

Join refuge scientists, volunteers, families, teachers, and community members to get an overall count of the plants, animals, and other organisms that live at Bon Secour National Wildlife Refuge during our first ever BioBlitz. A BioBlitz is an event that focuses on finding and identifying as many species as possible in a specific area over a short period of time. The focus of this BioBlitz will be the Jeff Friend Trail!

BIOBLITZ!

Friday, April 29th and Saturday, April 30th 2016

Celebrate biodiversity! Download the free iNaturalist App to log your observations!
