

## *Old Cedar Parking Lot and Trailhead Have Reopened*

Work on the water control structure and associated levee at the head of the Bluff Trail from Old Cedar Avenue, has been partially completed. This partial completion has allowed for the safe reopening of the Old Cedar Avenue parking lot, the Hogback Ridge Trail and the Bluff Trail. The project was delayed as the levee required complete reconstruction rather than repair as originally planned.

Due to private property encroachment on the Bluff Trail approximately 1/2 mile west of Old Cedar Avenue, a short trail detour has been established. Please respect private property and follow the detour.

Planned work on the Hogback Ridge Trail is temporarily suspended due to winter weather conditions. Full or partial closures of the trails, trail heads and parking lot at Old Cedar Avenue are likely throughout the spring and summer of 2016 as project work is completed in the area.
