7/26/2017

Notice

Red Rock Lakes National Wildlife Refuge is seeking public comment on the proposed addition of a management technique for upland restorations and improved management of invasive plants. The Refuge is considering using prescribed haying as an additional tool to improve upland habitats for native wildlife.

For a copy of the Compatibility Determination on the use of prescribed haying as an upland management tool, please contact the refuge at 406-276-3536 or visit our website at <http://www.fws.gov/redrocks>.

To provide written comments, please send them via mail to:

Red Rock Lakes NWR
27650 B South Valley Road
Lima, MT 59739

Comments will be taken from July 26th to August 8th, 2017.
