

SARP FY 09 AQUATIC HABITAT RESTORATION PROJECT PROPOSAL

Title:

Link to Southeast Aquatic Habitat Plan: (Provide a short explanation as to how this project contributes to achieving one or more the SAHP objectives and targets).

Project Summary: *(Four to five sentence summary of the restoration need and how it will be accomplished)*

Importance to the Resource: *(Four to five sentence summary of the importance of the aquatic habitat to be addressed thru the project)*

The Problem: *(Four to five sentence description of the cause of habitat degradation in the project area)*

The Objective: *(Four to five sentence summary of the objective of restoration project)*

Method: *(A short description of the methods that will be used to restore/enhance aquatic habitat or remove barriers to migration/movement)*

Habitat Conservation Goal: *(List habitat conservation goals, objectives or actions identified in resource or habitat management plan(s) (such as listed species recovery plans, fishery management plans, state, federal, regional or watershed-level habitat or resource conservation plans) that will be addressed, and identify the specific plans as well)*

Funding Required: *(Total amount to complete project)*

Partners Involved and Their Contribution: *(List all partners and their contributions to the effort in the form of cash or equivalent in-kind services)*

Location: *(Water course involved and nearest town to project area. If the project includes the removal of barriers to migration, please include GPS coordinates of the barrier(s).)*

Habitat Restored: *(Miles or acres of habitat to be restored)*

Miles or Acres

Aquatic Species: *(List the aquatic species that will benefit from the project. Be sure to include any listed or interjurisdictional species.)*

Point of Contact: *(List the primary point of contact for this project to include a telephone number and agency)*
