

Maps of Proposed CPAs

The following maps show the proposed location of the individual CPAs. CPAs are areas where we propose to focus our work with partners to best achieve our shared conservation, education, and recreational goals. The maps are organized alphabetically by State.

Each CPA map shows:

- The current refuge ownership in that CPA, if any.
- Any additional lands that are currently approved for refuge acquisition in fee or easement).
- Our proposed expansions to the approved refuge boundary under alternatives B, C, and D (note: the proposed expansions are additive. For example, alternative C includes all of alternative B).
