

First Sunday at the Refuge

September and October 2018 ~ 2:00 p.m. ~ Barred Owl Room

September 2

iNaturalist with Peter Kleinhenz of FWC

iNaturalist, a website and a free app, allows anyone to be a scientist each time they explore the outdoors. FWC is using the data generated from iNaturalist to fill in species distribution gaps while simultaneously connecting more people with nature. Learn more at this presentation and then explore the refuge with Peter afterwards to practice!

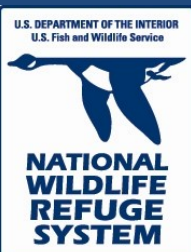

Please download the Free APP first.

October 7

Living BearWise with Sarah Barrett of FWC

The Florida black bear is one of Florida's greatest conservation success stories, coming back from a low of about 300 bears in the 1970s to over 4,000 today. The Florida black bear can now be found in 45% of their historic range, including in and around the St. Marks National Wildlife Refuge. Come out to learn more about the biology of the state's largest land mammal and ways to live BearWise.

WE ARE CHANGING TO SECOND SUNDAY AT THE REFUGE IN 2019

St. Marks National Wildlife Refuge
1255 Lighthouse Road ~ Crawfordville, FL 32327
850-925-6122 ~ http://www.fws.gov/refuge/st_marks/
