

2016 Annual Mid-winter Eagle Survey

Date: Wednesday 1/06/2016

Conducted by: 43 volunteers and 5 FWS employees

Survey results are as follows:

NON-ROOST COUNT (AM)

BALD

Immature: 83

Adult: 98

GOLDEN

Immature: 0

Adult: 2

UNKNOWN: 49

TOTAL: 232

TOP SPOT = 52 eagles at Dragon Swamp (last year was 52 at Rt 335 Bridge). The golden eagles were spotted at Wildlife Drive and Shorters Wharf.

ROOST COUNT (PM)

BALD

Immature: 55

Adult: 51

GOLDEN

Immature: 0

Adult: 0

UNKNOWN: 18

TOTAL: 124

TOP SPOT = 52 eagles at Rt 335 Bridge (last year was 33 at Rt 335).

This year's non-roost count was up from last year, and roost was pretty much the same. Totals for 2015's non-roost and roost counts were 207 and 127 respectively. Weather was clear, with a temperature about 38°F. Winds were calm, less than 3mph.
