### **2021**

Graze G-1 for a period of 40 days, beginning May 1, 2021, with 125 cow/calf pairs. Graze G-4 for a period of 10 days, beginning June 10, 2021, with 125 cow/calf pairs. Graze G-3 for a period of 20 days, beginning June 22, 2021 with 125 cow/calf pairs. Graze G-1 for a period of 30 days, beginning September 1, 2021 with 125 cow/calf pairs.

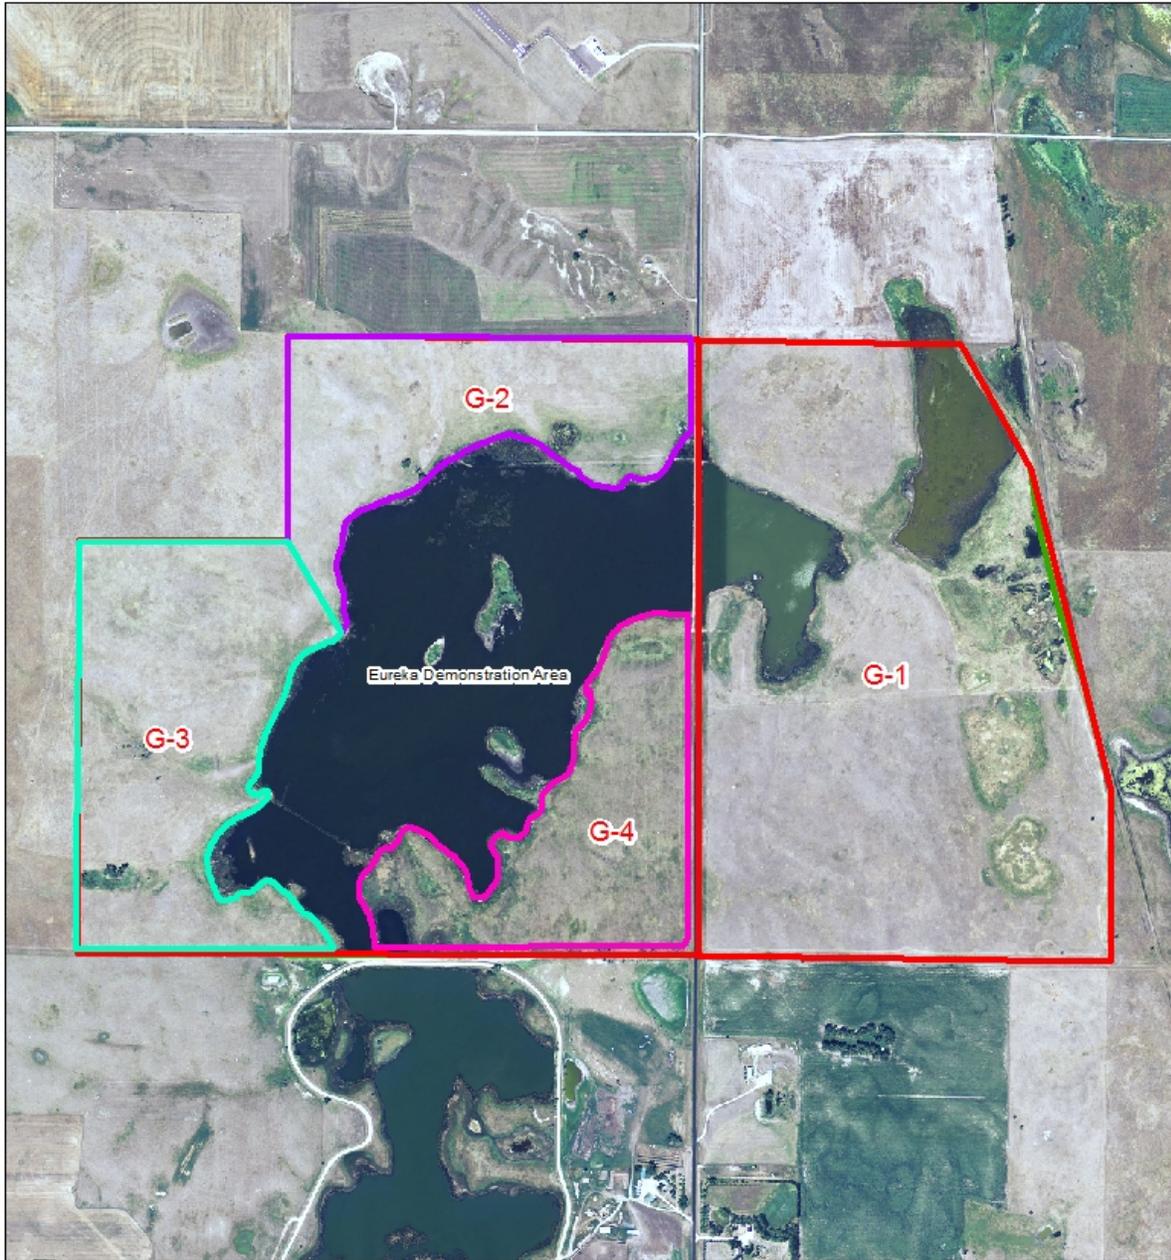

### **Special Conditions**

1. Any changes in grazing dates need to be prior approved by the Refuge Manager.
2. The U.S. Fish and Wildlife Service reserve the right to terminate any and all agreements.
3. All general conditions listed on the back of the Special Use Permit apply.
4. Pay special attention to the turn in and turn out dates and what units the cattle are to be turned into next. Cool season exotic grass invasion is driving the reasons for the turn in and turn out dates.
5. A prescribed fire is planned for this unit during the spring of 2015 for G-4, G-3 & G-2. Please contact myself, Eric Hoggarth for further details. 380-8179. Turn in and turn out dates will have to be flexible depending on when the fire is accomplished and rainfall.
6. This is a high intensity grazing system and the grazing dates will be dependent on rainfall.

More livestock for a shorter period of time is permitted. Fences are in poor to good condition. Please check all fences prior to submitting a bid. All fence maintenance and repairs will be done by the permittee with fence materials supplied by the U.S. Fish and Wildlife Service. Grazing units may also require the use of temporary fence in some areas (not provided by the FWS).
