John Heinz National Wildlife Refuge, Philadelphia Observation Tower ~ Sunrise to Sunset

Join the Heinz Refuge "Big Sittas" in counting birds as part of the annual, international **BiG SiT** event! Our citizen science effort highlights the rich variety of birds that depend upon Refuge resources.

At the last **BiG SiT**, 77 species were found at Heinz Refuge. The cumulative, 4-year list of 107 species showcases impressive bird diversity and distribution during fall migration, as birds fly across the continent.

How many birds will we find this year? Join us to see for yourself!

**EAGLES • HAWKS • FALCONS • DUCKS • GEESE • HERONS • EGRETS • SANDPIPERS
WARBLERS • WOODPECKERS • WRENS • SPARROWS • SWALLOWS • TERNS • GULLS
KINGFISHERS • KINGLETS • FINCHES • NUTHATCHES • THRUSHES • BLACKBIRDS**

Great BIRDS ~ Great FRIENDS ~ Great FUN!

All are welcome, no experience necessary. Bring binoculars and friends. Stay for a few minutes, hours or all day.

We hope to see you at the BiG SiT!
