

Bear River

Migratory Bird Refuge

Hunting Regulations

Welcome

This goose, designed by J.N. "Ding" Darling, is the symbol of the National Wildlife Refuge System.

The Bear River Migratory Bird Refuge was established in 1928 to protect feeding and breeding grounds for migratory waterfowl. The Refuge is one of over 566 refuges in the National Wildlife Refuge System – a network of lands set aside specifically for wildlife. Managed by the U.S. Fish and Wildlife Service, the Refuge System is a living heritage, preserving wildlife and habitat for people today and for generations to come.

The Wildlife Education Center is open Tuesday – Friday from 8:00 am - to 4:00 pm, except for Federal holidays.
