

Exhibit 5 – Alternative B Project Map

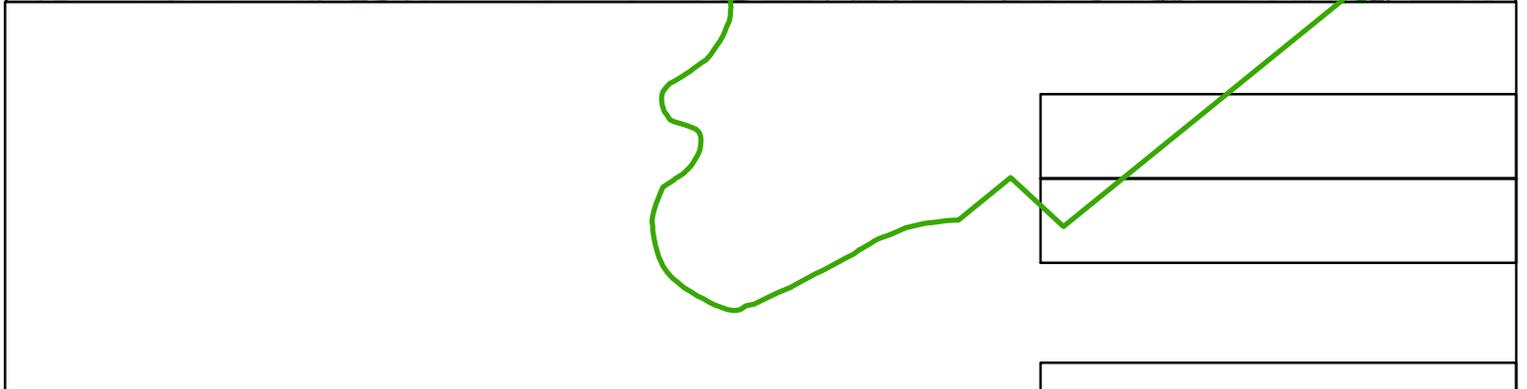

