

U.S. Fish and Wildlife Service
CHARLES M. RUSSELL NWR

OUTREACH NOTICE:

DETAIL/TEMPORARY PROMOTION

Supervisory Range Technician (Fire)

GS-0455-07 Firefighter

Location

JORDAN, MONTANA

-or-

Lead Range Technician (Fire)

GS-0455-06 Firefighter

Location

FORT PECK, MONTANA

The Montana Fire Management Zone is seeking to fill a Detail/Temporary Promotion for one Supervisory Range Technician and one Lead Range Technician for the summer of 2014. These positions are located at the Fort Peck and Jordan field stations of the Charles M. Russell NWR (CMR) in central Montana. The zone is currently comprised of a Zone FMO in Lewistown, MT, AFMO Operations in Malta, MT, AFMO Fuels in Great Falls, MT and a Supervisory Range Technician at Sand Creek, MT. The zone currently has 13 seasonal firefighters for summer suppression operations. Seasonal staffs are located at Sand Creek (5), Jordan (5), Fort Peck (2), and Lewistown (1). We are anticipating these two positions to be hired in the near future at the two locations above. The positions are currently in the waiver process as Supervisory Range Technician GS-6/7 in Jordan, MT with a Career Seasonal employment, and Lead Range Technician GS-5/6 in Fort Peck, MT with a Career Seasonal employment.

Temporary promotions/details are available to all FWS staff whom meet the IFPM requirements for the positions at the full performance levels of each position listed above. Travel, per diem, and salary for the duration of these details will be covered by the Montana Fire Zone. Candidates may select from a 2 pay period detail (30 days) or 4 pay period detail (60 days) without promotion, or a full 6 pay periods detail (90 days) with a temporary promotion (GS-6/7). If a candidate is selected for the 6 pay period temporary promotion/detail he/she will be returned to their former position (pay plan, series, grade and step) at the end of 6 pay periods. The 6 pay period detail/promotion will begin June 15, 2014 and end September 6, 2014. The 2 and 4 pay period assignments will be negotiated and will occur anytime between pay periods 14 and 19. NWCG/IFPM requirements for the GS-6 Lead Range Tech position at Fort Peck, MT are FFT1 and S-290 "Intermediate Wildland Fire Behavior" with ENGB and ICT5 qualifications preferred. IFPM Requirements for the GS-7 Supervisory Range Tech position at Jordan, MT are ENGB and ICT4.

ABOUT THE USFWS MONTANA FIRE ZONE

The Montana Fire Zone is comprised of seven refuges, several satellite refuges, and many Waterfowl Production Area's (WPA) that are associated with each refuge. The Montana Fire Zone is responsible for all fire management activities on refuge lands for the entire state on Montana.

The Charles M. Russell NWR is the leader in fire management within the Mountain-Prairie Region of the USFWS. The CMR encompasses 1.1 million acres of the Missouri Breaks landscape, which is especially prone for lightning ignited wildfires. Since 2003, CMR has had over 100 wildfires which have burned 107,615 acres of the refuge. The refuge has also hosted four National Type II Incident Management Teams and one National Type I Incident Management Team during that same time frame.

ABOUT THE POSITIONS

The position located at Fort Peck will operate and oversee a Type 6 Engine (FP-1) with crew. The Fort Peck fire crew is dispatched out of Lewistown Interagency Dispatch Center (MT-LEC) in Lewistown, MT.

The Jordan fire crew operates two wildland fire engines, a Type 6 (J-1) and a Type 4 (J-4) while being dispatched out of Miles City Interagency Dispatch Center (MT-MCC) in Miles City, MT.

Individuals interested in expanding their knowledge and qualifications pertaining to; engine operations (Type 4 and Type 6), crew supervision, along with serving as an Incident Commander are encouraged to apply. Training opportunities for individuals seeking ICT4 and higher may be available depending on seasonal activity.

HOUSING

Government housing is available at both locations. If for some unforeseen reason housing isn't available, lodging will be covered under per diem. MI&E will also be provided for any incumbent.

Fort Peck Bunkhouse

Jordan Bunkhouse

THE CHARLES M. RUSSELL NWR

The CMR encompasses 1.1 million acres of the Missouri Breaks landscape, which is especially prone for lightning ignited wildfires. Since 2003, CMR has had over 100 wildfires which have burned 107,615 acres of the refuge. The refuge has also hosted four National Type II Incident Management Teams and one National Type I Incident Management Team during that same time frame.

Topography of the zone ranges from the gently rolling hills of the prairie pothole of northeastern Montana, extremely rugged Missouri Breaks within the CMR, to the Continental Divide at Red Rock Lakes NWR. Weather can vary across the Zone, but generally April brings rain showers and cool weather (40-60 degrees F); summers can be quite windy with temperatures soaring to 100 degrees F in July and August. The first snows usually arrive in late October - often melting, and finally staying in November. December through March can bring deep snows and temperatures that dip to -40 degrees F.

COMMUNITY AND SURROUNDING AREA

Montana has a lot to offer for anyone interested in outdoor recreation. The area lakes, rivers and open prairies provide many opportunities including camping, hiking, backpacking, boating and fishing, hunting upland game, waterfowl, and big game. CMR is world renowned for its' big game hunting, with numerous elk, bighorn sheep, whitetail and mule deer qualifying for the Boone and Crockett and/or Pope and Young record books. Northern pike, sauger and walleye fishing on the Fort Peck reservoir have been described as "phenomenal".

World renowned with bird watching enthusiasts, the Bowdoin and Medicine Lake NWR's are mentioned in practically every birding magazine as excellent locations to observe over 263 species of birds. Upland bird and waterfowl hunters from across the state make the pilgrimage to both Bowdoin and Medicine Lake refuges for some of the best hunting the state has to offer.

Fort Peck offers small town community living with larger town conveniences offered just 20 miles up the road in the town of Glasgow. There are a vast amount of recreation and entertainment options in the Fort Peck area, especially during the summer tourist season. The Fort Peck Theatre is located less than a mile from the Fort Peck Station office and is a very popular summer attraction.

Jordan is a small ranching community that still retains its' Old West flavor. Visitors are just as likely to see a horse on Main Street as a new pickup. The Hell Creek Marina is located approximately 25 miles north of Jordan and is a popular destination for both locals and tourists who are seeking great hiking and fishing opportunities.
