

Special Feature During Month of October

Silvio O. Conte National Wildlife Refuge
Watershed on Wheels
trailer at the
National Wildlife Visitor Center

Schedule:

Open Daily 10:00 am to 2:00 pm
Except Thursdays

During Saturday's Oct. 21 Wildlife Festival -
10:00 am to 3:00 pm

Come explore the ecology (interactions between organisms and their environment) of the Connecticut River Watershed. Many of these principles apply to other watersheds, such as the Chesapeake Bay where Patuxent is located. Learn about wetland and riverine ecology, native landscapes, food chains, symbiotic relationships, competition, and predation.

The exhibit is a two station, multi-sensory learning experience including examples of different habitats and animals one might see if walking through the watershed at twilight;