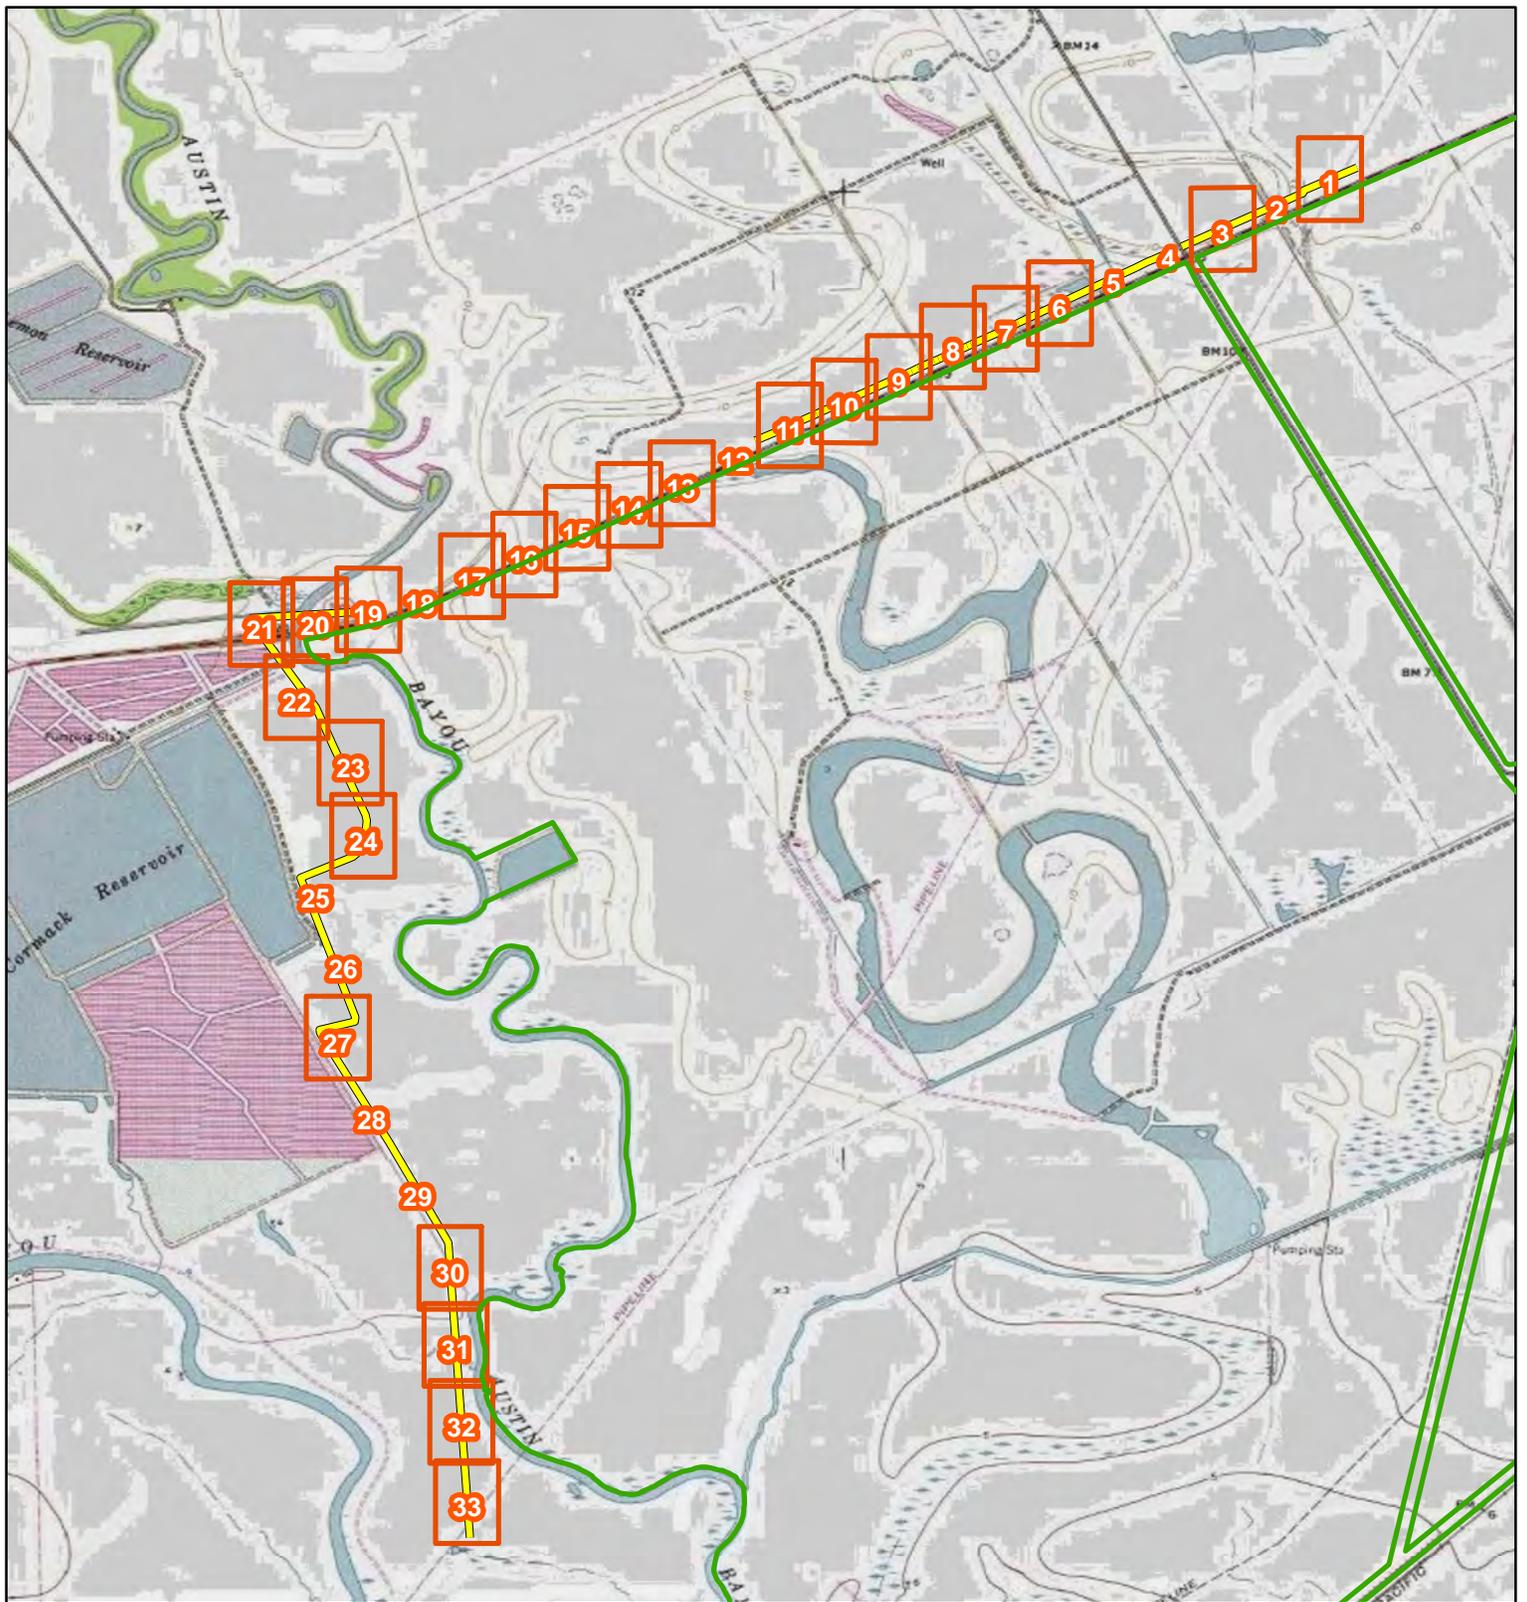

Exhibit 5.

