

## **2020-2021 Eastern Neck NWR Deer Hunt Regulations**

### **Eastern Neck National Wildlife Refuge**

Eastern Neck National Wildlife Refuge (refuge) is part of the Chesapeake Marshlands National Wildlife Refuge Complex, and is one of over 560 National Wildlife Refuges in the United States. The primary objective of a National Wildlife Refuge is to provide habitat for the conservation and protection of wildlife. Carefully managed hunts maintain wildlife populations at a level compatible with the environment, provide recreational opportunities, and permit the use of a valuable renewable resource.

Your hunt permit authorizes you to take deer only. Taking and/or collecting any other wildlife or plants, including shed antlers, is a violation of refuge regulations. Harming or needlessly disturbing any other wildlife is a violation of refuge regulations and is cause for prosecution. The regulations listed on this page supplement the general regulations which govern hunting on national wildlife refuges set forth in Title 50: Part 32, Code of Federal Regulations (<https://www.ecfr.gov>). Hunting will be in accordance with State regulations and subject to the following conditions and regulations. Failure to abide by any Federal laws, State laws, or the terms and conditions under which a hunt permit is issued may result in the revocation of the permit and hunting privileges.

### **Application Guidelines**

- Beginning August 4, 2020, applications will be available online at [www.recreation.gov](http://www.recreation.gov) or by phone (877) 444-6777 through Recreation.Gov.
- We require anyone who applies to hunt the Disabled Hunt to provide their Federal Interagency Access Pass (formerly known as the Golden Access Pass) when applying. Passes can be obtained online at <https://store.usgs.gov/pass/access.html>.
- Hunters who wish to apply together (total of four hunters) may, but only the person completing the purchase will be issued a permit. It is their responsibility to make sure the other hunters in the group have a copy of the permit.
- All permits are non-transferable and must be signed by the hunter to be valid.

### **General Conditions and Regulations**

#### **Required Documents**

Hunters are required to possess an electronic or hard copy of a valid Maryland hunting license and all required stamps, an original valid government-issued photo identification (no copies or photos), and a valid hunting permit (signed hard copy) issued by Recreation.gov on their person at all times during refuge hunting and scouting days. The corresponding State stamps are required to participate in the archery and muzzleloader hunts. Hunters hunting from a vehicle must possess a MD DNR issued universal disability pass (formerly a “hunt from vehicle” permit).

Hunting hours are from one half hour before sunrise to one half hour after sunset. There are no check in or check out stations.

Hunters possessing a hunt permit issued by the refuge are permitted to scout on designated refuge scout days: September 19, October 24, October 31, 2020 and January 30, 2021 from 7:30 am to ½ hour after sunset. We require hunters to possess a valid Maryland hunting license and all required stamps, and valid government-issued photo identification, and a signed permit on their person during refuge scout days and refuge hunt days.
