

## **FLAGGER TRAINING FOR PRESCRIBED FIRES**

Flagger training involves learning where to put smoke and fire signs, how to safely slow or stop traffic when smoke crosses a road and how to keep yourself and other crew members safe while working along side a road. Training will be a half day or full day course, the details of time and place have yet to be arranged, but if you are interested, please send Emily an email at [emily\\_bissing-olson@fws.gov](mailto:emily_bissing-olson@fws.gov) and she will send out more details as they become available.
