

By Cyndee Watson, USFWS, Austin, TX.

Conversation between Alisa Shull, Cyndee Watson, and Wade Harrell (all with the U.S. Fish and Wildlife Service).

Date: February 1, 2012

Alisa and Cyndee had both talked to Wade a different times regarding potential Partners for Fish and Wildlife projects on private ranches. We talked to Wade together to ensure that our understanding that there are no formal plans for fencing at the Salano and Robertson ranches. However both of these ranches are discussing plans to install fencing to exclude cattle from the springs.
