

Tips and Tricks for Putting on Snowshoes!

(Youth small)

Step 1: Slide your foot into the snowshoe and under front strap. Slide boot all the way back to the heel of the snowshoe. The snowshoes marked with a **red** zip tie go on the **right**.

Step 2: Grab strap on top of the boot toe and pull to tighten. Next buckle ankle. Tighten ankle strap as well. Tuck in any extra strap, called tail.

Do not leave straps loose and saggy.
