

Read the paragraph and fill in the missing words from the word list.

Beak	Prey	Forward
Owl	Talons	

Meet Bo, the Barn _____!

Birds like Bo are called **Raptors**. Raptors are birds that have special features to help them hunt for other animals, or _____. Their eyes face _____, which helps them spot animals they eat like rodents, fish, or other birds. They have a sharp, hooked _____ which helps them slice through prey. They also have long, curved, pointed claws called _____ to catch and carry their prey.

Draw a line to each unique raptor feature on a Barn Owl:

BEAK

EYES

TALONS
