

Attwater Prairie Chicken National Wildlife Refuge

*Comprehensive Conservation Plan
and Environmental Assessment*

April 2012

U.S. Fish and Wildlife Service Mission Statement

The mission of the U.S. Fish and Wildlife Service is working with others to conserve, protect, and enhance fish, wildlife, plants, and their habitats for the continuing benefit of the American people.

National Wildlife Refuge System Mission Statement

The mission of the National Wildlife Refuge System is to administer a national network of lands and waters for the conservation, management, and, where appropriate, restoration of the fish, wildlife, and plant resources and their habitats within the United States for the benefit of present and future generations of Americans.

-National Wildlife Refuge System Improvement Act of 1997

Comprehensive conservation plans provide long-term guidance for management decisions and set forth goals, objectives, and strategies needed to accomplish refuge purposes and identify the Service's best estimate of future needs. These plans detail program planning levels that are sometimes substantially above current budget allocations and, as such, are primarily for Service strategic planning and program prioritization purposes. The plans do not constitute a commitment for staffing increases, operational and maintenance increases, or funding for future land acquisition.

Dear Reader:

The U.S. Fish and Wildlife Service is pleased to provide you with a copy of the Final Comprehensive Conservation Plan (CCP) and Finding of No Significant Impact (FONSI) for Attwater Prairie Chicken National Wildlife Refuge (NWR) in the State of Texas. This plan identifies the role that the refuge will play in support of the mission of the U.S. Fish and Wildlife Service and National Wildlife Refuge System. It provides long-term guidance to the refuge's management programs and activities.

The plan was developed by an interdisciplinary planning team which evaluated three management alternatives and chose Alternative B as the proposed action. The Service believes this management action is a positive step in conserving and managing the refuge's fish and wildlife resources.

The Service would like to thank you for participating in the planning process. Comments you submitted helped us prepare a better plan for the future of the refuge.

Additional copies of this plan may be obtained by contacting the Attwater Prairie Chicken NWR, P.O. 519, Eagle Lake, TX 77434. The plan is also available on the Service's Internet website as follows:

<http://www.fws.gov/southwest/refuges/Plan/planindex.html>

Thank you for your continued support and interest in our fish and wildlife conservation efforts.

Sincerely,

Dr. Benjamin N. Tuggle, Regional Director
U.S. Fish and Wildlife, Region 2
