

# CONGRATULATIONS REFUGE EXPLORER!

You are officially requested to be part of an expedition to *Tarlatt Slough*, an area of *Willapa National Wildlife Refuge*, on \_\_\_\_\_, for the purpose of scientific observations and discovery.

An expedition is a journey or excursion made for some specific purpose or exploration. The staff of *Willapa National Wildlife Refuge* has requested that you make this expedition to help us help wildlife. For this purpose, please carefully choose three inferences that you will test on your *Tarlatt Slough Expedition*. Plan how you will test these inferences to discover if they are correct. You will be reporting your observations to the *Refuge Staff* at the end of your journey. Your information may help local plants and animals.

## TARLATT SLOUGH EXPEDITION CHECKLIST

- |  |   |   |
|--|---|---|
| <input type="checkbox"/> List of Three Inferences for Each Student Group | <input type="checkbox"/> Test/Experiment Design | <input type="checkbox"/> Water                              |
| <input type="checkbox"/> Locations Selected for Test/Experiment          | <input type="checkbox"/> Pencil                 | <input type="checkbox"/> Snacks                             |
|  | <input type="checkbox"/> Observation Notebooks  | <input type="checkbox"/> Waterproof & Sturdy Boots or Shoes |
|  | <input type="checkbox"/> Wildlife Pocket Guide  | <input type="checkbox"/> Layered Clothing                   |
