Detroit River International Wildlife Refuge Hunting Map & Regulations

Know Your Signs!

Marks refuge boundary. Does not prohibit access, only unauthorized uses.

Area is closed to public access. Do not trespass behind this sign.

Marks areas that are open only to waterfowl hunting. No other game may be hunted where this sign is posted.

Welcome to Your Refuge!

Detroit River International Wildlife Refuge (DRIWR) was established in 2001 to preserve the Lower Detroit River and Western Lake Erie. DRIWR is within an hour's drive of nearly seven million people in the Detroit, Michigan; Windsor, Ontario; and Toledo, Ohio metropolitan areas. The refuge's acquisition boundary stretches along 48 miles of Detroit River and western Lake Erie shoreline and today, consists of more than 2,000 owned acres divided into 13 separate units located in Wayne and Monroe counties. An additional 5 units totaling nearly 4,000 acres are managed under cooperative management agreements between the refuge and outside landowners.

Detroit River International Wildlife Refuge provides a wide variety of wildlife-dependent recreation activities to the public, including environmental education, interpretation, wildlife observation and photography, hunting, and fishing. For more information about Detroit River IWR or other national wildlife refuges, visit www.fws.gov.

General Hunting Regulations

The hunting regulations specific to Detroit River International Wildlife Refuge are set forth in Title 50, Code of Federal Regulations. This brochure may not be a complete list of regulations. Individuals accessing the refuge are subject to inspections of permits, licenses, hunting equipment, bag limits, boats, vehicles and their contents by federal and state officers.

Michigan state regulations and refuge specific regulations will be enforced. Refuge specific regulations supersede state regulations. Hunting is allowed only on refuge units described in this brochure. Only the species listed in this brochure may be hunted.

Seasons and Hours

Refuge hunting season is open from September 1 – May 31. All refuge hunting seasons will coincide with state hunting seasons. For authorized hunting, refuge is open 1½ hours before legal shooting time to 1 hour after legal shooting time.

Migratory Bird Hunting

Migratory bird hunting is allowed at least 450' away from an occupied building, and in accordance with State laws and regulations. Migratory bird hunting is allowed in the following refuge units: Humbug (Island portion), Calf Island, Sugar Island, Strong, Brancheau, Fix, and Plum Creek Bay. See specific unit regulations. Migratory bird hunting is also allowed below the ordinary high watermark, in the following coastal areas: Humbug Marsh, Mamajuda Shoal, Mud Island, Grassy Island, and Brancheau. Hunting from dikes, shore, or entry onto uplands of any other refuge unit including Mud Island, Grassy Island, and the mainland portion of the Humbug Marsh Unit is prohibited.

Special Hunting Permit Required

Brancheau Unit Waterfowl Hunts

The diked wetland areas of the Brancheau Unit are open to waterfowl hunting by special permit only and will be managed in cooperation with Michigan DNR, Wildlife Division. Hunting will begin on opening day of the general Michigan waterfowl season and continue every Sunday, Tuesday, and Thursday thereafter in conjunction with managed waterfowl hunts at the Pointe Mouillee State Game Area (SGA). A lottery drawing will assign special permits along with designated zones to hunters at the SGA headquarters each morning at 5:30 a.m. All hunt zones are accessed by walking from the Brancheau Unit parking lot; no boats allowed. Each hunter is allowed a maximum of 25 shells containing approved non-toxic shot. No shot size larger than #1 shot is permitted. Waterfowl area permits are required and may be purchased at the SGA. Permits are \$4 daily or \$13 annually.

Humbug Marsh Unit (Mainland) White-tailed Deer Hunts

A limited number of special hunting permits are available for archery only, antlerless deer hunts on this unit. Special permits will be chosen through a random lottery draw managed in cooperation with the Michigan DNR, Wildlife Division. Specific hunt dates range between October 1 and December 15. Hunters may apply for one deer reserved hunting permit from July 15 – August 15 at any license agent, DNR Customer Service Center, or online at www.mdnr-elicence.com. It costs \$5 to apply. Selected applicants will be assigned a refuge installed ground hunting blind.

Big and Small Game

Big game and small game hunting is allowed without a special hunting permit on the following refuge units: Humbug Marsh (Island portion only), Calf Island, Sugar Island, Strong, and Fix. See specific unit regulations.

Weapons

All State-approved hunting weapons are permissible on refuge lands. This includes firearms, archery bows, and crossbows. In accordance with State regulations, handguns will be permitted for hunting deer, fox, coyote, and raccoon.

Permissible Shot

Only approved non-toxic shot is permitted while in the field with the following exception: While hunting fox, coyotes, and raccoons in units where it is allowed, the use of single projectile shot such as bullets, slugs, or muzzleloader bullets containing lead will be permitted. For deer hunting, only single projectile shot may be used. The use of buckshot will not be permitted on refuge lands.

Do Not Shoot!

Opossum, porcupine, weasels (including mink), skunk, ground squirrel, woodchuck, muskrat, beaver, American crow, European starlings, house sparrows, northern bobwhite (quail), and feral pigeons may NOT be hunted or trapped on the refuge at any time.

Equipment Removal

All items, including blinds, boats, and decoys must be removed from the refuge at the end of each day's hunt. Discarded shells are considered litter.

Portable Tree Stands

We prohibit construction of permanent blinds, stands, platforms, or scaffolds. Only one tree stand per hunt unit per person. Portable tree stands are permitted for deer hunters. Tree stands do not need to be removed at the end of each day's hunt. However, State regulations on the use of tree stands on public land will be strictly enforced. Personal tree stands are not allowed during the Humbug Marsh (Mainland) white-tailed deer hunt.

Trail Markings

Cutting of woody vegetation on the refuge for blinds or shooting lanes is prohibited.

Paint and Flagging

The use of paint, flagging, reflectors, tacks, or other human-made materials to mark trails or hunting locations is forbidden.

Baiting

Hunting over bait and the distribution of bait, including salt licks, mineral blocks, or any chemical substance applied to the ground or vegetation is prohibited on National Wildlife Refuge units.

Hunting Dogs

The use of hunting dogs, provided the dog is under the immediate control of the hunter, is permitted. Dogs are permitted to hunt specified furbearers during daylight hours.

Camping and Fires

Camping and fires on refuge lands are prohibited.

ATVs

All-terrain vehicles (ATVs) and other motorized vehicles are prohibited on refuge lands.

Alcohol

The use or possession of alcoholic beverages while hunting is prohibited.

Humbug Marsh Hunting Regulations

Open Water (from water's edge out into Detroit River)

Migratory Birds: Below Ordinary High Water Mark Goose, duck, merganser, coot, gallinule, woodcock, sora, rail, and Wilson's snipe

Mainland (from water's edge west to Jefferson Avenue)

Big Game special hunting permit required. White-tailed deer archery hunters selected via lottery in cooperation with Michigan DNR.

Humbug Island

Big Game: Wild turkey and archery only white-tailed deer. Upland/Small Game: Ring-necked pheasant; gray, fox, and red squirrel; cottontail rabbit; raccoon; gray and red fox; and coyote. Migratory Birds: Goose, duck, merganser, coot, gallinule, woodcock, sora, rail, and Wilson's snipe
