An Important Message

The future of hunting on this refuge requires responsible hunter behavior and compliance with regulations. The Refuge Hunt Permit authorizes hunters to take specified game only. Harming or needlessly disturbing any other wildlife including birds, mammals, turtles, frogs, and snakes is a violation of refuge regulations and is a cause for prosecution.

Hunter Notice

Non-toxic shot is required because it minimizes the deposition of lead into refuge wetlands and bodies of water which will reduce the risk of lead poisoning in waterfowl and other wildlife.

National Wildlife Refuge Hunting Regulations 2015-2016

Established in 1990, the Ohio River Islands National Wildlife Refuge is one of more than 560 refuges across the nation administered by the U.S. Fish and Wildlife Service. With 22 islands and four mainland tracts scattered along 362 miles of the Ohio River in three states, the refuge protects and conserves habitat for native wildlife in one of our nation's busiest inland waterways.

This brochure provides the public with information and a summary of regulations pertaining to hunting on the Ohio River Islands National Wildlife Refuge. These regulations supplement regulations governing hunting on national wildlife refuges as set forth in Title 50, Code of Federal Regulations in addition to applicable state regulations and seasons. Hunters please note, the refuge spans across three states. You are responsible for knowing the regulations for the state in which you are hunting.

Twenty refuge islands and two mainland properties are open to hunting. See "Refuge Property Hunt Status" section for more information. A boat is needed to access the islands with the exception of Middle Island.

Permit and License Requirements

Hunters are required to have a Refuge Annual Hunt Permit, the appropriate state licenses, and photo ID in their possession while hunting on the refuge. Waterfowl hunters are also required to have a Migratory Bird Harvest Information Program (HIP) number and Conservation Stamp. Permits and stamps are not valid unless signed by the hunter.
