

Using Your Handheld GPS Exercise

Learn how to use a handheld GPS unit for navigation in the field.

Know precisely where you are
How to get there from here

Outdoor exercises will teach you how to enter or find a location and navigate to your destination, know exactly where you are, mark a point of interest, track your trip, return to your starting location ...and get answers to all those questions you may have.

Bring your own GPS or some will be provided.

Come prepared with sturdy shoes/boots, sun protection, insect repellent, rain gear, water/snacks.

When: Saturday August 24, 2013

Time: 9:00 am – 11:00 am

Where: Environmental Education Barn

Cost: \$2/person (under age 18 free)