Due to file size limitations for posting 508 compliant documents, the 33 detailed aerial photos that show the Alternate B pipeline west along FM 2004 and then south between Austin and Bastrop Bayous to the existing pipeline corridor are not included here, but are available upon request. A verbal description of the placement of the 33 aerial photos along the Alternative B route is as follows:

1. Aerial photo north of FM 2004 Ditch 10 showing pipeline route, temporary work area, permanent workspace and wetlands.
2. Aerial photo north of FM 2004 and west of Ditch 10 showing pipeline route, temporary work area, permanent workspace and wetlands.
3. Aerial photo north of the FM 2004 and CR208 intersection showing pipeline route, temporary work area, permanent workspace, and wetlands.
4. Aerial photo including the CR 208 intersection showing bore locations for road, pipeline route, temporary work area, permanent workspace, and wetlands.
5. Aerial photo north of FM 2004 of the Ditch 11 intersection showing pipeline route, temporary work area, permanent workspace, and wetlands.
6. Aerial photo north of FM 2004 showing pipeline route, temporary work area, permanent workspace, and wetlands.
7. Aerial photo north of FM 2004 showing residence and bore locations for drive way, pipeline route, temporary work area , permanent workspace, and wetlands.
8. Aerial photo north of FM 2004 showing bore holes for two drive ways, pipeline route, temporary work area, permanent, workspace, and wetlands.
9. Aerial photo north of FM 2004 showing one drive way and bore locations, pipeline route, temporary work area, permanent workspace, and wetlands.
10. Aerial photo north of FM 2004 showing one driveway and bore locations, pipeline route, temporary work area, permanent workspace, and wetlands.
11. Aerial photo north of FM 2004 and Otter Slough, showing three driveways and bore locations under driveways, pipeline route, temporary work area, permanent workspace, and wetlands.
12. Aerial photo north of FM 2004 crossing over Otter Slough, one driveway and bore locations, pipeline route, temporary work area, permanent workspace, and wetlands.
13. Aerial photo north of FM 2004 and Refuge Headquarters entrance road showing pipeline route through Otter Slough, bore under two driveways, temporary work area, permanent workspace and wetlands.
14. Aerial photo north of FM 2004 showing one driveway with bore locations pipeline route, temporary work area, permanent workspace and wetlands.
15. Aerial photo north of FM 2004 showing pipeline route, temporary work area, permanent workspace and wetlands.
16. Aerial photo north of FM 2004 showing two drive ways with bore locations, pipeline route, temporary work area, permanent workspace and wetlands.

17. Aerial photo north of FM 2004 showing Ditch 13, pipeline route, temporary work area, permanent workspace and wetlands.
18. Aerial photo north of FM 2004 showing FM 2004 crossing of Ditch 14 and two bore locations, pipeline route, temporary work area, permanent workspace and wetlands.
19. Aerial photo north of FM 2004 at drive way to the trailer park at Austin Bayou, showing bore locations for driveway, HDD location for Austin Bayou, pipeline route, temporary work area, permanent workspace and wetlands.
20. Aerial photo of FM 2004 crossing of Austin Bayou showing pipeline route, permanent workspace and wetlands.
21. Aerial photo west of Austin Bayou by FM 2004 crossing showing pipeline route, temporary work area for Austin Bayou HDD, FM 2004 HDD, permanent workspace and wetlands. The pipeline route turns southerly at the HDD location.
22. Aerial photo south of FM 2004 showing HDD location from FM 2004 HDD, pipeline route, temporary work area, permanent workspace, and wetlands.
23. Second aerial photo south of FM 2004 showing pipeline route, temporary work area, permanent workspace, and wetlands.
24. Third aerial photo south of FM 2004 showing pipeline route, temporary work area, permanent workspace, and wetlands.
25. Fourth aerial photo south of FM 2004 showing pipeline route, temporary work area, permanent workspace, and wetlands.
26. Fifth aerial photo south of FM 2004 showing pipeline route, temporary work area, permanent workspace, and wetlands.
27. Sixth aerial photo south of FM 2004 showing pipeline route, temporary work area, permanent workspace, and wetlands.
28. Seventh aerial photo south of FM 2004 showing pipeline route, temporary work area, permanent workspace, and wetlands.
29. Ninth aerial photo south of FM 2004 showing pipeline route, temporary work area, permanent workspace, and wetlands.
30. Tenth aerial photo south of FM 2004, nearing Austin Bayou, showing pipeline route, temporary work area, permanent workspace, and wetlands.
31. Eleventh aerial photo south of FM 2004, along west bank of Austin Bayou, showing pipeline route, temporary work area, permanent workspace, and wetlands.
32. Twelfth aerial photo south of FM 2004, along west bank of Austin Bayou, showing pipeline route, temporary work area, permanent workspace, and wetlands.
33. Thirteenth aerial photo south of FM 2004, at the terminus of Alternative B where pipeline is routed back in to the existing pipeline corridor west of Austin Bayou, showing pipeline route, temporary work area, permanent workspace, and wetlands.
