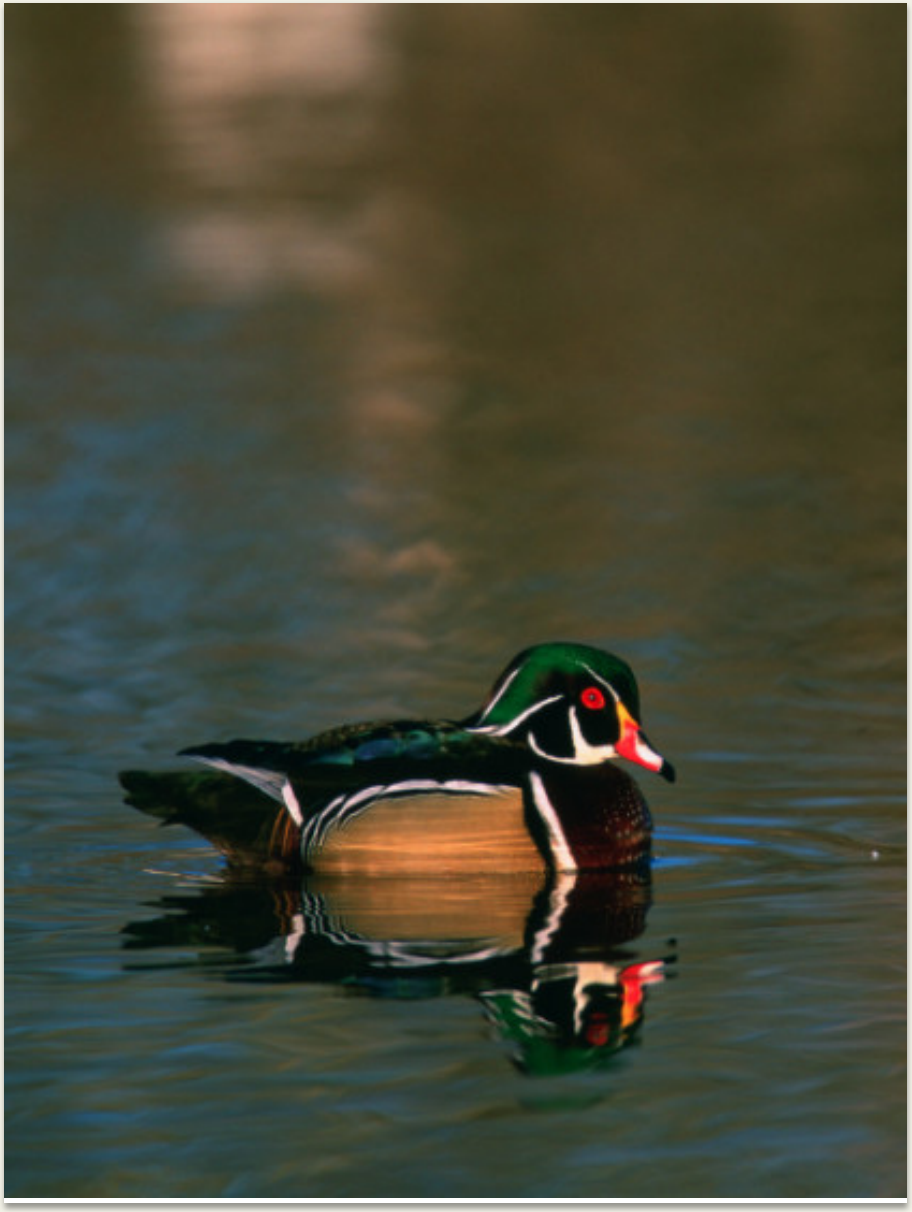
Not

No weeds

(no ticks)

Before

After



Surrogate Species

Species that represent other species or aspects of the environment to obtain a conservation objective.

Take off your jerseys

Think like a conservation community …

Much at stake ….

Pick your favorite big scary thing

'Unless someone like you cares a whole awful lot, Nothing is going to get better. It's not.'
