

Willow Beach National Fish Hatchery April 2014 Monthly Report

No fish were stocked this month.

Mark Olson and Tom Frew attended CPR First Aid training. Mark and Tom also both attended Advanced Supervision at NCTC. Andrew Flaten attended annual chainsaw refresher course.

192 visitors signed the guest registry.

Jennifer Johnson and Robbie Simmons

Volunteer, Robbie Simons, worked 63 hours on fish culture and maintenance related items. Robbie has been extremely beneficial to the hatchery with the shortage of staff.

Jennifer Johnson from the AZFCO worked a week at WBNFH this month. Jennifer filled in for staff that was away on training and working at Achii Hanyo.

Maintenance activities included: The final inspection on the flood control gabion project. Robert Baca and Bill Rager traveled from the regional office to conduct the final inspection. Other maintenance included preparing the B bank trout raceways for trout; repaired expansion gaps in B bank raceways; annual generator service and excavated exploratory hole for new well location.

Achii Hanyo Native Fish Rearing Facility

Willow Beach staff continues to cover the work load at Achii Hanyo. Activities include daily fish culture, routine maintenance and safety related repairs.

Andrew Flaten was evacuated from Achii Hanyo when the CRIT fire department lost control of a prescribed burn. Andrew was able to return the next day to resume normal activities.
