

Loon Craft

1. Take out supplies from the brown paper bag (blue paper, black loon silhouette, red eye sticker, white paint and Q-tip).
2. You will need your own glue to do this craft.
3. Glue grass on blue paper to make a nest or begin by gluing the black loon silhouette on to the blue paper.
4. Place the red eye sticker on the loon for its eye.
5. Open the small container of white paint.
6. Use the Q-tip to paint the stripes on the loon's neck and spots on its wing and back. Make its breast mostly white.
