

Union Volunteers to Construct Boardwalk at Texas Refuge

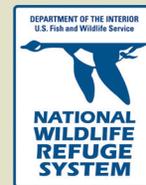

Trinity River National Wildlife Refuge Boardwalk Project

Work to Begin in February.
Exact Dates TBD

Trinity River National Wildlife Refuge / 601 FM 1011 Liberty, TX 77575

Located near Liberty, TX, the 25,000 acre Trinity River NWR was established to protect a remnant of bottomland hardwood forest, which provides important breeding, wintering and stopover habitat for a variety of waterfowl and songbirds and is home to deer, bobcats, alligators and other wildlife. The Union Sportsmen's Alliance and Dept. of the Interior are asking union members to lend a hand to construct a 500 ft. elevated boardwalk connecting the Refuge to the city of Liberty's existing trail system over a 4-week period.

If you are interested in volunteering, please contact Ty Brown at (615) 831-6751 or tyb@unionsportsmen.org.

This project is a result of a Memorandum of Understanding signed by the Department of the Interior, the AFL-CIO and the Union Sportsmen's Alliance stating their collective commitment to rebuild, renew and restore our country's national parks, national wildlife refuges and other public lands.
