

Art Installation

Bee on the passport

Corvallis Environmental Center invites you to create a public art installation focusing on “bird nature mosaics”.

Big or small, bright or brown, collect twigs, seeds, leaves, flowers or stones and form a bird silhouette or entire bird out of found nature items from your neighborhood. Come check out our bird mosaic at Avery House Nature Center, then make your own in a local park or even your front yard. Remember to photograph your bird and share on social media!

Corvallis Environmental Center’s
Avery House Nature Center
1200 Avery Park Drive
Corvallis, OR

Containers of natural items will be labeled and available on the south deck for the public to use for their mosaics. Items include rocks, feathers, leaves, moss, sticks, sand, etc.

Here are some fun examples, to help spur your creativity!
