ECO EXPLORER DAY CAMP EXPERIENCE

Do you have a child craving some adventure this summer? Naturalist-led day camps will introduce campers to the diverse wildlife and habitats found at Necedah NWR. Camp is full of fun activities from hiking and photography, to nature crafts, games, and more! Session I and II campers will be divided into upper and lower elementary groups during this 3-day camp, as they observe, explore, capture, and create memories at Necedah NWR. 7th – 9th graders are introduced to the *wild* inner workings of ecosystems and biology through cadet camp. Cadets will observe, sketch, dissect, sample, create art and more!

Fun, exploration, and outdoor adventure!

OBSERVE

Discover tools biologist use to observe and study critters found on the refuge!

CAMPERS WILL NEED:

- Lunch
- Water Bottle
- Bug Spray
- Walking Shoes
- Sunscreen
- Backpack
- Hat with brim
- Rain Gear

CREATE

Capture observation, record discoveries, and create nature crafts to share with family & friends!

EXPLORE

Explore the wonders of the refuge through hands-on experiences in nature. Whether through the optics of binoculars or from the end of a fishing rod, campers are sure to discover the diverse critters that call the refuge home.
