Bear River Migratory Bird Refuge
Brigham City, UT
General Bird Survey
July 22, 2014

A general bird survey was conducted on July 22, 2014 by Refuge Volunteer Brian Ferguson and Student Conservation Association Intern Noah Thomas, with 20 species recorded. Post breeding movements of birds has begun as unusually high number of bank swallows which breed nearby but typically not on the refuge were sighted as well as 2 American pipits. The pipits especially are an uncommon species until later in the fall.
