HUNTING REGULATION CHANGES THIS YEAR:

- The refuge designated two additional locations where deer hunters that possess the Maryland DNR “Universal Disability Pass” may hunt from their vehicle on a first-come first-serve basis. The area will be posted “Vehicle Access Only by Hunters with the Universal Disability Pass”. Other hunters will be allowed to hunt within the area, but will not be allowed to drive where the hunter with the “Universal Disability Pass” is allowed to drive. The map, of the two locations, is posted at the Hunting Control Station (HCS).
- Game cameras are prohibited.
- Hunting from the vehicle is not allowed from the Wildlife Loop.
- No hunting from the roadside at Bailey Marsh.
- Youth may harvest any size buck but they must abide by the bag limit for the specific location. The 15” rule is recommended for youth, but does not apply to them.
- See Section VIII.D for the updated information on the Spring Wild Turkey Lottery Hunt.
- It is recommended, not required, that turkey hunters attend the National Wild Turkey Federation clinic if they have not attended one in the past. Turkey hunters do not have to show proof of the clinic on the day of the hunt.
- All turkeys harvested count toward the Maryland state bag limit.

C. Hunter Orange:

1. Bow hunters must wear orange when moving to and from the deer stand or their hunting spot and while tracking or dragging out their deer.
2. We do not require bow hunters to wear fluorescent orange when positioned to hunt except during the North Tract Youth Shotgun Deer Firearms Hunt (November 16, 2013), the muzzleloader seasons and the firearms seasons when they must wear it at all times, this includes Schafer Farm.
3. Fluorescent orange is also required when “still hunting” or stalking.

D. It is unlawful to drive deer or take part in any deer drive. A “Deer Drive” is defined as an organized or planned effort to pursue, drive, chase or otherwise frighten or cause deer to move in the direction of any person or persons who are part of the organized or planned hunt and known to be waiting for the deer. Organized deer drives without a standing hunter is also prohibited.

E. Only portable tree stands with Full Body Safety Harnesses are permitted on the refuge. Portable tree stands must be used at a minimum of 10 feet off the ground at Schafer Farm, Central Tract and South Tract, and must be removed when not in use. Tree stands are not required for North Tract but can be used and must be removed when not in use. Ground blinds are only permitted at North Tract and must be removed when not in use.

F. Deer hunters with a Maryland DNR issued “Universal Disability Pass” may hunt from the roadside except on Wildlife Loop. The vehicle must be stopped, in park, and the keys out of the ignition prior to loading and firing any weapon. The refuge designated two additional locations where deer hunters that possess the Maryland DNR “Universal Disability Pass” may hunt from their vehicle on a first-come first-serve basis. The areas will be posted “Vehicle Access Only by Hunters with the Universal Disability Pass”. Other hunters will be allowed to hunt within the area, but will not be allowed to drive where the hunter with the “Universal Disability Pass” is allowed to drive. A map is posted at the HCS of the two locations.

G. Upon harvesting a deer, the hunter must complete the Big Game Harvest Record and attach it to the deer’s head prior to moving it from the location of the kill. All deer harvested will have their jaws extracted before leaving the refuge by a HCS manager and/or refuge personnel.

H. Deer harvested on the refuge can be donated to the Farmers and Hunters Feeding the Hungry program. The deer must be greater than 60 lbs., no sign of disease, completely field dressed and completely intact with the confirmation number on the tag.

I. Wounded Deer and Tracking:

1. A hunter wounding a deer in the evening will be expected to return the next day (except Sundays and federal holidays) to continue searching or risk losing their hunting privileges. They must notify the Hunting Control Station Manager immediately.
2. If deer hunters need assistance tracking wounded game beyond 2 hours after sunset, they must report in person to the HCS or call. **The HCS manager will call a Federal Wildlife Officer to gain consent to track.**
3. **If** permission is granted, the HCS manager will arrange to keep the HCS open. All tracking will end 3 hours after sunset. No person shall kill or cripple deer without making a reasonable effort to retrieve the animal, even if it includes next day tracking, otherwise they risk losing their hunting privileges.
4. There will be no tracking on Sundays and federal holidays except on a case by case basis and the hunter must be unarmed and accompanied afield with a **Federal Wildlife Officer.**
