Special Conditions

1. Any changes in grazing dates need to be prior approved by the Refuge Manager.
2. The U.S. Fish and Wildlife Service reserve the right to terminate any and all agreements.
3. All general conditions listed on the back of the Special Use Permit apply.
4. This unit has a prescribed fire planned for the spring on 2021. All bidders must be flexible with turn in dates. This plan may be changed to accommodate rainfall or a late burn. In the event the burn is too late in the season a fall graze could be permitted.

More livestock for a shorter period of time is permitted. Fences are in poor to good condition. Please check all fences prior to submitting a bid. All fence maintenance and repairs will be done by the permittee with fence materials supplied by the U.S. Fish and Wildlife Service. Grazing units may also require the use of temporary fence in some areas (not provided by the FWS).
